- 12.1 The main objective of the programme implemented by the United Nations Conference on Trade and Development (UNCTAD) and the International Trade Centre UNCTAD/WTO (ITC) is to assist developing countries, especially least developed countries, and countries with economies in transition in integrating beneficially into the global economy. In all aspects of its work, UNCTAD will help to implement the global development agenda and will assist developing countries in meeting their development goals, including poverty eradication, so as to improve the well-being of their citizens and to address the opportunities and challenges created by globalization. In particular, in line with the priorities of the Organization, UNCTAD will further enhance its efforts to support the development of Africa across all its sectoral areas of expertise.
- 12.2 In order to attain the foregoing objectives, UNCTAD, within its mandate, will: (a) conduct pragmatic research and analysis on both long-standing and emerging development issues; (b) build consensus around efforts to promote national and international policies and strategies conducive to development; and (c) support countries in implementing development strategies aimed at their integration into the global economy and the achievement of sustainable levels of growth and development. In the context of the deepening interdependence among all countries, UNCTAD will maintain its unique orientation and its commitment to development through those three pillars, while remaining responsive and accountable to all Member States.
- 12.3 The programme is guided by the sessions of the Conference, the Trade and Development Board and its subsidiary bodies, and the Commission on Science and Technology for Development. The decisions adopted at the twelfth session of the Conference, held in Accra in April 2008, form the basis for the present programme of work. For the period 2012-2013, the programme will also include the outcomes of the thirteenth session of the Conference, scheduled to be held in 2012. UNCTAD is responsible for subprogrammes 1 to 5 within the programme, while subprogramme 6 is under the responsibility of the International Trade Centre UNCTAD/WTO.
- 12.4 UNCTAD will pursue five subprogrammes to support its objective of helping developing countries to integrate beneficially into the international trading system. The principal task of subprogramme 1 arising from the outcomes of the twelfth session of UNCTAD will be the examination of

development strategies in a globalizing world economy and related issues. Subprogrammes 2 and 4 will aim to contribute to the building of productive capacities and international competitiveness, while subprogramme 3 and the trade logistics component of subprogramme 4 will aim to contribute to the maximization of gains resulting from globalization for development in international trade and trade negotiations in goods and services. The development strategies of African economies, the least developed countries and countries in special situations, including small island developing States, landlocked developing countries and other structurally weak, vulnerable and small economies, will be covered under subprogramme 5, while sectoral concerns of those countries will also be addressed by other subprogrammes, in coordination and cooperation with subprogramme 5.

- 12.5 Within the framework of subprogramme 3, the Special Unit on Commodities carries out its work as an autonomous unit on commodities, in accordance with paragraph 183 of the Accra Accord. With the guidance and leadership of the Secretary-General of UNCTAD, the Unit will contribute more effectively to the efforts of developing countries to formulate strategies and policies to respond to the challenges and opportunities of commodity markets.
- 12.6 Throughout its work programme, UNCTAD will make efforts to mainstream cross-cutting issues related to gender equality and the empowerment of women, the promotion of sustainable development, and full and productive employment. The Conference will also strengthen its cross-divisional coordination, in particular with respect to training and capacity-building programmes.
- 12.7 UNCTAD will make contributions, within its mandates, to the implementation of the outcomes of relevant global conferences. Notably, it will contribute to the achievement of the internationally agreed development goals set out in the Millennium Declaration and the 2005 World Summit Outcome, in particular those chapters of the Outcome related to the global partnership for development, financing for development, domestic resource mobilization, investment, debt, trade, commodities, systemic issues and global economic decision-making, economic cooperation among developing countries, sustainable development, science and technology for development.
- 12.8 UNCTAD will also contribute to the implementation of specific actions requested in the Monterrey Consensus of the International Conference on Financing for Development; the Doha Declaration on Financing for Development and its follow-up; the outcomes of the Fourth United Nations Conference on Least Developed Countries, to be held in 2011; the outcomes and the Johannesburg Plan of Implementation agreed at the World Summit on Sustainable Development; the outcomes and the Declaration of Principles and the Plan of Action of the World Summit on the Information Society; the Almaty Programme of Action: Addressing the Special Needs of Landlocked Developing Countries within a New Global Framework for Transit Transport Cooperation for Landlocked and Transit Developing Countries; and the outcomes of the midterm review of the Almaty Programme of Action in 2008 and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States. In addition, it will assist in furthering the implementation of the internationally agreed goals set out in the Doha Ministerial Declaration of the Fourth Ministerial Conference of the World Trade Organization (WTO) and other relevant decisions.
- 12.9 As a lead agency of the United Nations System Chief Executives Board for Coordination with regard to the inter-agency thematic cluster on trade and productive sectors, UNCTAD will enhance the role of trade and development and related issues in United Nations development assistance plans, such as United Nations development assistance frameworks and national development strategies; undertake joint operations at the country level as appropriate; and enhance inter-agency cooperation in system-wide initiatives in those areas.

- 12.10 To date, joint programmes under the thematic cluster on trade and productive sectors have been designed and implemented with varying intensity and configuration in Afghanistan, Azerbaijan, Belarus, Bhutan, Comoros, Ecuador, Egypt, Georgia, Haiti, Iraq, Kyrgyzstan, the Lao People's Democratic Republic, Lesotho, Madagascar, Mali, Panama, Papua New Guinea, Serbia, the Syrian Arab Republic and Ukraine, as well as in the Occupied Palestinian Territories.
- 12.11 The Office of UNCTAD in New York represents UNCTAD interests and promotes its objectives at United Nations Headquarters and with relevant actors based in New York or Washington, D.C., including all United Nations entities, funds and specialized programmes, diplomatic missions, the press corps accredited to the United Nations and technical assistance agencies in the areas of trade, investment, technology and development. It serves as the North American access point for information to the public, universities, media and research centres on the research policy and technical cooperation activities of UNCTAD. The New York Office consists of two Professional staff (1 P-5, 1 P-3) and two General Service staff.
- 12.12 The Working Party on the Strategic Framework and the Programme Budget reviewed the draft programme of work at its fifty-seventh session, held from 22 to 24 November 2010 and on 2 December 2010. The recommendations of the Working Party were consistent with the strategic framework approved for the period 2012-2013. The adjustments to the level of outputs for the programme of work and the adjustments to the logical framework for executive direction and management proposed in those recommendations have been reflected in the present document.
- 12.13 The General Assembly, in its resolution 63/260, on development-related activities, approved the establishment of 12 additional posts to strengthen the work of UNCTAD in the areas of economic cooperation and integration among developing countries, investment, trade and sustainable development, non-tariff barriers, and trade and poverty-reduction linkages. In the area of economic cooperation and integration among developing countries, the development pillar posts have enabled UNCTAD to strengthen its efforts in promoting effective South-South integration and cooperation, including triangular cooperation, across all of the areas of UNCTAD expertise. Analytical outputs and meetings delivered in this area of work have provided policymakers with ideas on policy alternatives and various stakeholders and policymakers with an opportunity to discuss challenges, implications and the way forward.
- 12.14 The research capacity of UNCTAD to assess the impact on development of foreign direct investment (FDI) in the new global economic environment was also enhanced, making it possible to provide a broader range of policy advice and assistance to developing countries for formulating and implementing more effective and development-oriented investment policies. Moreover, through the UNCTAD programme on best practices in investment policymaking, the capacity of policymakers to devise policies that create the conditions for making foreign investment suit development needs and contribute to national development strategies was enhanced. Case studies prepared on this topic contributed to the discussions during the high-level discussions of the Investment, Enterprise and Development Commission.
- 12.15 The effectiveness, impact and outreach of the work of UNCTAD on trade, environment and development issues have been enhanced through improved coherence of work implemented by the two sections of the Trade, Environment, Climate Change and Sustainable Development Branch. Also, the additional support to the Conference's work on non-tariff barriers has led to the advancement of efforts towards the identification, classification and quantification of such barriers, which has, in turn, informed trade negotiations and policymaking and thus helped to improve market access and entry conditions for exports of developing countries in particular.
- 12.16 In the area of trade and poverty linkages, the research capacity of UNCTAD has been strengthened in three priority areas: (a) the conduct of policy analysis with a view to identifying policy elements

