Summary of requirements resulting from resolutions and decisions of the Human Rights Council at its twenty-eighth, twenty-ninth and thirtieth sessions and twenty-third special session	94

Summary

The General Assembly, in part V of its resolution 63/263, endorsed the conclusion contained in the report of the Advisory Committee on Administrative and Budgetary Questions ([A/63/629](#)) concerning the merit of an annual presentation to the Assembly of the revised estimates arising from resolutions and decisions adopted by the Human Rights Council. In its resolution 65/281, the Assembly decided to consider, through its Fifth Committee, all financial implications emanating from the resolutions and decisions contained in the annual report of the Council, including those emanating from its September session.

The present report therefore provides estimated resource requirements of \$30,588,100, resulting from resolutions and decisions adopted by the Council at its twenty-eighth to thirtieth sessions and twenty-third special session, held in 2015 (see [A/70/53](#) and Add.1). Of those requirements, the amount of \$10,711,400 relates to activities of a perennial nature and therefore has already been included in the programme budget for the biennium 2014-2015 and the proposed programme budget for the biennium 2016-2017. The remaining requirements of \$19,876,700 are new requirements under the programme budget for the biennium 2014-2015 (\$8,509,400) and the proposed programme budget for the biennium 2016-2017 (\$11,367,300).

With regard to the new requirements of \$8,509,400 under the programme budget for the biennium 2014-2015, (a) the amount of \$4,827,600 relates to commitment authorities approved by the Advisory Committee in 2015 under Assembly resolution 68/249 on unforeseen and extraordinary expenses and the related appropriations are being sought in the context of the second performance report of the programme budget for the biennium 2014-2015 ([A/70/557](#)) taking into account actual expenditure experience, and (b) \$3,681,800 is proposed to be accommodated within the approved appropriations for the biennium 2014-2015.

With regard to the new requirements of \$11,367,300 under the proposed programme budget for the biennium 2016-2017, comprising \$3,354,600 under section 2, General Assembly and Economic and Social Council affairs and conference management, \$7,991,800 under section 24, Human rights, \$4,200 under section 28, Public information, and \$16,700 under section 29F, Administration, Geneva, it is proposed that this amount be appropriated, and as such, would represent a charge against the contingency fund for the biennium 2016-2017.

It is also proposed that, effective from 1 January 2016, three new P-3 posts be established under section 24, Human rights, of the proposed programme budget for the biennium 2016-2017 to support the activities mandated by the Council in its resolutions 28/6 and 28/16, and the President's statement 29/1.

I. Introduction

1. The present annual report is in line with the conclusion of the Advisory Committee on Administrative and Budgetary Questions (see [A/63/629](#), para. 10), endorsed by the General Assembly in part V of its resolution 63/263, on the merit of an annual presentation to the Assembly of the revised estimates arising from resolutions and decisions adopted by the Human Rights Council. The Assembly, in its resolution 65/281, decided to consider, through its Fifth Committee, all financial implications emanating from the resolutions and decisions contained in the annual report of the Council, including those emanating from its September session. The present report is submitted to inform the Assembly of the requirements resulting from resolutions and decision adopted by the Council at its twenty-eighth to thirtieth sessions and twenty-third special session, held in 2015, as contained in its report to the Assembly (see [A/70/53](#) and Add.1¹).

2. The Council adopted a number of resolutions and decisions by which it requested relevant human rights bodies and special procedures mandate holders to continue or undertake additional activities, including meetings. Accordingly, under rule 153 of the rules of procedure of the General Assembly, the Council was provided, where appropriate, with statements of programme budget implications before the adoption of those resolutions and decisions. The Council was informed that the detailed resource requirements would be submitted to the Assembly for its consideration and approval in the context of the revised estimates report, submitted annually, in which it would be determined whether some of the additional requirements could be accommodated from within the approved appropriations of the programme budget for the biennium 2014-2015 and within the proposed programme budget for the biennium 2016-2017, and which of the additional requirements would require an additional appropriation and, as such, would represent a charge against the contingency fund, subject to the procedures established by the Assembly in its resolutions 41/213 and 42/211.

3. With regard to those resolutions and decisions that were orally revised before adoption by the Council, most of the revisions introduced had no impact on the statements of programme budget implications submitted to the Council or the related statements were modified and/or withdrawn. For those that had financial implications (resolutions 28/29 and 29/13, and the President's statement 29/1), the Council was orally advised that the revised financial requirements would be reflected in the context of the revised estimates report.

