Overall orientation

- 16.1 The United Nations Office on Drugs and Crime (UNODC) works with Member States to enhance their efforts to combat the intertwined problems of drug use, trafficking, transnational crime, corruption and terrorism by helping to create and strengthen legislative, judicial and health systems to safeguard some of the most vulnerable persons in society.
- 16.2 Global criminal activities are transforming the international system by posing an increasingly strategic threat to Governments, civil societies and economies. Global trafficking networks are likewise having a major impact on public security and development and on business and finance. UNODC aims to provide support to the community of nations with relevant forums to arrive at common strategies and tools to address these transnational threats.

Note: The following abbreviations are used in tables and charts: GP, general-purpose; GS, General Service; LL, Local level; NS, National staff; NPO, National Professional Officer; OL, Other level; PL, Principal level; PSC, programme support cost funds; RB, regular budget; SC, service contract; USG, Under-Secretary-General; XB, extrabudgetary.

- 16.3 The conceptual foundation for these joint responses is the notion of the rule of law, which includes comprehensive legislation, effective international cooperation, public security, justice and a fair, accessible, accountable, effective and credible criminal justice system. Furthermore, in this regard, the fight against the world drug problem is a common and shared responsibility, requiring an integrated and balanced approach, and must be carried out in full conformity with the purposes and principles of the Charter of the United Nations and international law, and in particular with full respect for the sovereignty and territorial integrity of States, the principle of non-intervention in the internal affairs of States and all human rights and fundamental freedoms. Therefore, there must be a continued determination to overcome the world drug problem through the full and balanced application of national, regional and international strategies to reduce the demand for, production of and trafficking in illicit drugs. A fair, accessible, accountable, effective and credible criminal justice system acts as a shield against the effects of crime, trafficking, corruption and instability. Development and the rule of law together promote the licit use of resources rather than their criminal abuse: trafficking in persons and the smuggling of migrants, as well as illicit trafficking in endangered species of wild fauna and flora, cultural property, drugs and firearms.
- 16.4 The policy directions of the United Nations Office on Drugs and Crime are grounded in: (a) the international drug control conventions, the United Nations Convention against Transnational Organized Crime and the Protocols thereto (United Nations, *Treaty Series*, vols. 2225, 2237, 2241 and 2326, No. 39574), the United Nations Convention against Corruption (United Nations, *Treaty Series*, vol. 2349, No. 42146) and the universal legal instruments against terrorism in all its forms and manifestations; (b) the Millennium Declaration (see General Assembly resolution 55/2); (c) key resolutions of legislative organs, in particular General Assembly resolution 46/152, establishing the crime prevention and criminal justice programme, and resolutions 45/179 and 46/185 C on the drug control programme; (d) the twentieth special session of the General Assembly on countering the world drug problem; (e) the Vienna Declaration on Crime and Justice: Meeting the Challenges of the Twenty-first Century, adopted by the Tenth United Nations Congress on the Prevention of Crime and the Treatment of Offenders (General Assembly resolution 55/59, annex), the related plans of action (General Assembly resolution 56/261, annex) and the Salvador Declaration on Comprehensive Strategies for Global Challenges: Crime Prevention and Criminal Justice Systems and Their Development in a Changing World, adopted at the Twelfth United Nations Congress on Crime Prevention and Criminal Justice, held in Salvador, Brazil, from 12 to 19 April 2010 (General Assembly resolution 65/230, annex); (f) the recommendations resulting from the 2005 World Summit Outcome (General Assembly resolution 60/1); (g) Economic and Social Council resolutions 2007/12 and 2007/19; and (h) the Political Declaration and Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem, as adopted by the Commission on Narcotic Drugs at the high-level segment of its fifty-second session (United Nations publication, Sales No. E.10.XI.8).
- 16.5 The Office's work flows logically from these mandates and is reflected in its mission, which is "to contribute to the achievement of security and justice for all by making the world safer from drugs, crime and terrorism" (E/CN.7/2007/14-E/CN.15/2007/5).
- 16.6 In implementing its strategy for the period 2012-2015, the Office has responded to the growing demand for its services by establishing a strongly integrated mode of programme planning and implementation. Member States have also expressed their support for the integrated programming approach to programme cycle management. Essential to this approach is the development of regional programmes, which allow the Office to respond to Member States' priorities in a more sustainable and coherent manner. By building on the normative and technical skills of its staff, the Office has realigned its work to ensure continuity between the normative and operational and technical assistance aspects. This new approach focuses on leveraging the Office's scarce technical resources to provide a greater volume and quality of services in the field. Notably, this approach

deepens the engagement with a wide cross-section of stakeholders from Member States, including academic, technical, political and civil society actors. Also, it should be noted that this process of realignment is a dynamic and ongoing one, and as such any imbalances in terms of resources reflect an evolutionary stage in the development of the Office.

- 16.7 Human rights, peace and security and development are the three interlinked and mutually reinforcing pillars of the United Nations enshrined in the Charter. The Office will continue promoting a comprehensive response to transnational organized crime through the integration of human rights and more equitable socioeconomic conditions into its programme, planning, monitoring and evaluation. The Office will also continue promoting the adoption of United Nations standards and norms on crime prevention and criminal justice, as well as ensuring the maximum positive impact of the Office's work in terms of human rights.
- 16.8 In order to enhance the Office's effectiveness and accountability, the programme for the biennium 2014-2015 has been reorganized into six thematic subprogrammes and three subprogrammes under which the Office provides cross-cutting services to Member States; the main United Nations policymaking organs in matters of international drug control, crime prevention and criminal justice, which function as governing bodies of the Office (the Commission on Narcotic Drugs and its subsidiary bodies, the Commission on Crime Prevention and Criminal Justice, the United Nations Congress on Crime Prevention and Criminal Justice, the Economic and Social Council and the General Assembly); and the International Narcotics Control Board.
- 16.9 Each subprogramme falls within the current three-division organizational structure, which allows for the leveraging of complementarities and synergies between divisions and field operations, as thematic experts of the Office will perform both normative and operational work.
- 16.10 In pursuing its objectives, UNODC will make every effort to integrate a gender perspective. Furthermore, the Office is updating its technical assistance planning documents to ensure the collection of gender-disaggregated data, in particular on issues related to drug abuse, drug dependence, human trafficking and women in the criminal justice system.

Overview of resources

- 16.11 The overall resources proposed for the biennium 2014-2015 for this section amount to \$42,314,100 before recosting, reflecting a net increase of \$887,300 (or 2.1 per cent) compared with the 2012-2013 budget at revised rates. Resource changes result from the following factors: (a) technical adjustments relating to the delayed impact for eight new posts approved in 2012-2013; (b) new mandates and inter-component changes; (c) resource changes in line with General Assembly resolution 67/248; and (d) resource changes reflected in the report of the Secretary-General on the budget outline for 2014-2015.
- 16.12 The distribution of resources is reflected in tables 16.3 to 16.6 below.