that would contribute to eradicating poverty in a more effective manner; (b) the provision of policy options and advice to countries concerned; and (c) the advocating of international actions and measures in support of poverty eradication. In particular, these research activities have contributed to chapters of the UNCTAD flagship publications *The Least Developed Countries Report 2010* and the *Economic Development in Africa Report 2010*.

- 12.17 In order to strengthen its accountability, UNCTAD is focusing on the establishment of a sound monitoring and evaluation system within its institutional framework. In this regard, systematic evaluations at UNCTAD have made programme managers more aware of the fact that they should focus on the results achieved from their programmes, and hence catalyse their efforts to enhance the effectiveness of their activities and extend the reach of their research and policy advocacy work. For instance, measures have been taken to strengthen the UNCTAD commodities programme following an independent evaluation of the programme. Those measures include a restructuring of the Special Unit on Commodities, which has contributed to enhancing its relevance and effectiveness, through a clear emphasis on research and analysis, the results of which will feed into its technical cooperation programme. In addition, the proposed redeployment of the UNCTAD evaluation and monitoring unit back to executive direction and management from programme support is intended to restore the focus of evaluation and monitoring on substantive programme delivery in line with the Regulations and Rules Governing Programme Planning, the Programme Aspects of the Budget, the Monitoring of Implementation and the Methods of Evaluation (ST/SGB/2000/8), as well as contribute to enhancing the adoption of a results-based management framework in accordance with General Assembly resolution 64/259.
- 12.18 It is anticipated that recurrent and non-recurrent publications will be issued as summarized in table 12.3 below and as distributed in the information on outputs for each subprogramme. The streamlining of the publications programme in accordance with paragraph 186 of the Accra Accord has been a shared objective of member States and the secretariat for a number of years, the ultimate goal being the enhancement of the focus, quality and effectiveness of the policy messages of UNCTAD. In parallel, and in line with its communication strategy, UNCTAD will strengthen the dissemination of its research outputs through workshops and other means, with the aim of supporting the translation of analytical outputs into customized policy options, thus enhancing the impact.

- 12.19 The overall resources required for the biennium 2012-2013 for this section amount to \$135,478,600 before recosting, reflecting a net decrease of \$1,151,200 (or 0.8 per cent) compared with the revised appropriation. The net decrease is summarized below:
- (a) The decrease of \$5,500 under policymaking organs relates mainly to the reduction of requirements for general temporary assistance and miscellaneous services;
 - (b) The increase of \$4,084,000 under executive direction and management relates mainly to the proposed redeployment of 14 posts (1 D-2, 3 P-4, 2 P-3, 2 P-2 and 6 General Service (Other level)) and associated non-post resources, from programme support to executive direction and management to better align the functions of the Office of the Secretary-General and thus

enhance the substantive direction and coordination of the five subprogrammes of UNCTAD in the aftermath of the global economic crisis and its continuing impact on the world economy and developing countries in particular;

- (c) The net decrease of \$184,700 under programme of work relates to:
 - (i) The net decrease of \$68,900 in non-post requirements under subprogramme 1, which relates mainly to a decrease of \$67,800 due to the anticipated reconfiguration of services provided by the International Computing Centre and decreased requirements for external printing (\$3,200) and grants and contributions (\$67,800), partly offset by additional requirements for travel of staff (\$2,100);
 - (ii) The net decrease of \$103,700 under subprogramme 2, which relates mainly to a net decrease in post costs (\$63,300) relating to the outward redeployment of one P-3 to subprogramme 4 and the inward redeployment of one P-2 from subprogramme 4, and to a reduction in requirements for consultants (\$30,300) and external printing (\$15,000), partly offset by additional requirements (\$4,900) for travel of staff;
 - (iii) The net decrease of \$70,500 under subprogramme 3, components 1 and 2, which includes a reduction in requirements for consultants (\$51,700), travel of staff (\$14,500), external printing (\$3,000) and ad hoc expert groups (\$1,300);
 - (iv) The increase of \$59,700 under subprogramme 4, which relates mainly to a net increase in post costs (\$63,300) relating to the outward redeployment of one P-2 to subprogramme 2 and an inward redeployment of one P-3 from subprogramme 2, partly offset by a decrease in consultancy requirements (\$3,600);
 - (v) The net decrease of \$1,300 under subprogramme 5, which includes decreases in requirements for consultants (\$6,300) and ad hoc expert groups (\$10,000), partly offset by increased requirements for travel of staff (\$15,000) as a result of the additional request from member States to respond to the new challenges arising from the continuing global economic crisis;
- (d) The decrease of \$5,045,000 under programme support, which is due mainly to the abolition of one General Service (Other level) post and the proposed redeployment of 14 posts (1 D-2, 3 P-4, 2 P-3, 2 P-2 and 6 General Service (Other level)) from programme support to the executive direction and management (\$4,319,900), and to a decrease in non-post requirements (\$725,100), mainly for general temporary assistance, communications, supplies and materials, acquisition and replacement of office automation equipment and acquisition of software packages, largely associated with the redeployment of the 14 posts.

12.20 During the biennium 2012-2013, the projected extrabudgetary resources amounting to \$75,830,000 will complement resources from the regular budget to finance various technical cooperation activities, such as technical advisory services, training, workshops, seminars and field projects. Extrabudgetary resources represent 36 per cent of the total resources available to this programme. The projected decrease of \$852,100 in comparison with the biennium 2010-2011 results mostly from a reduction of \$360,000 under subprogramme 3, \$350,000 under subprogramme 4 and \$142,100 under other subprogrammes. The envisaged decrease reflects the nature of the extrabudgetary resources of UNCTAD, which are almost exclusively devoted to country-specific technical cooperation activities that are demand driven and subject to higher funding uncertainty, as well as being cyclical. The projected decrease is also based on a reduction in the funding capacity of most traditional donors due to fiscal difficulties that are likely to persist during 2012-2013.