4. The programme budget implications arising from the resolutions and decisions adopted at the twenty-eighth to thirtieth sessions and twenty-third special session of the Council give rise to total requirements of \$30,588,100. Of those requirements, the amount of \$10,711,400 relates to activities of a perennial nature and therefore has already been included in the programme budget for the biennium 2014-2015 and the proposed programme budget for the biennium 2016-2017. The remaining requirements of \$19,876,700 are new requirements under the programme budget for the biennium 2014-2015 (\$8,509,400) and the proposed programme budget for the biennium 2016-2017 (\$11,367,300).

¹ Although the thirtieth session was concluded on 2 October 2015, the advance version of the report of the Council on its thirtieth session (A/70/53/Add.1) was submitted by the Office of the United Nations High Commissioner for Human Rights (OHCHR) on 16 October 2015.

5. With regard to the new requirements of \$8,509,400 under the programme budget for the biennium 2014-2015, (a) the amount of \$4,827,600 relates to commitment authorities approved by the Advisory Committee in 2015 under Assembly resolution 68/249 on unforeseen and extraordinary expenses and the related appropriations are being sought in the context of the second performance report of the programme budget for the biennium 2014-2015 ([A/70/557](#)), taking into account actual expenditure experience, and (b) \$3,681,800 is proposed to be accommodated within the approved appropriations for the biennium 2014-2015.

6. With regard to the new requirements of \$11,367,300 under the proposed programme budget for the biennium 2016-2017, comprising \$3,354,600 under section 2, General Assembly and Economic and Social Council affairs and conference management, \$7,991,800 under section 24, Human rights, \$4,200 under section 28, Public information, and \$16,700 under section 29F, Administration, Geneva, it is proposed that this amount be appropriated, and as such, would represent a charge against the contingency fund for the biennium 2016-2017.

7. It is also proposed that, effective from 1 January 2016, three new P-3 posts be established under section 24, Human rights, of the proposed programme budget for the biennium 2016-2017 to support the activities mandated by the Council in its resolutions 28/6 and 28/16, and the President's statement 29/1.

8. All the requirements, including proposed funding modalities are summarized in the annex to the present report.

9. In many of the resolutions adopted, the Council requested the Secretary-General and the United Nations High Commissioner for Human Rights to provide all the resources and assistance necessary for the effective fulfilment of the mandates and/or to implement the requested activities from within existing resources (resolutions 28/5 (para. 25), 28/6 (para. 5), 28/7 (para. 3), 28/9 (para. 12), 28/11 (para. 7), 28/14 (para. 7), 28/16 (para. 8), 28/21 (para. 3), 29/13 (para. 20), 29/15 (para. 9), 29/17 (para. 11), 29/18 (para. 15), 30/3 (para. 7), 30/13 (para. 5), 30/19 (para. 28), 30/20 (para. 19), 30/22 (para. 26), and President's statement 29/1 (para. 4)).

10. In each related statement of programme budget implications, the Secretariat drew the attention of the Council to the provisions of section VI of Assembly resolution 45/248 B and subsequent resolutions, the most recent of which was resolution 68/246, in which the Assembly reaffirmed that the Fifth Committee was the appropriate Main Committee of the Assembly entrusted with responsibilities for administrative and budgetary matters and also reaffirmed the role of the Advisory Committee on Administrative and Budgetary Questions.

11. The Advisory Committee, in paragraph 19 of its report [A/69/670](#), requested the Secretary-General to provide detailed information on the criteria and the contractual and procurement arrangements and procedures for the use of non-governmental organizations (NGOs) and other institutions for the collection and analysis of data, and the related internal procedures and staffing required to review such data, and to include this information in future revised estimates reports. In general, the commissions of inquiry do not contract any outside institutions or individuals to collect or analyse data. OHCHR engaged individual consultants on an ad hoc basis to assist the commissions of inquiry whenever specialized expertise was required. In its early stages, the Commission of Inquiry on the Syrian Arab Republic engaged experts to support the collection and analysis of civilian casualty figures, which was

subsequently discontinued, given the lack of access to the affected areas and as the full reliability of such information could not be guaranteed. Since then there has been no arrangement with any external party for collection or analysis of data.

Total	483 900	967 800	967 800	967 800

119. The mandate of the Special Rapporteur falls under the category of activities considered to be of a perennial nature and gives rise to total requirements of \$483,900, of which \$240,500 relate to section 2, General Assembly and Economic and Social Council affairs and conference management, and \$243,400 under section 24, Human rights. The related provisions have been included under the programme budget for the biennium 2014-2015 and the proposed programme budget for the biennium 2016-2017. No additional resources would therefore be required.

