**Annex**

**Review of the implementation of General Assembly resolution 61/16 on the strengthening of the Economic and Social Council**

1. In accordance with the relevant provisions of the Charter of the United Nations, the Economic and Social Council should continue to strengthen its role as the central mechanism for coordination of the activities of the United Nations system and its specialized agencies and supervision of subsidiary bodies in the economic, social, environmental and related fields. It should provide overall guidance and coordination to the United Nations development system and promote a coordinated follow-up to the outcomes of major international conferences and summits in the economic, social, environmental and related fields. The working modalities of the Council should be guided by the principles of inclusiveness, transparency and flexibility. The Council should aim at creating synergy and coherence as well as avoiding duplication between its deliberations and those of the high-level political forum on sustainable development.
2. The Economic and Social Council shall continue to consider reports of intergovernmental and inter-agency bodies and mechanisms for coordination and recommend ways to enhance their efficiency, accountability, interaction and complementarity of efforts.
3. In the follow-up to United Nations conferences and summits, the Economic and Social Council should ensure the harmonization and coordination of the agendas and work programmes of the functional commissions by promoting a clearer division of labour among them and providing clear policy guidance to them. To that end, better preparation of the meetings of the Council should be pursued.
4. The arrangements set forth in the present annex should not lead to an increase in the number of meeting days currently provided for the Economic and Social Council.
5. The Economic and Social Council shall adjust its programme of work to a July-to-July cycle with immediate effect and is invited to consider transitional arrangements for the election of its Bureau, taking into account the relevant rules, regulations and practices with regard to the work of the Council, its subsidiary bodies and United Nations funds and programmes.
6. The Economic and Social Council needs a strengthened issues-based approach to enhance its lead role in identifying emerging challenges and promoting reflection, debate and innovative thinking, as well as in achieving a balanced integration of the three dimensions of sustainable development.
7. The Economic and Social Council shall base its annual programme of work on a main theme that will:
  - (a) Be determined at the beginning of its cycle;
  - (b) Be selected taking into account the role of the Council in promoting the balanced integration of the economic, social and environmental dimensions of sustainable development, as well as the post-2015 development agenda;
  - (c) Be decided by the Council based on inputs from its subsidiary bodies, as well as Member States;
  - (d) Provide guidance to the work of its entire system while respecting the agenda, diversity of mandates and specialized expertise of the various subsidiary bodies;
  - (e) Enable the Council to promote system-wide coherence and coordination of issues requiring the effective response of the United Nations system.
8. The Economic and Social Council shall invite its subsidiary bodies and the governing bodies of the funds, programmes and specialized agencies to contribute, as appropriate, to its work in keeping with the agreed theme.
9. A proposal for the annual theme will be made by the President of the Economic and Social Council in consultation with the subsidiary bodies and Member States, initially for the two following cycles and subsequently for the following year, in order to give ample time for input from subsidiary bodies and Member States.
10. The Economic and Social Council shall continue to have one substantive and one organizational session. To ensure a more responsive Council, it may convene special sessions in accordance with its rules of procedure. The Council, as a principal organ of the United Nations, is also entitled to hold ad hoc meetings as and when needed to address urgent developments in the economic, social, environmental and related fields.

11. The current segment structure of the substantive session of the Economic and Social Council will be revised, with a redistribution of working days, as outlined below:

(a) An operational activities for development segment will be held immediately following the first regular sessions of the executive boards of the funds and programmes of the United Nations system. Through this segment the Council should provide overall coordination and guidance for operational development funds and programmes on a system-wide basis. Such guidance should include objectives, priorities and strategies in the implementation of the policies formulated by the General Assembly, including the quadrennial comprehensive policy review, and should concentrate on cross-cutting and coordination issues related to operational activities. Efforts should focus on improving the overall impact of operational activities of the United Nations system in support of national development priorities. With a view to avoiding repetition of discussions, the governing boards that report to the Council should be requested to highlight in their reports to the Council the issues requiring examination and identify actions to be taken, guided by the chosen main theme. National officials directly involved in the implementation of national development strategies, as well as field-level representatives of the United Nations system, should be encouraged to participate in the segment in order for their contributions to be taken into account. Contribution of the segment to the preparations for the quadrennial policy review of operational activities, through which the Assembly establishes key system-wide policy orientations for the development cooperation and country-level modalities of the United Nations system, should be continued;

(b) A humanitarian affairs segment will be held in June, through which the Council should continue to contribute to strengthening the coordination and effectiveness of United Nations humanitarian assistance and support and complement international efforts aimed at addressing humanitarian emergencies, including natural disasters, in order to promote an improved, coordinated response by the United Nations. The Council should also continue to hold a special event to discuss the transition from relief to development, to be convened immediately preceding the humanitarian affairs segment and following the annual session of the executive boards of the funds and programmes of the United Nations system;

(c) A high-level segment will be held in July. It will continue to discharge the functions of the high-level segment of the Council as provided for in General Assembly resolutions 45/264 of 13 May 1991, 48/162 of 20 December 1993, 50/227 of 24 May 1996 and 61/16 of 20 November 2006, in particular the biennial two-day Development Cooperation Forum, unless otherwise indicated in the present resolution or in resolution 67/290 of 9 July 2013. The segment will include the three-day ministerial meeting of the high-level political forum on sustainable development provided for in resolution 67/290. The outcome of the segment will be a ministerial declaration;

(d) Dedicated coordination and management meetings will be held regularly to perform the functions of the coordination and general segments as provided for in the General Assembly resolutions mentioned in paragraph 11 (c) above. The timing of these meetings shall be decided by the Council;

(e) An integration segment shall be held annually, the timing and modalities of which shall be decided by the Council. The main functions of the segment will be to consolidate all the inputs of Member States, the subsidiary bodies of the Council, the United Nations system and other relevant stakeholders and to promote the balanced integration of the three dimensions of sustainable development. The integration segment will bring together the key messages from the Council system on the main theme and develop action-oriented recommendations for follow-up.

12. The Economic and Social Council should conduct an annual dialogue with the Executive Secretaries of the regional commissions.

13. The Economic and Social Council should continue to strengthen and further promote dialogue on and implementation of the financing for development agenda, inter alia, by strengthening existing arrangements, including the special high-level meeting with the World Bank, the International Monetary Fund, the World Trade Organization and the United Nations Conference on Trade and Development, to be held immediately following the annual spring meeting of the Joint Ministerial Committee of the Boards of Governors of the Bank and the Fund on the Transfer of Real Resources to Developing Countries held in Washington, D.C. The Council should also continue to allocate specific time for deliberation and consideration of the follow-up to the International Conference on Financing for Development.

14. The Economic and Social Council should promote interaction with relevant international and regional forums, organizations and groupings that make policy recommendations or take policy decisions with global implications, as appropriate.

## I. Resolutions adopted without reference to a Main Committee

---

15. In scheduling the above-mentioned sessions, meetings and consultations, the Economic and Social Council should take into consideration meetings of other bodies dealing with economic, social and environmental issues to avoid unnecessary overlapping and overburdening of their agendas.
16. The Economic and Social Council shall hold the regular meetings of its substantive sessions in New York and the humanitarian affairs segment shall continue to alternate between New York and Geneva. On an ad hoc and cost-effective basis, another United Nations location could be decided upon if that would contribute to a better discussion on the chosen main theme.
17. With a view to continuously improving the interaction with and follow-up to the work of its subsidiary bodies, the Economic and Social Council should conduct action-oriented reviews of the activities, reports and recommendations of its subsidiary bodies, avoiding a repetition of the debates held in those bodies and focusing attention on issues that require a prioritized and coordinated substantive response from the United Nations system as a whole. The subsidiary bodies should include in their reports an executive summary, and the reports should be concise, clearly identifying the conclusions and recommendations and issues that may require attention and/or action by the Council.
18. The Economic and Social Council should make transitional arrangements for holding the annual ministerial review during the high-level segments in 2014 and 2015.
19. The Economic and Social Council should devote time to the specific needs of countries in special situations, namely the least developed countries, the landlocked developing countries, the small island developing States and Africa and integrate their concerns into all segments as cross-cutting priorities. It will continue to address the particular development challenges of middle-income countries.
20. In line with its earlier decision, the Economic and Social Council will include in its annual ministerial review in 2015 a review of the implementation of the Programme of Action for the Least Developed Countries for the Decade 2011–2020 (Istanbul Programme of Action).<sup>4</sup> The Development Cooperation Forum should continue to take into consideration the Istanbul Programme of Action when it reviews the trends in international development cooperation, as well as policy coherence for development. The Council also should continue to review and coordinate the implementation of the Istanbul Programme of Action.
21. The Economic and Social Council should take steps to strengthen the consideration of issues affecting small island developing States in keeping with the mandate of the Programme of Action for the Sustainable Development of Small Island Developing States (Barbados Programme of Action)<sup>5</sup> and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States.<sup>6</sup>
22. The Economic and Social Council has an important role as a platform for multi-stakeholder participation and for engaging all relevant stakeholders in the work of the Council, particularly with respect to its function related to the integration of the three dimensions of sustainable development.
23. While retaining its intergovernmental nature, the Economic and Social Council shall seek to promote the active participation of major groups, non-governmental organizations, other relevant stakeholders and regional organizations in the activities of the Council and its functional and regional commissions, in accordance with the provisions of their respective rules of procedure and the provisions of General Assembly resolution 67/290 insofar as it pertains to the meetings of the high-level political forum on sustainable development under the auspices of the Council.
24. The Economic and Social Council should further promote the integration of youth into its deliberations, building on the past positive experiences of the informal youth forums. The Council should also continue with the informal partnership forum.

25. The Secretary-General should make proposals to promote collaboration across the United Nations system, taking account of the functions of a strengthened Economic and Social Council, with the Department of Economic and Social Affairs of the Secretariat serving as a central hub of support for the Council, in order to better utilize existing resources of the United Nations system to broaden support to the Council and its Bureau. The proposals should include measures to enable the Secretariat to better support the implementation of a unified development agenda. Similarly, the Secretary-General should explore proposals to strengthen support to the Council, including to the office of the President of the Council.
26. The Secretary-General should take steps to enable adequate institutional focus on the needs of small island developing States and provide effective support for the third International Conference on Small Island Developing States.
27. The annual programme of work of the Economic and Social Council should provide for enhancing regular dialogue with the United Nations System Chief Executives Board for Coordination, taking into account relevant Council and General Assembly resolutions, including Assembly resolution 67/226 of 21 December 2012 on the quadrennial comprehensive policy review.
28. Resolutions and decisions of the Economic and Social Council should be implemented and followed up fully by all relevant parts of the United Nations system. This process should be monitored by the Council and the General Assembly on a regular basis, as appropriate.
29. The Economic and Social Council and the General Assembly, especially its Second and Third Committees, need to consider and take steps towards the rationalization of their agendas, with a view to eliminating duplication and overlap and promoting complementarity in the consideration and negotiation of similar or related issues.
30. The Presidents of the Economic and Social Council and the General Assembly are requested to coordinate with the bureaux of relevant organs and intergovernmental bodies of the United Nations, including the Peacebuilding Commission, in order to achieve maximum synergy and effectiveness.
31. The Bureau of the Economic and Social Council should convene regular open-ended informal consultations of the Council to improve organizational and procedural as well as substantive aspects of the sessions of the Council, with a view to highlighting the issues and recommendations that require consideration and action by the Council in order to have more focused and well-prepared substantive sessions. This may involve, as appropriate, dialogues with the chairs and the secretariats of the relevant functional commissions, other subsidiary and related bodies and executive boards.
32. The Bureau of the Economic and Social Council should continue to meet on a regular basis to consider issues such as recommendations on agenda items and subjects, the structure of meetings and lists of guest participants for panel discussions, and should be kept informed, when appropriate and in the context of its organizational efforts, of the deliberations of relevant intergovernmental mechanisms outside the United Nations system. The Bureau shall regularly brief the Council on its deliberations.
33. Members of the Bureau should communicate to the next session of the Economic and Social Council the working methods that have proved successful and the overall experience acquired.
34. The Economic and Social Council should further consider ways to improve its public profile, including by effectively communicating its role, work and achievements to the public in a compelling manner.

#### **68/3. *The General Assembly*

*Adopts* the following outcome document:

#### **Outcome document of the high-level meeting of the General Assembly on the realization of the Millennium Development Goals and other internationally agreed development goals for persons with disabilities: the way forward, a disability-inclusive development agenda towards 2015 and beyond**

### **I. Values and principles**

1. We, the Heads of State and Government, have gathered at United Nations Headquarters in New York on 23 September 2013 to reaffirm our resolve to work together for disability-inclusive development and the commitment of the international community to the advancement of the rights of all persons with disabilities, which is deeply rooted in the goals of the Charter of the United Nations and the Universal Declaration of Human Rights.<sup>8</sup>

2. We reaffirm the need for the realization of the Millennium Development Goals and other internationally agreed development goals for persons with disabilities towards 2015 and beyond, and recognize persons with disabilities as agents and beneficiaries of development, acknowledging the value of their contribution to the general well-being, progress and diversity of society.

---

<sup>7</sup> A/67/995.

<sup>8</sup> Resolution 217 A (III).

3. We are concerned that this commitment has yet to be fully translated into the inclusion of disability in internationally agreed development goals, including the Millennium Development Goals, and, as 2015 approaches, strongly reiterate our determination to ensure the timely realization of the Millennium Development Goals and other internationally agreed development goals for persons with disabilities, who make up an estimated 15 per cent of the world's population, or 1 billion people, of whom an estimated 80 per cent live in developing countries. In this regard, we stress the importance of ensuring accessibility for and inclusion of persons with disabilities in all aspects of development and of giving due consideration to all persons with disabilities in the emerging post-2015 United Nations development agenda.

## **II. Realizing the development goals for persons with disabilities towards 2015 and beyond**

4. We underline the need for urgent action by all relevant stakeholders towards the adoption and implementation of more ambitious disability-inclusive national development strategies and efforts with disability-targeted actions, backed by increased international cooperation and support, and resolve to undertake the following commitments leading to 2015 and beyond:

(a) Achieve the full application and implementation of the international normative framework on disability and development by encouraging the ratification and implementation of the Convention on the Rights of Persons with Disabilities<sup>9</sup> and by considering the ratification of the Optional Protocol to the Convention,<sup>10</sup> as both human rights and development instruments;

(b) Ensure that all development policies, including those regarding poverty eradication, social inclusion, full and productive employment and decent work, and access to basic social services, and their decision-making processes take into account the needs of and benefit all persons with disabilities, including women, children, youth, indigenous peoples and older persons, who can be subject to violence and multiple or aggravated forms of discrimination;

(c) Develop specific plans, including, when necessary, the enactment or amendment and enforcement of national legislation, the harmonization of national legislative, policy and institutional structures and the adoption and implementation of national plans relevant to the Millennium Development Goals and other internationally agreed development goals to advance the inclusion of persons with disabilities;

(d) Recognize the right to education on the basis of equal opportunity and non-discrimination by making primary education accessible, free and compulsory, and available to all children with disabilities on an equal basis with others, ensuring that all children have equal opportunity for access to an inclusive education system of good quality and making early and secondary education generally available and accessible to all, in particular to children with disabilities from low-income families;

(e) Ensure accessibility for persons with disabilities to health-care services, including primary health-care and specialized services, inter alia, by investing in and improving the affordability of such services for persons with disabilities;

(f) Strengthen social protection for meeting disability-related needs and promote access to relevant schemes based on social protection floors, on an equal basis with others, including income support, and access to appropriate and affordable services, devices and other assistance;

(g) Encourage Member States to take sustainable measures to ensure equal access to full and productive employment and decent work on an equal basis and without discrimination to persons with disabilities, including by promoting access to inclusive education systems, skills development and vocational and entrepreneurial training, in order to enable persons with disabilities to attain and maintain maximum independence;

(h) Ensure accessibility, following the universal design approach, by removing barriers to the physical environment, transportation, employment, education, health, services, information and assistive devices, such as information and communications technologies, including in remote or rural areas, to achieve the fullest potential throughout the whole life cycle of persons with disabilities;

### **RESOLUTION 68/6**

Adopted at the 32nd plenary meeting, on 9 October 2013, without a vote, on the basis of draft resolution A/68/L.4, submitted by the President of the General Assembly

#### **68/6. Outcome document of the special event to follow up efforts made towards achieving the Millennium Development Goals**

*The General Assembly*

*Adopts the following outcome document:*

#### **Outcome document of the special event to follow up efforts made towards achieving the Millennium Development Goals**

1. We, Heads of State and Government and heads of delegation, have gathered at United Nations Headquarters in New York at the special event convened by the President of the General Assembly to review progress made towards the achievement of the Millennium Development Goals and to chart the way forward. Our deliberations have taken account of the voices of people worldwide and of the concerns and priorities that they have conveyed.

2. We gather with a sense of urgency and determination, with less than 850 days remaining for the achievement of the Millennium Development Goals. We renew our commitment to the Goals and resolve to intensify all efforts for their achievement by 2015.

3. We welcome what has been achieved so far. The Millennium Development Goals have provided a common vision and have contributed to remarkable progress. Significant and substantial advances have been made in meeting several of the targets.

4. However, we are concerned about unevenness and gaps in achievement and about the immense challenges that remain. The Millennium Development Goals are critical for meeting the basic needs of people in developing countries; as we approach the 2015 deadline, unrelenting efforts are required to accelerate progress across all the Goals.

5. Among and within developing countries, those who have been left furthest behind require our most urgent attention and support. We are conscious of the special challenges and needs of the least developed countries; of the fact that, despite some impressive progress, most African countries remain off track in meeting the Millennium Development Goals; and of the fact that conflict and post-conflict countries face the most challenges in achieving any of the Goals by 2015.

6. We recognize the special challenges and needs of small island developing States and landlocked developing countries, many of which are not on track to achieve the Millennium Development Goals by 2015. We also recognize the special challenges in meeting the Goals faced by people living under foreign occupation. We acknowledge the challenges in meeting the Goals for people living in areas affected by complex humanitarian emergencies and in areas affected by terrorism. We also recognize the specific challenges that many middle-income countries face.

