IV. Information received from Governments on procurement from national production and military holdings

IRELAND

Procurement through national production

² The Permanent Mission of Mexico reports that in 1998 the Government of Mexico acquired eight MI-17 helicopters (MI-8 MTV-1) from the Russian company Aviazapchast, based in Moscow. The helicopters are solely for transport purposes. They have standard equipment and they lack arms-related accessories. Accordingly, that information was not included in the data supplied by the Government of Mexico under category V in the United Nations Register of Conventional Arms.