120. As detailed in table 33, to implement the requests contained in paragraphs 10 and 11 of the resolution, on the extension of the mandate of the Commission of Inquiry for one year to investigate systematic, widespread and gross violations of human rights in Eritrea with a view to ensuring full accountability, including where

these violations may amount to crimes against humanity, the following activities and one-time resources would be required in 2015 and 2016:

(i) A Coordinator (P-5 level for 12 months) who will be responsible for the overall management of the team; duties will include the coordination of the activities of the secretariat, including defining the methodology and tools to collect and process all data, acting as the main interlocutor with duty bearers, United Nations agencies and stakeholders and liaising with the OHCHR Communication Section for any public statement;

(ii) A Legal Adviser (P-4 level for 11 months), also acting as Reporting Officer, who will advise the Commission on all relevant legal matters and with regard to the applicable legal framework, including international human rights law and international criminal law, on the required legal elements of violations and abuses investigated and on possible accountability mechanisms and requirements, as appropriate in the context under investigation; participate in the discussions on investigation plans and the regular monitoring of their implementation, in particular on legal issues; ensure the legal accuracy of briefings, minutes of meetings and analytical documents as required; and contribute to the drafting of the final report, among other reasons, to ensure its legal accuracy;

(iv) A Human Rights Investigator (P-4 level for 10 months) who will act as the team leader of investigators; develop investigation operational plans; conduct interviews and evidence-gathering activities; ensure that all measures are taken to ensure the protection of victims and witnesses who will cooperate with the Commission; and contribute to the production of the final report;

(v) Two Human Rights Investigators (P-3 level for nine months each) who will be responsible to conduct interviews and all other evidence-gathering activities; duties will include collecting and analysing information pertaining to possible human rights violations and abuses, including from an international criminal law perspective, directly related to the situation under investigation; as well as for witness protection issues; and contribute to the production of the final report;

rights violations are implemented throughout the work of the Commission and that the gender-specific impact of violations is assessed; and will contribute to the production of the final report;

(vii) An Administrative/Logistics Assistant (General Service (Other level) for 12 months) who will assist the team on all issues related to logistics; provide overall administrative assistance to team members for the preparation, conduct and follow-up of all field missions; support the planning and organization of investigative team meetings and assist on all issues related to human resources, budget and archiving of documents;

(viii) A Security Officer (P-3 level for two months) who will liaise with the Department of Safety and Security of the Secretariat, provide advice on the security aspects related to the preparation of field missions, and coordinate all aspects of security with the relevant authorities with the technical support of the OHCHR security, as required; she/he will accompany the team members during all field activities;

(b) Individual contractor for a Tigrinya language Interpreter/Translator (for nine months), who will provide interpretation of witness statements, including those given by Skype, and translate the written materials;

(e) General operating expenses, including local transportation, rental of conference room, office supplies, communications, recruitment of local interpreter and other miscellaneous expenses during field visits;

(f) Conference services for the translation and processing of the report and interpretation during field missions;

(g) General temporary assistance for Human Resources Officer at the P-3 level for six weeks (one and a half months) to support recruitment and on-boarding of new staff joining the Secretariat.

121. Given that the Special Rapporteur would concurrently serve as one of the members of the Commission of Inquiry, her travels to Geneva and Eritrea are not included among the additional travel resource requirements indicated in table 32 above. The perennial allocation of travel and related resources under the Special Rapporteur mandate would be utilized for her participation in the meetings and field visits associated with the Commission of Inquiry, where applicable, in replacement of the annual mandated travels, thereby reducing the costs associated with the Commission.

Efforts would be made to meet the additional resources of \$20,400 for section 29F, Administration, Geneva, of the programme budget for the biennium 2014-2015, from within the approved appropriations. Net additional resources of \$1,119,800, including \$238,600 under section 2, General Assembly and Economic and Social Council affairs and conference management, and \$881,200 under section 24, Human rights, of the proposed programme budget for the biennium 2016-2017, would be required.

208. With regard to the new requirements of \$11,367,300 under the proposed programme budget for the biennium 2016-2017, comprising \$3,354,600 under section 2, General Assembly and Economic and Social Council affairs and conference management, \$7,991,800 under section 24, Human rights, \$4,200 under section 28, Public information, and \$16,700 under section 29F, Administration, Geneva, it is proposed that this amount be appropriated, and as such, would represent a charge against the contingency fund for the biennium 2016-2017.