**Accelerating progress**

7. We reaffirm our commitment to the outcome document of the high-level plenary meeting of the General Assembly on the Millennium Development Goals, held in 2010.<sup>12</sup> The annual reports on the Goals provide updated assessments of where our efforts are most needed and will assist us in framing our approach and priorities.

8. We resolve to target in particular the most off-track Millennium Development Goals and those where progress has stalled, including the Goals relating to poverty and hunger, universal access to primary education, child mortality, universal access to reproductive health, including maternal health, environmental sustainability and access to water and sanitation. In each of these areas, we are determined to take the purposeful and coordinated action required. We will scale up proven interventions, fulfil the pledges that we have made and strengthen our support for the range of valuable initiatives under way, including international support for the implementation of the New Partnership for Africa's Development.<sup>13</sup>

9. Across all our acceleration efforts, we will emphasize inclusivity and accessibility for all and will place a particular focus on those who are most vulnerable and disadvantaged. We will, for example, seek to build the resilience of the poorest in combating hunger, to improve support for women giving birth in areas of greatest deprivation and to improve educational opportunities and learning outcomes for the most vulnerable children.

10. Where efforts are broadly on track and momentum exists, we will do everything possible to sustain and reinforce it. For example, in combating HIV/AIDS, we will step up efforts to meet the goal of universal access to HIV prevention, treatment, care and support services by 2015. We will sustain and build on the remarkable gains in the fight against malaria and tuberculosis.

11. We will place a strong emphasis on all approaches that have a cross-cutting and multiplier effect. In particular, we recognize that promoting gender equality and empowering women and girls underpins and advances progress across all the Millennium Development Goals. We will resolutely promote gender equality and eliminate the range of barriers to the empowerment of women and girls in our societies.

**Global partnership for development**

12. We underline the central role of a strengthened global partnership for development. We recognize the importance of national ownership and emphasize that, if the Millennium Development Goals are to be achieved by 2015, national efforts need to be assisted by international support and an enabling international environment. The mobilization and effective use of all resources, public and private, domestic and international, will be vital.

13. We reaffirm the importance of promoting human rights, good governance, the rule of law, transparency and accountability at all levels.

14. We call for the urgent implementation of all commitments under the global partnership for development so as to overcome the gaps identified in the reports of the Millennium Development Goals Gap Task Force. We emphasize the need to accelerate progress towards the target of 0.7 per cent of gross national income as official development assistance by 2015, including 0.15 per cent to 0.20 per cent for the least developed countries. We call upon developed countries to urgently fulfil the official development assistance commitments that they have made, individually and collectively.

15. We underline the need for the business sector to engage in responsible business practices.

**Post-2015 development agenda**

16. In parallel with the intensification of efforts to accelerate the achievement of the Millennium Development Goals, we are determined to craft a strong post-2015 development agenda that will build on the foundations laid by the Goals, complete the unfinished business and respond to new challenges.

<sup>13</sup> A/57/304, annex.

## I. Resolutions adopted without reference to a Main Committee

---

17. As we take the work forward, we reaffirm our commitment to the United Nations Millennium Declaration,<sup>14</sup> the outcome document of the United Nations Conference on Sustainable Development,<sup>15</sup> the Monterrey Consensus of the International Conference on Financing for Development,<sup>16</sup> the Doha Declaration on Financing for Development: outcome document of the Follow-up International Conference on Financing for Development to Review the Implementation of the Monterrey Consensus<sup>17</sup> and the outcomes of all the major United Nations conferences and summits in the economic, social and environmental fields. We will continue to be guided by the values and principles enshrined in those texts.

18. We reaffirm all the principles of the Rio Declaration on Environment and Development,<sup>18</sup> including, inter alia, the principle of common but differentiated responsibilities, as set out in principle 7 thereof.

19. We are resolved that the post-2015 development agenda should reinforce the commitment of the international community to poverty eradication and sustainable development. We underline the central imperative of poverty eradication and are committed to freeing humanity from poverty and hunger as a matter of urgency. Recognizing the intrinsic interlinkage between poverty eradication and the promotion of sustainable development, we underline the need for a coherent approach that integrates in a balanced manner the three dimensions of sustainable development. This coherent approach involves working towards a single framework and set of goals, universal in nature and applicable to all countries, while taking account of differing national circumstances and respecting national policies and priorities. It should also promote peace and security, democratic governance, the rule of law, gender equality and human rights for all.

20. We decide today to launch a process of intergovernmental negotiations at the beginning of the sixty-ninth session of the General Assembly, which will lead to the adoption of the post-2015 development agenda.

21. We acknowledge with appreciation the processes mandated in the outcome document of the United Nations Conference on Sustainable Development that are now under way, in particular the Open Working Group on Sustainable Development Goals and the Intergovernmental Committee of Experts on Sustainable Development Financing, as well as the process to develop options for a technology facilitation mechanism. We urge that these processes complete their work in a comprehensive, balanced and expeditious manner by September 2014.

22. The report submitted by the Secretary-General in advance of the present meeting,<sup>19</sup> which draws on inputs from the High-level Panel of Eminent Persons on the Post-2015 Development Agenda, United Nations Development Group consultations, the Global Compact and the Sustainable Development Solutions Network, is a useful input to our deliberations.

23. Over the coming year, the preparation of the post-2015 development agenda will benefit from the General Assembly events to be convened by the President of the Assembly under the theme “The post-2015 development agenda: setting the stage”.

24. In arriving at an inclusive and people-centred post-2015 development agenda, we look forward to a transparent intergovernmental process that will include inputs from all stakeholders, including civil society, scientific and knowledge institutions, parliaments, local authorities and the private sector.

25. We count on the strong support of the United Nations system throughout all our work. As an input to the intergovernmental negotiations to be launched at the beginning of the sixty-ninth session of the General Assembly, we call upon the Secretary-General to synthesize the full range of inputs then available and to present a synthesis report before the end of 2014.

2. *Also declares* that the Israeli decision of 14 December 1981 to impose its laws, jurisdiction and administration on the occupied Syrian Golan is null and void and has no validity whatsoever, as confirmed by the Security Council in its resolution 497 (1981), and calls upon Israel to rescind it;
3. *Reaffirms its determination* that all relevant provisions of the Regulations annexed to the Hague Convention IV of 1907, and the Geneva Convention relative to the Protection of Civilian Persons in Time of War,<sup>68</sup> continue to apply to the Syrian territory occupied by Israel since 1967, and calls upon the parties thereto to respect and ensure respect for their obligations under those instruments in all circumstances;
4. *Determines once more* that the continued occupation of the Syrian Golan and its de facto annexation constitute a stumbling block in the way of achieving a just, comprehensive and lasting peace in the region;

*Recognizing* the pre-eminent contribution provided by the Convention to the strengthening of peace, security, cooperation and friendly relations among all nations in conformity with the principles of justice and equal rights and to the promotion of the economic and social advancement of all peoples of the world, in accordance with the purposes and principles of the United Nations as set forth in the Charter of the United Nations, as well as to the sustainable development of the oceans and seas,

*Emphasizing* the universal and unified character of the Convention, and reaffirming that the Convention sets out the legal framework within which all activities in the oceans and seas must be carried out and is of strategic importance as the basis for national, regional and global action and cooperation in the marine sector, and that its integrity needs to be maintained, as recognized also by the United Nations Conference on Environment and Development in chapter 17 of Agenda 21,<sup>76</sup>

*Recognizing* the important contribution of sustainable development and management of the resources and uses of the oceans and seas to the achievement of international development goals, including those contained in the United Nations Millennium Declaration,<sup>77</sup>

*Noting with satisfaction* that, in the outcome document of the United Nations Conference on Sustainable Development, held in Rio de Janeiro, Brazil, from 20 to 22 June 2012, entitled “The future we want”,<sup>78</sup> as endorsed by the General Assembly in resolution 66/288 of 27 July 2012, States recognized that oceans, seas and coastal areas form an integrated and essential component of the Earth’s ecosystem and are critical to sustaining it, and that international law, as reflected in the Convention, provides the legal framework for the conservation and sustainable use of the oceans and their resources, and stressed the importance of the conservation and sustainable use of the oceans and seas and of their resources for sustainable development, including through their contributions to poverty eradication, sustained economic growth, food security and creation of sustainable livelihoods and decent work, while at the same time protecting biodiversity and the marine environment and addressing the impacts of climate change,

*Reiterating* the importance of oceans and seas for sustainable development, and noting, taking into account the different positions of Member States, that the Open Working Group on Sustainable Development Goals established by the General Assembly<sup>79</sup> will consider the issue of oceans and seas at its eighth session,

*Recalling* that, in “The future we want”, States underscored that broad public participation and access to information and judicial and administrative proceedings were essential to the promotion of sustainable development and that sustainable development required the meaningful involvement and active participation of regional, national and subnational legislatures and judiciaries, and all major groups, and, in this regard, that they agreed to work more closely with major groups and other stakeholders and encouraged their active participation, as appropriate, in processes that contribute to decision-making, planning and implementation of policies and programmes for sustainable development at all levels,

*Emphasizing* the need to strengthen the ability of competent international organizations to contribute, at the global, regional, subregional and bilateral levels, through cooperation programmes with Governments, to the development of national capacity in marine science and the sustainable management of the oceans and their resources,

*Recalling* that marine science is important for eradicating poverty, contributing to food security, conserving the world's marine environment and resources, helping to understand, predict and respond to natural events and promoting the sustainable development of the oceans and seas, by improving knowledge, through sustained research efforts and the evaluation of monitoring results, and applying such knowledge to management and decision-making,

*Reiterating its deep concern* at the serious adverse impacts on the marine environment and biodiversity, in particular on vulnerable marine ecosystems and their physical and biogenic structure, including coral reefs, cold water habitats, hydrothermal vents and seamounts, of certain human activities,

*Emphasizing* the need for the safe and environmentally sound recycling of ships,

*Expressing deep concern* at the adverse economic, social and environmental impacts of the physical alteration and destruction of marine habitats that may result from land-based and coastal development activities, in particular those land reclamation activities that are carried out in a manner that has a detrimental impact on the marine environment,

*Reiterating its serious concern* at the current and projected adverse effects of climate change and ocean acidification on the marine environment and marine biodiversity, and emphasizing the urgency of addressing these issues,

*Expressing concern* that climate change continues to increase the severity and incidence of coral bleaching throughout tropical seas and weakens the ability of reefs to withstand ocean acidification, which could have serious and irreversible negative effects on marine organisms, particularly corals, as well as to withstand other pressures, including overfishing and pollution,

*Reiterating its deep concern* at the vulnerability of the environment and the fragile ecosystems of the polar regions, including the Arctic Ocean and the Arctic ice cap, particularly affected by the projected adverse effects of climate change and ocean acidification,

*Recognizing* the need for a more integrated and ecosystem-based approach to, further study of and the promotion of measures for enhanced cooperation, coordination and collaboration relating to the conservation and sustainable use of marine biodiversity beyond areas of national jurisdiction,

*Recognizing also* that the realization of the benefits of the Convention could be enhanced by international cooperation, technical assistance and advanced scientific knowledge, as well as by funding and capacity-building,

*Recognizing further* that hydrographic surveys and nautical charting are critical to the safety of navigation and life at sea, environmental protection, including the protection of vulnerable marine ecosystems, and the economics of the global shipping industry, and encouraging further efforts towards electronic charting, which not only provides significantly increased benefits for safe navigation and management of ship movement, but also provides data and information that can be used for sustainable fisheries activities and other sectoral uses of the marine environment, the delimitation of maritime boundaries and environmental protection, and noting that under the International Convention for the Safety of Life at Sea, 1974,<sup>80</sup> ships on international voyages are required to carry an electronic chart display and information system, in accordance with the implementation schedule as set out in that Convention,

*Recognizing* that ocean data buoys deployed and operated in accordance with international law are critical for improving understanding of weather, climate and ecosystems, and that certain types of ocean data buoys contribute to saving lives by detecting tsunamis, and reiterating its serious concern at intentional and unintentional damage to such buoys,

*Emphasizing* that underwater archaeological, cultural and historical heritage, including shipwrecks and watercraft, holds essential information on the history of humankind and that such heritage is a resource that needs to be protected and preserved,

*Recognizing* that fibre-optic submarine cables transmit most of the world's data and communications and hence are vitally important to the global economy and the national security of all States, conscious that these cables are susceptible to intentional and accidental damage from shipping and other activities and that the maintenance, including the repair, of these cables is important, noting that these matters have been brought to the attention of States at various workshops and seminars, and conscious of the need for States to adopt national laws and regulations to protect submarine cables and render their wilful damage or damage by culpable negligence punishable offences,

*Noting* the importance of the delineation of the outer limits of the continental shelf beyond 200 nautical miles and that it is in the broader interest of the international community that coastal States with a continental shelf beyond 200 nautical miles submit information on the outer limits of the continental shelf beyond 200 nautical miles to the Commission on the Limits of the Continental Shelf (the Commission), and welcoming the submissions to the Commission by a considerable number of States Parties to the Convention on the outer limits of their continental shelf beyond 200 nautical miles, that the Commission has continued to fulfil its role, including of making recommendations to coastal States, and that the summaries of recommendations are being made publicly available,<sup>81</sup>

*Noting further* that some coastal States may continue to face particular challenges in relation to preparing and presenting submissions to the Commission,

*Noting* that financial and technical assistance may be sought by developing countries for activities in relation to preparing and presenting submissions to the Commission, including through the voluntary trust fund established by the General Assembly in its resolution 55/7 of 30 October 2000 for the purpose of facilitating the preparation of submissions to the Commission for developing States, in particular the least developed countries and small island developing States, and compliance with article 76 of the Convention, as well as other accessible international assistance,

*Reaffirming* the importance of the work of the Commission for coastal States and for the international community,

*Recognizing* that practical difficulties can arise when there is a considerable delay between the preparation of submissions and their consideration by the Commission, including in retaining expertise up to and during the consideration of the submissions by the Commission,

*Recognizing also* the significant workload of the Commission in view of the large number of submissions already received and a number of submissions yet to be received, which places additional demands and challenges on its members and the secretariat as provided by the Secretary-General of the United Nations through the Division for Ocean Affairs and the Law of the Sea of the Office of Legal Affairs of the Secretariat (the Division), and welcoming the decision of the twenty-first Meeting of States Parties to the Convention regarding the workload of the Commission,<sup>83</sup>

*Welcoming* the ratifications of and accessions to the Agreement and the fact that a growing number of States, entities referred to in the Convention and in article 1, paragraph 2 (b), of the Agreement, and subregional and regional fisheries management organizations and arrangements, have taken measures, as appropriate, towards the implementation of the provisions of the Agreement, in order to improve their management regimes,

*Welcoming also* the work of the Food and Agriculture Organization of the United Nations and its Committee on Fisheries, and recognizing in particular the Code of Conduct for Responsible Fisheries of the Food and Agriculture Organization of the United Nations (the Code) and other related instruments, including the international plans of action, which set out principles and global standards of behaviour for responsible practices for conservation of fisheries resources and the management and development of fisheries, as well as the 2005 Rome Declaration on Illegal, Unreported and Unregulated Fishing,

*Noting with concern* that effective management of marine capture fisheries has been made difficult in some areas by unreliable information and data caused by, inter alia, unreported and misreported fish catch and fishing effort and that this lack of accurate data contributes to overfishing in some areas,

*Recognizing* the significant contribution of sustainable fisheries to food security, income, wealth and poverty alleviation for present and future generations,

## I. Resolutions adopted without reference to a Main Committee

---

*Noting* the ongoing work of the Food and Agriculture Organization of the United Nations on the development of international guidelines for securing sustainable small-scale fisheries, including the resumption of the Technical Consultation on International Guidelines for Securing Sustainable Small-scale Fisheries, to be held from 3 to 7 February 2014,

*Recognizing* the urgent need for action at all levels to ensure the long-term sustainable use and management of fisheries resources through the wide application of the precautionary approach and ecosystem approaches,

*Expressing concern* over the current and projected adverse effects of climate change on food security and the sustainability of fisheries, and noting in that regard the work of the Intergovernmental Panel on Climate Change, the Food and Agriculture Organization of the United Nations and the United Nations Environment Programme,

*Reaffirming its commitment* to ensuring that conservation and management measures adopted by regional fisheries management organizations and arrangements are based on the best available scientific information,

*Deploing* the fact that fish stocks, including straddling fish stocks and highly migratory fish stocks, in many parts of the world are overfished or subject to sparsely regulated and heavy fishing efforts, as a result of, inter alia, illegal, unreported and unregulated fishing, inadequate flag State control and enforcement, including monitoring, control and surveillance measures, inadequate regulatory measures, harmful fisheries subsidies and overcapacity, as well as inadequate port State control, as highlighted in the report of the Food and Agriculture Organization of the United Nations entitled *The State of World Fisheries and Aquaculture 2012*,

*Expressing its support* for accelerating work to complete the ongoing negotiations in the World Trade Organization to strengthen disciplines on subsidies in the fisheries sector, including through the prohibition of certain forms of fisheries subsidies that contribute to overcapacity and overfishing,

*Concerned* that only a limited number of States have taken measures to implement, individually and through regional fisheries management organizations and arrangements, the International Plan of Action for the Management of Fishing Capacity adopted by the Food and Agriculture Organization of the United Nations,

*Recalling* the International Plan of Action to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing adopted by the Food and Agriculture Organization of the United Nations,

*Particularly concerned* that illegal, unreported and unregulated fishing constitutes a serious threat to fish stocks and marine habitats and ecosystems, to the detriment of sustainable fisheries as well as the food security and the economies of many States, particularly developing States,

*Concerned* that some operators increasingly take advantage of the globalization of fishery markets to trade fishery products stemming from illegal, unreported and unregulated fishing and make economic profits from those operations, which constitutes an incentive for them to pursue their activities,

*Recognizing* that effective deterrence and combating of illegal, unreported and unregulated fishing has significant financial and other resource implications,