Technical adjustments

- 16.13 Resource increase of \$1,309,700 reflects the delayed impact of eight new posts (2 D-1, 1 P-5 and 5 P-4) approved in 2012-2013.

New mandates and inter-component changes

- 16.14 Resources increase in the amount of \$858,200 relates to:
- (a) The Thirteenth United Nations Congress on Crime Prevention and Criminal Justice. The Congress is held every five years. The budgeted amount will cover both the preparatory activities in 2014 and the meetings of the Thirteenth Congress in 2015;
 - (b) The implementation of the Political Declaration on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem, by which the Commission on Narcotic Drugs was mandated to conduct a high-level review of the implementation by Member States of the Political Declaration and its Plan of Action at its fifty-seventh session in 2014.

Changes in line with General Assembly resolution 67/248

- 16.15 Resource changes of \$1,223,100 are proposed in line with General Assembly resolution 67/248. The primary areas of resource changes in the amount of \$1,120,700 and the related impact are outlined in table 16.7 below.

The proposed reduction would reduce the capacity of the Board to monitor, examine and assess compliance by parties to the treaties, and call the attention of other parties, the Economic and Social Council and the Commission on Narcotic Drugs when a party fails to provide satisfactory explanation or adopt remedial measures.		<i>Subprogramme 9</i> Table 16.30 (b) (i): “Number of members of the International Narcotics Control Board expressing full satisfaction with the quality and timeliness of substantive services provided by the Secretariat to the Board”. 		While the level of funding provided in the past for the Commission on Narcotic Drugs has been sufficient for the Secretariat to defray the travel costs of the representatives of Member States requesting defrayal of such costs, the reduction would reduce the ability of the Secretariat to continue to do so.		

Changes reflected in the report of the Secretary-General on the budget outline for 2014-2015

- 16.16 Reductions in line with the report of the Secretary-General on the budget outline for the biennium 2014-2015 amount to \$57,500, as outlined in table 16.8 below.

Extrabudgetary resources

- 16.17 During the biennium 2014-2015, extrabudgetary resources projected at \$535,822,400 will complement resources from the regular budget to support substantive, normative and operational activities, concentrating on technical cooperation activities. Extrabudgetary resources represent 92.4 per cent of the total resources for this programme. The estimates for extrabudgetary resources include the core requirements and programme support functions of UNODC. Special-purpose contributions cover the nine subprogrammes and represent the bulk of the resources available to UNODC. The report on the implementation of the consolidated budget for the biennium 2012-2013 for UNODC (E/CN.7/2013/6-E/CN.15/2013/6) provides an update on actual income and expenditures against the resources approved in the consolidated budget, and explains any major deviation from the approved budget. It also provides information on programme performance. The consolidated budget for the biennium 2014-2015 for UNODC will be submitted to the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice at their reconvened sessions in December 2013.

Other information

- 16.18 Pursuant to General Assembly resolution 64/259 on accountability, periodic results-based reviews of the performance of country, regional and thematic programmes are undertaken by the Programme Review Committee comprising senior managers from all four divisions of the United Nations Office at Vienna/UNODC. In addition, divisional workplans are developed, monitored and reported on to the Directors of each Division. A special senior-level working group has been set up to oversee the implementation of recommendations from oversight bodies in a cohesive manner. UNODC has also instituted an annual internal oversight report, which provides quantitative and qualitative information on programme and office management, focusing on administrative and managerial aspects of field operations. With the support of its Independent Evaluation Unit, UNODC strengthened its culture of evaluations at both headquarters and its field offices. Normative tools that facilitated high quality evaluation reports were developed as a basis for planning and evidence-based evaluation recommendations, which were used to increase transparency and to improve decision-making processes. Evaluation capacity-building measures that highlight the need to consider evaluation requirements at the design state of programmes and projects were implemented at headquarters and in the field.
- 16.19 UNODC has made progress in implementing its integrated programme approach. Evaluation results indicate that a more effective alignment of functions at headquarters has led to more coherence at the field level, and to more policy, sector and programmatic interventions, particularly through the establishment of regional and thematic programmes. Significant progress was made in the design of the regional programmes that contributed to the full complementarity between the thematic and regional programmes; this ensured the effective implementation of normative policy in support of the relevant United Nations conventions and protocols at the country and regional levels and also increased regional cooperation and strategic cross-border initiatives. The integrated programme approach has also facilitated a continuity and better integration between activities to support Member States in their development of standards and norms, the development of studies and technical assistance tools to implement such normative framework as well as the provision of advice and technical assistance to Member States. Experiences and best practices gained through technical assistance better flow back into the normative and tools development work of the Office, which in turn nurtures the advice and assistance provided to Member States. Expertise needed at the headquarters level for those functions are now concentrated in one unit and prior issues of an interdivisional lack of communication and cooperation within that specific thematic area have thus been overcome. New thematic programmes adopted in 2012 include the thematic programme on crime prevention and criminal justice reform for the period 2012-2015, the thematic programme for action against corruption and economic crime and the thematic programme on terrorism prevention. UNODC currently has eight regional programmes in: (a) East Asia and the Pacific; (b) Eastern Africa; (c) Southern Africa; (d) Central America; (e) South-Eastern Europe; (f) West Africa; (g) Arab States; and (h) Afghanistan and neighbouring countries; while the regional programmes for South Asia and for the Caribbean are in an advanced phase of formulation.
- 16.20 Pursuant to General Assembly resolution 58/269, resources identified for the conduct of monitoring and evaluation for this section are estimated at \$3,884,700 (reflected under executive direction and management, and subprogrammes 1 to 9). These include \$1,435,200 from regular budget, and \$2,449,500 from extrabudgetary resources. The regular budget resources provide for 105.3 work-months at the Professional level and 5.3 work-months at the General Service level, while extrabudgetary resources provide for 44.8 work-months at the Professional level and 57.6 work-months at the General Service level, including non-post requirements. The evaluation function in UNODC is operationally independent through its placement under the Office of the

Executive Director. The development of the evaluation normative tools has allowed the Independent Evaluation Unit to deliver high quality evaluation reports as per its mandate. In 2012, 13 independent project evaluations and 4 in-depth evaluations were completed, and 3 additional in-depth evaluations were initiated in the same year. The ownership of the evaluation principles in UNODC is high. Senior management strongly advocates ensuring that evaluation norms are standard mainstream across the organization. The Independent Evaluation Unit informs senior management and Member States about findings coming from evaluations, fostering an evidence-based dialogue on conclusions and recommendations that lead to transformational change.

- 16.21 The issuance of publications as part of the programme of work has been reviewed in the context of each subprogramme. It is anticipated that recurrent and non-recurrent publications will be issued as summarized in table 16.9 below and as distributed in the output information for each subprogramme.