- 12.21 Pursuant to General Assembly resolution 58/269, resources identified for the conduct of monitoring and evaluation would amount to \$1,371,400, including \$996,500 from the regular budget and \$374,900 in extrabudgetary resources. The exact scale of evaluation activities to be carried out in the biennium 2012-2013 will be determined during the course of the biennium based on the implementation of evaluation plans developed for all substantive subprogrammes. The staff time devoted to self-assessment and self-evaluation under all subprogrammes is estimated to be 94.3 work-months, including 78.3 work-months financed from the regular budget and 16 work-months financed from extrabudgetary resources.
- 12.22 The estimated percentage distribution of the resources of the programme in the biennium 2012-2013 is shown in table 12.4. The distribution of resources is summarized in tables 12.5 and 12.6.

A. Policymaking organs

Resource requirements (before recosting): \$548,300

Thirteenth session of the United Nations Conference on Trade and Development

- 12.23 In accordance with paragraph 2 of its resolution 1995 (XIX), the General Assembly determines the dates and location of the sessions of UNCTAD taking into account the recommendations of the Conference or of the Trade and Development Board. The thirteenth session of the Conference will be held in Doha in 2012, pursuant to Assembly resolution 63/204.

Trade and Development Board

- 12.24 The Trade and Development Board was established by the General Assembly in its resolution 1995 (XIX) as a permanent organ of the Conference to carry out the functions of the Conference when it is not in session. The Board reports to the Conference and also to the Assembly. The Board meets annually in regular sessions, and may meet in executive sessions three times annually. The Board is assisted by the Working Party on the Strategic Framework and the Programme Budget in its oversight of the programme of work, including technical cooperation.

Subsidiary bodies of the Trade and Development Board

- 12.25 Two intergovernmental commissions perform integrated policy work in their respective areas of competence, as explained below, as subsidiary bodies of the Trade and Development Board (see TD/442 and Corr.1, paras. 201-206). The commissions hold annual sessions.
- 12.26 The Trade and Development Commission addresses the mandate of the previous Commission on Trade in Goods and Services, and Commodities, and will also assume responsibility for transport and trade logistics from the previous Commission on Enterprise, Business Facilitation and Development. It has a standing subsidiary expert body, namely the Intergovernmental Group of Experts on Competition Law and Policy.
- 12.27 The Investment, Enterprise and Development Commission has the mandate of the previous Commission on Investment, Technology and Related Financial Issues, and also assumes responsibility for enterprise and information and communications technology issues from the previous Commission on Enterprise, Business Facilitation and Development. In accordance with General Assembly resolution 49/130, the Commission is assisted by 16 expert advisers, serving in their individual capacity and selected from both developed and developing countries. The Commission has a standing subsidiary expert body, namely the Intergovernmental Working Group of Experts on International Standards of Accounting and Reporting.
- 12.28 At the twelfth session of the Conference, it was decided that expert meetings would continue to be held under the auspices of the commissions in order to benefit from a higher level of technical expertise (TD/442 and Corr.1, para. 207). The total number of such meetings, including the sessions of the two standing expert bodies of the commissions, would not exceed 10 per annum. Technical matters discussed at the meetings are reported to the parent commission.

Commission on Science and Technology for Development

- 12.29 Established by the General Assembly in its resolution 46/235 the intergovernmental Commission on Science and Technology for Development provides overall direction to the related programme of work. The Commission is composed of 43 members and, pursuant to Economic and Social Council resolution 2002/37 meets on an annual basis and reports to the Council. In accordance with Council resolution 1993/75 the Commission receives specialized and technical advice from ad hoc panels and workshops that meet between sessions of the Commission to examine specific issues on science and technology for development. The UNCTAD secretariat provides substantive support to the Commission.

| Total | 553.8 | 548.3 | — | — |

- 12.30 The amount of \$548,300 comprises of the following requirements: (a) \$100,600 for preparatory work and for servicing preparatory meetings of the sessions of the Conference, reflecting: \$27,700 for other staff costs, \$48,100 for travel of staff to various forums and meetings as part of the preparatory and follow-up processes relating to the Conference, and \$24,800 for general operating expenses; (b) \$119,600 for the travel and daily subsistence allowance of 16 experts participating in their individual capacity, in the annual sessions of the Investment, Enterprise and Development Commission, in accordance with General Assembly resolution 49/130; and (c) \$328,100 for the travel of 43 representatives participating in the work of the Commission on Science and Technology for Development and the travel and daily subsistence allowance for the experts taking part in intersessional ad hoc panels of experts.

B. Executive direction and management

Resource requirements (before recosting): \$10,129,300

- 12.31 The Secretary-General of UNCTAD provides overall direction on substantive and managerial matters and ensures the effective servicing of the intergovernmental machinery of UNCTAD, in particular the quadrennial sessions of the Conference and the sessions of the Trade and Development Board. The Deputy Secretary-General deputizes for the Secretary-General, and oversees the operations of the secretariat regarding the strategic, programmatic and managerial aspects, including public information and outreach activities and the implementation of the UNCTAD communication strategy to enhance the visibility, use and impact of the work of UNCTAD.
- 12.32 The Office of the Secretary-General assists the Secretary-General and the Deputy Secretary-General in discharging their responsibilities.
- 12.33 In order to enhance the accountability and effectiveness of the work of UNCTAD, the Office of the Secretary-General evaluates and reports on programme performance. This includes conducting an annual self-assessment of all of its subprogrammes and undertaking other evaluation exercises. The outcomes of these exercises are considered by the General Assembly and the Trade and Development Board, according to established practices.

- 12.36 The amount of \$10,129,300, reflecting an increase of \$4,084,000, would provide for 32 posts (1 Under-Secretary-General, 1 Assistant Secretary-General, 1 D-2, 1 D-1, 2 P-5, 5 P-4, 3 P-3,

3 P-2, 2 General Service (Principal level) and 13 General Service (Other level)), required for ensuring overall direction on substantive and managerial matters and the effective servicing of the intergovernmental machinery of UNCTAD (\$9,919,600). The increase of \$4,084,000 results from the proposed redeployment of 14 posts (1 D-2, 3 P-4, 2 P-3, 2 P-2 and 6 General Service (Other level)) and associated non-post resources from programme support to executive direction and management, to better align the functions of the Office of the Secretary-General in order to enhance the substantive direction and coordination of the UNCTAD subprogrammes in the aftermath of the global economic crisis and its continuing impact on the world economy and developing countries in particular. Of the 32 posts, 4 (1 P-5, 1 P-3 and 2 General Service (Other level)) are located in the New York Office of UNCTAD. The amount of \$209,700 for non-post requirements provides for consultants, expert groups and travel of staff.

