Overall orientation

- 10.1 The legislative authority for the programme derives from General Assembly resolutions: resolution 56/227, whereby the Assembly decided to establish the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States; resolution 65/280, whereby the Assembly endorsed the Istanbul Declaration and the Programme of Action for the Least Developed Countries for the Decade 2011-2020; resolution 58/201, whereby the Assembly endorsed the Almaty Programme of Action: Addressing the Special Needs of Landlocked Developing Countries within a New Global Framework for Transit Transport Cooperation for Landlocked and Transit Developing Countries and the Almaty Declaration; resolution 63/2, whereby the Assembly adopted the outcome document of the high-level meeting of the sixty-third session of the Assembly on the midterm review of the Almaty Programme of Action; resolution 69/137 whereby the General Assembly endorsed the Vienna Programme of Action for the Landlocked Developing Countries for the Decade 2014-2024; resolution 59/311, whereby the Assembly endorsed the Mauritius Declaration and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States; and resolution 69/15 whereby the General Assembly endorsed the “SIDS Accelerated Modalities of Action (SAMOA) Pathway” (Samoa Pathway).
- 10.2 The mandate of the programme covers four main elements:
 - (a) Mobilization and coordination of international support and resources for the effective implementation of: (i) the Istanbul Programme of Action for the Least Developed Countries for the Decade 2011-2020; (ii) the Vienna Programme of Action for the Landlocked Developing Countries for the Decade 2014-2024; and (iii) Samoa Pathway;
 - (b) Enhanced monitoring and follow-up to the three programmes of action;

- (c) Awareness-raising and advocacy with respect to the three groups of countries (least developed countries, landlocked developing countries and small island developing States) and their respective programmes of action;
 - (d) Reporting on the implementation of the programmes of action as effective tools for reaching the international development goals of the three groups of countries.
- 10.3 The programme will also contribute to achieving the internationally agreed development goals, including those contained in the United Nations Millennium Declaration and in the post-2015 development agenda and the sustainable development goals and in the outcomes of major United Nations conferences and international agreements. It will mobilize international support in favour of its three groups of constituencies in the areas of capacity-building and increased technical and financial resources in promoting sustained growth and sustainable development. Gender mainstreaming and women's empowerment are an important dimension in the implementation of the three programmes of action.
- 10.4 The overall programme of work of the Office of the High Representative is designed around three interdependent and complementary subprogrammes, namely, subprogramme 1, Least developed countries, subprogramme 2, Landlocked developing countries, and subprogramme 3, Small island developing States.
- 10.5 The Office of the High Representative will use a combination of the following approaches and strategies:
 - (a) Raising awareness and advocating that the concerns of the three groups of countries be placed high on the global development cooperation agenda, to maintain the focus on their special needs;
 - (b) Monitoring and follow-up to foster supportive policies in groups of countries in special situations and their development partners in accordance with their respective programmes of action and other internationally agreed development goals, including the post-2015 development agenda and the sustainable development goals;
 - (c) Working with development partners, United Nations system organizations and other international and regional organizations, as well as parliaments and civil society, to ensure the mainstreaming of priorities identified in each of the three programmes of action at the national level, enhancing coherence between global policies and national strategies;
 - (d) Undertaking capacity-building of the three groups of countries towards the effective implementation of the programmes of action at the national level;
 - (e) Building partnerships towards the implementation of the three programmes of action and promoting South-South cooperation in various areas for the benefit of the countries of the three groups;
 - (f) Reaching out to all stakeholders, including partnerships with parliaments, civil society, foundations, the media, academia and the private sector, to enhance support for the three groups of countries;
 - (g) Maximizing synergies among the three subprogrammes, given the commonalities of problems and challenges of the countries in the three groups, including their structural weaknesses, their vulnerability to external shocks, the smallness of their economies, their marginal position in the world economy, their limited access to technology and their geographical disadvantages.