*Recognizing also* the duty provided in the Convention, the Agreement to Promote Compliance with International Conservation and Management Measures by Fishing Vessels on the High Seas (the Compliance Agreement),<sup>169</sup> the Agreement and the Code for flag States to exercise effective control over fishing vessels flying their flag, and vessels flying their flag which provide support to fishing vessels, to ensure that the activities of such fishing and support vessels do not undermine the effectiveness of conservation and management measures taken in accordance with international law and adopted at the national, subregional, regional or global levels,

*Recognizing further* the importance of adequately regulating, monitoring and controlling trans-shipment at sea to contribute to combating illegal, unreported and unregulated fishing activities,

*Noting* that the Voluntary Guidelines for Flag State Performance were agreed at the second resumed session of the Technical Consultation on Flag State Performance, convened by the Food and Agriculture Organization of the United Nations in Rome from 4 to 8 February 2013, for consideration by the Committee on Fisheries at its thirty-first session, in 2014,

## I. Resolutions adopted without reference to a Main Committee

---

*Noting also* the obligation of all States, in accordance with international law, as reflected in the relevant provisions of the Convention, to cooperate in the conservation and management of living marine resources, and recognizing the importance of coordination and cooperation at the global, regional, subregional and national levels in the areas, inter alia, of marine scientific research, data collection, information-sharing, capacity-building and training for the conservation, management and sustainable development of living marine resources,

*Acknowledging* the importance of ocean data buoy systems moored in areas beyond national jurisdiction to sustainable development, promoting safety at sea and limiting human vulnerability to natural disasters, due to their use in weather and marine forecasts, fisheries management, tsunami forecasts and climate prediction, and expressing concern that most damage to ocean data buoys, such as moored buoys and tsunameters, frequently results from actions taken by some fishing operations which render the buoys inoperable,

*Welcoming in this regard* the adoption of measures by States, individually or through regional fisheries management organizations and arrangements, to protect ocean data buoy systems from the impacts of fishing activities,

*Recognizing* the need for States, individually and through regional fisheries management organizations and arrangements, to continue to develop and implement, consistent with international law, effective port State measures to combat overfishing and illegal, unreported and unregulated fishing, the critical need for cooperation with developing States to build their capacity, and the importance of cooperation between the Food and Agriculture Organization of the United Nations and the International Maritime Organization in this regard,

*Noting with satisfaction* the ratifications, acceptance and approval of and accessions to the Agreement on Port State Measures to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing of the Food and Agriculture Organization of the United Nations,<sup>170</sup>

*Recognizing* the efforts of States, individually and through regional fisheries management organizations and arrangements, to implement its resolution 46/215 of 20 December 1991, in which the General Assembly called for a global moratorium on all large-scale pelagic drift-net fishing, including collaborative fisheries enforcement activities, and in particular the 20-year effort by States members of the North Pacific Anadromous Fish Commission that has successfully contributed to the decrease in the use of large-scale pelagic drift-nets in the high seas of the North Pacific Ocean,

*Concerned* that marine pollution from all sources constitutes a serious threat to human health and safety, endangers fish stocks, marine biodiversity and marine and coastal habitats and has significant costs to local and national economies,

*Recognizing* that marine debris is a global transboundary pollution problem and that, owing to the many different types and sources of marine debris, different approaches to their prevention and removal are necessary, including identification of such sources,

*Noting* that the contribution of sustainable aquaculture to global fish supplies continues to respond to opportunities in developing countries to enhance local food security and poverty alleviation and, together with the efforts of other aquaculture-producing countries, will make a significant contribution to meeting future demands in fish consumption, bearing in mind article 9 of the Code,

*Reaffirming* the importance of sustainable aquaculture to food security, and concerned about the potential effects of genetically engineered aquatic fish species on the health and sustainability of wild fish stocks,

*Recognizing also* the need to further integrate ecosystem approaches into fisheries conservation and management and, more generally, the importance of applying ecosystem approaches to the management of human activities in the ocean, and noting in this regard the Reykjavik Declaration on Responsible Fisheries in the Marine Ecosystem,<sup>171</sup> the work of the Food and Agriculture Organization of the United Nations related to guidelines for the implementation of the ecosystem approach to fisheries management and the importance of this approach to relevant provisions of the Agreement and the Code, as well as decision VII/11<sup>172</sup> and other relevant decisions of the Conference of the Parties to the Convention on Biological Diversity,

*Recognizing further* the economic and cultural importance of sharks in many countries, the biological importance of sharks in the marine ecosystem as key predatory species, the vulnerability of certain shark species to overexploitation, the fact that some are threatened with extinction, the need for measures to promote the long-term conservation, management and sustainable use of shark populations and fisheries, and the relevance of the International Plan of Action for the Conservation and Management of Sharks, adopted by the Food and Agriculture Organization of the United Nations in 1999, in providing guidance on the development of such measures,

*Welcoming* science-based measures taken by States to conserve and sustainably manage sharks, and noting in this respect management measures taken by coastal States, including limits on catch or fishing effort, technical measures, including by-catch reduction measures, sanctuaries, closed seasons and areas and monitoring, control and surveillance,

*Noting* the addition of five shark species and two species of manta ray to appendix II to the Convention on International Trade in Endangered Species of Wild Fauna and Flora<sup>173</sup> by the Conference of the Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora at its sixteenth meeting, held in Bangkok from 3 to 14 March 2013,

*Recognizing* the importance of marine species occupying low trophic levels in the ecosystem and for food security, and the need to ensure their long-term sustainability,

*Welcoming* the outcomes of the major United Nations conferences and summits which have contributed to the advancement of the global health agenda, including the 2013 outcome document of the special event to follow up efforts made towards achieving the Millennium Development Goals,<sup>185</sup> the 2013 outcome document of the high-level meeting of the General Assembly on the realization of the Millennium Development Goals and other internationally agreed development goals for persons with disabilities: the way forward, a disability-inclusive development agenda towards 2015 and beyond,<sup>186</sup> the 2012 outcome document of the United Nations Conference on Sustainable Development, entitled “The future we want”,<sup>187</sup> the Rio Political Declaration on Social Determinants of Health adopted at the 2011 World Conference on Social Determinants of Health, the 2011 Political Declaration on HIV and AIDS: Intensifying Our Efforts to Eliminate HIV and AIDS,<sup>188</sup> the 2011 political declaration of the high-level meeting of the General Assembly on the prevention and control of non-communicable diseases,<sup>189</sup> World Health Assembly resolution 66.11 of 27 May 2013 on health in the post-2015 development agenda, the Helsinki Statement on Health in All Policies, adopted at the Eighth Global Conference on Health Promotion, and

Recommendation No. 202 concerning national floors of social protection, adopted by the International Labour Conference at its 101st session, and reaffirming the Programme of Action of the International Conference on Population and Development, adopted in Cairo in September 1994,<sup>190</sup> the key actions for the further implementation of the Programme of Action<sup>191</sup> and the Beijing Declaration and Platform for Action,<sup>192</sup>

*Welcoming also* the adoption of Economic and Social Council resolution 2013/12 of 22 July 2013 on the United Nations Inter-Agency Task Force on the Prevention and Control of Non-communicable Diseases,

*Reaffirming* the right of every human being, without distinction of any kind, to the enjoyment of the highest attainable standard of physical and mental health and to a standard of living adequate for the health and well-being of oneself and one's family, including adequate food, clothing and housing, and to the continuous improvement of living conditions,

*Noting with particular concern* that, for millions of people, the right to the enjoyment of the highest attainable standard of physical and mental health, including access to quality medicines, remains a distant goal, that, especially for women, the most vulnerable, children and those living in poverty, the likelihood of achieving this goal is becoming increasingly remote, that millions of people are driven below the poverty line each year because of catastrophic out-of-pocket payments for health care and that excessive out-of-pocket payments can discourage the impoverished from seeking or continuing care,

*Reaffirming* the right to use, to the fullest extent, the provisions contained in the World Trade Organization Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS Agreement), the Doha Declaration on the TRIPS Agreement and Public Health, the decision of the General Council of the World Trade Organization of 30 August 2003 on the implementation of paragraph 6 of the Doha Declaration on the TRIPS Agreement and Public Health and, when formal acceptance procedures are completed, the amendment to article 31 of the TRIPS Agreement, as proposed by the General Council of the World Trade Organization in its decision of 6 December 2005, which provide flexibilities for the protection of public health, and in particular to promote access to medicines for all, and to encourage the provision of assistance to developing countries in this regard, and calling for broad and timely acceptance of the amendment to article 31 of the TRIPS Agreement,

*Recognizing* that the protection of intellectual property can be important in the development of new medicines,

*Recognizing also* that health is a precondition for and an outcome and indicator of all three dimensions of sustainable development and that, despite progress made, challenges in global health, including major inequities and vulnerabilities within and among countries, regions and populations, still remain and demand persistent attention,

*Reaffirming* the commitment to the achievement of all the Millennium Development Goals, and stressing the need to further support initiatives aimed at accelerating progress for their achievement by 2015,

*Welcoming* progress made in the areas of the Millennium Development Goals on health, which are key to achieving all the Goals, and noting that the Goals are interconnected and that progress in the achievement of any of the Goals bolsters progress in others, noting with concern in this regard the remaining gap between the commitment and delivery on Goal 8, and stressing that more needs to be done to achieve the Goals by 2015,

*Noting* the important role that partnerships with a broad range of actors, including national Governments, local authorities, international institutions, business, civil society organizations, foundations, philanthropists and social impact investors, scientists and academics, and individuals, play in development,

*Taking note* of the report of the Secretary-General entitled "A life of dignity for all: accelerating progress towards the Millennium Development Goals and advancing the United Nations development agenda beyond 2015",<sup>193</sup>

*Acknowledging* the successful role that the Kimberley Process has played in stemming the flow of conflict diamonds in the past decade of its existence and the significant developmental impact it has had in improving the lives of people dependent on the trade in diamonds, and noting that the plenary meeting of the Process, in looking towards the future, committed to continue to ensure that the Process remains relevant as a credible tool in curbing the illegal flow of rough diamonds,

*Acknowledging also* that the diamond sector is an important catalyst for promoting economic and social development, which are necessary for poverty reduction and meeting the requirements of the Millennium Development Goals in many producing countries, particularly in developing countries,

*Bearing in mind* the positive benefits of the legitimate diamond trade to producing countries, and underlining the need for continued international action to prevent the problem of conflict diamonds from negatively affecting the trade in legitimate diamonds, which makes a critical contribution to the economies of the producing, exporting and importing States,

*Noting* that the vast majority of rough diamonds produced in the world are from legitimate sources,

*Recalling* the Charter and all the relevant resolutions of the Security Council related to conflict diamonds, and determined to contribute to and support the implementation of the measures provided for in those resolutions,

*Recalling also* Security Council resolution 1459 (2003) of 28 January 2003, in which the Council strongly supported the Kimberley Process Certification Scheme<sup>242</sup> as a valuable contribution against trafficking in conflict diamonds,

*Noting with satisfaction* that the implementation of the Kimberley Process Certification Scheme continues to have a positive impact in reducing the opportunity for conflict diamonds to play a role in fuelling armed conflict and would help to protect legitimate trade and ensure the effective implementation of the relevant resolutions on trade in conflict diamonds,

*Acknowledging* that lessons learned from the Kimberley Process may be useful for the work of the Peacebuilding Commission in its consideration of the countries included in its agenda, as appropriate,

*Recalling* its resolutions 55/56 of 1 December 2000, 56/263 of 13 March 2002, 57/302 of 15 April 2003, 58/290 of 14 April 2004, 59/144 of 15 December 2004, 60/182 of 20 December 2005, 61/28 of 4 December 2006, 62/11 of 26 November 2007, 63/134 of 11 December 2008, 64/109 of 11 December 2009, 65/137 of 16 December 2010, 66/252 of 25 January 2012 and 67/135 of 18 December 2012, in which it called for the development and implementation as well as a periodic review of proposals for a simple, effective and pragmatic international certification scheme for rough diamonds,

*Recognizing* that State sovereignty should be fully respected and that the principles of equality, mutual benefits and consensus should be adhered to,

*Recognizing also* that the Kimberley Process Certification Scheme, which came into effect on 1 January 2003, will be credible only if all Participants have requisite national legislation coupled with effective and credible internal systems of control designed to eliminate the presence of conflict diamonds in the chain of producing, exporting and importing rough diamonds within their own territories, while taking into account that differences in production methods and trading practices, as well as differences in institutional controls thereof, may require different approaches to meeting minimum standards,

*Welcoming* the efforts to improve the normative framework of the Kimberley Process through the elaboration of new rules and procedural norms to regulate the activities of its working bodies, Participants and observers and the streamlining of the procedures for preparation and adoption of the decisions and documents of the Kimberley Process, thereby enhancing the effectiveness of the Kimberley Process Certification Scheme,

*Taking note further* of the unilateral declarations made by all the nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against the non-nuclear-weapon States,

2. *Notes with satisfaction* that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, although the difficulties with regard to evolving a common approach acceptable to all have also been pointed out;

## II. Resolutions adopted on the reports of the First Committee

---

*Emphasizing* the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

*Considering* that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

*Noting* that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space, and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

*Noting also* that there were no objections in principle in the Conference on Disarmament to the re-establishment of the Ad Hoc Committee, subject to re-examination of the mandate contained in the decision of the Conference on Disarmament of 13 February 1992,<sup>41</sup>

*Emphasizing* the mutually complementary nature of bilateral and multilateral efforts for the prevention of an arms race in outer space, and hoping that concrete results will emerge from those efforts as soon as possible,

*Convinced* that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space, including the weaponization of outer space,

*Stressing* that the growing use of outer space increases the need for greater transparency and better information on the part of the international community,

*Recalling*, in this context, its previous resolutions, in particular resolutions 45/55 B of 4 December 1990, 47/51 of 9 December 1992 and 48/74 A of 16 December 1993, in which, inter alia, it reaffirmed the importance of confidence-building measures as a means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

*Conscious* of the benefits of confidence- and security-building measures in the military field,

*Recognizing* that negotiations for the conclusion of an international agreement or agreements to prevent an arms race in outer space remain a priority task of the Conference on Disarmament and that the concrete proposals on confidence-building measures could form an integral part of such agreements,

*Noting with satisfaction* the constructive, structured and focused debate on the prevention of an arms race in outer space at the Conference on Disarmament in 2009, 2010, 2011, 2012 and 2013,

*Noting* the introduction by China and the Russian Federation at the Conference on Disarmament of the draft treaty on the prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects,<sup>42</sup>

*Taking note* of the decision of the Conference on Disarmament to establish for its 2009 session a working group to discuss, substantially, without limitation, all issues related to the prevention of an arms race in outer space,

1. *Reaffirms* the importance and urgency of preventing an arms race in outer space and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;<sup>39</sup>

2. *Reaffirms its recognition*, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime applicable to outer space by itself does not guarantee the prevention of an arms race in outer space, that the regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce that regime and enhance its effectiveness and that it is important to comply strictly with existing agreements, both bilateral and multilateral;

4. *Calls upon* all States, in particular those with major space capabilities, to contribute actively to the objective of the peaceful use of outer space and of the prevention of an arms race in outer space and to refrain from actions contrary to that objective and to the relevant existing treaties in the interest of maintaining international peace and security and promoting international cooperation;

22 November 2002, 58/39 of 8 December 2003, 59/88 of 3 December 2004, 60/75 of 8 December 2005, 61/82 of 6 December 2006, 62/44 of 5 December 2007, 63/44 of 2 December 2008, 64/42 of 2 December 2009, 65/46 of 8 December 2010, 66/37 of 2 December 2011 and 67/62 of 3 December 2012,

*Recognizing* the crucial role of conventional arms control in promoting regional and international peace and security,

*Convinced* that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

*Aware* that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

*Desirous* of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

*Noting with particular interest* the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject, the relevance and value of the Treaty on Conventional Armed Forces in Europe,<sup>211</sup> which is a cornerstone of European security,

*Believing* that militarily significant States and States with larger military capabilities have a special responsibility in promoting such agreements for regional security,

1. *Decides* to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;

2. *Requests* the Conference on Disarmament to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;

*Recognizing* that the changes that have taken place in the world have created new opportunities and posed new challenges for the pursuit of disarmament, and bearing in mind in this regard that the regional centres for peace and disarmament can contribute substantially to understanding and cooperation among States in each particular region in the areas of peace, disarmament and development,

**68/58. Convention on the Prohibition of the Use of Nuclear Weapons**

*The General Assembly,*

*Convinced* that the use of nuclear weapons poses the most serious threat to the survival of mankind,

*Bearing in mind* the advisory opinion of the International Court of Justice of 8 July 1996 on the legality of the threat or use of nuclear weapons,<sup>218</sup>

### RESOLUTION 68/64

Adopted at the 60th plenary meeting, on 5 December 2013, without a vote, on the recommendation of the Committee (A/68/413, para. 10)<sup>252</sup>

#### 68/64. Report of the Conference on Disarmament

*The General Assembly,*

*Having considered* the report of the Conference on Disarmament,<sup>253</sup>

*Convinced* that the Conference on Disarmament, as the sole multilateral disarmament negotiating forum of the international community, has the primary role in substantive negotiations on priority questions of disarmament,

*Recognizing* the message of the Secretary-General of the United Nations, as well as the addresses of Ministers for Foreign Affairs and other high-level officials in the Conference on Disarmament, as expressions of support and concern for the endeavours of the Conference and as calls for the Conference to immediately commence negotiations to advance disarmament goals through the adoption of a balanced and comprehensive programme of work,

*Recognizing also* the need to conduct multilateral negotiations with the aim of reaching agreement on concrete issues, and considering that the present international climate should give additional impetus to multilateral negotiations,

*Noting with renewed concern* that, despite the intensive efforts by States members and successive Presidents of the Conference on Disarmament in the 2013 session to reach consensus on a programme of work on the basis of relevant proposals and suggestions, including the revised draft decision of 11 February 2013 submitted for adoption and the draft decisions circulated on 21 June and 13 August 2013, the Conference did not succeed in commencing its substantive work, including negotiations, as called for by the General Assembly in its resolution 67/72 of 3 December 2012, or in agreeing on and implementing a programme of work,