- 12.37 During the biennium 2012-2013, projected extrabudgetary resources of \$570,000 will be utilized for enhancing the preparation and activities associated with the thirteenth session of UNCTAD, supporting the Avian Influenza and Food Crisis Coordination Office, and coordinating the work of UNCTAD on gender and development.

| Total | 34 053.4 | 33 839.7 | 80 | 80 |

- 12.46 The amount of \$25,489,700, reflecting a decrease of \$103,700, would provide for the continuation of 79 posts (1 D-2, 3 D-1, 10 P-5, 14 P-4, 20 P-3, 8 P-2, 1 General Service (Principal level) and 22 General Service (Other level)) amounting to \$24,562,000 and non-post resources of \$927,700 to carry out the UNCTAD programme of work on issues pertaining to investment and enterprise in order to design and implement policies at both the national and international levels aimed at boosting the productive capacities and international competitiveness of developing countries through research and analysis in the area of FDI; assessments of the impact on development of transnational corporations and policies in this regard; preparation of the annual *World Investment Report* and other publications; conduct of investment policy reviews; analysis of the development dimension of international investment agreements; analysis of the international competitiveness of enterprises and implementation of the capacity-building enterprise and Empretec programmes; support to the intergovernmental bodies and processes entrusted with the investment, development and enterprise matters; and provision of technical assistance, advisory and training services in areas within the subprogramme's purview. The non-post resources would provide for consultants, expert groups, travel of staff and contractual services. The net decrease of \$103,700 mainly results from a decrease in salaries and common staff costs due to the proposed outward redeployment of one P-3 post and the inward deployment of one P-2 post, from subprogramme 2 to subprogramme 4 and decreases in consultants and contractual services, partly offset by an increase under travel of staff in view of the additional request from Member States and organs of the United Nations to respond to the new challenges arising from the global economic and financial crisis.
- 12.47 During the biennium 2012-2013, projected extrabudgetary resources of \$8,350,000 will be used, inter alia, for the following technical cooperation activities: (a) research and policy analysis on FDI issues for the publications and technical materials of the subprogramme, such as the world investment reports and the guides for investing in least developed countries; (b) advisory services and training courses to support investment policies, treaties and facilitation, to strengthen the capacity of Governments of least developed countries and countries with economies in transition to enhance FDI and utilize it to support national development goals, and to assist in the area of corporate transparency and accounting, FDI statistics, international investment agreements and the transfer of and access to technology and intellectual property; (c) field projects related to UNCTAD capacity-building programmes to promote the development of small and medium-sized enterprises and Empretec; and (d) to improve corporate responsibility and governance.

Subprogramme 3 International trade

Component 1. Strengthening international trade

Resource requirements (before recosting): \$22,678,600

- 12.48 Substantive responsibility for component 1 of this subprogramme is vested in the Division on International Trade in Goods and Services, and Commodities. - 12.51 The amount of \$22,678,600, reflecting a net decrease of \$70,500, would provide for the continuation of 70 posts (1 D-2, 4 D-1, 10 P-5, 13 P-4, 15 P-3, 4 P-2 and 23 General Service (Other level)) amounting to \$22,196,100 and non-post requirements of \$482,500 to carry out the UNCTAD programme of work on various issues pertaining to international trade and commodities, including research, analysis and policy advice; substantive support to intergovernmental bodies and processes; and technical assistance, advisory and training services in subject areas within the subprogramme's purview. The non-post resources would provide for consultants, expert groups, travel of staff and contractual services. The net decrease of \$70,500 relates to a reduction under consultants, travel of staff and contractual services, partly offset by an increase under ad hoc expert groups.
- 12.52 During the biennium 2012-2013, projected extrabudgetary resources of \$9,312,000 would provide, inter alia, for the following technical cooperation activities: (a) strengthening the capacity of developing countries and countries with economies in transition: (i) to design and implement trade policies and participate effectively and coherently in bilateral, regional (including South-South) and multilateral trade negotiations; (ii) to prepare and implement national and regional (including South-South) competition laws and frameworks, and supporting enhanced international cooperation in this field in combating anti-competitive practices; (iii) to formulate and implement mutually supportive trade, environment and sustainable development objectives and to integrate sustainable development objectives in development strategies at all levels; and (b) further improving and disseminating trade analysis and analytical tools, databases and software that contribute to effective trade and trade-related decision-making.

Component 2. Commodities

Resource requirements (before recosting): \$5,621,900

- 12.53 Substantive responsibility of component 2 of the subprogramme is vested in the Special Unit on Commodities. Within this subprogramme, the Unit implements its work as an autonomous unit on commodities, in accordance with paragraph 183 of the Accra Accord. This unit, through the guidance and leadership of the Secretary-General of UNCTAD, will contribute more effectively to the efforts of developing countries, especially least developed countries, to formulate strategies and policies to respond to the challenges and opportunities of commodity markets.
- 12.54 The programme of work will be implemented in accordance with the strategy detailed under component 2 of subprogramme 3 of programme 10 of the strategic framework for the period 2012-2013.

Table 12.17 Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures

Objective of the Organization: To harness development gains from the commodity economy for commodity-dependent developing countries, as well as to deal with trade and development problems related to commodity dependence

External factors

- 12.55 This component of the subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that: (a) up-to-date and accurate economic and financial information and data at the country and regional levels will be available; and (b) there will be no significant shortfalls in extrabudgetary funding for technical cooperation programmes.

Outputs

- 12.56 During the biennium 2012-2013, the following final outputs will be delivered:
- (a) Servicing of intergovernmental and expert bodies (regular budget):
 - (i) General Assembly: substantive servicing of the meetings of the Second Committee, as required (2);

- (ii) UNCTAD: substantive servicing of the thirteenth session of the Conference, including preparatory meetings, as required (12);
- (iii) Economic and Social Council: substantive servicing of the meetings of the Council and its subsidiary bodies, as required (2);
- (iv) Trade and Development Board:
 - a. Substantive servicing of meetings: annual and executive sessions of the Trade and Development Board (4);
 - b. Parliamentary documentation: ad hoc reports on the report on commodity trends and prospects (2);
- (v) Working Party on the Strategic Framework and the Programme Budget: substantive servicing of the meetings of the Working Party (4);
- (vi) Trade and Development Commission:
 - a. Substantive servicing of meetings: annual sessions of the Commission (2); annual sessions of the multi-year expert meeting on commodities and development (8);