- 10.6 In 2011, the Fourth United Nations Conference adopted the Istanbul Programme of Action for the Least Developed Countries for the decade 2011-2020. The main objective of the Istanbul Programme of Action is to enable half the number of the least developed countries to reach the stage of graduation by 2020. The Istanbul Programme of Action articulated that the Office of the High Representative should continue to fulfil its functions to assist the Secretary-General for the effective follow-up and monitoring of the implementation of the Istanbul Programme of Action and the full mobilization and coordination of all parts of the United Nations system, with a view to facilitating the coordinated implementation of and coherence in the follow-up and monitoring of the Istanbul Programme of Action at the country, regional and global levels, and to assist in mobilizing international support and resources for the implementation of the Istanbul Programme of Action. To this end, the Office of the High Representative should continue its awareness raising and advocacy works in favour of the least developed countries in partnership with the relevant part of the United Nations, as well as with parliaments, civil society, the media, academia and foundations, and provide appropriate support to group consultations of the least developed countries.
- 10.7 The General Assembly, in its resolution 69/231, entitled “Follow-up to the Fourth United Nations Conference on the Least Developed Countries”, decided that the comprehensive high-level midterm review of the implementation of the Istanbul Programme of Action shall be held in Antalya, Turkey, for a period of three days in June 2016. The resolution underlined that the Office of the High Representative, as the focal point, in accordance with mandates given by the General Assembly in its resolution 56/227, has the responsibility to ensure that the preparations are carried out effectively and efficiently and to mobilize and coordinate the active involvement of the organizations of the United Nations system.
- 10.8 Resolution 69/231 also contains provisions for a number of specific activities to be carried out by the Office of the High Representative, including:
- (a) To organize in collaboration with the Government of Turkey a private sector forum on investment opportunities in the least developed countries;
 - (b) To collaborate closely with the least developed countries to undertake their national reviews on the implementation of the Programme of Action, with a particular focus on progress, obstacles, constraints, actions and measures necessary to further its implementation;
 - (c) To lead United Nations system-wide support to the least developed countries that have expressed their intention to graduate from the least developed country group to prepare graduation and transition strategy;
 - (d) To lead United Nations Secretariat-wide activities towards further coordinating and consolidating the Secretariat’s work in order to ensure effective monitoring and follow-up of the Istanbul Programme of Action, and to provide well-coordinated support to realizing the goal of enabling half of the least developed countries to meet the criteria for graduation by 2020;
 - (e) To prepare and finalize, in close cooperation with the secretariat of the Chief Executives Board, a toolkit for mainstreaming the Programme of Action into the work programmes of the United Nations system organizations, and report on further progress made in this regard;
 - (f) To undertake follow-up of the work undertaken by the Secretary-General’s high-level panel of experts to carry out a feasibility study for a technology bank and science, technology and innovation supporting mechanism dedicated to the least developed countries with the support of the Office of the High Representative.
- 10.9 The focus on the follow-up of the outcome of the United Nations Conference on Sustainable Development, held in Rio de Janeiro, Brazil in 2012, “The future we want”, has also added

substantively to the work of the Office with a view to ensuring that the special needs of the most vulnerable countries are fully taken into account in the intergovernmental processes related to the post-2015 development agenda, the sustainable development goals and climate change.