Table 16.9 **Summary of publications**

- 16.22 The activities of UNODC are carried out in close coordination and collaboration with other international organizations and entities of the United Nations system. The United Nations system task force on transnational organized crime and drug trafficking continued to develop a system-wide response to transnational organized crime and drug trafficking, as well as a road map of key activities. UNODC regional and country representatives engage with United Nations country teams in order to create task forces at both the regional and country levels, aimed at strengthening high-level policy dialogues with regional entities and partner countries to foster the necessary political commitment, and at promoting areas of collaboration and joint programmes among the members of the task force.
- 16.23 UNODC chaired the Global Migration Group from July to December 2012. The Group produced a joint thematic paper addressing the human rights approach to the exploitation and abuse of international migrants. The Group also discussed preparations for the High-level Dialogue on International Migration and Development. UNODC continued to participate in and administer the Inter-Agency Coordination Group against Trafficking in Persons and the United Nations Global Initiative to Fight Human Trafficking.
- 16.24 Coordination and cooperation with partners in the Counter-Terrorism Implementation Task Force and the Counter-Terrorism Executive Directorate prevented a duplication of effort. In 2012, two joint UNODC-Counter-Terrorism Executive Directorate technical assistance projects to be implemented in the 2013-2014 period were launched to strengthen the capacity of countries in South Asia to support and protect victims and witnesses in terrorism cases, and to build effective central authorities for international judicial cooperation in terrorism cases. Throughout 2012, UNODC continued to contribute to the Counter-Terrorism Implementation Task Force Integrated Assistance for Countering Terrorism initiative and thematic working groups. As a lead member of the Counter-Terrorism Implementation Task Force Working Group on Countering the Use of the Internet for Terrorist Purposes, UNODC developed and launched in October 2012 a technical

assistance tool on the use of the Internet for terrorist purposes. Cooperation within the Rule of Law Coordination and Resource Group was further strengthened. UNODC was entrusted by the Secretary-General, together with the Office of Legal Affairs and the Office of the United Nations High Commissioner for Human Rights (OHCHR), with enhancing the rule of law at the international level. Together with the World Bank, UNODC participated in the creation of the Global Forum on Law, Justice and Development. By playing an active role in the Forum, UNODC has increased its outreach to international and national partners in the area of rule of law and criminal justice reform, in particular beyond the United Nations system. A joint workplan for the Forum's thematic working group on rule of law and justice reform is being developed, and will lead to development of joint knowledge tools that build on each partner's strengths and added value. The forum is seeking donor support for these joint projects. In the area of urban crime and violence prevention, UNODC cooperated with the United Nations Human Settlements Programme UN-Habitat and the World Health Organization (WHO), including on developing guidelines in these areas. UNODC conducted initiatives concerning children's rights in the administration of justice, together with OHCHR and the Special Representative of the Secretary-General on Violence against Children. These resulted in: (a) a joint initiative in the area of violence against children in the juvenile justice system (including the development of a paper and the organization of joint expert consultation); (b) the participation of UNODC in the inter-agency working group on violence against children, led by the Special Representative of the Secretary-General; (c) the participation of the Special Representative of the Secretary-General in the twenty-first session of the Commission on Crime Prevention and Criminal Justice, held in 2012; and (d) the organization of a high-level panel event at the margins of the sixty-seventh session of the General Assembly. UNODC launched a global programme against corruption covering several regions, which was jointly developed with the United Nations Development Programme (UNDP), to complement, through parallel workplans, the activities undertaken by UNDP under its Global Programme on Anti-Corruption for Development Effectiveness. Both entities also launched a joint project against corruption for the Pacific region.

Commission on Crime Prevention and Criminal Justice

- 16.25 The Commission on Crime Prevention and Criminal Justice is a functional body of the Economic and Social Council. It is the principal policymaking body of the United Nations in crime prevention and criminal justice and has a membership of 40 Member States. In accordance with the annex to General Assembly resolution 46/152 of 18 December 1991, the Commission has been entrusted with the functions of preparatory body for the United Nations congresses on crime prevention and criminal justice. In addition to being the governing body of the crime programme of UNODC, pursuant to General Assembly resolution 61/252, section XI, the Commission is authorized to approve the budget of the United Nations Crime Prevention and Criminal Justice Fund, including its administrative and programme support costs except expenditures borne by the regular budget of the United Nations.
- 16.26 Pursuant to Commission resolution 16/3, starting in 2007, the Commission holds a resumed session in odd-numbered years, devoted to administrative and budgetary matters. Pursuant to Commission resolution 18/3 and Economic and Social Council decision 2009/251, starting in 2010, the Commission holds resumed sessions of one day's duration in the second half of each year devoted to administrative and budgetary matters as well as to the consideration of the outcome of the

standing open-ended intergovernmental working group on improving the governance and financial situation of the United Nations Office on Drugs and Crime established under that decision. Pursuant to Economic and Social Council decision 2011/259, the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice held in 2011, for the first time, joint meetings during their reconvened sessions.

- 16.27 The Commission holds annual sessions in Vienna of eight working days. During each annual session, the Commission establishes a committee of the whole that meets in parallel with the plenary of the Commission to consider in detail specific agenda items. The Commission may also establish in-session working groups to consider specific agenda items.
- 16.28 The Commission, in its resolution 5/3, requested its Bureau to meet during the periods between sessions and to hold intersessional briefings for the Permanent Missions in preparation for the forthcoming session and submit a report on its intersessional work. Furthermore, in its resolution 2003/31 the Economic and Social Council decided that, starting in 2004, the bureau of the Commission should be elected at the end of its sessions, and encouraged it to play an active role in the preparation of the annual and resumed sessions as well as informal intersessional meetings of the Commission, so as to enable the Commission to provide continuous and effective policy guidance to the United Nations crime programme.

Commission on Narcotic Drugs

- 16.29 The Commission on Narcotic Drugs was established in 1946 as a functional Commission of the Economic and Social Council by its resolution 1946/9. The 53-member Commission is the principal policymaking body of the United Nations in international drug control and has specific mandates deriving from international drug control treaties.
- 16.30 The Commission on Narcotic Drugs holds annual sessions of eight days' duration in Vienna and, until the year 2009 held biennial resumed sessions during odd-numbered years, devoted to administrative and budgetary matters. Pursuant to Commission resolution 52/13 and Economic and Social Council decision 2009/251, starting from 2010 the Commission holds resumed annual sessions of one day's duration in the second half of the year devoted to administrative and budgetary matters as well as to the consideration of the outcome of the standing open-ended intergovernmental working group on improving the governance and financial situation of the United Nations Office on Drugs and Crime established under that decision. Pursuant to Economic and Social Council decision 2011/259, the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice held in 2011, for the first time, joint meetings during their reconvened sessions.
- 16.31 During each annual session, the Commission establishes a Committee of the Whole that meets in parallel with the Plenary of the Commission to consider in detail specific agenda items. The Commission may also establish in-session working groups to consider specific agenda items. In its resolution 1999/30, the Economic and Social Council decided that with effect from the year 2000, the Commission on Narcotic Drugs should, at the end of its session, elect its bureau for the subsequent session, and encourage it to play an active role in the preparations of the regular, as well as the intersessional, meetings of the Commission, so as to enable the Commission to provide continuous and effective policy guidance to the drug programme of UNODC.
- 16.32 The Economic and Social Council has established subsidiary bodies of the Commission to coordinate the mechanisms for drug law enforcement cooperation at the regional level. These subsidiary bodies are: (a) the Subcommission on Illicit Drug Traffic and Related Matters in the Near and Middle East, to which there are 23 representatives; and (b) the regional meetings of the

operational heads of national drug law enforcement agencies for Africa, Asia and the Pacific, Europe and Latin America and the Caribbean, whose membership is based on that of the relevant regional commission. Their meetings also bring together observers from States that are not members of the respective body, as well as observers from regional intergovernmental organizations that are active in support of drug law enforcement. The subsidiary bodies of the Commission meet annually for five working days each, except for the Conference of Heads of National Drug Law Enforcement Agencies in Europe, which meets biennially, also for a period of five working days.