- 12.57 The amount of \$5,621,900 would provide for the continuation of 18 posts (1 D-1, 2 P-5, 2 P-4, 6 P-3, 3 P-2 and 4 General Service (Other level)) amounting to \$5,492,400 and non-post resources of \$129,500 to carry out the UNCTAD programme of work on various issues pertaining to commodities and to contribute to the efforts of developing countries to formulate strategies and policies to respond to the challenges and opportunities of commodity markets; to address the trade and development problems associated with the commodity economy, giving due attention to all commodity sectors, such as agriculture, forestry, fisheries, metals and minerals, and oil and gas; to monitor developments and challenges in commodity markets; and to address the links between the international trade in commodities and national development, particularly with regard to poverty reduction. The non-post resources would provide for consultants, expert groups, travel of staff and contractual services.
- 12.58 During the biennium 2012-2013, projected extrabudgetary resources of \$2,148,000 will provide, inter alia, for the following technical cooperation activities: (a) contributing effectively to the efforts of developing countries to formulate strategies and policies to respond to the challenges and opportunities of commodity markets; (b) providing advisory services and holding training/capacity-building workshops; (c) assisting commodity-dependent developing countries, particularly small commodity producers, in their efforts to develop national commodity strategies, including mainstream commodity policies, into their national and regional development strategies; (d) building supply-side capacity and attaining competitiveness; (e) building human and institutional capacities; and (f) promoting and improving transparency and accountability in the public, private and corporate sectors.

Subprogramme 4 Technology and logistics

Resource requirements (before recosting): \$17,027,000

- 12.59 Substantive responsibility for this subprogramme is vested in the Division on Technology and Logistics. The programme of work will be implemented in accordance with the strategy detailed under subprogramme 4 of programme 10 of the strategic framework for the period 2012-2013.

Table 12.19 **Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures**

Objective of the Organization: To strengthen science, technology and innovation, including information and communication technologies; efficient trade logistics services and transit transport systems; and training and capacity-building programmes for local institutions with a view to enhancing the economic development and competitiveness of developing countries

Expected accomplishments of the Secretariat

Indicators of achievement

(a) Improved efficiency of trade logistics of developing countries

(a) (i) Increased number of specific, identifiable actions taken by developing countries to improve trade logistics, such as actions to cut transport and transaction costs; improve effective transit systems, transport efficiency and connectivity; and establish a supportive legal framework, with the assistance of UNCTAD

Performance measures

2008-2009: not applicable

Estimate 2010-2011: 20 actions

Target 2012-2013: 22 actions

(ii) Increased number of measures adopted by developing countries using the Automated System for Customs Data to further improve the efficient management of their customs administration, with the assistance of UNCTAD

Performance measures

2008-2009: not applicable

Estimate 2010-2011: 20 measures

Target 2012-2013: 22 measures

(iii) Increased number of developing countries demonstrating improved performance on the basis of benchmark indicators related to customs processes, with the assistance of UNCTAD

External factors

- 12.60 The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that: (a) up-to-date accurate economic and financial information and data at the country and regional levels are available; (b) there are no significant shortfalls in extrabudgetary funding of technical cooperation programmes; (c) there is continuing political will to achieve consensus in intergovernmental meetings on actions to be taken to achieve the objective of the programme; and (d) conditions and capacities for adopting policies and implementing appropriate recommendations exist in member States.

Outputs

- 12.61 During the biennium 2012-2013, the following final outputs will be delivered:

- (a) Servicing of intergovernmental and expert bodies (regular budget):
 - (i) General Assembly:
 - a. Substantive servicing of the meetings of the Second Committee (3);
 - b. Parliamentary documentation: report of the Secretary-General to the General Assembly on science and technology for development (1); reports on follow-up to the World Summit on the Information Society (2);
 - (ii) UNCTAD:
 - a. Substantive servicing of the thirteenth session of the Conference, including preparatory meetings, as required (20);
 - b. Parliamentary documentation: background documentation for the thirteenth session of the Conference, as required (1);
 - (iii) Economic and Social Council: substantive servicing of meetings: follow-up to the World Summit on the Information Society at the annual sessions of the Council (2);

- (iv) Commission on Science and Technology for Development:
 - a. Substantive servicing of meetings: annual sessions of the Commission and meetings of its two expert panels (4);
 - b. Parliamentary documentation: reports to the Commission at its fifteenth and sixteenth sessions and reports to, and of, its two expert panels (12);
- (v) Trade and Development Board: substantive servicing of the annual sessions of the Trade and Development Board (2);
- (vi) Working Party on the Strategic Framework and the Programme Budget: substantive servicing of the meetings of the Working Party (4);
- (vii) Trade and Development Commission:
 - a. Substantive servicing of meetings: annual sessions of the Commission (2); multi-year expert meetings on transport and trade facilitation (2);
 - b. Parliamentary documentation: background documentation for and reports of the meetings of the multi-year expert meeting on transport and trade facilitation (2);
- (viii) Investment, Enterprise and Development Commission:
 - a. Substantive servicing of meetings: annual sessions of the Commission (2); multi-year expert meetings on enterprise development policies and capacity-building in science, technology and innovation (2);
 - b. Parliamentary documentation: background documentation for and reports of the meetings of the multi-year expert meeting on enterprise development policies and capacity-building in science, technology and innovation (2);
- (ix) Ad hoc expert groups: ad hoc expert group meeting on capacity-building and skills enhancement for developing countries (1); ad hoc expert group meetings on transport and trade facilitation (2); ad hoc expert meetings on the role of technology (including information and communications technologies) and innovation in development (4);
- (b) Other substantive activities (regular budget):
 - (i) Recurrent publications: *Information Economy Report* (2); *Review of Maritime Transport* (2); *Technology and Innovation Report* (2);
 - (ii) Non-recurrent publications: information and communications technology policy reviews (2); science, technology and innovation policy reviews (4); studies on science, technology and innovation, including a comprehensive study to identify issues relevant to developing countries on transfer of technology and knowledge-sharing for development (4); studies on transport and trade facilitation (4);
 - (iii) Exhibits, guided tours, lectures: lectures on the topics of science, technology and innovation, including information and communications technology; lectures on issues related to the work of the subprogramme (4);
 - (iv) Booklets, fact sheets, wallcharts, information kits: ASYCUDA Newsletter (4); annual activity report of the UNCTAD Division on Technology and Logistics (2); promotional brochures, pamphlets and information kits on various activities of the subprogramme (science, technology and innovation policy reviews, information and communications technology and e-business for development, the Commission on Science and

