fifty-fourth session****Draft report**

*Rapporteur:* Mr. Hiroshi **Onuma** (Japan)

**Addendum****Proposed strategic framework for the period 2016-2017**

(Item 3 (b))

**Programme 25****Management and support services**

1. At its 8th and 13th meetings, on 5 and 9 June 2014, the Committee for Programme and Coordination considered programme 25, Management and support services, of the proposed strategic framework for the period 2016-2017 ([A/69/6 \(Prog. 25\)](#)). The Committee also had before it a conference room paper on the subject ([E/AC.51/2014/CRP.2](#)).

2. The Under-Secretary-General for Management introduced the programme and responded to queries raised during the Committee's consideration of the programme.

**Discussion**

3. Delegations expressed general support for the overall objectives of the programme and acknowledged the important role that it played in providing critical support and services in the delivery of the programme of work of the Organization. Appreciation was expressed for the effective and efficient functioning of financial, human resources, support and information and communications technology services by the Secretariat and offices away from Headquarters.

4. It was pointed out that General Assembly resolution [66/257](#) on progress towards an accountability system in the United Nations Secretariat had not been included in the overall legislative mandates.

5. Clarification was sought regarding the reference to the Security Council in paragraph 25.2. Clarification was also sought regarding the revision to paragraph 25.4, in particular in relation to self-evaluation practices as well as timely performance reporting to Member States to ensure that the Organization became fully results-oriented.

6. Regarding the enterprise resource planning project, known as Umoja, concern was expressed with regard to the revised timeline for the implementation of the project, the containment of the overall costs and the benefits to be realized. The view was also expressed that the indicators of achievement under that component could be more results-oriented.

7. Views were expressed that the inclusion of reference to a new service delivery model in paragraph 25.7 was premature, given that the proposal had yet to be submitted to the General Assembly.

8. A question was raised concerning the removal of the reference to the administration of justice in paragraph 25.11. Concern was expressed by some delegations about the absence of reference to Library services in paragraph 25.14.

9. With regard to subprogramme 1, Management services, administration of justice and services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination, questions were raised concerning the details of how the Department of Management monitored policies, procedures and internal control in the Organization. Clarification was sought as to the number of days required for the processing of cases before the Headquarters Committee on Contracts, and the pilot process referred to in paragraph 25.18.

10. With regard to subprogramme 2, Programme planning, budget and accounts, the view was expressed that the expected accomplishments under component 1 should include reference to the budget of the International Residual Mechanism for Criminal Tribunals. Appreciation was expressed for the inclusion of the provision of informal briefings under paragraph 25.22 (d), given that such briefings would help with transparency and promote dialogue. Clarification was sought as to the change in indicator of achievement (a) (ii) under component 3. Clarification was also sought regarding the efforts made by the Department to mitigate the late submission of budgetary reports and programme budget implications to the Fifth Committee.

11. With regard to subprogramme 3, Human resources management, clarification was sought regarding the priorities in the area of human resources management. The view was expressed that the indicators of achievement needed further refinement, including a mechanism to track numbers of instances of recognition for good performance and sanctions for underperformance, and should be specific and measureable. The view was also expressed that, while equitable geographical distribution and gender balance were important to the Organization in the recruitment of staff, emphasis should be placed on the individual candidate's qualifications, as reiterated by the General Assembly in its resolutions [63/250](#) and [65/247](#). Concern was expressed regarding the continued maintenance of the expected accomplishment and indicators of achievement relating to geographical distribution and gender balance in view of the increasing reliance on extrabudgetary funding for posts. Delegations took note of the modifications reflected in [E/AC.51/2014/CRP.2](#).

12. With regard to subprogramme 4, Support services, a question was raised as to the inclusion in the strategy of reference to flexible workplace arrangements, given that such arrangements had not been approved by the General Assembly. Furthermore, a question was raised as to whether there were clear guidelines for the use of meeting rooms by Member States and the basis for charging those States. Clarification was sought with regard to the meaning of the phrase “climate neutrality”, contained in paragraph 25.46 (i). The view was expressed that basic principles for the awarding of procurement contracts should be in line with the Financial Regulations and Rules of the United Nations.

13. The Committee noted the importance of ensuring gender balance and geographical representation in the Secretariat, in particular at senior levels, while complying with Article 101 of the Charter of the United Nations and the relevant provisions of General Assembly resolutions governing recruitment in the Organization.

### **Conclusions and recommendations**

14. The Committee stressed that it was important for the Organization to continue to improve upon space utilization by aligning space requirements with operational and functional requirements.

15. The Committee noted from the overall orientation of programme 25 the intention of the Secretary-General to implement key management reform measures, recalled General Assembly resolutions [66/257](#) and [68/264](#) on the accountability system in the Secretariat and noted with appreciation the efforts of the Department of Management to strengthen institutional and senior managerial accountability in order to ensure a more effective and results-oriented Organization.