*Recalling*, in this respect, that the Conference on Disarmament has a number of urgent and important issues for negotiation to achieve disarmament goals,

*Welcoming* the overwhelming call for greater flexibility with respect to commencing the substantive work of the Conference on Disarmament without further delay, on the basis of a balanced and comprehensive programme of work,

*Appreciating* the continued cooperation among the States members of the Conference on Disarmament as well as the six successive Presidents of the Conference at its 2013 session,

*Emphasizing* the importance of the United Nations Institute for Disarmament Research, as a stand-alone, autonomous institution, and the contribution that its research makes,

*Recognizing* the importance of engagement between civil society and the Conference on Disarmament according to decisions taken by the Conference,

*Stressing* the urgent need for the Conference on Disarmament to commence its substantive work at the beginning of its 2014 session,

1. *Reaffirms* the role of the Conference on Disarmament as the sole multilateral disarmament negotiating forum of the international community;

2. *Appreciates* the strong support expressed for the Conference on Disarmament during its 2013 session by Ministers for Foreign Affairs and other high-level officials, while also acknowledging their concern about its ongoing impasse, and takes into account their calls for greater flexibility with respect to commencing the substantive work of the Conference without further delay;

3. *Calls upon* the Conference on Disarmament to further intensify consultations and to explore possibilities for overcoming its ongoing deadlock of well over a decade by adopting and implementing a balanced and comprehensive programme of work at the earliest possible date during its 2014 session, bearing in mind the decision on the programme of work adopted by the Conference on 29 May 2009,<sup>254</sup> as well as other relevant present, past and future proposals;

4. *Welcomes* the decision of the Conference on Disarmament to establish an informal working group with a mandate to produce a programme of work robust in substance and progressive over time in implementation,<sup>255</sup> appreciates the efforts that led to its submission and adoption, and takes note of the provisions of that decision;

5. *Also welcomes* the decision of the Conference on Disarmament to request the current President and the incoming President of the Conference to conduct consultations during the intersessional period and, if possible, to make recommendations, taking into account all relevant proposals, past, present and future, including those submitted as documents of the Conference, views presented and discussions held, and to endeavour to keep the membership of the Conference informed, as appropriate, of their consultations;

6. *Requests* all States members of the Conference on Disarmament to cooperate with the current President and successive Presidents in their efforts to guide the Conference to the early commencement of its substantive work, including negotiations, in its 2014 session;

7. *Recognizes* the importance of continuing consultations on the question of the expansion of the membership of the Conference on Disarmament;

8. *Requests* the Secretary-General to continue to ensure and to strengthen, if needed, the provision to the Conference on Disarmament of all necessary administrative, substantive and conference support services;

9. *Requests* the Conference on Disarmament to submit to the General Assembly at its sixty-ninth session a report on its work;

*Recalling also* all relevant treaties and conventions<sup>2</sup> and their review processes,

*Noting with appreciation* the extent to which the International Day for Mine Awareness and Assistance in Mine Action has been commemorated worldwide,

*Reaffirming its deep concern* at the tremendous humanitarian and development problems caused by the presence of mines and explosive remnants of war,<sup>3</sup> which have serious and lasting social and economic consequences for the populations of countries affected by them,

### III. Resolutions adopted on the reports of the Special Political and Decolonization Committee (Fourth Committee)

---

*Recommends* the following elements for consideration, as appropriate, by States when enacting regulatory frameworks for national space activities, in accordance with their national law, taking into account their specific needs and requirements:

1. The scope of space activities targeted by national regulatory frameworks may include, as appropriate, the launch of objects into and their return from outer space, the operation of a launch or re-entry site and the operation and control of space objects in orbit; other issues for consideration may include the design and manufacture of spacecraft, the application of space science and technology, and exploration activities and research;
2. The State, taking into account its obligations as a launching State and as a State responsible for national activities in outer space under the United Nations treaties on outer space, should ascertain national jurisdiction over space activities carried out from territory under its jurisdiction and/or control; likewise, it should issue authorizations for and ensure supervision over space activities carried out elsewhere by its citizens and/or legal persons established, registered or seated in territory under its jurisdiction and/or control, provided, however, that if another State is exercising jurisdiction with respect to such activities, the State should consider forbearing from duplicative requirements and avoid unnecessary burdens;
3. Space activities should require authorization by a competent national authority; such authority or authorities, as well as the conditions and procedures for granting, modifying, suspending and revoking the authorization, should be set out clearly within the regulatory framework; States might employ specific procedures for the licensing and/or for the authorization of different kinds of space activities;
4. The conditions for authorization should be consistent with the international obligations of States, in particular under the United Nations treaties on outer space, and with other relevant instruments, and may reflect the national security and foreign policy interests of States; the conditions for authorization should help to ascertain that space activities are carried out in a safe manner and to minimize risks to persons, the environment or property and that those activities do not lead to harmful interference with other space activities; such conditions could also relate to the experience, expertise and technical qualifications of the applicant and could include safety and technical standards that are in line, in particular, with the Space Debris Mitigation Guidelines of the Committee on the Peaceful Uses of Outer Space;<sup>15</sup>
5. Appropriate procedures should ensure continuing supervision and monitoring of authorized space activities by applying, for example, a system of on-site inspections or a more general reporting requirement; enforcement mechanisms could include administrative measures, such as the suspension or revocation of the authorization, and/or penalties, as appropriate;
6. A national registry of objects launched into outer space should be maintained by an appropriate national authority; operators or owners of space objects for which the State is considered to be the launching State or the State responsible for national activities in outer space under the United Nations treaties on outer space should be requested to submit information to the authority to enable the State on whose registry such objects are carried to submit the relevant information to the Secretary-General of the United Nations in accordance with applicable international instruments, including the Convention on Registration of Objects Launched into Outer Space,<sup>16</sup> and in consideration of General Assembly resolutions 1721 B (XVI) of 20 December 1961 and 62/101 of 17 December 2007; the State may also request information on any change in the main characteristics of space objects, in particular when they have become non-functional;
7. States could consider ways of seeking recourse from operators or owners of space objects if their liability for damage under the United Nations treaties on outer space has become engaged; in order to ensure appropriate coverage for damage claims, States could introduce insurance requirements and indemnification procedures, as appropriate;
8. Continuing supervision of the space activities of non-governmental entities should be ensured in the event of the transfer of ownership or control of a space object in orbit; national regulations may provide for authorization requirements with regard to the transfer of ownership or obligations for the submission of information on the change in status of the operation of a space object in orbit.

---

*Affirming* the applicability of the Geneva Convention relative to the Protection of Civilian Persons in Time of War, of 12 August 1949,<sup>48</sup> to the Palestinian territory occupied since 1967, including East Jerusalem,

*Aware* of the continuing needs of the Palestine refugees in all fields of operation, namely, Jordan, Lebanon, the Syrian Arab Republic and the Occupied Palestinian Territory,

*Gravely concerned* about the extremely difficult socioeconomic conditions being faced by the Palestine refugees in the Occupied Palestinian Territory, including East Jerusalem, particularly in the refugee camps in the Gaza Strip, as a result of the continuing prolonged Israeli closures, the construction of settlements and the wall, and the severe economic and movement restrictions that in effect amount to a blockade, which, despite measures taken by Israel in 2012 and 2013, have deepened unemployment and poverty rates among the refugees, with potentially lasting, long-term negative effects,

*Gravely concerned also* about the continuing negative repercussions of the military operations in the Gaza Strip between December 2008 and January 2009, which caused extensive loss of life and injury, particularly among Palestinian civilians, including children and women; widespread destruction and damage to Palestinian homes, properties, vital infrastructure and public institutions, including hospitals, schools and United Nations facilities; and internal displacement of civilians, including refugees,

*Deploring* the loss of civilian lives, including women and children, as a result of the hostilities that affected the Gaza Strip and Israel in November 2012,

*Commending* the extraordinary efforts by the Agency to provide emergency relief, medical, food, shelter and other humanitarian assistance to needy and displaced families in the Gaza Strip,

*Recalling*, in this regard, its resolution ES-10/18 of 16 January 2009 and Security Council resolution 1860 (2009) of 8 January 2009,

*Expressing regret* over the continued restrictions that impede the Agency's efforts to repair and rebuild thousands of damaged or destroyed refugee shelters, and calling upon Israel to ensure the unimpeded import of essential construction materials into the Gaza Strip and to reduce the burdensome cost of importation of Agency supplies, while taking note of recent developments regarding the situation of access there,

*Expressing concern* about the severe classroom shortage in the Gaza Strip and the consequent negative impact on the right to education of refugee children as a result of the constraints on the ability of the Agency to construct new schools due to Israel's ongoing restrictions impeding the entry of necessary construction materials into the Gaza Strip,

*Stressing* the urgent need for the advancement of reconstruction in the Gaza Strip, including by ensuring the timely facilitation of construction projects and by sustaining the swift entry of construction materials needed for projects managed by the Agency, and the need for the accelerated implementation of other urgent United Nations-led civilian reconstruction activities,

*Urging* the timely disbursement of remaining pledges made at the International Conference in Support of the Palestinian Economy for the Reconstruction of Gaza, held in Sharm el-Sheikh, Egypt, on 2 March 2009, to accelerate the reconstruction process,

*Noting with appreciation* the completion of the first phase and near-completion of the second phase of the project to rebuild the Nahr el-Bared refugee camp, commending the Government of Lebanon, donors, the Agency and other concerned parties for the important progress made and for the continuing efforts to assist affected and displaced refugees, and emphasizing the need for additional funding to complete the reconstruction of the camp and end the displacement of its 27,000 residents without delay,

*Expressing deep concern* at the critical situation of Palestine refugees in the Syrian Arab Republic and at the impact of the crisis on the Agency's ability to deliver its services, and regretting profoundly the loss of life among refugees and the killing of eight staff members of the Agency during the crisis since 2012,

*Aware* of the valuable work done by the Agency in providing protection to the Palestinian people, in particular Palestine refugees, and recalling the need for the protection of all civilians in situations of armed conflict,

*Deploring* the endangerment of the safety of the Agency's staff and the damage and destruction caused to the facilities and properties of the Agency during the period covered by the report of the Commissioner-General, and stressing the need to maintain the neutrality of and safeguard the inviolability of United Nations premises, installations and equipment,

*Deploring also* the extensive damage and destruction of Agency facilities in the Gaza Strip caused during the military operations between December 2008 and January 2009, including schools where civilians were sheltered and the Agency's main compound and warehouse, as reported in the summary by the Secretary-General of the report of the Board of Inquiry<sup>49</sup> and in the report of the United Nations Fact-finding Mission on the Gaza Conflict,<sup>50</sup>

*Deploring further*, in this regard, the breaches of the inviolability of United Nations premises, the failure to accord the property and assets of the Organization immunity from any form of interference and the failure to protect United Nations personnel, premises and property,

*Deploring also* the killing and wounding of refugee children in the Agency schools by the Israeli occupying forces during the military operations between December 2008 and January 2009,

*Aware* of the agreement between the Agency and the Government of Israel,

*Taking note* of the agreement reached on 24 June 1994, embodied in an exchange of letters between the Agency and the Palestine Liberation Organization,<sup>51</sup>

### III. Resolutions adopted on the reports of the Special Political and Decolonization Committee (Fourth Committee)

---

*Taking note* of its resolution 67/19 of 29 November 2012,

*Aware* that Israeli settlement activities involve, inter alia, the transfer of nationals of the occupying Power into the occupied territories, the confiscation of land, the forced displacement of Palestinian civilians, including Bedouin families, the exploitation of natural resources and other actions against the Palestinian civilian population and the civilian population in the occupied Syrian Golan that are contrary to international law,

*Bearing in mind* the extremely detrimental impact of Israeli settlement policies, decisions and activities on the efforts to resume and advance the peace process, on the credibility of the peace process and on the prospects for the achievement of peace in the Middle East in accordance with the two-State solution of Israel and Palestine, living side by side in peace and security within recognized borders, on the basis of the pre-1967 borders,

*Expressing grave concern* about the continuation by Israel, the occupying Power, of settlement activities in the Occupied Palestinian Territory, including East Jerusalem, in violation of international humanitarian law, relevant United Nations resolutions, the agreements reached between the parties and obligations under the Quartet road map, and in defiance of the calls by the international community to cease all settlement activities,

*Expressing grave concern in particular* about Israel's construction and expansion of settlements in and around occupied East Jerusalem, including its so-called E-1 plan that aims to connect its illegal settlements around and further isolate occupied East Jerusalem, the continuing demolition of Palestinian homes and eviction of Palestinian families from the city, the revocation of Palestinian residency rights in the city, and ongoing settlement activities in the Jordan Valley,

*Expressing grave concern* about the continuing unlawful construction by Israel of the wall inside the Occupied Palestinian Territory, including in and around East Jerusalem, and expressing its concern in particular about the route of the wall in departure from the Armistice Line of 1949, which is causing humanitarian hardship and a serious decline of socioeconomic conditions for the Palestinian people, is fragmenting the territorial contiguity of the Territory and undermining its viability, and could prejudice future negotiations and make the two-State solution physically impossible to implement,

*Deeply concerned* that the wall's route has been traced in such a way as to include the great majority of the Israeli settlements in the Occupied Palestinian Territory, including East Jerusalem,

*Deploping* settlement activities in the Occupied Palestinian Territory, including East Jerusalem, and in the occupied Syrian Golan and any activities involving the confiscation of land, the disruption of the livelihood of protected persons, the forced displacement of civilians and the de facto annexation of land,

*Recalling* the need to end all acts of violence, including acts of terror, provocation, incitement and destruction,

*Gravely concerned* about the rising incidents of violence, destruction, harassment, provocation and incitement by extremist Israeli settlers in the Occupied Palestinian Territory, including East Jerusalem, against Palestinian civilians, including children, and their properties, including historic and religious sites, and agricultural lands,

*Taking note* of the relevant reports of the Secretary-General,<sup>95</sup>

*Noting* the special meeting of the Security Council convened on 26 September 2008, as well as the meeting of the Council of 18 February 2011,

1. *Reaffirms* that the Israeli settlements in the Occupied Palestinian Territory, including East Jerusalem, and in the occupied Syrian Golan are illegal and an obstacle to peace and economic and social development;

2. *Calls upon* Israel to accept the de jure applicability of the Geneva Convention relative to the Protection of Civilian Persons in Time of War, of 12 August 1949,<sup>86</sup> to the Occupied Palestinian Territory, including East Jerusalem, and to the occupied Syrian Golan and to abide scrupulously by the provisions of the Convention, in particular article 49, and to comply with all of its obligations under international law and cease immediately all actions causing the alteration of the character, status and demographic composition of the Occupied Palestinian Territory, including East Jerusalem, and of the occupied Syrian Golan;

---

3. *Reiterates its demand* for the immediate and complete cessation of all Israeli settlement activities in all of the Occupied Palestinian Territory, including East Jerusalem, and in the occupied Syrian Golan, and calls in this regard for the full implementation of all the relevant resolutions of the Security Council, including, inter alia, resolutions 446 (1979), 452 (1979) of 20 July 1979, 465 (1980), 476 (1980) and 1515 (2003) of 19 November 2003;

*Having examined* the relevant chapter of the report of the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples for 2013,<sup>154</sup>

*Recalling* all resolutions and decisions of the United Nations relating to those Territories, including, in particular, the resolutions adopted by the General Assembly at its sixty-sixth session on the individual Territories covered by the present resolutions,

*Recognizing* that all available options for self-determination of the Territories are valid as long as they are in accordance with the freely expressed wishes of the peoples concerned and in conformity with the clearly defined principles contained in General Assembly resolutions 1514 (XV) of 14 December 1960, 1541 (XV) of 15 December 1960 and other resolutions of the Assembly,

### III. Resolutions adopted on the reports of the Special Political and Decolonization Committee (Fourth Committee)

---

*Recalling* its resolution 1541 (XV), containing the principles that should guide Member States in determining whether or not an obligation exists to transmit the information called for under Article 73 *e* of the Charter of the United Nations,

*Expressing concern* that 53 years after the adoption of the Declaration on the Granting of Independence to Colonial Countries and Peoples,<sup>155</sup> there still remain a number of Non-Self-Governing Territories,

*Conscious* of the importance of continuing effective implementation of the Declaration, taking into account the target set by the United Nations to eradicate colonialism by 2020 and the plans of action for the Second<sup>156</sup> and Third International Decades for the Eradication of Colonialism,

*Recognizing* that the specific characteristics and the aspirations of the peoples of the Territories require flexible, practical and innovative approaches to the options for self-determination, without any prejudice to territorial size, geographical location, size of population or natural resources,

*Noting* the stated position of the Government of the United Kingdom of Great Britain and Northern Ireland and the stated position of the Government of the United States of America on the Non-Self-Governing Territories under their administration,

*Noting also* the constitutional developments in some Non-Self-Governing Territories affecting the internal structure of governance about which the Special Committee has received information,

*Convinced* that the wishes and aspirations of the peoples of the Territories should continue to guide the development of their future political status and that referendums, free and fair elections and other forms of popular consultation play an important role in ascertaining the wishes and aspirations of the people,

*Convinced also* that any negotiations to determine the status of a Territory must take place with the active involvement and participation of the people of that Territory, under the auspices of the United Nations, on a case-by-case basis, and that the views of the peoples of the Non-Self-Governing Territories in respect of their right to self-determination should be ascertained,

*Noting* that a number of Non-Self-Governing Territories have expressed concern at the procedure followed by some administering Powers, contrary to the wishes of the Territories themselves, of amending or enacting legislation for application to the Territories, either through orders in council, in order to apply to the Territories the international treaty obligations of the administering Power, or through the unilateral application of laws and regulations,

*Aware* of the importance of the international financial services and tourism sectors for the economies of some of the Non-Self-Governing Territories,

*Noting* the continued cooperation of the Non-Self-Governing Territories at the local and regional levels, including participation in the work of regional organizations,