- Technology for Development, human resources development and trade logistics) (14); transport newsletter (8); web-based Virtual Institute newsletter (4);
- (v) Press releases, press conferences: launch of the *Information Economy Report* (2); launch of the *Technology and Innovation Report* (2); launch of the *Review of Maritime Transport* (2); press briefings, releases, interviews on topics related to science, technology and innovation, including information and communications technology; press briefings, interviews and press conferences related to the outputs of the subprogramme (20);
 - (vi) Technical material: ASYCUDA website and online report (4); capacity-building through human resources development (1); distance learning platform (2); information and communications technology measurement website (2); reports on science, technology, innovation, information and communications technology, capacity-building and trade logistics for the thirteenth session of UNCTAD (4); reports related to information and communications technology and law reform (3); revised manual for the production of statistics on the information economy (1); science, technology and innovation indicators for developing countries (1); science, technology and innovation for development and the information and communications technology website (4); TrainForTrade course materials (2); updates of relevant UNCTAD web pages on programmes and activities within the subprogramme (2); Virtual Institute (Web-based platform and teaching materials) (4);
 - (vii) Seminars for outside users: preparation and coordination of and contribution to training courses on key issues on the international economic agenda for countries in transition and countries in West Asia, Africa, Latin America and Asia (5);
 - (viii) Audio-visual resources: CD-ROMs for the training courses on key issues on the international economic agenda (5); pedagogic video materials on human resources development (2); TrainForTrade CD-ROMs (2); Virtual Institute multimedia resources (4);
- (c) Technical cooperation (regular budget and extrabudgetary):
- (i) Advisory services: advisory services for the implementation of TrainForTrade training and capacity development activities (6); advisory services on science, technology and innovation policies; policy and practical aspects of information and communications technology for development (2); advisory services on the development of university curricula and research, and of teaching resources and tools for the Virtual Institute network of academic and research institutions (3); advisory services on the measurement of information and communications technologies (1); advisory services on transport policies and international legal instruments, standards and rules related to the facilitation of international trade, transport and transport security (6);
 - (ii) Training courses, seminars and workshops: building capacity in trade facilitation and transport, including multimodal transport, logistics, legal frameworks, containerization and its international implications (4); economic, technical, legal and regulatory aspects of information and communication technology for development; information and communication technology measurement (4); science, technology and innovation policies; training workshops of the networks of centres of excellence for South-South cooperation in science and technology (2); the role of countries in the transfer of technology and knowledge-sharing for the development of developing countries, and the contribution made by countries to such transfer (2); TrainForTrade seminars on issues related to international trade, trade-supporting services, sustainable tourism,

investment and port management, including distance learning and train-the-trainer workshops (17); use of technology and information and communications technology tools for the dissemination to university audiences of UNCTAD research (4); Virtual Institute workshops, seminars and study tours linked to the development of university curricula and associated teaching resources and tools (2);

- (iii) Field projects: capacity-building in information and communications technology for development; national science, technology and innovation policy reviews (4); further development of the Virtual Institute network of academic training and research institutions (2); national, regional and interregional projects in the fields of transport and related services, trade facilitation and logistics, including ASYCUDA (72); TrainForTrade training and capacity-building programmes (7).

Table 12.20 Resource requirements: subprogramme 4

| Total | 48 567.3 | 48 277.0 | 55 | 56 |

- 12.62 The amount of \$17,027,000, reflecting an increase of \$59,700, would provide for the continuation of 54 posts (1 D-2, 3 D-1, 6 P-5, 9 P-4, 10 P-3, 8 P-2 and 17 General Service (Other level)) amounting to \$16,619,200 and non-post resources of \$407,800 to carry out the UNCTAD programme of work on various issues pertaining to trade logistics, science, technology and information and communications technology for development, training and capacity-building, including research, analysis and policy advice; substantive support to intergovernmental bodies and processes; technical assistance, advisory and training services in the areas within the subprogramme's purview. The non-post resources would provide for consultants, expert groups, travel of staff and contractual services. The net increase of \$59,700 is mainly due to the net increase under post costs resulting from the proposed inward redeployment of one P-3 post and the outward deployment of one P-2 post, from subprogramme 2 to subprogramme 4, and increases in non-post resources under consultants and ad hoc groups, offset by decreases under consultants and travel of staff.
- 12.63 During the biennium 2012-2013, projected extrabudgetary resources of \$31,250,000 will provide, inter alia, for the following technical cooperation activities: (a) advisory services and training courses on policies and practical aspects of information and communications technology for development and on measuring the information economy, including through the Partnership on Measuring ICT for Development; (b) advisory services, training and field projects concerning science, technology and innovation policy reviews; (c) supporting the implementation of the project in participating countries, to enhance the teaching and research capacity of university members of the Virtual Institute; (d) supporting training and capacity-building in the area of human capacity development, including through the training of trainers and tutors and the backstopping of national and regional projects; and (e) assisting in the modernization of transport legislation and

building national capacity to resolve difficulties and thus provide trade-supporting services such as customs and transport.

Subprogramme 5

Africa, least developed countries and special programmes

Resource requirements (before recosting): \$9,198,900

- 12.64 Substantive responsibility for this subprogramme is vested in the Division for Africa, Least Developed Countries and Special Programmes. The programme of work will be implemented in accordance with the strategy detailed under subprogramme 5 of programme 10 of the strategic framework for the period 2012-2013.

Table 12.21 **Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures**

Objective of the Organization: To promote development of national policies and international support measures, which build productive capacities for economic development and poverty reduction in Africa, least developed countries and other groups of countries in special situations (landlocked developing countries, small island developing States, and other structurally weak, vulnerable and small economies), and their progressive and beneficial integration into the global economy

| Expected accomplishments of the Secretariat | Indicators of achievement |
|--|---|
| (a) Increased adoption of UNCTAD's practical policy recommendations to promote African development in the areas of trade and development | <p>(a) Increased number of Member States reporting that they have adopted policy recommendations, research findings and conclusions provided by UNCTAD in the area of African development</p> <p><i>Performance measures</i></p> <p>2008-2009: 5 Member States</p> <p>Estimate 2010-2011: 7 Member States</p> <p>Target 2012-2013: 9 Member States</p> |

Estimate 2010-2011: 4 countries

Target 2012-2013: 5 countries

(e) Increased awareness of small island developing State policymakers of issues and policy options to build development partnerships conducive to the adoption of relevant international support measures

(e) Increased number of small island developing States directly benefiting from UNCTAD services in various areas of economic policymaking with implications for resilience-building and structural transformation

Performance measures

2008-2009: not applicable

Estimate 2010-2011: 4 small island developing States

Target 2012-2013: 5 small island developing States

(f) Increased awareness of the problems faced by other structurally weak, vulnerable and small economies on the way of their integration into multilateral trading systems

(f) Increased number of other structurally weak, vulnerable and small economies using UNCTAD recommendations and services to address their exposure to internal and external economic shocks

Performance measures

2008-2009: not applicable

Estimate 2010-2011: 5 other structurally weak, vulnerable and small economies

Target 2012-2013: 6 other structurally weak, vulnerable and small economies

External factors

- 12.65 The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that: (a) up-to-date and accurate economic and financial information and data at the country and regional levels are available; (b) there are no significant shortfalls in extrabudgetary funding of technical cooperation programmes; (c) there is continuing political will to achieve consensus in intergovernmental meetings on actions to be taken towards the objective of the programme; and (d) conditions and capacities for adopting policies and implementing appropriate recommendations exist in member States and development partners.