- 10.10 In 2014, the General Assembly, by its resolution 69/137, adopted the Vienna Programme of Action for Landlocked Developing Countries for the Decade 2014-2024 as the outcome document of the second United Nations Conference on Landlocked Developing Countries, which was held from 3 to 5 November 2014, in Vienna. The Vienna Programme of Action succeeded the Almaty Programme of Action as a development blueprint for landlocked developing countries for the period 2014-2024. It is a holistic, ambitious and results-oriented programme with an overarching goal, specific goals and time-bound objectives in six priorities to achieve rapid, inclusive and sustained economic growth along with poverty reduction for more than 450 million people in 32 landlocked developing countries. The Vienna Programme of Action reflects a deeper understanding of the challenges that landlocked developing countries face to emphasize enhancing infrastructure development and maintenance, international trade performance, trade facilitation, productive capacities, economic diversification, value-addition in manufacturing and agriculture, increased connectivity to regional and global value chains, deepened regional integration and a vibrant private sector based on expanded partnerships.
- 10.11 The Vienna Programme of Action is a new programme of action with expanded priorities and ambitious time-bound specific objectives that will require well-coordinated, strengthened and expanded follow-up efforts. In total, the Vienna Programme of Action has 6 overarching specific goals, 20 specific objectives and 87 actions to be undertaken by landlocked developing countries, transit developing countries and development partners under its 6 priorities.
- 10.12 The six priority areas of the Vienna Programme of Action are: (1) fundamental transit policy issues; (2) infrastructure development and maintenance; (3) international trade and trade facilitation; (4) regional integration and cooperation; (5) structural economic transformation; and (6) means of implementation. Each priority area of the Vienna Programme of Action has several specific objectives that need to be achieved through specific actions to be undertaken by landlocked developing countries, transit developing countries and development partners.
- 10.13 The Vienna Programme of Action calls for renewed and strengthened partnerships to support landlocked developing countries and also calls for the broadened partnership for development of landlocked developing countries. The Vienna Programme of Action calls for the strengthened partnerships of landlocked developing countries within the context of South-South and triangular cooperation, as well as with the relevant international and regional organizations and between public and private sector actors. The Vienna Programme of Action invites Governments to mainstream the Programme of Action into their national and sectoral development strategies for its effective implementation. Landlocked developing countries and transit developing countries are also encouraged to establish national coordination mechanisms, where appropriate. At the regional and subregional levels, regional and subregional organizations, including regional economic communities and regional development banks, are invited to mainstream the implementation of the Programme of Action into their relevant programmes, in coordination with the Office of the High Representative, within their existing mandates, and the regional commissions.
- 10.14 The Vienna Programme of Action, in its paragraph 77, stated that in accordance with the mandate given by the General Assembly, the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States will ensure coordinated follow-up to and effective monitoring of and reporting on the implementation of the Programme of Action, and will undertake advocacy efforts at the national, regional and global levels. The Office of the High Representative, in collaboration with other relevant stakeholders,

should work on developing relevant indicators for measuring the progress on implementing the Programme of Action in landlocked developing countries, within their existing mandates.

- 10.15 Furthermore, the General Assembly, in its resolution 67/207, entitled “Follow-up to and implementation of the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States”, reaffirmed the decision to convene in 2014 the third International Conference on Small Island Developing States, as called for in the outcome document of the United Nations Conference on Sustainable Development to build on the Barbados Programme of Action and the Mauritius Strategy, recognizing the importance of coordinated, balanced and integrated actions to address the sustainable development challenges facing small island developing States. It also decided that the national, regional, interregional and substantive preparations should be carried out in a most effective, well-structured and broad participatory manner and that, for this purpose, the Department of Economic and Social Affairs of the Secretariat, through its Small Island Developing States Unit, the Office of the High Representative and the relevant agencies of the United Nations system, including regional commissions, should provide the necessary support to the Conference and its preparatory process. The General Assembly, in its resolution 69/15, entitled “SIDS Accelerated Modalities of Action (SAMOA) Pathway”, reaffirmed the Office mandate to continue to mobilize international support and resources to support the implementation of the Samoa Pathway by small island developing States. The resolution also called on the Office of the High Representative to ensure the mainstreaming of the Samoa Pathway and issues related to small island developing States in the work of the United Nations system, and enhance the coherence of the issues of those States in United Nations processes, including at the national, regional and global levels.

Overview of resources

- 10.16 The overall resources proposed for the biennium 2016-2017 for this section amount to \$10,959,200 before recosting, reflecting a net decrease of \$619,900 (or 5.4 per cent) compared with the appropriation for 2014-2015. Resource changes result from two factors: (a) technical adjustments relating to the removal of non-recurrent requirements; and (b) resource changes in line with General Assembly resolution 69/264 (further reductions). The proposed reductions will not impact full and effective mandate implementation.
- 10.17 The distribution of resources is reflected in tables 10.3 to 10.5.

Technical adjustments

- 10.18 Resource changes reflect the removal of non-recurrent requirements totalling \$542,400 relating to the support of the 10-year Review Conference on the Implementation of the Almaty Programme of Action, held in 2014, and the third International Conference on Small Island Developing States, held in 2014, as well as the removal of the non-recurrent requirements for standard common service costs associated with 10 posts approved for the biennium 2014-2015.

Resource changes in line with General Assembly resolution 69/264 (further reductions)

- 10.19 Resource changes of \$77,500 are proposed in line with General Assembly resolution 69/264 under non-post resources and mainly relate to travel of staff, consultants, experts, contractual services and supplies and materials that take into account the anticipated impact of the approved standards of accommodation for air travel, and further efficiencies that the Office plans to bring about in 2016-2017.