*Mindful also* that, in order for the Special Committee to enhance its understanding of the political status of the peoples of the Territories and to fulfil its mandate effectively, it is important for it to be apprised by the relevant administering Powers and to receive information from other appropriate sources, including the representatives of the Territories, concerning the wishes and aspirations of the peoples of the Territories,

*Acknowledging* the regular transmission by the administering Powers to the Secretary-General of information called for under Article 73 *e* of the Charter,

*Mindful*, in that connection, that the holding of regional seminars in the Caribbean and Pacific regions and at Headquarters, with the active participation of representatives of the Non-Self-Governing Territories, provides a helpful means for the Special Committee to fulfil its mandate, and that the regional nature of the seminars, which alternate between the Caribbean and the Pacific, is a crucial element in the context of a United Nations programme for ascertaining the political status of the Territories,

*Noting* the stated positions of the representatives of the Non-Self-Governing Territories before the Special Committee and at its regional seminars,

*Welcoming* the 2013 Caribbean regional seminar held by the Special Committee in Quito from 28 to 30 May 2013, as a significant and forward-looking event, which enabled the participants to assess the progress made in the decolonization process and to review the Committee's existing working methods and renew its momentum in implementing its historic task,

*Conscious* of the particular vulnerability of the Territories to natural disasters and environmental degradation, and in that connection bearing in mind the applicability to the Territories of the programmes of action or outcome documents of all United Nations world conferences and special sessions of the General Assembly in the economic and social spheres,

*Noting with appreciation* the contribution to the development of some Territories by the specialized agencies and other organizations of the United Nations system, in particular the United Nations Development Programme, the Economic Commission for Latin America and the Caribbean and the Economic and Social Commission for Asia and the Pacific, as well as regional institutions such as the Caribbean Development Bank, the Caribbean Community, the Organization of Eastern Caribbean States, the Pacific Islands Forum and the agencies of the Council of Regional Organizations in the Pacific,

*Recalling* the statement made by the representative of the Economic Commission for Latin America and the Caribbean at the Caribbean regional seminar held in Kingstown from 31 May to 2 June 2011 that all six Caribbean Non-Self-Governing Territories are active associate members of the Commission,

*Aware* that the Human Rights Committee, as part of its mandate under the International Covenant on Civil and Political Rights,<sup>158</sup> reviews the status of the self-determination process, including in small island Territories under examination by the Special Committee,

*Recognizing further* the fact that information and communications technologies are critical enablers of economic development and investment, with consequential benefits for employment and social welfare, and that the increasing pervasiveness of information and communications technologies within society has had profound impacts on the ways in which governments deliver services, businesses relate to consumers and citizens participate in public and private life,

*Reaffirming also* paragraphs 35 to 37 and 67 to 72 of the Tunis Agenda,

2. *Also recognizes* the rapid growth in broadband access networks, especially in developed countries, and expresses concern about the growing digital divide in the availability, affordability, quality of access and use of broadband between high-income countries and other regions, with the least developed countries, and Africa, as a continent, lagging behind the rest of the world;

3. *Expresses concern* regarding the digital divide in access to information and communications technologies and broadband connectivity between countries at different levels of development, which affects many economically and socially relevant applications in such areas as government, business, health and education, and also expresses concern with regard to the special challenges faced in the area of broadband connectivity by developing countries, including the least developed countries, small island developing States and landlocked developing countries;

4. *Acknowledges* that a gender divide exists as part of the digital divide, and encourages all stakeholders to ensure the full participation of women in the information society and women’s access to and use of information and

9. *Also recognizes* that information and communications technologies present new opportunities and challenges and that there is a pressing need to address the major impediments that developing countries face in accessing the new technologies, such as insufficient resources, infrastructure, education, capacity, investment and connectivity and issues related to technology ownership, standards and flows, and in this regard calls upon all stakeholders to provide adequate resources, enhanced capacity-building and technology transfer, on mutually agreed terms, to developing countries, particularly the least developed countries;

10. *Further recognizes* the immense potential that information and communications technologies have in promoting the transfer of technologies in a wide spectrum of socioeconomic activity;

6. *Recalls*, in this regard, the resolve to strengthen the coordination of the United Nations system and multilateral financial, trade and development institutions so as to support economic growth, poverty eradication, job creation and sustainable development worldwide, on the basis of a clear understanding of and respect for their mandates and governance structures;

7. *Also recalls* that countries must have the flexibility necessary to implement countercyclical measures and to pursue tailored and targeted responses to the crisis, and calls for conditionalities to be streamlined to ensure that they are timely, tailored and targeted and that they support developing countries in the face of financial, economic and development challenges;

8. *Notes*, in this regard, the increase in resources and the improvement of the lending framework of the International Monetary Fund through, inter alia, streamlined conditions and flexible instruments, such as the precautionary and liquidity line, the flexible credit line and the rapid financing instrument, and the refinement of the lending framework for low-income countries, while also noting that new and ongoing programmes should not contain unwarranted procyclical conditionalities;

9. *Urges*, in this regard, the multilateral development banks to continue to move forward on flexible, concessional, fast-disbursing and front-loaded assistance that will substantially and quickly assist developing countries facing financing gaps in their efforts to achieve the Millennium Development Goals, taking into consideration the individual absorptive capacities and debt sustainability of those countries;

10. *Recognizes* the role of private capital flows in mobilizing financing for development, stresses the challenges posed by excessive volatility of short-term capital flows to many developing countries, notes that the design and implementation of capital flow management measures to address those challenges, such as macroeconomic policies, macroprudential measures and various forms of capital account management, need to take into account the specific circumstances of individual countries, while also remaining fully cognizant of the potential risks involved in capital flow management;

11. *Also recognizes* the need for international financial institutions to promote, within their respective mandates, including by providing the right incentives for medium- and long-term investment and the sharing of best practices, the mobilization of capital flows in order to better channel national and international investment for sustainable development based on its three dimensions;

12. *Reaffirms* the importance of broadening and strengthening the participation of developing countries in international economic decision-making and norm-setting, notes in this regard the important steps taken in the reform of the governance structures, quotas and voting rights of the Bretton Woods institutions, which go in the direction of better reflecting current realities and enhancing the voice, the participation and the voting rights of developing countries, and recognizes the importance of continuing such reform processes in an ambitious and expeditious manner in order to deliver more effective, credible, accountable and legitimate institutions;

13. *Notes*, in this regard, the decisions taken by the World Bank Group on voice and participation and further institutional reforms to meet new challenges and the addition of the twenty-fifth Chair to the Boards of Executive Directors of the World Bank Group, and looks forward to progress in its institutional reforms;

14. *Calls for* the swift implementation of the 2010 quota and governance reform of the International Monetary Fund, notes the progress made by the Fund on the review of the quota formula in January 2013, and emphasizes the importance of continued discussions to reach agreement on the quota formula by January 2014, in parallel to the fifteenth general review of the quotas and as part of ongoing reform processes, in order to ensure the Fund's capability to address the challenges encountered by today's international monetary and financial system;

15. *Recognizes* the importance of an open, transparent and merit-based process for selecting the heads of the international financial institutions, including the Bretton Woods institutions;

16. *Emphasizes* the need for more effective government involvement in order to ensure an appropriate regulation of the market which promotes the public interest, and recognizes in this regard the need to better regulate financial markets to promote economic stability and sustained, equitable and inclusive growth;

17. *Also emphasizes* the need for continued coordination at the international, regional and national levels on regulatory frameworks for the financial markets and some of their products, notes that while it is still too early to estimate the full effects of Basel III, there is a concern that it may negatively impact some developing countries, and recognizes in this regard the need for continued efforts to ensure regulation and oversight of financial markets in fields such as shadow banking, derivatives and banks that are “too big to fail”, with a view to promoting economic stability and equitable and inclusive growth;

18. *Recognizes* the role of special drawing rights as an international reserve asset, acknowledges that special drawing rights allocations helped to supplement international reserves in response to the world financial and economic crisis, thus contributing to the stability of the international financial system and global economic resilience, and also recognizes the need to continue regular reviews of the role of special drawing rights, including with reference to their potential role in the international reserve system;

19. *Reiterates* that effective, inclusive multilateral surveillance should be at the centre of crisis prevention efforts, stresses the need to continue strengthening surveillance of the financial policies of countries, and in this regard takes note of the new surveillance approach of the International Monetary Fund to better integrate bilateral and multilateral surveillance, along with cross-border and cross-sectoral linkages with macroeconomic and macroprudential policies, while paying closer attention to the spillover effects from national economic and financial policies onto the global economy;

20. *Stresses*, in this regard, the need to strengthen intergovernmental and independent surveillance of national financial policies and their impact on international interest rates, exchange rates and capital flows;

21. *Invites* the international financial and banking institutions to continue to enhance the transparency of risk-rating mechanisms, noting that sovereign risk assessments made by the private sector should maximize the use of strict, objective and transparent parameters, which can be facilitated by high-quality data and analysis, and encourages relevant institutions, including the United Nations Conference on Trade and Development, to continue their work on the issue, including its potential impact on the development prospects of developing countries;

22. *Calls upon* the multilateral, regional and subregional development banks and development funds to continue to play a vital role in serving the development needs of developing countries and countries with economies in transition, including through coordinated action, as appropriate, stresses that strengthened regional development banks and subregional financial institutions can add flexible financial support to national and regional development efforts, thus enhancing their ownership and overall efficiency, and can promote regional integration, increasing resilience to economic shocks, welcomes in this regard recent capital increases at multilateral and regional development banks, and, in addition, encourages efforts to ensure that subregional development banks are adequately funded;

23. *Encourages* enhanced regional and subregional cooperation, including through regional and subregional development banks, commercial and reserve currency arrangements and other regional and subregional initiatives;

<sup>52</sup> Resolution 60/1.

<sup>53</sup> *Report of the International Conference on Financing for Development, Monterrey, Mexico, 18–22 March 2002* (United Nations publication, Sales No. E.02.II.A.7), chap. I, resolution 1, annex.

<sup>55</sup> Resolution 63/303, annex.

<sup>56</sup> *Report of the Fourth United Nations Conference on the Least Developed Countries, Istanbul, Turkey, 9–13 May 2011* (A/CONF.219/7), chaps. I and II.

<sup>57</sup> Resolution 66/288, annex.

<sup>58</sup> Resolution 68/6.

*Emphasizing* that debt sustainability is essential for underpinning growth, underlining the importance of debt sustainability and effective debt management to the efforts to achieve national and international development goals, including the Millennium Development Goals, and acknowledging that debt crises are costly and disruptive, including for employment and productive investment, and tend to be followed by cuts in public spending, including on health and education, affecting the poor and vulnerable in particular,

*Reaffirming* that each country has primary responsibility for its own development and that the role of national policies and development strategies, including in the area of debt management, cannot be overemphasized for the achievement of sustainable development, and recognizing that national efforts, including to achieve development goals and to maintain debt sustainability, should be complemented by supportive global programmes, measures and policies aimed at expanding the development opportunities of developing countries, while taking into account national conditions and ensuring respect for national ownership, strategies and sovereignty,

*Reaffirming also* that multilateral institutions, including entities within the United Nations system and other relevant organizations, should continue to play an important role, given their respective mandates, in assisting countries in achieving and maintaining debt sustainability,

*Reiterating* that debt sustainability depends on a confluence of many factors at the international and national levels, and emphasizing that country-specific circumstances and the impact of external shocks, such as those derived from the world financial and economic crisis, should continue to be taken into account in debt sustainability analyses,

*Expressing deep concern* about the ongoing adverse impacts, particularly on development, of the world financial and economic crisis, recognizing evidence of an uneven and fragile recovery, cognizant that the global economy, notwithstanding significant efforts that helped to contain tail risks, improve financial market conditions and sustain recovery, still remains in a challenging phase, with downside risks, including high volatility in global markets, high unemployment, particularly among young people, indebtedness in some countries and widespread fiscal strains, which pose challenges for global economic recovery and reflect the need for additional progress towards sustaining and rebalancing global demand, and stressing the need for continuing efforts to address systemic fragilities and imbalances and to reform and strengthen the international financial system, while implementing the reforms agreed upon to date,

*Recognizing* that the ongoing adverse impacts of the world financial and economic crisis entail the possibility of undermining the progress made towards achieving the internationally agreed development goals, including the Millennium Development Goals, and threaten debt sustainability in many countries, especially developing countries, through, inter alia, the consequences for the real economy and government revenue and the need to increase borrowing to mitigate the negative impact of the crisis,

*Recognizing also* the importance of efforts and cooperation undertaken at the national, regional and international levels in response to the challenges posed by the world financial and economic crisis, and emphasizing the need to continue these efforts in a coherent and coordinated manner,

*Recognizing further* the important role, on a case-by-case basis, of debt relief, including debt cancellation, as appropriate, and debt restructuring as debt crisis prevention and management tools for mitigating the impact of the world financial and economic crisis on developing countries,

*Recognizing* the role of private capital flows in mobilizing financing for development, stressing the challenges posed by excessive short-term capital inflows to many developing countries, including to their debt sustainability, and encouraging further review of the benefits and disadvantages of the macroprudential measures available to mitigate the impact of volatile capital flows,

*Expressing concern* that a number of low- and middle-income countries face challenges in servicing their debt,

*Expressing deep concern* that, in spite of international efforts, many least developed countries struggle with high debt burdens and are classified, in accordance with the debt sustainability assessments, as being in debt distress or at high risk of debt distress,

*Noting with appreciation* that the Heavily Indebted Poor Countries Initiative, facilitated by the Paris Club, the Multilateral Debt Relief Initiative and bilateral donors have provided substantial debt relief to 35 countries that have reached the completion point under the Heavily Indebted Poor Countries Initiative,

which has provided needed debt relief and facilitated the reallocation of resources to investments in social services, while expressing concern that some post-completion point countries remain classified as being at high risk of debt distress and need to avoid rebuilding unsustainable debt burdens,

*Convinced* that enhanced market access for goods and services of export interest to developing countries contributes significantly to debt sustainability in those countries,

1. *Takes note* of the report of the Secretary-General;<sup>59</sup>
2. *Emphasizes* the special importance of a timely, effective, comprehensive and durable solution to the debt problems of developing countries to promote their economic growth and development;
3. *Stresses* the importance of sustainable lending and borrowing, emphasizes that creditors and debtors must share responsibility for preventing unsustainable debt situations and must incorporate debt sustainability considerations into their financing decisions, notes the endorsement by some Member States of the principles of the initiative of the United Nations Conference on Trade and Development to promote responsible sovereign lending and borrowing, and encourages Member States and relevant stakeholders to continue the ongoing discussions on this issue;
4. *Acknowledges* the role played by the Debt Sustainability Framework for Low-Income Countries, jointly developed by the International Monetary Fund and the World Bank, to guide borrowing and lending decisions, and encourages the continued periodic review of the Framework in an open and transparent manner and with the full engagement of borrower and creditor Governments;
5. *Reiterates* that no single indicator should be used to make definitive judgements about a country's debt sustainability, and in this regard, while acknowledging the need to use transparent and comparable indicators, invites the International Monetary Fund and the World Bank, in their assessment of debt sustainability, to continue to take into account a country's structural weaknesses and the fundamental changes caused by, inter alia, natural disasters, conflicts and changes in global growth prospects or in the terms of trade, especially for commodity-dependent developing countries, as well as by the impact of developments on financial markets, and to provide information on this issue to Member States, using the appropriate frameworks;
6. *Recognizes* that the long-term sustainability of debt depends on, inter alia, economic growth, the mobilization of domestic and international resources, the export prospects of debtor countries, sustainable debt management, sound macroeconomic policies that also support job creation, transparent and effective regulatory frameworks and success in overcoming structural development problems, and hence on the creation of an enabling international environment that is conducive to development;
7. *Also recognizes* the enormity and multidimensional nature of the world financial and economic crisis, which caused a sharp deterioration of the debt ratios in several developing countries, stresses the need to continue to assist developing countries in avoiding a build-up of unsustainable debt so as to reduce the risk of relapsing into another debt crisis, notes in this regard the additional resources made available during and since the crisis through the International Monetary Fund and the multilateral development banks, calls for the continued provision of concessional and grant-based financing to low-income countries to enable them to respond to the consequences of the crisis, and notes the provision by the International Monetary Fund of interest relief to low-income countries in the form of zero-interest payments on financing from concessional lending facilities until the end of 2014;
8. *Further recognizes* the roles of the United Nations and the international financial institutions in accordance with their respective mandates, and encourages them to continue to support global efforts towards sustained, inclusive and equitable growth, sustainable development and the external debt sustainability of developing countries, including through continued monitoring of global financial flows and their implications in this regard;
9. *Emphasizes* the need for coordinated policies aimed at fostering debt financing, debt relief and debt restructuring, recalls in this regard the improvement of the lending framework of the International Monetary Fund through, inter alia, streamlined conditions and flexible instruments, such as the precautionary and liquidity line, the

flexible credit line and the rapid financing instrument, while noting that new and ongoing programmes should not contain unwarranted procyclical conditionalities, and urges the multilateral development banks to continue to move forward on flexible, concessional, fast-disbursing and front-loaded assistance that will substantially and quickly assist developing countries facing financing gaps in their efforts to achieve the Millennium Development Goals, taking into consideration the individual absorptive capacities and debt sustainability of those countries;

10. *Notes* that countries can seek to negotiate, as a last resort, on a case-by-case basis and through existing frameworks, agreements on temporary debt standstills between debtors and creditors in order to help mitigate the adverse impacts of the crisis and stabilize macroeconomic developments;

11. *Also notes* the progress made under the Heavily Indebted Poor Countries Initiative, facilitated by the Paris Club, and the Multilateral Debt Relief Initiative, while expressing concern that some countries have yet to reach decision or completion points, calls for the full and timely implementation of those Initiatives and for continued support to the remaining eligible countries in completing the Heavily Indebted Poor Countries Initiative, and encourages all parties, both creditors and debtors, to fulfil their commitments as rapidly as possible in order to complete the debt relief process;