Standing open-ended intergovernmental working group on improving the governance and financial situation of the United Nations Office on Drugs and Crime

- 16.33 The Economic and Social Council in its decision 2009/251 established the standing open-ended intergovernmental working group on improving the governance and financial situation of the United Nations Office on Drugs and Crime. In that decision, the Council called upon the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice to carry out a thorough review of the functioning of the working group and consider the extension of its mandate. In 2011, the Council adopted decision 2011/258, by which it renewed the mandate of the working group until the first half of 2013. It is anticipated that the mandate of the working group will be extended and cover also the biennium 2014-2015.
- 16.34 Since its inception in 2009, the working group has played an important role in preparing decisions and action by the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice in a number of key areas, including strategic and budgetary matters, the programmatic work of UNODC and its financial situation, evaluation and oversight and improving the methods of work of the Commissions.
- 16.35 The standing open-ended working group held three formal (with interpretation services) and 33 informal meetings (without interpretation services), 19 of which were held during the biennium 2010-2011 and 9 during 2012, as well as a number of informal consultations held under its auspices, all requiring substantive servicing and preparation of documentation by the Secretariat.
- 16.36 It is anticipated that similar requirements would arise in the biennium 2014-2015 requiring the allocation of staff to substantively service the meetings as well as conference management resources in the respects of conference facilities, documentation and interpretation services. Any such additional requirements will be presented to the Commissions in the context of financial implications in relation to a call for the extension of the mandate of the working group.

Commission on Narcotic Drugs: implementation of the Political Declaration on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem

- 16.37 In the biennium 2014-2015, pursuant to the Political Declaration and Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem, adopted by the Commission during the high-level segment of its fifty-second session in 2009 and by the General Assembly in its resolution 64/182, the Commission is called to conduct, at its fifty-seventh session in 2014, a high-level review of the implementation by Member States of the Political Declaration and Plan of Action. In the same mandate, it was recommended that the

Economic and Social Council devote a high-level segment to a theme related to the world drug problem, and that the General Assembly hold a special session to address the world drug problem.

- 16.38 Pursuant to that mandate, the Commission is expected to act as preparatory body to the envisaged high-level review of the Commission and play a leading role in the preparatory process for the high-level segment and special session of the Council and the General Assembly, respectively. It is envisaged that the preparatory process will involve a significant volume of preparatory work through intersessional meetings for consultations among Member States. These meetings will focus on the review and analysis of information gathered since the high-level segment of the fifty-third session of the Commission in 2009 as well as for the formulation of proposals for the consideration of the high-level segment of the fifty-seventh session of the Commission, including negotiations by Member States on an outcome document.
- 16.39 It is envisaged that the Council will decide to devote a meeting in 2014 to a theme related to the world drug problem, the discussion of which will include the consideration of the outcome of the high-level review of the Political Declaration by the Commission on Narcotic Drugs in March 2014. This is also to be considered in the context of the efforts made by the Council, pursuant to its resolution 2012/30, to strengthen its role in the integrated and coordinated implementation of, and follow-up to, the outcomes of the major United Nations conferences and summits, in the light of relevant General Assembly resolutions, including resolution 61/16, and to draw on contributions by the functional commissions.
- 16.40 In paragraph 44 of its resolution 67/193, the General Assembly decided to convene, in early 2016, a special session of the General Assembly on the world drug problem, following the high-level review of the Commission on Narcotic Drugs in March 2014. It is expected that the Commission on Narcotic Drugs, as the central policymaking body within the United Nations system dealing with drug-related matters, will be requested to perform a leading role in the preparatory process. Concrete organizational modalities for the preparations and conduct of the special session will be dealt with by the General Assembly at a later stage.
- 16.41 In its resolution 56/12, the Commission decided that the high-level review of the progress made in the implementation by Member States of the Political Declaration and its Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem would be held during the fifty-seventh session of the Commission on Narcotic Drugs, in 2014, for a period of two days, in addition to the five days usually scheduled for the regular sessions of the Commission in the first half of the year. The Commission further decided that intersessional meetings would be held before the high-level review, within existing regular budget resources, devoted to preparing for the high-level review and to assessing the progress made in the implementation of the Political Declaration and Plan of Action.
- 16.42 It is anticipated that in order to service this process, namely (a) the preparations for, and conduct of, the high-level review by the Commission on Narcotic Drugs, as well as (b) the follow-up to the high-level review, including a leading role to be played by the Commission on Narcotic Drugs in the preparatory process for the special session of the General Assembly on the world drug problem, to be convened in early 2016 pursuant to General Assembly resolution 67/193, the substantive secretariat will be requested to service an increased number of informal and formal intersessional consultations by Member States in the biennium 2014-2015, and to prepare additional background documents, analytical reports, discussion papers and outcome summaries.

United Nations Congress on Crime Prevention and Criminal Justice

- 16.43 The United Nations Congress on Crime Prevention and Criminal Justice (earlier entitled “United Nations Congress on the Prevention of Crime and the Treatment of Offenders”) is held every five years and provides a forum for: (a) the exchange of views among States, intergovernmental organizations, non-governmental organizations and individual experts representing various professions and disciplines; (b) the exchange of experience in research, law and policy development; (c) the identification of emerging trends and issues in crime prevention and criminal justice; (d) the provision of advice and comments on selected matters submitted to it by the Commission; and (e) the submission of suggestions for the consideration of the Commission regarding possible subjects for the programme of work.
- 16.44 A meeting of the Intergovernmental Group of Experts on Lessons Learned from United Nations Congresses on Crime Prevention and Criminal Justice was held in Bangkok from 15 to 18 August 2006 (E/CN.15/2007/6), the report of which was endorsed by the General Assembly in its resolution 62/173.
- 16.45 The Twelfth United Nations Congress on Crime Prevention and Criminal Justice was held in Salvador, Brazil, in 2010. In the Salvador Declaration on Comprehensive Strategies for Global Challenges: Crime Prevention and Criminal Justice Systems and Their Development in a Changing World, subsequently endorsed by the General Assembly (resolution 65/230, annex), Member States welcomed with appreciation the offer of the Government of Qatar to act as host to the Thirteenth United Nations Congress on Crime Prevention and Criminal Justice, in 2015.
- 16.46 In its resolution 67/184, the General Assembly decided that the duration of the Thirteenth Congress should not exceed eight days, including pre-Congress consultations; that the main theme of the Thirteenth Congress would be “Integrating crime prevention and criminal justice into the wider United Nations agenda to address social and economic challenges and to promote the rule of law at the national and international levels, and public participation”; that the Thirteenth Congress should include a high-level segment in which States are invited to be represented at the highest possible level; that the Thirteenth Congress should adopt a single declaration, to be submitted to the Commission on Crime Prevention and Criminal Justice for its consideration. The Assembly further requested the Secretary-General to prepare a discussion guide for the regional preparatory meetings and for the Thirteenth Congress in a timely manner in order to enable those meetings to be held as early as possible in 2014; and requested the Secretary-General to facilitate the organization of regional preparatory meetings for the Thirteenth Congress and to make available the necessary resources for the participation of the least developed countries in those meetings and in the Congress itself, in accordance with past practice and in consultation with Member States.
- 16.47 The first session of the Commission following the Thirteenth United Nations Crime Congress in 2015 would, pursuant to an established multi-year programme of work, transmit the outcomes and recommendations of the Congress through the Economic and Social Council to the General Assembly, including any follow-up measures that might be required, as well as begin consultations on preparations for the next congress.
- 16.48 The quinquennial crime congresses are a cross-divisional activity undertaken by UNODC with the lead role, in previous bienniums, falling to the Division of Treaty Affairs.