Extrabudgetary resources

- 10.20 One of the functions of the Office of the High Representative relates to the mobilization of extrabudgetary resources for the implementation of the Istanbul Programme of Action, the Vienna Programme of Action and the Samoa Pathway, as well as other initiatives for the least developed countries, landlocked developing countries and small island developing States.
- 10.21 After the Fourth United Nations Conference on the Least Developed Countries, held in May 2011, the Office of the High Representative developed a new donor strategy, consisting of project proposals on leveraging the contribution of the least developed country stakeholders to the implementation and monitoring of the Istanbul Programme of Action for the years 2012-2015. It was sent to more than 30 potential contributors. The Office of the High Representative continues to conduct bilateral consultations with potential contributors, including traditional donors and other development partners for the biennium 2016-2017.
- 10.22 During the biennium 2012-2013, the Office was able to raise \$416,000 for the above-mentioned strategy. In 2014, voluntary contributions to the trust fund in support of activities undertaken by the Office in the amount of \$1,170,000 were raised in support of activities undertaken by the Office, such as global campaigns and advocacy activities in support of the implementation of the Istanbul Programme of Action, and to effectively engage all relevant stakeholders, including private sector and civil society representatives, parliamentarians and foundations, in the implementation of the Istanbul Programme of Action. The resources were also used to finance the participation of national focal points from the least developed countries in the annual review meetings on the implementation of the Istanbul Programme of Action and other meetings and workshops organized by the Office of the High Representative.
- 10.23 On the basis of the donor strategy grounded in the mandate, the Office will mobilize extrabudgetary resources in the run-up to the midterm review conference of the implementation of the Istanbul Programme of Action, which is expected to be conducted in 2016. Furthermore, after the adoption of the Samoa Pathway by the third International Conference on Small Island Developing States, held in Apia, Samoa, from 1 to 4 September 2014, and in view of the mandate of the Office of the High Representative, the Office has set an additional small island developing States-specific goal for its fundraising activities during the biennium 2016-2017.
- 10.24 For the biennium 2016-2017, the goal of the fundraising activities will be to raise \$3,000,000 comprising (a) an amount of \$2,500,000 in contributions to cover the enhanced requirements related to the implementation of the Istanbul Programme of Action midterm review conference and its follow-up; and (b) an amount of \$500,000 in voluntary contributions towards convening meetings in the three small island developing States regions to follow up on the implementation of (i) the mandate to ensure mainstreaming of the Samoa Pathway in the work of the United Nations system; (ii) the mandate to enhance the coherence of the issue of small island developing countries in United Nations processes; and (iii) the establishment of the small island developing States Global Business Network.
- 10.25 After the second United Nations Conference on Landlocked Developing Countries held in November 2014, the Office of the High Representative continued to mobilize extrabudgetary resources to facilitate the implementation and monitoring of the Vienna Programme of Action within the context of the resource mobilization strategy of the Office. The voluntary contributions to the trust fund will be used for follow-up activities in connection with the implementation of the Vienna Programme of Action and monitoring thereof. In 2014, the Office was able to mobilize over \$1,000,000, which was used to support activities of the preparatory process of the second United Nations Conference on Landlocked Developing Countries, including meetings of the intergovernmental preparatory committee and thematic pre-conference events, and support towards

the holding of the conference itself. For the biennium 2016-2017, extrabudgetary resources of \$500,000 will complement resources from the regular budget to finance various activities related to the follow-up on the implementation of the Vienna Programme of Action, including holding expert group meetings and regional review meetings and publication of studies.

- 10.26 Projected extrabudgetary resources would amount to \$3,500,000 for the biennium 2016-2017 based on the donor strategy and the objectives outlined above. A net increase of \$96,200 for the biennium 2016-2017 compared with the revised estimate of \$3,403,800 for the biennium 2014-2015 relates to additional projects to be implemented during 2016-2017.