12. *Welcomes and encourages* the efforts of the heavily indebted poor countries, calls upon them to continue to strengthen their national policies to promote economic growth and poverty eradication through, inter alia, the maintenance of a national environment conducive to private-sector development, a stable macroeconomic framework and transparent and accountable systems of public finance, and invites the international financing institutions and the donor community to continue to provide adequate and sufficiently concessional financing to those countries;

13. *Encourages* the international financial institutions to review the implementation and the impact of debt relief initiatives in order to better understand why some countries still face persisting debt problems after completion of the Heavily Indebted Poor Countries Initiative, and calls for creditors and debtors to work together, inter alia, through the design of responses, including the broader use of debt management, to address them;

14. *Underlines* the fact that heavily indebted poor countries eligible for debt relief will not be able to enjoy its full benefits unless all creditors, both public and private, contribute their fair share and become involved in the international debt resolution mechanisms in order to ensure the debt sustainability of those countries, and invites creditors, both private and public, that are not yet fully participating in debt relief initiatives to substantially increase their participation, including through providing comparable treatment, to the extent possible, to debtor countries that have concluded sustainable debt relief agreements with creditors;

15. *Stresses* that debt relief can play a key role in liberating resources that should be directed towards activities consistent with poverty eradication, sustained economic growth, economic development and the internationally agreed development goals, including the Millennium Development Goals, and in this regard urges countries to direct the resources freed through debt relief, in particular through debt cancellation and reduction, towards achieving those objectives, including in the context of the post-2015 development agenda, according to their national priorities and strategies;

16. *Encourages* donor countries to take steps to ensure that resources provided for debt relief under the Heavily Indebted Poor Countries Initiative and the Multilateral Debt Relief Initiative do not detract from other resources to be available for developing countries in accordance with official development assistance commitments;

17. *Notes with concern* that some low- and middle-income developing countries that are not part of the existing debt relief initiatives have large debt burdens that may create constraints on mobilizing the resources needed to achieve the internationally agreed development goals, including the Millennium Development Goals, indicating a need to consider, as appropriate, stronger debt management and debt relief initiatives for those countries, and encourages the consideration of medium- and long-term sustainability as well as new approaches to deal with bilateral and private non-Paris Club debt;

18. *Encourages* the Paris Club, in dealing with the debt of low- and middle-income debtor countries that are not part of the Heavily Indebted Poor Countries Initiative, to take into account their medium-term debt sustainability, in addition to their financing gaps, and notes with appreciation the Evian approach of the Paris Club in providing different terms of debt relief in order to respond to the specific needs of debtor countries while preserving debt cancellation for heavily indebted poor countries;

19. *Recognizes* the concerns about vulture fund litigation and that some debtor countries may experience difficulties in obtaining comparable treatment from non-Paris Club creditors, as required by the standard clause included in Paris Club agreements, and calls for the continued provision by the relevant institutions of mechanisms and legal assistance to debtor countries to solve litigation issues;

20. *Stresses* the need for the international community to remain vigilant in monitoring the debt situation of the least developed countries and to continue to take effective measures, preferably within existing frameworks, when applicable, to address the debt problem of those countries, including through the cancellation of the multilateral and bilateral debt owed by the least developed countries to creditors, both public and private;

21. *Welcomes* the efforts of and calls upon the international community to continue to provide flexibility, and stresses the need to sustain those efforts in helping post-conflict developing countries, especially those that are heavily indebted and poor, to achieve initial reconstruction for economic and social development;

22. *Also welcomes* the efforts of and invites creditors to provide flexibility to developing countries affected by natural disasters so as to allow them to address their debt concerns, while taking into account their specific situations and needs;

23. *Calls for* the consideration of additional measures and initiatives aimed at ensuring long-term debt sustainability through increased grant-based and other forms of concessional financing, the cancellation of 100 per cent of the eligible official multilateral and bilateral debt of heavily indebted poor countries and, where appropriate and on a case-by-case basis, significant debt relief or restructuring for developing countries with an unsustainable debt burden that are not part of the Heavily Indebted Poor Countries Initiative;

24. *Invites* donor countries, taking into account country-specific debt sustainability analyses, to continue their efforts to increase bilateral grants to developing countries, which could contribute to debt sustainability in the medium to long term, and recognizes the need for countries to be able to promote employment and productive investment and to invest in, inter alia, health and education while maintaining debt sustainability;

25. *Calls for* the intensification of efforts to prevent and mitigate the prevalence and cost of debt crises by enhancing international financial mechanisms for crisis prevention and resolution, encourages the private sector to cooperate in this regard, and invites creditors and debtors to further explore, where appropriate and on a mutually agreed, transparent and case-by-case basis, the use of new and improved debt instruments and innovative mechanisms such as debt swaps, including debt for equity in Millennium Development Goal projects, as well as debt indexation instruments;

26. *Also calls for* the consideration of enhanced approaches to sovereign debt restructuring and debt resolution mechanisms, based on existing frameworks and principles, with the broad participation of creditors and debtors, and for the comparable treatment of all creditors and an important role for the Bretton Woods institutions and other relevant organizations within the United Nations system, and in this regard calls upon all countries to promote and contribute to the discussions, within the United Nations and other appropriate forums, on the need for and feasibility of a more structured framework for international cooperation in this area;

27. *Decides* to convene, at its sixty-ninth session, a special joint meeting of the Second Committee of the General Assembly and the Economic and Social Council to consider lessons learned from debt crises and the ongoing work on sovereign debt restructuring and debt resolution mechanisms, with the participation of relevant stakeholders, as appropriate, building on the report prepared by the Secretary-General, and resulting in a summary of the meeting;

28. *Notes* the changing composition of the sovereign debt of some countries, which has shifted increasingly from official to commercial borrowing and from external to national public debt, although for most low-income countries external finance is still largely official, also notes that the levels of national debt and the significantly increased number of creditors, both official and private, could create other challenges for macroeconomic management and public debt sustainability, and stresses the need to address the implications of these changes, including through improved data collection and analysis and enhancing international efforts in support of building the debt management capacity in borrowing countries, at their request;

29. *Stresses* the need to increase information-sharing, transparency and the use of objective criteria in the construction and evaluation of debt scenarios, including an assessment of national public and private debt, in order

#### IV. Resolutions adopted on the reports of the Second Committee

---

to ensure the achievement of development goals, and encourages further improvement of the mutual exchange of information, on a voluntary basis, on borrowing and lending among all creditors and borrowers;

30. *Reaffirms* the importance of having access to credit-rating information, and of the reduction of transaction costs, taking into account that inaccurate forecasts render the international financial system more vulnerable to herd behaviour and cliff effects, which have the potential to exacerbate financial crises, and in this regard encourages greater transparency, independence, avoidance of conflicts of interest and competition among credit-rating agencies, including through the development of national capacities and mechanisms, and requests the Secretary-General to continue to report on this issue when preparing his report on the implementation of the present resolution;

31. *Invites*, in this regard, the President of the Economic and Social Council to give appropriate consideration to this issue by organizing a meeting during the regular programme of work of the next substantive session of the Council;

32. *Invites* the international community to continue efforts to increase support, including financial and technical assistance, for institutional capacity-building in developing countries to enhance sustainable debt management as an integral part of national development strategies, including by promoting transparent and accountable debt management systems and negotiation and renegotiation capacities and through supporting legal advice in relation to tackling external debt litigation and debt data reconciliation between creditors and debtors so that debt sustainability may be achieved and maintained;

33. *Invites* the United Nations Conference on Trade and Development, the International Monetary Fund and the World Bank, in cooperation with the regional commissions, regional development banks and other relevant multilateral financial institutions and stakeholders, to continue and intensify cooperation in respect of capacity-building activities in developing countries in the area of debt management and debt sustainability;

34. *Acknowledges* that timely and comprehensive data on the level and composition of debt are necessary for, inter alia, building early warning systems aimed at limiting the impact of debt crises, calls for debtor and creditor countries to intensify their efforts to collect data, and calls for donors to consider increasing their support for technical cooperation programmes aimed at increasing the statistical capacity of developing countries in that regard;

35. *Requests* both creditor and borrower countries to incorporate debt sustainability considerations and greater transparency into their financing decisions, and encourages consideration, as appropriate, of the Debt Sustainability Framework for Low-Income Countries, jointly developed by the International Monetary Fund and the World Bank, and the Principles and Guidelines to Promote Sustainable Lending Practices in the Provision of Official Export Credits to Low-Income Countries of the Organization for Economic Cooperation and Development as strategies for guiding financing policies, recognizing that both creditors and debtors have a shared interest and responsibility in promoting debt sustainability and sustainable financing;

39. *Decides* to include in the provisional agenda of its sixty-ninth session, under the item entitled “Macroeconomic policy questions”, the sub-item entitled “External debt sustainability and development”.

*Recalling* the Plan of Implementation of the World Summit on Sustainable Development (Johannesburg Plan of Implementation),<sup>71</sup> and the outcome document of the United Nations Conference on Sustainable Development, held in Rio de Janeiro, Brazil, from 20 to 22 June 2012, entitled “The future we want”,<sup>72</sup>

*Deeply concerned* by the fact that many commodity-dependent developing countries and economies in transition continue to be highly vulnerable to price fluctuations, and recognizing the need to continue efforts to improve the regulation, where appropriate, and the efficiency, responsiveness, functioning and transparency of financial and commodity markets nationally, regionally and internationally in order to address excessive commodity price volatility,

*Expressing deep concern* about the ongoing adverse impacts, particularly on development, of the world financial and economic crisis, recognizing evidence of an uneven and fragile recovery, cognizant that the global economy, notwithstanding significant efforts that helped to contain tail risks, improve financial market conditions and sustain recovery, still remains in a challenging phase, with downside risks, including high volatility in global markets, high unemployment, particularly among youth, indebtedness in some countries and widespread fiscal strains, which pose challenges for global economic recovery and reflect the need for additional progress towards sustaining and rebalancing global demand,

*Recognizing* the adverse impact of excessive price volatility of commodities, especially on women and girls,

*Recognizing also* that many developing countries continue to be highly dependent on primary commodities as their principal source of export revenues, employment, income generation and domestic savings and as the driving force of investment, economic growth and social development, including poverty eradication,

*Recognizing further*, in this context, that many least developed countries, small island developing States, landlocked developing countries and African countries are highly dependent on primary commodities, and recognizing also the challenges and special needs of those countries, many of which are not on track to achieve the Millennium Development Goals by 2015,

*Recognizing* that uncertainty in global commodity markets reinforces the need to comprehensively deal with the commodity problematique, inter alia, the demand for commodities, supply capacities, commodity revenues and investments in commodity-dependent economies, while taking due account of the diversity of each country’s individual situation and needs and the promotion of their sustainable development, and to strengthen the nexus between, inter alia, trade, food, finance, investment in sustainable agriculture, energy and industrialization,

*Stressing* the importance of policies to address longer-term structural issues of the commodity economy and integrate commodity policies into wider development and poverty eradication strategies at all levels,

*Taking note* of all relevant voluntary initiatives aimed at improving transparency in commodity markets and mitigating the impact of excessive price volatility,

*Underlining* the importance of timely, accurate and transparent information in helping to address excessive food price volatility, noting global and regional initiatives, including the Agricultural Market Information System and its Rapid Response Forum, hosted by the Food and Agriculture Organization of the United Nations, the joint organization data initiative and other regional data platforms and programmes, and urging the participating international organizations, private sector actors and Governments to ensure the public dissemination of timely and quality food market information products,

1. *Takes note* of the report of the Secretary-General on world commodity trends and prospects;<sup>73</sup>
2. *Underscores* the need for further efforts to address excessive commodity price volatility, in particular by assisting producers, especially small-scale producers, in managing risk;

<sup>73</sup> A/68/204.

3. *Calls upon* the international community to support the efforts of commodity-dependent developing countries to address the factors that create structural barriers to international trade and impede, inter alia, diversification, including tariff and non-tariff barriers, limited access to financial services resulting in scarce resources for investing in the commodity sector, weak infrastructure, particularly regarding both the cost and availability of transportation and storage, and lack of skills in producing and marketing alternative products;

4. *Calls for*, in that regard, the successful conclusion of the Doha Development Round of trade negotiations with a development-oriented outcome that ensures, inter alia, greater market access for products from developing countries;

5. *Welcomes* the convening of the Ninth Ministerial Conference of the World Trade Organization in Bali, Indonesia, held from 3 to 7 December 2013, and stresses the need for a balanced, ambitious, comprehensive and development-oriented outcome;

6. *Calls for* a coherent set of policy actions at the national, regional and international levels to address excessive price volatility and support commodity-dependent developing countries in mitigating negative impacts, in particular by facilitating value addition and enhancing their participation in commodity and related product value chains, by supporting large-scale diversification of these economies and by encouraging the use and further development of market-oriented risk management tools, instruments and strategies;

7. *Stresses* the importance of developing and strengthening agricultural policies and strategies that recognize and address women's critical role in food security and improved nutrition outcomes as an integral part of both short- and long-term responses to food insecurity and malnutrition, excessive price volatility and food crises in developing countries;

8. *Recognizes* the potential for innovation, productivity improvements and the promotion of non-traditional exports in most commodity-dependent developing countries, particularly in Africa, and calls for enhanced support by the international community as well as exchanges of experience in these areas within the framework of South-South economic cooperation;

9. *Underscores* the importance of increased investments in infrastructure as a means of promoting agricultural development and enhancing commodity diversification, including value-added production, and trade, and urges the international community to assist commodity-dependent developing countries to mainstream trade as well as sound investment and financial policies as key elements of development strategies, based on national circumstances and development priorities, and to invest in and support research and development of agriculture productivity;

10. *Recognizes* the endorsement of the Voluntary Guidelines on the Responsible Governance of Tenure of Land, Fisheries and Forests in the Context of National Food Security by the Committee on World Food Security in 2012;

11. *Also recognizes* the ongoing inclusive consultative process within the Committee on World Food Security to develop voluntary and non-binding principles for responsible agricultural investments that are intended for all stakeholders that are involved in, benefit from or are affected by these principles;

12. *Stresses* that technical assistance and capacity-building aimed at improving the commodity export competitiveness of producers is particularly important, especially in Africa, and invites the donor community to provide the necessary resources for commodity-specific financial and technical assistance, in particular for human and institutional capacity-building, as well as infrastructure development of developing countries, with a view to reducing their institutional bottlenecks and transaction costs and enhancing their commodity trade and development in accordance with national development plans;

13. *Also stresses* that the Aid for Trade initiative should aim to help developing countries, particularly the least developed countries, to build the supply-side capacity and trade-related infrastructure that they need to assist them to implement and benefit from World Trade Organization agreements and, more broadly, to expand their trade;

14. *Recalls* the agreement to keep under regular review, by the Ministerial Conference and appropriate organs of the World Trade Organization, the impact of the results of the Uruguay Round on the least developed countries as well as on the net food-importing developing countries, with a view to fostering positive measures to enable them to achieve their development objectives, and in this regard calls for the implementation of the Marrakesh Ministerial Decision on Measures Concerning the Possible Negative Effects of the Reform Programme on Least Developed and Net Food-Importing Developing Countries;

15. *Encourages* developed countries that have not already done so and developing countries declaring themselves in a position to do so to take steps towards the goal of realizing timely implementation of duty-free and quota-free market access on a lasting basis for all least developed countries, consistent with the Hong Kong Ministerial Declaration adopted by the World Trade Organization in 2005;

16. *Strongly encourages* international financial institutions and development banks to assist developing countries, in particular commodity-dependent developing countries, in managing the effects of excessive price volatility;

17. *Reaffirms* that every State has and shall freely exercise full permanent sovereignty over all its wealth, natural resources and economic activities;

18. *Recognizes* the importance of increasing efficiency, effectiveness and transparency in the management of public and private sector revenues in developed and developing countries derived from all commodities and commodities-related industries, including final processed goods, in support of development;

19. *Also recognizes* the important contributions of the Common Fund for Commodities and other international commodities organizations, and encourages them, in cooperation with the International Trade Centre, the United Nations Conference on Trade and Development, the United Nations Industrial Development Organization and other relevant bodies, to continue to strengthen coordination among them and to study ways to establish greater stability in the commodities market, as well as to enhance activities in developing countries to improve access to markets and the reliability of supply, enhance diversification and the addition of value, improve the competitiveness of commodities, strengthen the market chain, improve market structures, broaden the export base and ensure the effective participation of all stakeholders;

20. *Stresses* that the United Nations Conference on Trade and Development and its partners, in the spirit of inter-agency cooperation and multi-stakeholder partnerships and within their respective mandates, should continue to engage actively in collaborative research and analysis of the commodity problematique and related capacity and consensus-building activities, with a view to providing regular analysis and policy advice relevant to the sustainable development of commodity-dependent developing countries, particularly low-income countries;

21. *Encourages* giving appropriate consideration to the issue of commodities in the elaboration of the post-2015 development agenda;

22. *Emphasizes* the importance of facilitating accession to the World Trade Organization, particularly for commodity-dependent developing countries, in full compliance with its rules;

23. *Underlines* the urgent need for the provision of and access to trade finance to commodity-dependent developing countries, given the tightened access to all types of credit and noting debt sustainability;

24. *Stresses* the importance of the continuing substantive consideration of the sub-item entitled "Commodities", and decides to include the sub-item in the provisional agenda of its seventieth session, under the item entitled "Macroeconomic policy questions";

25. *Requests* the Secretary-General, in collaboration with the secretariat of the United Nations Conference on Trade and Development, to submit to the General Assembly at its seventieth session a report on the updated assessment of commodity trends and prospects, long-term commodity prices and ways to strengthen coordination among international commodities organizations and other relevant international organizations.