International Narcotics Control Board

- 16.49 The International Narcotics Control Board is a treaty-based quasi-judicial body responsible for evaluating, promoting, assisting Governments in, and monitoring their compliance with, the provisions of the three international drug control treaties. The 13-member independent Board — consisting of 10 members elected by the Economic and Social Council from candidates proposed by Member States and 3 from candidates proposed by WHO — assesses national and international drug control efforts, establishes and maintains an ongoing dialogue with Governments, conducts technical training and publishes various annual and technical reports mandated under the conventions (the Single Convention on Narcotic Drugs of 1961; the Convention on Psychotropic Substances of 1971; the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988). In the event that a country fails to cooperate with the Board or a country takes an action that may endanger the aims of the conventions, that country may consequently face measures invoked under article 14 of the Single Convention on Narcotic Drugs, article 19 of the Convention on Psychotropic Substances or article 22 of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances.
- 16.50 Pursuant to the 1961 Convention, the Board is required to hold a minimum of two sessions per year. At its sixty-ninth session, held in November 2000, the Board decided, by its decision 69/57, to hold three sessions every year. During the biennium 2014-2015, the Board is expected to hold five sessions in Vienna. During these sessions the Board holds, inter alia, regular consultations with various international agencies and with Governments, and discusses results of confidential country missions to determine recommendations that will further the aims of the treaties. When not in session, the Board depends on its secretariat to carry out its functions.
- 16.51 Pursuant to article 9 of the 1961 Convention, the Board shall endeavour: (a) to limit the cultivation, production, manufacture and use of drugs to an adequate amount required for medical and scientific purposes; (b) to ensure their availability for such purposes; and (c) to prevent illicit cultivation, production and manufacture of, and illicit trafficking in and use of, drugs. The 1971 Convention and the 1988 Convention assigned additional core mandates to the Board with respect to the control of psychotropic substances, limiting their use for medical and scientific purposes, and the control of precursor chemicals to prevent their diversion to the illicit drug manufacture. Under the 1988 Convention, the Board also is responsible for evaluating the risk of diversion of chemicals and making recommendations to the Commission on Narcotic Drugs on their possible inclusion under international control. In addition to its treaty-based responsibilities, the Board was also entrusted with additional tasks by the Economic and Social Council as well as the General Assembly at its twentieth special session on the world drug problem, held in 1998, to assist Governments in strengthening controls over amphetamine-type stimulants.
- 16.52 The Board continually examines the functioning of the international drug control regime, identifies shortcomings in the implementation by Governments of the three main international drug control treaties, and formulates recommendations for further action addressed to national drug control agencies and relevant international and regional organizations. Those recommendations, which are aimed at assisting Governments in fully complying with their treaty obligations and at further developing the international drug control regime, are included every year in the annual report of the Board, for dissemination to all Governments. In addition, the Board produces the annual report on the implementation of article 12 of the 1988 Convention and two annual technical publications on narcotic drugs and psychotropic substances.

Conference of the Parties to the United Nations Convention against Transnational Organized Crime

- 16.53 The United Nations Convention against Transnational Organized Crime and the three Protocols thereto were adopted by the General Assembly in resolutions 55/25 and 55/255. The Convention entered into force on 29 September 2003. The Protocol against the Smuggling of Migrants by Land, Sea and Air entered into force in January 2004, the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, in July 2005, and the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, in December 2005.
- 16.54 Since its adoption, the level of ratification of the Convention and the Protocols thereto has increased steadily, reaching near universal adherence of the Convention, with 174 State parties, 154 parties to the Trafficking Protocol, 135 to the Smuggling Protocol and 97 parties to the Firearms Protocol. Several others have announced imminent ratification.
- 16.55 In accordance with article 32 of the Convention, a Conference of the Parties to the Convention was established to improve the capacity of States parties to combat transnational organized crime and to promote and review the implementation of the Convention and the Protocols thereto. In resolution 55/25, the General Assembly requested the Secretary-General to designate UNODC to serve as the secretariat for the Conference of the Parties. In accordance with article 1 of each of the three Protocols to the Convention, the Conference is mandated to perform the same functions for those Protocols.
- 16.56 Since the Convention entered into force, the Conference of the Parties has held six sessions — two sessions during the biennium 2004-2005, the third session during the biennium 2006-2007, the fourth session during the biennium 2008-2009, the fifth session during the biennium 2010-2011 and the sixth session during the biennium 2012-2013. The Conference will hold its seventh session during the biennium 2014-2015.
- 16.57 Over its six sessions to date, the Conference has steadily increased its mandates for secretariat services from UNODC. The second session decided to establish the technical assistance and international cooperation working groups. The fourth session established a working group on trafficking in persons. The fifth session, held in 2010, doubled the number of working groups, by establishing one on smuggling of migrants, one on firearms and one on the review of implementation of the Convention against Transnational Organized Crime and the Protocols thereto.
- 16.58 Each working group advises the Conference on specific aspects of the Convention and the Protocols thereto and makes recommendations concerning the implementation of the instruments. Providing administrative and substantive support to these meetings incurs significant financial and human resources, which have not increased concurrently.
- 16.59 The outputs and resource requirements related to the Conference of the States Parties to the Convention are included under subprogramme 1, Countering transnational organized crime and illicit drug trafficking.