Other information

- 10.27 The Office of the High Representative has sought to maximize efficiency by enhancing collaboration between the subprogrammes. For example, the terms of reference used in commissioning consultancies often include data and analyses not only for the least developed countries, but also for landlocked developing countries and small island developing States. Additionally, thematic studies often cover more than one category of country.
- 10.28 The mandate of the Office for system-wide coordination on issues relating to the least developed countries, landlocked developing countries and small island developing States has been carried out effectively, especially in the context of mobilizing all agencies in support of the three programmes of action under the mandate of the Office. The Office and several United Nations and other entities have jointly implemented, and continue to jointly implement, advocacy, capacity-building and resource mobilization activities. In addition, with a view to maximizing efficiency in the fulfilment of its mandates, the Office of the High Representative has increasingly made use of videoconferencing to facilitate consultations with and deliver outputs to Member States and United Nations and other entities. The Office will continue to use videoconferencing and other information and communications technology tools.
- 10.29 Pursuant to General Assembly resolution 58/269, resources identified for the conduct of monitoring and evaluation would amount to \$285,100 (equivalent to two work-months at the D-2 level, two work-months at the D-1 level, four work-months at the P-5 level and nine work-months at the P-4 level). The requirements would provide for discretionary self-evaluation of the Office activities, as well as mandatory self-assessment involving measurement of whether the programme is on track towards achieving the results expected as proposed in the context of the logical frameworks approved for 2016-2017.
- 10.30 The issue of publications as part of the programme of work has been reviewed in the context of each subprogramme. It is anticipated that recurrent and non-recurrent publications will be issued as summarized in table 10.6 and as distributed in the output information for each subprogramme.

- 10.31 The Office of the High Representative carries out its activities in cooperation with other departments and offices of the Secretariat, entities of the United Nations system and entities external to the United Nations, including the system of national focal points for the implementation of the Istanbul Programme of Action. In particular, collaboration with the United Nations Conference on Trade and Development, the Department of Economic and Social Affairs and the regional commissions is of major importance for the Office of the High Representative in effectively discharging its mandate. The United Nations resident coordinator system is instrumental in the country-level implementation of the three programmes of action.

A. Executive direction and management

Resource requirements (before recosting): \$2,679,700

- 10.32 The High Representative is responsible for the overall leadership and direction of the Office in the implementation of its mandates and approved programme of work. He engages in high-level consultations with Member States, organizations of the United Nations system, multilateral financial institutions and civil society groups; approves reports; and assists the Economic and Social Council and the General Assembly in their reviews and assessments of progress achieved in the implementation of the programmes of action for the three groups of countries.
- 10.33 The Office assists the High Representative in discharging his responsibilities and provides overall administrative support services related to the programme of work. The Office is headed by a Director (D-2), who is responsible for its overall coordination and management and acts as deputy to the Under-Secretary-General in his absence from Headquarters.

External factors

- 10.34 The executive direction and management component is expected to achieve its objectives and expected accomplishments on the assumption that: (a) there is continuous political will on the part of the donor community to assist the three groups of countries in the implementation of the programmes of action; and (b) Member States actively participate in the relevant meetings of the Economic and Social Council, the Second Committee of the General Assembly and other intergovernmental bodies.

Outputs

- 10.35 During the biennium 2016-2017, the following outputs will be delivered:
- (a) Servicing of intergovernmental and expert bodies (regular budget):
 - (i) Substantive servicing of meetings: annual sessions of the General Assembly (2); annual sessions of the Economic and Social Council (2);
 - (ii) Substantive servicing of the inter-agency machinery and special initiatives of the Secretary-General: United Nations Development Group (2); Executive Committee on Economic and Social Affairs (4); High-level Committee on Programmes of the Chief Executives Board for Coordination (2); task forces of the Secretary-General (2);
 - (iii) Substantive contributions to global conferences and forums (20);
 - (b) Other substantive activities (regular budget):
 - (i) Press releases and press conferences on issues of concern to the least developed countries, landlocked developing countries and small island developing States (10);
 - (ii) Sessions on the project on mainstreaming the programmes of action on the least developed countries, landlocked developing countries and small island developing States into the work programmes of organizations of the United Nations system (2);
 - (c) Administration, oversight (regular budget):
 - (i) Programme planning, budget, accounts: coordination and preparation of the relevant programme of the biennial programme plan; coordination and preparation of the relevant section of the proposed programme budget (2);
 - (ii) Evaluation: coordination and quality assurance in relation to the biennial evaluations of programme performance.
- 10.36 The distribution of resources for executive direction and management is reflected in table 10.8.