*The General Assembly,*

*Recalling* its resolutions 61/194 of 20 December 2006, 62/188 of 19 December 2007, 63/211 of 19 December 2008, 64/195 of 21 December 2009, 65/147 of 20 December 2010, 66/192 of 22 December 2011 and 67/201 of 21 December 2012 on the oil slick on Lebanese shores,

*Reaffirming* the outcome of the United Nations Conference on the Human Environment, especially principle 7 of the Declaration of the Conference,<sup>101</sup> in which States were requested to take all possible steps to prevent pollution of the seas,

*Emphasizing* the need to protect and preserve the marine environment in accordance with international law,

<sup>100</sup> The draft resolution recommended in the report was sponsored in the Committee by Fiji (on behalf of the States Members of the United Nations that are members of the Group of 77 and China).

<sup>101</sup> See *Report of the United Nations Conference on the Human Environment, Stockholm, 5–16 June 1972* (A/CONF.48/14/Rev.1), part one, chap. I.

*Taking into account* the 1992 Rio Declaration on Environment and Development,<sup>102</sup> especially principle 16, in which it was stipulated that the polluter should, in principle, bear the cost of pollution, and taking into account also chapter 17 of Agenda 21,<sup>103</sup>

*Noting with great concern* the environmental disaster caused by the destruction by the Israeli Air Force on 15 July 2006 of the oil storage tanks in the direct vicinity of the Jiyeh electric power plant in Lebanon, resulting in an oil slick that covered the entirety of the Lebanese coastline, extended to the Syrian coastline and hindered efforts to achieve sustainable development, as already highlighted by the General Assembly in its resolutions 61/194, 62/188, 63/211, 64/195, 65/147, 66/192 and 67/201,

*Noting* that the Secretary-General expressed grave concern at the lack of any acknowledgement on the part of the Government of Israel of its responsibilities vis-à-vis reparations and compensation to the Government and people of Lebanon and the Syrian Arab Republic affected by the oil spill,

*Recalling* that, in paragraph 4 of its resolution 67/201, it reiterated its request to the Government of Israel to assume responsibility for prompt and adequate compensation to the Government of Lebanon and other countries directly affected by the oil slick, such as the Syrian Arab Republic, whose shores have been partially polluted, and recognizing the conclusion of the Secretary-General that this request of the Assembly has yet to be implemented,

*Acknowledging* that the Secretary-General concluded that this oil spill is not covered by any of the international oil spill compensation funds and thus merits special consideration, and recognizing that further consideration needs to be given to the option of securing the relevant compensation from the Government of Israel,

*Acknowledging also* the possible options proposed to measure and quantify the environmental damage as outlined in the report of the Secretary-General,<sup>104</sup>

*Noting again with appreciation* the assistance offered by donor countries and international organizations for the clean-up operations and the early recovery and reconstruction of Lebanon through bilateral and multilateral channels, including the Athens Coordination Meeting on the response to the marine pollution incident in the Eastern Mediterranean, held on 17 August 2006, as well as the Stockholm Conference for Lebanon's Early Recovery, held on 31 August 2006,

*Acknowledging* that the Secretary-General has welcomed the agreement of the Lebanon Recovery Fund to host the Eastern Mediterranean Oil Spill Restoration Trust Fund, under its existing mechanism, and expressing concern that to date no contributions have been made to the Trust Fund,

1. *Takes note* of the report of the Secretary-General on the implementation of General Assembly resolution 67/201 on the oil slick on Lebanese shores;<sup>104</sup>
2. *Reiterates*, for the eighth consecutive year, its deep concern about the adverse implications of the destruction by the Israeli Air Force of the oil storage tanks in the direct vicinity of the Lebanese Jiyeh electric power plant for the achievement of sustainable development in Lebanon;
3. *Considers* that the oil slick has heavily polluted the shores of Lebanon and partially polluted Syrian shores and consequently has had serious implications for livelihoods and the economy of Lebanon, owing to the adverse implications for natural resources, biodiversity, fisheries and tourism, and for human health, in the country;
4. *Reiterates its request* to the Government of Israel to assume responsibility for prompt and adequate compensation to the Government of Lebanon and other countries directly affected by the oil slick, such as the Syrian Arab Republic, whose shores have been partially polluted, for the costs of repairing the environmental damage caused by the destruction, including the restoration of the marine environment, in particular in the light of the conclusion contained in the report of the Secretary-General that there remains grave concern at the lack of implementation of the relevant provisions of the resolutions of the General Assembly on the subject vis-à-vis reparations and compensation to the Government and people of Lebanon and the Syrian Arab Republic affected by the oil spill;

<sup>103</sup> *Ibid.*, annex II.

<sup>104</sup> A/68/544.

5. *Requests* the Secretary-General to urge United Nations bodies and agencies and other relevant organizations involved in the initial assessment of the relevant environmental damage to undertake, within existing resources, a further study, building on the initial work of the World Bank presented through the report of the Secretary-General to the sixty-second session of the General Assembly,<sup>105</sup> with a view to measuring and quantifying the environmental damage sustained by Lebanon and by neighbouring countries;

6. *Reiterates its appreciation* for the efforts of the Government of Lebanon and those of Member States, regional and international organizations, regional and international financial institutions, non-governmental organizations and the private sector in the initiation of clean-up and rehabilitation operations on the polluted shores, and encourages Member States and the above-mentioned entities to continue their financial and technical support to the Government of Lebanon towards achieving the completion of clean-up and rehabilitation operations, with the aim of preserving the ecosystem of Lebanon and that of the Eastern Mediterranean Basin;

7. *Welcomes* the agreement of the Lebanon Recovery Fund to host the Eastern Mediterranean Oil Spill Restoration Trust Fund, based on voluntary contributions, to provide assistance and support to the States directly adversely affected in their integrated environmentally sound management, from clean-up to safe disposal of oily waste, of this environmental disaster resulting from the destruction of the oil storage tanks at the Jiyeh electric power plant;

8. *Notes* that in his report the Secretary-General urged Member States, international organizations, international and regional financial institutions, non-governmental organizations and the private sector to continue their support for Lebanon in this matter, in particular for the rehabilitation activities on the Lebanese coast and in the broader recovery efforts, and stated that such international effort should be intensified, since Lebanon is still engaged in the treatment of wastes and the monitoring of recovery, reiterates its invitation to States and the international donor community to make voluntary financial contributions to the Trust Fund, and in this regard requests the Secretary-General to mobilize international technical and financial assistance in order to ensure that the Trust Fund has sufficient and adequate resources;

9. *Recognizes* the multidimensionality of the adverse impact of the oil slick, and requests the Secretary-General to submit to the General Assembly at its sixty-ninth session a report on the implementation of the present resolution under the item entitled "Sustainable development".

<sup>270</sup> Resolution 66/288, annex.

*Acknowledging* that, despite the progress that has been made in promoting sustainable development of mountain regions and conservation of mountain ecosystems, including their biodiversity, poverty, food insecurity, social exclusion and environmental degradation are still high, and access to safe and affordable drinking water and basic sanitation as well as to sustainable modern energy services continues to be limited,

*Reaffirming also* the commitment to eradicate poverty and hunger and promote sustained, inclusive and equitable growth, sustainable development and global prosperity for all and to promote the development of the productive sectors in developing countries to enable them to participate more effectively in and benefit from the process of globalization,

*Expressing deep concern* about the ongoing adverse impacts of the world financial and economic crisis, particularly on development, recognizing evidence of an uneven and fragile recovery, cognizant that the global economy, notwithstanding significant efforts that helped to contain tail risks, improve financial market conditions and sustain recovery, still remains in a challenging phase, with downside risks, including high volatility in global markets, high unemployment, particularly among young people, indebtedness in some countries and widespread fiscal strains, which pose challenges for global economic recovery and reflect the need for additional progress towards sustaining and rebalancing global demand, and stressing the need for continuing efforts to address systemic fragilities and imbalances and to reform and strengthen the international financial system, while implementing the reforms agreed upon to date,

*Taking note* of the report of the Secretary-General,<sup>278</sup>

1. *Reiterates* the need for inclusive, transparent and effective multilateral approaches to managing global challenges, and in this regard reaffirms the central role of the United Nations system in ongoing efforts to find common solutions to such challenges;

<sup>278</sup> A/68/259.

3. *Reaffirms* the need for the United Nations to play a fundamental role in the promotion of international cooperation for development and the coherence, coordination and implementation of development goals and actions agreed upon by the international community, and reiterates its commitment to strengthening coordination within the United Nations in close cooperation with all other multilateral financial, trade and development institutions in order to support sustainable development, particularly in the context of the post-2015 development agenda;

6. *Also recognizes* the central role of a strengthened global partnership for development, based on lessons learned in the implementation of the Millennium Development Goals, to support a truly universal global development agenda beyond 2015;

7. *Further recognizes* that the increasing interdependence of national economies in a globalizing world and the emergence of rules-based regimes for international economic relations have meant that the space for national economic policy, that is, the scope for domestic policy, especially in the areas of trade, investment and international development, is now often framed by international disciplines, commitments and global market considerations and that it is for each Government to evaluate the trade-off between the benefits of accepting international rules and commitments and the constraints posed by the loss of policy space;

8. *Recognizes* that policies which integrate the three dimensions of sustainable development can contribute to reducing inequalities within and among countries, with a view to guaranteeing that the poor and those living in the most vulnerable situations maximize their benefits from a globalized world;

9. *Decides* to include in the provisional agenda of its seventieth session the item entitled “Globalization and interdependence”, and requests the Secretary-General to submit to the General Assembly a report on the sub-item entitled “Role of the United Nations in promoting development in the context of globalization and interdependence”.

#### 68/221. International Year of Light and Light-based Technologies, 2015

*The General Assembly,*

*Reaffirming* its resolutions 53/199 of 15 December 1998 and 61/185 of 20 December 2006, on the proclamation of international years, and Economic and Social Council resolution 1980/67 of 25 July 1980 on international years and anniversaries, particularly paragraphs 1 to 10 of the annex thereto, on the agreed criteria for the proclamation of international years, as well as paragraphs 13 and 14, which state that an international year should not be proclaimed before the basic arrangements for its organization and financing have been made,

*Recognizing* the importance of light and light-based technologies in the lives of the citizens of the world and for the future development of global society on many levels,

---

<sup>289</sup> The draft resolution recommended in the report was sponsored in the Committee by: Argentina, Australia, Azerbaijan, Bosnia and Herzegovina, Chile, China, Colombia, Cuba, Dominican Republic, Ecuador, France, Ghana, Guinea, Haiti, Honduras, Israel, Italy, Japan, Mauritius, Mexico, Montenegro, Morocco, Nepal, New Zealand, Nicaragua, Palau, Republic of Korea, Russian Federation, Somalia, Spain, Sri Lanka, Tunisia, Turkey, Ukraine and United States of America.

*Stressing* that enhanced global awareness of and increased education in the science and technologies of light are vital for addressing challenges such as sustainable development, energy and community health, as well as for improving the quality of life in both developed and developing countries,

*Considering* that the applications of light science and technology are vital for existing and future advances in, inter alia, medicine, energy, information and communications, fibre optics, agriculture, mining, astronomy, architecture, archaeology, entertainment, art and culture, as well as many other industries and services, and that light-based technologies contribute to the fulfilment of internationally agreed development goals, including by providing access to information and increasing societal health and well-being,

*Considering also* that technology and design can play an important role in the achievement of greater energy efficiency, in particular by limiting energy waste, and in the reduction of light pollution, which is key to the preservation of dark skies,

*Noting* that 2015 coincides with the anniversaries of a series of important milestones in the history of the science of light, including the works on optics by Ibn Al-Haytham in 1015, the notion of light as a wave proposed by Fresnel in 1815, the electromagnetic theory of light propagation proposed by Maxwell in 1865, Einstein's theory of the photoelectric effect in 1905 and of the embedding of light in cosmology through general relativity in 1915, the discovery of the cosmic microwave background by Penzias and Wilson and Kao's achievements concerning the transmission of light in fibres for optical communication, both in 1965,

*Considering* that the celebration of the anniversaries of these discoveries in 2015 would provide an important opportunity to highlight the continuous nature of scientific discovery in different contexts, with particular emphasis on women's empowerment in the science sector and on promoting science education among young people, especially in developing countries,

*Noting* that, at its 2013 substantive session, the Economic and Social Council organized its work for the annual ministerial review under the theme "Science, technology and innovation, and the potential of culture, for promoting sustainable development and achieving the Millennium Development Goals",

*Noting* the endorsement by the Executive Board of the United Nations Educational, Scientific and Cultural Organization at its 190th session of the initiative to proclaim 2015 the International Year of Light and the adoption of that initiative by the General Conference at its thirty-seventh session, on 19 November 2013,<sup>291</sup>

1. *Decides* to proclaim 2015 the International Year of Light and Light-based Technologies;
2. *Invites* the United Nations Educational, Scientific and Cultural Organization, mindful of the provisions of the annex to Economic and Social Council resolution 1980/67, to facilitate the organization and implementation of the International Year, in collaboration with Governments, relevant organizations of the United Nations system, the International Council for Science and other relevant academic and non-governmental organizations;
3. *Stresses* that the costs of all activities that may arise from the implementation of the present resolution above and beyond activities currently within the mandate of the lead agency should be met from voluntary contributions, including from the private sector;
4. *Encourages* all States, the United Nations system and all other actors to take advantage of the International Year to promote actions at all levels, including through international cooperation, and to increase awareness among the public of the importance of light science, optics and light-based technologies and of promoting widespread access to new knowledge and related activities;
5. *Requests* the United Nations Educational, Scientific and Cultural Organization, mindful of the provisions of paragraphs 23 to 27 of the annex to Economic and Social Council resolution 1980/67, to inform the General Assembly at its seventy-first session on the implementation of the present resolution, elaborating, inter alia, on the evaluation of the International Year.

**68/222. Development cooperation with middle-income countries**

*The General Assembly,*

*Recalling* the outcomes of the major United Nations conferences and summits in the economic, social, environmental and related fields,

*Reaffirming* its resolution 67/226 of 21 December 2012 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system,

*Recalling* its resolutions 63/223 of 19 December 2008, 64/208 of 21 December 2009 and 66/212 of 22 December 2011,

*Taking note* of the outcomes of the international conferences on development cooperation with middle-income countries held in Madrid on 1 and 2 March 2007,<sup>293</sup> San Salvador on 3 and 4 October 2007,<sup>294</sup> Windhoek from 4 to 6 August 2008<sup>295</sup> and San José from 12 to 14 June 2013,<sup>296</sup>

*Noting* the regional conferences on development cooperation with middle-income countries held in Cairo on 11 and 12 March 2008, Minsk on 16 and 17 May 2013 and Amman on 23 May 2013,

*Reaffirming* that the fundamental characteristics of the operational activities for development of the United Nations system should be, inter alia, their universal, voluntary and grant nature, their neutrality and their multilateralism, as well as their ability to respond to the development needs of programme countries in a flexible manner, and that the operational activities are carried out for the benefit of programme countries, at the request of those countries and in accordance with their own policies and priorities for development,

*Emphasizing* that there is no “one-size-fits-all” approach to development and that development assistance by the United Nations development system should be able to respond to the varying development needs of programme countries, including the development needs of middle-income countries, and should be aligned with their national development plans and strategies in accordance with its mandates, keeping in mind the needs of the least developed countries,

*Noting* that national averages based on criteria such as per capita income do not always reflect the actual particularities and development needs of middle-income countries and that, despite notable reductions in poverty, middle-income countries are still home to the majority of the world’s people living in poverty and inequalities remain,

*Recognizing* that high degrees of inequality may contribute to vulnerability in middle-income countries and constrain sustainable development in many of those countries, and that economic growth needs to be sustained, inclusive and equitable,

*Stressing* that middle-income countries continue to face particular challenges related to, inter alia, job creation, the diversification and transformation of their economies and access to international markets and, in this regard, that efforts to create a national enabling environment for development should be complemented by a global enabling environment,

*Recalling* the resolve of Member States to enhance and strengthen domestic resource mobilization and fiscal space, including, where appropriate, through modernized tax systems, more efficient tax collection, the broadening of the tax base and the effective combating of tax evasion and capital flight, and reiterating that, while each country is responsible for its tax system, it is important to support national efforts in these areas by strengthening technical assistance and enhancing international cooperation and participation in addressing international tax matters,

1. *Takes note* of the report of the Secretary-General;<sup>297</sup>
2. *Acknowledges* the efforts made and successes achieved by many middle-income countries to eradicate poverty and achieve the internationally agreed development goals, including the Millennium Development Goals, as well as their significant contribution to global and regional development and economic stability;

4. *Acknowledges* that identifying structural gaps can improve the understanding of development needs of developing countries, including middle-income countries;
5. *Requests* the United Nations development system to ensure that it addresses the diverse development needs of middle-income countries in a coordinated manner through, inter alia, an accurate assessment of the national priorities and needs of these countries, taking into account the use of variables that go beyond per capita income criteria;
6. *Also requests* the United Nations development system, in particular the funds and programmes, in accordance with their respective mandates, and in the context of their respective strategic frameworks and within their existing budgets, to provide better focused support to middle-income countries and to improve coordination and exchange of experiences with other international organizations, international financial institutions and regional organizations in this field, as appropriate;
7. *Welcomes* the solidarity of middle-income countries with other developing countries, in particular the financial, technical, technology transfer and capacity-building support being provided by middle-income countries, particularly to the least developed countries, through South-South cooperation and triangular cooperation, while stressing that South-South cooperation is a complement to, and not a substitute for, North-South cooperation, and in this regard calls upon the United Nations development system to continue its ongoing efforts to mainstream support to South-South cooperation and triangular cooperation;
8. *Encourages* developed countries, and developing countries declaring themselves in a position to do so, to take steps towards the goal of realizing the timely implementation of duty-free and quota-free market access on a lasting basis for all least developed countries, consistent with the Hong Kong Ministerial Declaration adopted by the World Trade Organization in 2005;
9. *Recognizes* the importance of the private sector as well as the role of public-private partnerships in meeting the challenges of sustainable development for middle-income countries and other developing countries;

---

<sup>297</sup> A/68/265.