Conference of the States Parties to the United Nations Convention against Corruption

- 16.60 Since the adoption of the United Nations Convention against Corruption by the General Assembly on 31 October 2003, 165 States parties (including the European Union) have ratified or acceded to the Convention. The common goal is to reach universal adherence to the Convention, which is an achievable aim, in view of the large number of ratifications and accessions received over a short period of time.
- 16.61 Pursuant to article 63 of the Convention, the Conference of the States Parties to the United Nations Convention against Corruption was established to improve the capacity of and cooperation between States parties to achieve the objectives set forth in the Convention and to promote and review its implementation. UNODC is the secretariat to the Conference, which provides policy guidance to UNODC for the development and execution of anti-corruption-related activities.
- 16.62 The Conference has held four sessions to date: the first session in Amman, from 10 to 14 December 2006; the second session in Nusa Dua, Indonesia, from 28 January to 1 February 2008; the third session in Doha, from 9 to 13 November 2009; and the fourth session in Marrakech, Morocco, from 24 to 28 October 2011. The fifth session will be held in Panama in 2013.
- 16.63 At its different sessions, in addition to regularly calling upon States parties and signatories to adapt their laws and regulations to bring them into conformity with the provisions of the United Nations Convention against Corruption, the Conference has adopted far-reaching resolutions and has mandated UNODC to implement them, including through the development of technical assistance projects. In particular, the Conference, at its third session, adopted landmark resolution 3/1 on the review of the implementation of the Convention, which established a review mechanism aimed at assisting countries to meet the objectives of the Convention through a peer review process. This aims to further enhance the potential of the Convention, by providing the means for countries to assess progress in the implementation through the use of a comprehensive self-assessment checklist; identify potential gaps; and develop action plans to strengthen the implementation of the United Nations Convention against Corruption domestically.
- 16.64 The Conference currently has the Implementation Review Group and two working groups to further the implementation of specific aspects of the Convention (asset recovery and prevention) as well as expert group meetings on international cooperation, which meet regularly in the intersessional period.
- 16.65 The outputs and resource requirements related to the Conference of the States Parties to the Convention are included under subprogramme 3, Countering corruption.
- 16.66 The distribution of resources for policymaking organs is reflected in table 16.10 below.

Table 16.10 **Resource requirements: policymaking organs**

Category	Resources (thousands of United States dollars)		Posts

Total	1 334.1	2 073.3	–	–

- 16.67 Non-post resources totalling \$2,073,300, reflecting an increase of \$739,200, will provide for the travel costs of the members of the two Commissions, the subsidiary bodies of the Commission on Narcotic Drugs, and the International Narcotics Control Board to attend their meetings. They will also provide for Board members to conduct local inquiries in accordance with article 14 of the Single Convention on Narcotic Drugs of 1961, as amended by the 1972 Protocol. The increase of \$739,200 is attributable to one-time requirements in the amount of \$849,200 related to the Thirteenth United Nations Congress on Crime Prevention and Criminal Justice, offset by a reduction of \$110,000 in travel of representatives to the Commission on Narcotic Drugs and International Narcotics Control Board, representing changes proposed in line with General Assembly resolution 67/248, as reflected in table 16.7, item 3, “reduced representation”, of the present report.

B. Executive direction and management

Resource requirements (before recosting): \$1,668,700

- 16.68 The Executive Director is responsible for coordinating and providing effective leadership for all United Nations drug control and crime prevention activities to ensure the coherence of actions within the programme and the coordination, complementarities and non-duplication of such activities across the United Nations system. In that capacity, the Executive Director participates in the work of the United Nations System Chief Executives Board for Coordination. The Executive Director acts on behalf of the Secretary-General in fulfilling the responsibility that devolves upon him under the terms of international treaties and resolutions of United Nations organs relating to international drug control or crime prevention. The responsibilities are combined with those of the Director-General of the United Nations Office at Vienna. The Office of the Executive Director is integrated with that of the Director-General and is supported with resources from the regular budget under part C of section 1, Overall policymaking, direction and coordination.
- 16.69 The core functions of the Office of the Executive Director are: (a) to assist the Executive Director in the overall executive direction and management of UNODC; (b) to facilitate inter-office cooperation in the implementation of workplans and administrative matters; (c) to ensure the timely implementation of decisions and coordination of inputs from all organizational units to the activities of the Office; and (d) to support the Executive Director in the overall leadership and coordination of the activities of UNODC with extensive research and substantive information to advise on issues of policy, resources and results management.
- 16.70 The Independent Evaluation Unit reports to the Executive Director. It provides independent and impartial information on the relevance, efficiency, effectiveness, sustainability and impact of UNODC operations. As evaluation is an institutional responsibility and a key indicator of accountability, since 2010, Member States and UNODC have identified the need to strengthen the evaluation culture within the Organization. In response, the Independent Evaluation Unit has created an evaluation culture road map, built on three main pillars: (a) leading and disseminating in-depth evaluations and backstopping independent project evaluations and participatory self-evaluations; (b) building evaluation capacity at headquarters, at the field level and within Member States; and (c) developing evaluation normative tools, an evaluation handbook and a tracking system of evaluation recommendations. With the aim of further strengthening the project-cycle management and evaluation culture and capacity throughout UNODC, additional evaluation management training, as well as a network of evaluation focal points in the field, is planned.

- 16.74 The amount of \$1,668,700 provides for the continuation of four posts (1 Under-Secretary-General, 1 P-5, 1 P-4 and 1 P-3), and non-post resources for other staff costs, consultants, hospitality, official travel of staff, general operating expenses, and supplies and materials. The increase of \$121,900 is attributable to the delayed impact of one P-4 post established in the 2012-2013 biennium, offset by a reduction of \$28,500 under non-post items, including consultants, travel of staff, and hospitality, proposed in line with resolution 67/248.
- 16.75 The Office of the Executive Director is integrated with that of the Director-General of the United Nations Office at Vienna. Resources for direct support of the combined offices are provided under part C of section 1, Overall policymaking, direction and coordination, while administrative support is provided under section 29G, Administration, Vienna.
- 16.76 Extrabudgetary resources estimated at \$4,684,800 would provide for 10 posts in the Office of the Executive Director and in the Independent Evaluation Unit, and non-post expenditures in particular for the development of evaluation capacity and evaluation management training. These resources will enable the Independent Evaluation Unit to further carry out evaluations, to develop evaluation capacity both at headquarters and in the field offices, to build up the established system of follow-up on the implementation of recommendations, and to provide regular evaluation guidance material.

Convention against Transnational Organized Crime, in the strengthening of their legal, institutional and operational capacities to implement the provisions of the Convention and the Protocols thereto at the domestic level and to cooperate internationally towards the establishment of a functional universal legal regime against transnational organized crime.

- 16.100 The amount of \$2,633,400 would provide for eight posts (1 D-1, 1 P-5, 3 P-4, 1 P-3 and 2 General Service (Other level)) and non-post resources relating to consultants and experts, travel of staff and contractual services. The decrease of \$112,200 is attributable to: (a) an increase of \$150,400 as the delayed impact of one P-4 post approved in the biennium 2012-2013; (b) a reduction of \$263,400 related to the proposed abolishment of one post of Programme Officer (P-3), in line with resolution 67/248, as reflected in table 16.7, item 1, “redistribution of work relating to technical assistance and participation in meetings”, of the present report; and (c) a minor increase of \$800 under non-post reflecting the net result of various adjustments based on expenditure pattern and programme needs.
- 16.101 Extrabudgetary resources estimated at \$19,611,900 would complement regular budget resources through the provision of legal advisory and technical assistance services to Member States. Overall special priority will be given to (a) UNODC legal assistance with regard to the ratification and implementation of the international legal instruments against terrorism and (b) capacity-building of national criminal justice systems to apply the provisions of the legal regime against terrorism in full conformity with the principles of the rule of law and human rights.