Outputs

- 12.66 During the biennium 2012-2013, the following final outputs will be delivered:

- (a) Servicing of intergovernmental and expert bodies (regular budget):
 - (i) General Assembly:
 - a. Substantive servicing of meetings: meetings of the General Assembly, as required (2); meetings of the Second Committee (6);

- 12.67 The amount of \$9,198,900, reflecting a decrease of \$1,300, would provide for the continuation of 26 posts (1 D-2, 2 D-1, 4 P-5, 8 P-4, 2 P-3, 1 P-2 and 8 General Service (Other level)) amounting to \$8,758,500 and non-post resources of \$440,400 to carry out activities, including research, analysis and the provision of policy advice in the context of the UNCTAD programme of work on various cross-sectoral issues pertaining to development of Africa, least developed countries, landlocked and transit developing countries, small island developing States, and structurally weak, vulnerable and small economies; preparation of two annual reports (*The Least Developed Countries Report* and the *Economic Development in Africa Report*); substantive support to intergovernmental bodies and processes; supporting NEPAD in areas of UNCTAD expertise; implementation of the Almaty Programme of Action in favour of landlocked least developed countries and the Mauritius Strategy in favour of small island developing States; and technical assistance, advisory and training services in subject areas within the subprogramme's purview. The non-post resources would provide for consultants, expert groups and travel of staff. The net decrease of \$1,300 mainly relates to consultants and ad hoc groups, partly offset by increased requirements under travel of staff due to additional requests by member States for advice on how to respond to the new challenges arising from the global economic and financial crisis.
- 12.68 During the biennium 2012-2013, projected extrabudgetary resources of \$2,770,000 will be used, inter alia, for the following technical cooperation activities: (a) developing and delivering training material and training workshops to contribute towards building national capacities for the ownership of national development strategies for least developed countries, landlocked developing countries, transit developing countries, small island developing States and other structurally weak

vulnerable and small economies; (b) holding seminars and workshops in selected least developed countries for the implementation of the activities in the Enhanced Integrated Framework; and (c) supporting the strengthening of transit transport cooperation between landlocked and transit countries.

D. Programme support

Resource requirements (before recosting): \$24,335,300

- 12.69 Programme support services are provided to the subprogrammes on policymaking organs and executive direction and management, and to other substantive subprogrammes to assist them in delivering their programmed outputs. The services are organized around three entities, namely the Resources Management Service, the Intergovernmental Support Service and the Technical Cooperation Service.
- 12.70 The Resources Management Service provides the support services for the administration of personnel, budgets and finances administration, for resource planning and budgeting and for the administration of technical cooperation activities. In addition, it as provides information technology support, including data-processing services, develops and maintains information technology systems and provides support services to computer networks.
- 12.71 The Intergovernmental Support Service is responsible for the preparation, management and servicing of the quadrennial sessions of UNCTAD, the sessions of the Trade and Development Board and its subsidiary bodies (commissions, expert groups, the Working Party on the Strategic Framework and the Programme Budget) and the United Nations conferences organized under the auspices of UNCTAD. The Service provides liaison support and services to regional groups and is responsible for monitoring the institutional follow-up to the decisions of the intergovernmental machinery, preparing the calendar of meetings, editing and writing reports, providing protocol support and preparing host country agreements.
- 12.72 The Technical Cooperation Service provides policy guidance to and promotes a coordinated approach by the secretariat to technical cooperation, including the review of project proposals, fund-raising and liaison with beneficiaries, donors and other organizations involved in development and trade-related technical cooperation.

| Total | 41 120.3 | 36 265.3 | 95 | 79 |

- 12.74 The amount of \$24,335,300, reflecting a decrease of \$5,045,000, would provide for 63 posts (2 D-1, 6 P-5, 4 P-4, 9 P-3, 2 P-2, 4 General Service (Principal level) and 36 General Service (Other level)) amounting to \$17,776,000 and non-post resources of \$6,559,300 to support the implementation of the UNCTAD programme of work and the discharge of the responsibilities in the areas of personnel, finance, the budget, general administration, information technology, servicing of the intergovernmental process and communications and outreach, along with

administrative and programme support for the implementation of the operational activities of UNCTAD, including the Development Account projects, the Regular Programme of Technical Cooperation, and extrabudgetary technical cooperation projects. The decrease of \$5,045,000 results mainly from abolition of one General Service (Other level) post and the proposed redeployment of 14 posts (1 D-2, 3 P-4, 2 P-3, 2 P-2 and 6 General Service (Other level)) and associated non-post resources from programme support to executive direction and management, to better align the functions of the Office of the Secretary-General of UNCTAD with the responsibilities recommended under Executive Direction and Management, as well as to enhance the substantive direction and coordination of the UNCTAD subprogrammes in the aftermath of the global economic crisis and its continuing impact on the world economy and on developing countries in particular. The amount of \$6,559,300 for non-post requirements, reflecting a decrease of \$725,100, would provide for general temporary assistance, consultants, travel of staff, contractual and data-processing services, general operating expenses and the acquisition or replacement of office automation equipment. The decrease in \$725,100 relates mainly to reductions for general temporary assistance, supplies and materials, replacement of office automation equipment and software packages, travel of staff, contractual services and communications.

- 12.75 During the biennium 2012-2013, projected extrabudgetary resources of \$11,930,000 will be used for: (a) programme support (finance, budget, personnel, general services etc.) and substantive backstopping of extrabudgetary technical assistance activities carried out under the programme of work; (b) coordination and project management services for activities; and (c) activities in support of UNCTAD technical cooperation, United Nations system-wide coherence and results-based management.

| Financial report and audited financial statements for the biennium ended 31 December 2009 and report of the Board of Auditors (A/65/5 (Vol. I)) | |
| The Board recommends that UNCTAD: | |
| (a) Prepare a management manual for technical cooperation projects that brings together all applicable procedures, in particular in the area of monitoring | (a) The two largest programmes funded with extrabudgetary resources, DMFAS and ASYCUDA, which together account for over 50 per cent of UNCTAD extrabudgetary activities, have developed, for their staff, project officer manuals comprising all applicable procedures. A general management manual on technical cooperation bringing together all applicable procedures will be completed in 2011 |
| (b) Make sure that progress reports are distributed to donors by the Technical Cooperation Service as stipulated in the funding agreements (para. 135) | (b) Progress reports by project and financial reports as at 31 December of the previous year are sent to each donor in April every year |

The Board recommends that UNCTAD take measures to better manage expenditure on consultants by:

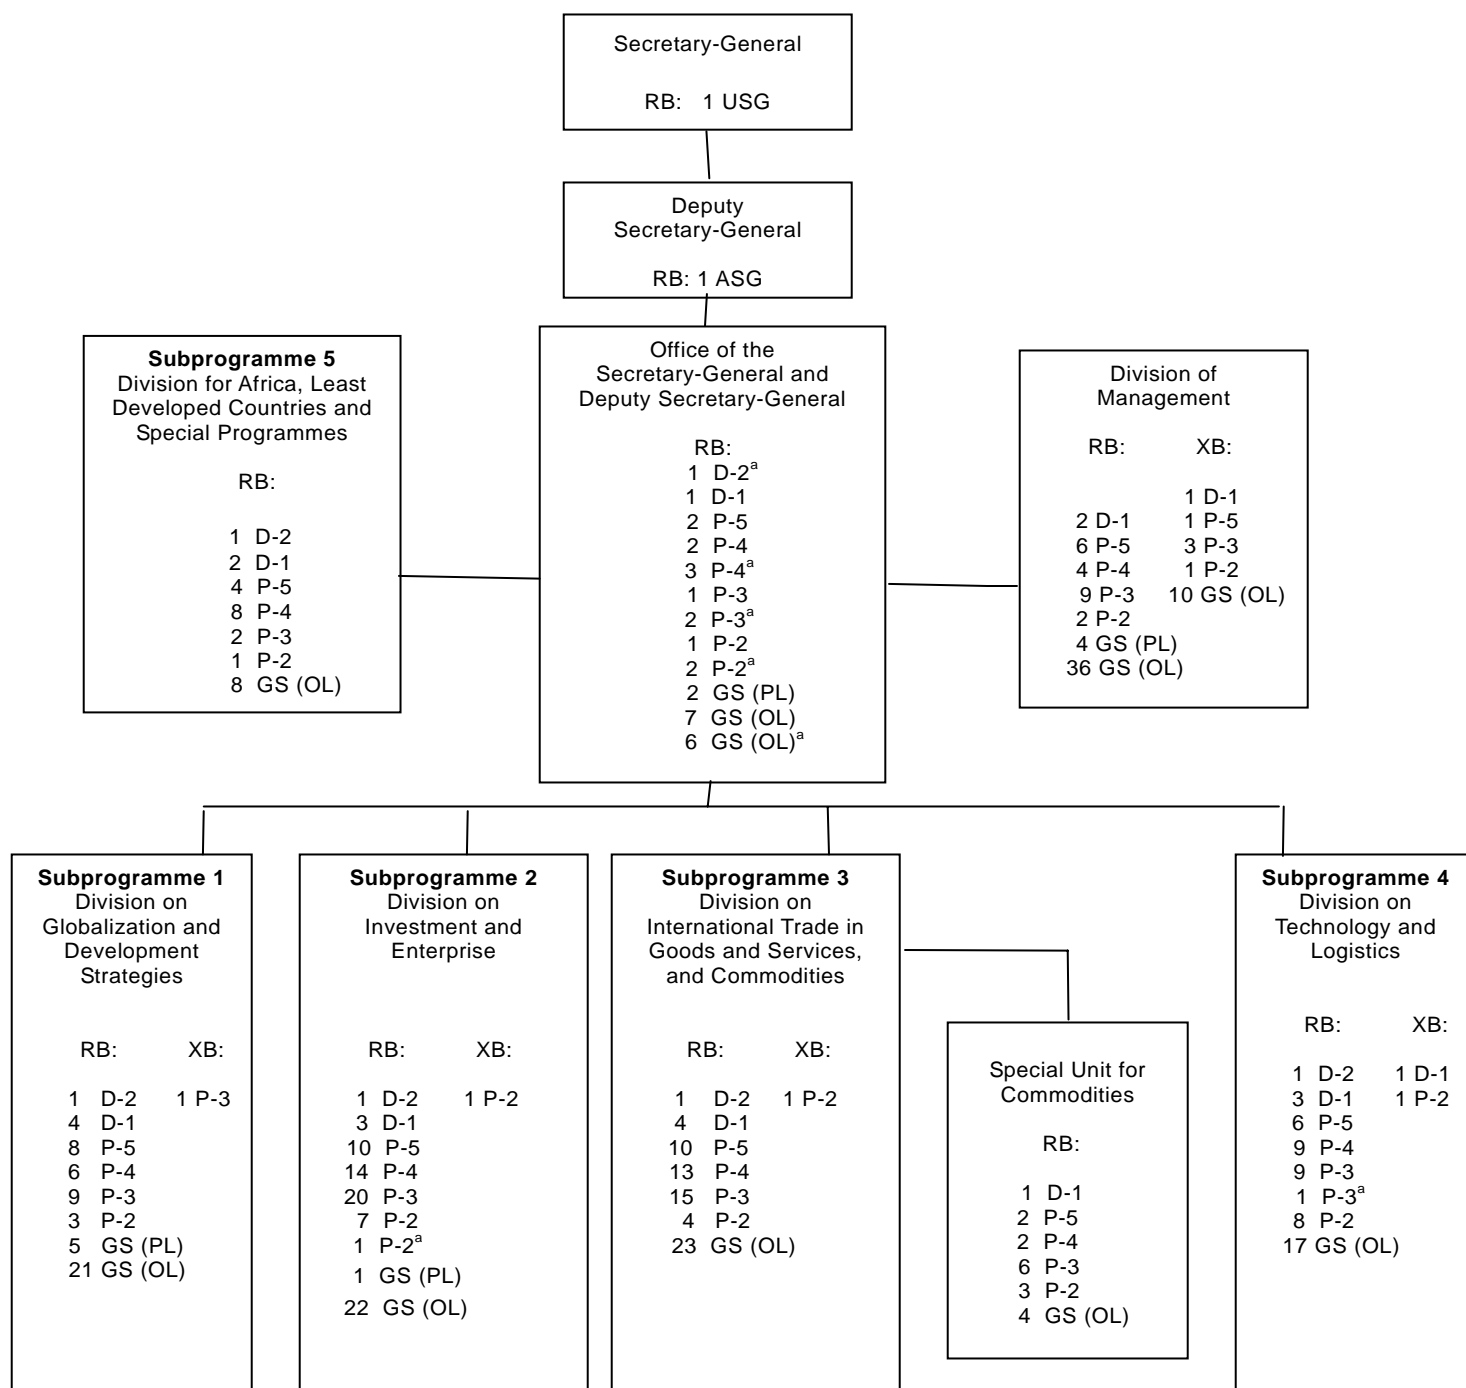

(a) Making sure that all project managers are informed of the good practices developed

(b) Creating a common consultants database (para. 425)

(a) The revised guidelines for the engagement of consultants (expected in 2011) will provide guidance on the recruitment of consultants and streamline relevant processes

(b) The UNCTAD Information Technology Section is currently creating a database of consultants. Through the UNCTAD website, interested candidates will be able to register as consultants in the database, which staff of the Human Resources Management Service will be able to search, as required. The roster will continue to function until Inspira is able to cover this area
