*“The General Assembly,*

*“Recalling its resolution 54/222 of 22 December 1999, its decision 55/443 of 20 December 2000 and its resolutions 56/199 of 21 December 2001, 57/257 of 20 December 2002, 58/243 of 23 December 2003 and 59/234 of 20 December 2004 and other resolutions relating to the protection of the global climate for present and future generations of mankind,*

*“Recalling also the provisions of the United Nations Framework Convention on Climate Change, including the acknowledgement that the global nature of climate change calls for the widest possible cooperation by all countries and their participation in an effective and appropriate international response, in accordance with their common but differentiated responsibilities and respective capabilities and their social and economic conditions,*

*“Recalling further the Johannesburg Declaration on Sustainable Development, the Plan of Implementation of the World Summit on Sustainable Development (‘Johannesburg Plan of Implementation’), the Delhi Ministerial Declaration on Climate Change and Sustainable Development, adopted by the Conference of the Parties to the United Nations Framework Convention on Climate Change at its eighth session, held in New Delhi from 23 October to 1 November 2002, the outcome of the ninth session of the Conference of the Parties held in Milan, Italy, from 1 to 12 December 2003, and the outcome of the tenth session of the Conference of the Parties, held in Buenos Aires, from 7 to 17 December 2004,*

*“Reaffirming the Mauritius Declaration and the Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States (‘The Mauritius Strategy for Implementation’), which, inter alia, recognizes that the adverse effects of climate change and sea level rise present significant risks to the sustainable development of small island developing States, and the long-term effects of climate change may threaten the very existence of some small island developing States,*

*“Remaining deeply concerned that all countries, in particular developing countries, including the least developed countries and small island developing States, face increased risks from the negative impacts of climate change,*

*“Noting that one hundred and eighty-nine States and one regional economic integration organization have ratified the Convention,*

“*Noting also* that, to date, the Kyoto Protocol to the United Nations Framework Convention on Climate Change has attracted one hundred and fifty-six ratifications, including from parties mentioned in annex I to the Convention, which account for 61.6 per cent of emissions,

“*Noting further* the work of the Intergovernmental Panel on Climate Change and the need to build and enhance scientific and technological capabilities, inter alia, through continuing support to the Panel for the exchange of scientific data and information, especially in developing countries,

“*Recalling* the United Nations Millennium Declaration, in which Heads of State and Government resolved to make every effort to ensure the entry into force of the Kyoto Protocol, preferably by the tenth anniversary of the United Nations Conference on Environment and Development in 2002, and to embark on the required reduction in emissions of greenhouse gases,

“*Taking note* of the report of the Executive Secretary of the United Nations Framework Convention on Climate Change on the work of the Conference of the Parties to the Convention,

“8. *Also notes* the ongoing work of the liaison group of the secretariats and offices of the relevant subsidiary bodies of the United Nations Framework Convention on Climate Change, the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or

Desertification, Particularly in Africa and the Convention on Biological Diversity, and encourages cooperation to promote complementarities among the three secretariats while respecting their independent legal status;