- (a) Servicing of intergovernmental and expert bodies (regular budget):
 - (i) Commission on Crime Prevention and Criminal Justice:

16.106 The amount of \$2,609,200 provides for eight posts (1 P-5, 4 P-4, 2 P-3, 1 P-2) and non-post requirements, including general temporary assistance, consultants and experts, travel of staff and contractual services. The decrease of \$18,500 is the net effect of: (a) an increase of \$150,400 related to the delayed impact of one P-4 post approved during the biennium 2012-2013; (b) a reduction of \$168,900 related to the abolition of one General Service (Other level) post of Programme Assistant, offset by a one-time provision of general temporary assistance to cover the period until the retirement of the incumbent, proposed in line with resolution 67/248, as reflected in table 16.7, item 2, “reduction in substantive support from assistants”, of the present report.

16.107 Extrabudgetary resources estimated at \$54,110,600 would complement regular budget resources and provide the bulk of the funding for the subprogramme. During the biennium 2014-2015, extrabudgetary resources are expected to have a continued impact on the achievement of the programme and its operationalization. In particular, technical cooperation activities will continue to be funded largely from extrabudgetary resources. Extrabudgetary resources are also necessary to complement regular budget resources for activities in crime prevention and criminal justice areas, including for the development of tools and manuals, the provision of training, advisory and programming missions as well as the provision of specialized expertise, either directly from the UNODC headquarters or through field offices.

Total	75 547.7	72 528.7	84	83

16.112 The amount of \$6,148,500 provides for 19 posts (1 D-2, 3 P-5, 5 P-4, 5 P-3, 1 P-2, 1 General Service (Principal level) and 3 General Service (Other level)) and non-post resources, including general temporary assistance, consultants and experts, travel of staff, contractual services, general operating expenses, and supplies and materials. The net decrease of \$47,000 is attributable to: (a) an increase of \$150,400 as the delayed impact of one P-4 post approved in the biennium 2012-2013; (b) a reduction of \$176,200 related to the abolishment of one General Service (Other level) post of Research Assistant proposed in line with resolution 67/248, as reflected in table 16.7,

item 2, “reduction in substantive support from assistants”, of the present report; and (c) a net decrease of \$21,200 under non-post resources reflects changes in line with resolution 67/248, mainly in the areas of external printing and maintenance of scientific analytical equipment.

- 16.113 Extrabudgetary resources estimated at \$66,380,200 would complement regular budget resources and provide the bulk of the subprogramme’s activities. They are used to supplement or expand activities funded from the regular budget for research and trend analysis on the drugs and crime phenomenon such as the publication of the annual *World Drug Report*, the biennial *Global Report on Trafficking in Persons* and the preparation of high-profile global and regional threat assessments and thematic studies on drugs and crime. Extrabudgetary resources are also used to support and advise Member States on data collection and monitoring work. In the laboratory and scientific sector, extrabudgetary resources supplement regular budget funds required to implement activities by providing a significant part of the funds required to implement normative and technical cooperation activities designed to assist governments in complying with treaty provisions, building forensic capacity and improving the performance of those professionals responsible for providing scientific support at the national level. Extrabudgetary resources are also used to supplement or expand activities funded from the regular budget for standardization of forensic capabilities, implementation of best practices in forensics, quality laboratory data generation and promoting the use of scientific and forensic findings in strategic operations. Extrabudgetary resources also include the activities of the United Nations Interregional Crime and Justice Research Institute (UNICRI).

16.118 The amount of \$1,694,600 provides for five posts (1 D-1, 2 P-5, 1 P-3, 1 P-2) and non-post expenditures, including travel of staff and contractual services. The increase of \$190,300 is attributable to: (a) an increase of \$191,600 under post reflecting the delayed impact of one D-1 post approved in the biennium 2012-2013; and (b) a decrease of \$1,300 under non-post resources reflects reductions in external printing, proposed in line with General Assembly resolution 67/248.

16.119 Extrabudgetary resources estimated at \$11,694,500 would complement regular budget resources in the implementation of the subprogramme. Extrabudgetary funds are used to develop normative results-based management frameworks for programming purposes; to conduct dialogues with donor Governments, Member States, international organizations and private sector entities to mobilize resources; to organize special events such as the International Day against Drug Abuse and Illicit Trafficking and the International Anti-Corruption Day; to improve on website design, development and content; to produce and disseminate public information materials; to strengthen dialogue and partnership with civil society and non-governmental organizations; and to coordinate with other United Nations agencies on issues related to drugs and crime.

- 16.124 The amount of \$1,430,800 provides for five posts (1 D-1, 2 P-4 and 2 General Service (Other level)) and non-post requirements for travel of staff. The decrease of \$207,300 is attributable to: (a) a decrease of \$176,200 under post resources due to the outward redeployment of one General Service (Other level) post to subprogramme 1, as a result of the streamlining of the monitoring and support functions in the Division for Treaty Affairs and in the Division for Operations; and (b) a decrease of \$31,100 under other staff costs and travel of staff, proposed in line with resolution 67/248.
- 16.125 Extrabudgetary resources estimated at \$28,403,600 would enable the office to provide management, oversight and backstopping of field office network and to support the development of field office regional and country programmes.

The net increase of \$6,300 under non-post resources is attributable to the new requirement to provide a briefing to permanent missions in New York on the implementation of paragraph 40 of the Political Declaration on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem.

16.131 Extrabudgetary resources estimated at \$2.5 million will complement regular budget resources in the implementation of the subprogramme. Extrabudgetary resources provide funds required to implement the project entitled International Narcotics Control Board Databank for Precursor Control initiated in 1992, which has proven essential in helping the Board to fulfil its core functions established under the 1988 Convention. The project assists the Board and its secretariat in establishing a global regime for the monitoring and control of precursor chemicals as envisaged under the 1988 Convention.

D. Programme support

Resource requirements (before recosting): \$1,092,300

16.132 Support for the programme is provided by the United Nations Office at Vienna for the activities carried out at its headquarters, which comprises the Financial Resources Management Service, the Human Resources Management Service, and the Information Technology Service of the Division for Management, United Nations Office at Vienna and UNODC. All regular budget posts are presented in section 29G, Administration, Vienna.

The decrease of \$57,500 is proposed in line with the Secretary-General's budget outline, and will be achieved through the introduction of best practices such as phasing out personal and work group printers, and using photocopiers or multifunctional machines as printers, as reflected in table 16.8 of the present report.
- 16.135 Extrabudgetary resources estimated at \$30,354,100 would support the programme and financial information management system, shared support services, external and internal audit costs, programme support functions in the Division for Management and the information technology component of technical cooperation projects.

Annex II

Summary of follow-up action taken to implement relevant recommendations of the oversight bodies

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions

(A/67/7)

The Committee requests that detailed organization charts be included in future budget submissions (para. IV.91).

The detailed organizational structure and post distribution of UNODC is provided in annex I to the present report.

The Committee recommends that the Secretary-General be requested to provide, in the context of the budget submission for 2014-2015, an assessment of the realignment exercise and the extent to which the intended goals were achieved (para. IV.92).

Detailed information has been included in paragraph 16.19 of the present document.

Board of Auditors

(A/67/5/Add.9 and Corr.1)

The Board recommended that UNODC revise its financial rules to formally approve revisions of the biennium budget for general purpose funds at the meeting of its governing bodies, usually held in the first quarter of the second year of the biennium. The Board suggested that this revision to the financial rules be undertaken at the same time that UNODC revises its Financial Regulations and Rules in the context of IPSAS implementation (para. 12).

Implementation of the recommendation is in progress; target date for implementation is April 2014 (see A/67/319/Add.1, para. 786).

The Board reiterated part of its previous recommendation that UNODC prepare financial statements that include the balances of UNODC regular budget contributions in its financial statements for 2012-2013 (para. 15).

Implementation of the recommendation is in progress; target date for implementation is April 2014 (see A/67/319/Add.1, para. 788).

The Board recommended that UNODC review its cash holdings with a view to minimizing the amounts on hand. This can be achieved by seeking ways to accelerate programme implementation in a controlled manner and by better matching contributions with realistic deployment schedules (para. 23).

The recommendation is implemented on an ongoing basis (see A/67/319/Add.1, para. 790).

<i>Brief description of the recommendation</i>	<i>Action taken to implement the recommendation</i>
The Board recommended that UNODC (a) require regional representatives to provide evidenced monthly and year-end scrutiny of the financial returns, including obligations, from all country offices in the regions; and (b) institute a mechanism requiring senior field office management to review and sign-off monthly payroll reconciliations (of expected payments to staff against actual payments) (para. 26).	The requirement for a monthly sign-off for payroll verification and asset register has been implemented. The Division for Operations will ensure overall review of returns and full compliance by field offices (ibid., para. 792).
The Board recommended that UNODC (a) strengthen financial management oversight and review in field offices; (b) evaluate the administrative structure within each regional office to ensure that the financial function is proportional to the size and programme in that office; and (c) implement system changes to aid segregation of duties within the regional office finance teams by the end of 2012 (para. 27).	Implementation of the recommendation is in progress (ibid., para. 794).
The Board recommended that UNODC implement a consistent organizational approach to risk management planning (para. 29).	The recommendation is implemented on an ongoing basis (ibid., para. 796).
The Board recommended that UNODC review and strengthen its finance structure within targeted regional and field offices to promote full compliance with all procedures (para. 33).	The recommendation is implemented on an ongoing basis (ibid., para. 798).
The Board recommended that UNODC (a) update and circulate its guidance on handling advance daily subsistence allowance payments for disbursement and issue regular reminders to all staff; and (b) implement spot checks to drive a culture of full compliance in all UNODC offices (para. 36).	Implementation of the recommendation is in progress (ibid., para. 800).
The Board recommended that UNODC account for donations consistently and in accordance with United Nations regulations and rules and that any deviations from the regulations are properly recorded and justified at the point of receipt of the pledge (para. 38).	The recommendation is implemented on an ongoing basis (ibid., para. 801).
The Board recommended that it circulate, to all staff, improved guidance and instructions on income, including the clearance process, to remind them of the criterion for recognizing income (para. 39).	Implementation of the recommendation is in progress. Full implementation is planned for the second quarter of 2013 (ibid., para. 803).

<i>Brief description of the recommendation</i>	<i>Action taken to implement the recommendation</i>
<p>The Board recommended that UNODC record all key information which is vital to its work within the system, available for multi-user purposes, with appropriate and complete cross references to other documentation and documentation of judgments. The Board further recommended that UNODC should also set out the parameters of how it plans to retain such documents and information relating to major processes, in a strategy (para. 42).</p>	<p>Implementation of the recommendation is in progress (ibid., para. 805).</p>
<p>The Board reiterated its recommendation that UNODC develop, in consultation with United Nations Headquarters, a comprehensive and effective solution to the funding of future commitments to its staff (para. 46).</p>	<p>Implementation of the recommendation is in progress (ibid., para. 807). An exposure draft was developed by the Financial Resources Management Service of the United Nations Office at Vienna and was shared with other offices away from Headquarters. The draft is now being considered as a global practice at the United Nations Secretariat level.</p>
<p>The Board recommended that UNODC review the levels of cash and investments it holds on a monthly basis, analyse its cash flow and aid the review of programme and project implementation (para. 50).</p>	<p>The recommendation is implemented on an ongoing basis (ibid., para. 809). Foreign exchange rates and investment returns exposure are regularly measured and monitored. The United Nations Office at Vienna/UNODC has liaised with United Nations Treasury to reduce the risk by holding minimal euro balances. The Executive Committee is advised on the exposure carried.</p>
<p>The Board recommended that UNODC (a) fully cleanse its non-expendable property asset registers; (b) list all separately identifiable assets on the register; (c) include in handover documents the roles and responsibilities of UNODC and the beneficiary; (d) update the field office inventory record to reflect the instances where inventory has been written off by the Property Survey Board; and (e) attach handover documents to the field office inventory record (para. 53).</p>	<p>Implementation of the recommendation is in progress. Target date for full implementation at UNODC headquarters and in field offices is June 2013 (ibid., para. 811).</p>
<p>The Board recommended that UNODC (a) enhance the field office inventory database, so as to capture the costs directly attributable to bringing assets into use; and (b) cleanse the field office inventory data so that the purchase cost and other costs, such as delivery and handling, are captured for existing assets (para. 57).</p>	<p>Implementation of the recommendation is in progress. Target date for full implementation is June 2013 (ibid., para. 813).</p>

<i>Brief description of the recommendation</i>	<i>Action taken to implement the recommendation</i>

The recommendation has been implemented as of April 2012. Delegations of authority for procurement have all been updated (ibid., para. 817).
The Board recommended that UNODC and the United Nations Office at Vienna enhance its procurement performance data by defining its information needs and implementing enhancements to systems (para. 67). The Board recommended that UNODC and the United Nations Office at Vienna communicate urgently, to all requisitioners, and on a regular basis thereafter, as necessary, the importance of timely commencement and completion of procurement processes, to facilitate effective competition and avoid unnecessary expenditure (para. 70).	The recommendation is implemented on an ongoing basis (ibid., para. 821).
The Board recommended that UNODC (a) discuss with United Nations Headquarters whether adequate resource allocations and funding will be made available to UNODC; and (b) revise its local IPSAS implementation plan in the light of progress to date (para. 72).