10. *Also recognizes* that middle-income countries still face significant challenges in their efforts to achieve the internationally agreed development goals, including the Millennium Development Goals, and in that regard underlines the importance of international support, through various forms, that is well aligned with national priorities to address the development needs of middle-income countries, including through capacity-building;

13. *Encourages* giving appropriate consideration to the diverse development challenges of middle-income countries in the elaboration of the post-2015 development agenda;

14. *Requests* the Secretary-General to submit to the General Assembly at its seventieth session a report on the implementation of the present resolution that also looks further into the development challenges of middle-income countries, including through, inter alia, measurements that take into account the multidimensional nature of poverty and development, and that provides recommendations and proposals to ensure efficient, effective, better focused and better coordinated cooperation with middle-income countries, and decides to include in its provisional agenda, under the item entitled “Globalization and interdependence”, the sub-item entitled “Development cooperation with middle-income countries”.

*Welcoming* the strengthening of the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) in respect of its structures, capacities, the implementation of the regional architecture, and experience on how to achieve its mandate,

*Welcoming also* General Assembly resolution 67/226 of 21 December 2012 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system, which reaffirms that gender equality is of fundamental importance for achieving sustained and inclusive economic growth, poverty eradication and sustainable development, in accordance with the relevant resolutions of the Assembly and United Nations conferences, and that investing in the development of women and girls has a multiplier effect, in particular on productivity, efficiency and sustained and inclusive economic growth, in all sectors of the economy, especially in key areas such as agriculture, industry and services,

*Noting* the importance of the organizations and bodies of the United Nations system, in particular its funds and programmes, and the specialized agencies in facilitating the advancement of women in development, and in this context recalling the resolution on the quadrennial comprehensive policy review of operational activities for development of the United Nations system,

*Reaffirming* the provisions concerning the pursuit of full and productive employment and access to decent work and social protection for all in the outcome document of the United Nations Conference on Sustainable Development, and calling upon States to adopt forward-looking macroeconomic policies that promote sustainable development and lead to sustained, inclusive and equitable economic growth, increase productive employment opportunities and promote agricultural and industrial development,

*Recognizing* that men and women workers should have equal access to education, skills, health care, social security, fundamental rights at work, social and legal protections, including occupational safety and health, and decent work opportunities,

*Recognizing also* that access to basic affordable health care, preventive health-care information and the highest standard of health, including in the areas of sexual and reproductive health, is critical to women's economic advancement, that lack of economic empowerment and independence increases women's vulnerability to a range of negative consequences, including the risk of contracting HIV/AIDS, and that the neglect of women's full enjoyment of human rights severely limits their opportunities in public and private life, including the opportunities for receiving an education and for achieving economic and political empowerment,

*Reaffirming* the need to eliminate gender disparities in primary and secondary education by the earliest possible date and at all levels by 2015, and reaffirming also that equal access to education and training at all levels, in particular in business, trade, administration, information and communications technologies and other new technologies, and fulfilment of the need to eliminate gender inequalities at all levels are essential for gender equality, the empowerment of women and poverty eradication and to allowing women's full and equal contribution to, and equal opportunity to benefit from, development,

*Reaffirming also* that women are key contributors to the economy and to combating poverty and inequalities through both remunerated and unremunerated work at home, in the community and in the workplace, and that the empowerment of women is a critical factor in the eradication of poverty,

*Recognizing* that unremunerated work, including domestic and care work, plays an essential role in improving well-being in the household and in the functioning of the economy as a whole, and acknowledging the need to recognize and consider, where appropriate, policies and programmes that would contribute to reducing the unequal burden of unremunerated work, including care work, for which women and girls continue to carry an unequal level of responsibility,

*Recognizing also* that the difficult socioeconomic conditions that exist in many developing countries, in particular the least developed countries, have contributed to the feminization of poverty,

*Recognizing further*, in this context, the importance of respect for all human rights, including the right to development, and of a national and international environment that promotes, for women and girls, inter alia, justice, gender equality, equity, civil and political participation and civil, political, economic, social and cultural rights and fundamental freedoms in order to achieve the advancement and empowerment of women,

*Bearing in mind* the challenges and obstacles to changing discriminatory attitudes and gender stereotypes, which perpetuate discrimination against women and girls and stereotypic roles of men and women, and stressing that challenges and obstacles remain in the implementation of international standards and norms to address the inequality between men and women,

*Recognizing* that poverty eradication and the achievement and preservation of peace are mutually reinforcing, and recognizing also that peace is inextricably linked to equality between women and men and to development,

1. *Takes note* of the report of the Secretary-General;<sup>361</sup>

2. *Calls upon* Member States, the United Nations system and other international and regional organizations, within their respective mandates, and all sectors of civil society, including non-governmental organizations, as well as all women and men, to fully commit themselves and to intensify their contributions to the implementation of the Beijing Declaration<sup>343</sup> and Platform for Action<sup>344</sup> and the outcome of the twenty-third special session of the General Assembly,<sup>345</sup> and the Programme of Action of the International Conference on Population and Development;<sup>362</sup>

3. *Recognizes* the mutually reinforcing links between gender equality and poverty eradication and the achievement of all of the Millennium Development Goals, as well as the need to elaborate and implement, where appropriate, in consultation with all relevant stakeholders, comprehensive gender-sensitive poverty eradication strategies that address social, structural and macroeconomic issues;

4. *Emphasizes* the need to link policies on economic and social development to ensure that all people, including those living in poverty and in vulnerable situations, benefit from inclusive economic growth and development, in accordance with the goals of the Monterrey Consensus of the International Conference on Financing for Development<sup>349</sup> and the Doha Declaration on Financing for Development: outcome document of the Follow-up International Conference on Financing for Development to Review the Implementation of the Monterrey Consensus;<sup>351</sup>

5. *Urges* Member States, the organizations of the United Nations system and non-governmental organizations to accelerate their efforts and provide adequate resources to increase the voice and full and equal participation of women in all decision-making bodies at the highest levels of government and in the governance structures of international organizations, including through eliminating gender stereotyping in appointments and promotions, to build women's capacity as agents of change and to empower them to participate actively and effectively in the design, implementation, monitoring, evaluation and reporting of national development, poverty eradication and environmental policies, strategies and programmes;

6. *Encourages* Member States to continue to increase, as appropriate, the participation of civil society, including women's organizations, in government decision-making in national development policy areas;

7. *Encourages* Member States and the United Nations system to ensure systematic attention to, recognition of and support for the crucial role of women in the prevention and resolution of conflict, in mediation and peacebuilding efforts and in the rebuilding of post-conflict societies, inter alia, through promoting women's capacity, leadership and engagement in political and economic decision-making;

8. *Expresses deep concern* about the ongoing adverse impacts, particularly on development, of the world financial and economic crisis, recognizing evidence of an uneven and fragile recovery, and cognizant that the global economy, notwithstanding significant efforts that helped contain tail risks, improve financial market conditions and sustain recovery, still remains in a challenging phase, with downside risks, inter alia, for women and girls, including high volatility in global markets, high unemployment, particularly among youth, indebtedness in some countries and widespread fiscal strains that pose challenges for global economic recovery and reflect the need for additional progress towards sustaining and rebalancing global demand, and stresses the need for continuing efforts to address systemic fragilities and imbalances and to reform and strengthen the international financial system while implementing the reforms agreed to date, and to address the challenges posed by climate change for women and girls, and in respect of maintaining adequate levels of funding for the achievement of gender equality and the empowerment of women;

9. *Stresses* the importance of the creation by Member States, international organizations, including the United Nations, the private sector, non-governmental organizations, trade unions and other stakeholders of a favourable and conducive national and international environment in all areas of life for the effective integration of

women and girls in development, and of their undertaking and disseminating a gender analysis of policies and programmes related to macroeconomic stability, structural reform, taxation, investments, including foreign direct investment, and all relevant sectors of the economy;

10. *Urges* the donor community, Member States, international organizations, including the United Nations, the private sector, non-governmental organizations, trade unions and other stakeholders to strengthen the focus and impact of development assistance targeting gender equality and the empowerment of women and girls through gender mainstreaming, the funding of targeted activities and enhanced dialogue between donors and partners, and to also strengthen the mechanisms needed to measure effectively the resources allocated to incorporating gender perspectives in all areas of development assistance;

11. *Urges* Member States to incorporate a gender perspective, commensurate with gender-equality goals, into the design, implementation, monitoring, evaluation and reporting of national development strategies, to ensure alignment between national action plans on gender equality and national development strategies and to encourage the involvement of men and boys in the promotion of gender equality, and in this regard calls upon the United Nations system to support national efforts to develop methodologies and tools and to promote capacity-building and evaluation;

13. *Also encourages* Member States, as appropriate, to strengthen capacities for gender mainstreaming by allocating adequate financial and human resources to national women's machineries as well as to and within line ministries, establishing and/or strengthening dedicated units for gender equality and the empowerment of women, providing capacity development for technical staff and developing tools and guidelines;

14. *Encourages* Member States, the United Nations system and donor countries to strengthen gender-responsive planning and budgeting processes and to develop and strengthen methodologies and tools for this purpose, as well as for the monitoring and evaluation of investments for gender-equality results, as appropriate, and encourages donors to mainstream a gender perspective in their practices, including joint coordination and accountability mechanisms;

15. *Encourages* Member States to adopt and implement legislation and policies designed to promote the reconciliation of work and family responsibilities, including through increased flexibility in working arrangements, such as part-time work, and the facilitation of breastfeeding for working mothers, to provide care facilities for children and other dependants and to ensure that both women and men have access to maternity or paternity, parental and other forms of leave and are not discriminated against when availing themselves of such benefits;

16. *Expresses deep concern* about the pervasiveness of violence against women and girls, reiterates the need to further intensify efforts to prevent and eliminate all forms of violence against women and girls, and recognizes that violence against women and girls is one of the obstacles to the achievement of the objectives of equality, development and peace and that women's poverty and lack of political, social and economic empowerment, as well as their marginalization, may result from their exclusion from social policies for and the benefits of sustainable development and can place them at increased risk of violence;

17. *Encourages* Governments, the private sector, non-governmental organizations, trade unions and other stakeholders to promote and protect the rights of women workers, to take action to remove structural and legal barriers to, as well as eliminate stereotypic attitudes towards, gender equality at work and to initiate positive steps towards promoting equal pay for equal work or for work of equal value and women's full participation in the formal economy, in particular in economic decision-making;

19. *Urges* Governments to develop, adequately resource and implement active labour-market policies on full and productive employment and decent work for all, including the full participation of women and men in both rural and urban areas;

20. *Urges* the United Nations system and other international organizations, upon the request of Member States, to support and promote innovative programme responses to ensure women's access to decent work, to recognize and contribute to reducing the unequal burden of care work, to promote social protection initiatives and measures for women and girls with a gender perspective, and to support and encourage the scaling-up of existing good-practice programmes and initiatives;

22. *Encourages* Governments and the United Nations system to recognize unremunerated work, including domestic and care work, and to provide support through the development of infrastructure and technologies and the provision of public services, including accessible and quality childcare, incentives such as parental leave, flexible working arrangements and allowances;

23. *Encourages* Member States to adopt and/or review and to fully implement gender-sensitive legislation and policies that reduce, through specifically targeted measures, horizontal and vertical occupational segregation and gender-based wage gaps;

24. *Stresses* the importance of improving and systematizing the collection, analysis and dissemination of data disaggregated by sex and age and of developing gender indicators that are specific and relevant with respect to supporting policymaking and national systems for monitoring and reporting on progress and impact, and in that regard encourages developed countries and relevant entities of the United Nations system to provide support and assistance to developing countries, upon their request, with respect to establishing, developing and strengthening their databases and information systems;

26. *Also encourages* Governments to consider conducting time-use studies and the use of satellite accounts to determine the extent of women's and girls' unremunerated work, including domestic and care work, and the impact of associated policy measures, in cooperation with the United Nations system and other international organizations upon the request of Governments;

27. *Urges* all Member States to undertake a gender analysis of national labour laws and standards and to establish gender-sensitive policies and guidelines for employment practices, including for transnational corporations, with particular attention to export-processing zones, building in this regard on multilateral instruments, including the Convention on the Elimination of All Forms of Discrimination against Women<sup>363</sup> and conventions of the International Labour Organization;

28. *Stresses* the importance of developing national strategies for the promotion of sustainable and productive entrepreneurial activities, and encourages Governments to create a climate that is conducive to increasing the number of women entrepreneurs and the size of their businesses by giving them equal access to financial instruments, providing them with training and advisory services in business, administration and information and communications technologies, facilitating networking and information-sharing and increasing their participation on advisory boards and in other forums so as to enable them to contribute to the formulation and review of policies and programmes being developed by financial institutions;

mortgages and other forms of financial credit, regardless of their economic and social status, to support women's access to legal assistance and to encourage the financial sector to mainstream gender perspectives in their policies and programmes;

30. *Recognizes* the role of microfinance, including microcredit, in the eradication of poverty, the empowerment of women and the generation of employment, notes in this regard the importance of sound national financial systems, and encourages the strengthening of existing and emerging microcredit institutions and their capacities, including through the support of international financial institutions;

31. *Urges* Governments to ensure that microfinance programmes focus on developing savings products that are safe, convenient and accessible to women and support women's efforts to retain control over their savings;

32. *Urges* all Governments to eliminate discrimination against women and girls in the field of education and to ensure their equal access to all levels of education;

33. *Encourages* Member States to adopt and implement, as appropriate, legislation and policies protecting women's labour and human rights in the workplace, including with respect to minimum wages, social protection and equal pay for equal work, promoting collective bargaining and providing for recruitment, retention and promotion policies targeting women;

34. *Reaffirms* the commitment to women's equal rights and opportunities in political and economic decision-making and resource allocation and to the removal of any barriers that prevent women from being full participants in the economy, and the resolve to undertake legislative and administrative reforms to give women equal rights with men to economic resources, including access to ownership and control over land and other forms of property, credit, inheritance, natural resources and appropriate new technology;

35. *Urges* Governments to take measures to facilitate equitable access to land and property rights by providing training designed to make the judicial, legislative and administrative system more responsive to gender-equality issues, to provide legal aid for women seeking to claim their rights, to support the efforts of women's groups and networks and to carry out awareness campaigns so as to draw attention to the need for women's equal rights to land and property;

37. *Also recognizes* the need to empower women, particularly poor women and girls, economically and politically, and in this regard encourages Governments, with the support of their development partners, to invest in appropriate infrastructure and other projects, including the provision of water and sanitation to rural areas and urban slums, in order to increase health and well-being, relieve the workloads of women and girls and release their time and energy for other productive activities, including entrepreneurship;

38. *Further recognizes* the central role of agriculture in development, and stresses the importance of reviewing agricultural policies and strategies to ensure that women's critical role in food security and nutrition is recognized and addressed as an integral part of both short- and long-term responses to food insecurity, excessive price volatility and food crises in developing countries;

40. *Expresses concern* at the overall expansion of the HIV and AIDS epidemic and the fact that in some regions women and girls are still the most affected by HIV and AIDS, that they are more easily infected, that they bear a disproportionate share of the caregiving burden and that they are more vulnerable to violence, stigmatization and discrimination, poverty and marginalization from their families and communities as a result of HIV and AIDS, and taking into account that despite substantial progress, the 2010 deadline of universal access has not been met, calls upon Governments and the international community to urgently scale up responses towards achieving the goal of universal access to comprehensive HIV prevention programmes, treatment, care and support and, in line with the

2011 Political Declaration on HIV and AIDS: Intensifying Our Efforts to Eliminate HIV and AIDS,<sup>354</sup> to ensure that national responses to HIV and AIDS meet the specific needs of women and girls, including those living with and affected by HIV and AIDS across their lifespan;

43. *Encourages* Governments and all sectors of society to take sustainable measures to ensure equal access to full and productive employment and decent work on an equal basis and without discrimination to persons with disabilities, including by promoting access to inclusive education systems, skills development and vocational and entrepreneurial training, in order to enable persons with disabilities to attain and maintain maximum independence, as noted in the United Nations Convention on the Rights of Persons with Disabilities<sup>364</sup> as well as in the outcome document of the high-level meeting of the General Assembly on the realization of the Millennium Development Goals and other internationally agreed development goals for persons with disabilities: the way forward, a disability-inclusive development agenda towards 2015 and beyond,<sup>358</sup> and notes the need to strengthen efforts aimed at addressing the rights and needs of women and children with disabilities;

44. *Expresses deep concern* that maternal health remains one area constrained by some of the largest health inequities in the world, and over the uneven progress in improving child and maternal health, in this context calls upon States to implement their commitments to preventing and reducing child and maternal mortality and morbidity, and welcomes in that regard the Secretary-General's Global Strategy for Women's and Children's Health as well as national, regional and international initiatives contributing to the reduction in the number of maternal deaths and deaths of the newborn and children under age 5;

47. *Encourages* the international community, the United Nations system, the private sector and civil society to continue to provide the financial resources necessary to assist Governments in their efforts to meet the development targets and benchmarks agreed upon at the World Summit for Social Development, the Fourth World Conference on Women, the International Conference on Population and Development, the Millennium Summit, the International Conference on Financing for Development, the World Summit on Sustainable Development, the Second World Assembly on Ageing, the twenty-third and twenty-fourth special sessions of the General Assembly, the United Nations Conference on Sustainable Development and other relevant United Nations conferences and summits;

---

<sup>364</sup> Ibid., vol. 2515, No. 44910.

51. *Recalls* Economic and Social Council resolution 2013/18 of 24 July 2013, in which the Council decided that at its fifty-ninth session, in 2015, the Commission on the Status of Women would undertake a review and appraisal of the implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly, including current challenges that affect the implementation of the Platform for Action and the achievement of gender equality and the empowerment of women, as well as opportunities for strengthening gender equality and the empowerment of women in the post-2015 development agenda through the integration of a gender perspective;

52. *Requests* the Secretary-General to submit to the General Assembly at its seventieth session a report on the progress made in the implementation of the present resolution, including on integrating a gender perspective into national development strategies;

53. *Decides* to include in the provisional agenda of its seventieth session, under the item entitled “Eradication of poverty and other development issues”, the sub-item entitled “Women in development”.

*Stressing* that human resources development lies at the heart of economic, social and environmental development and that health and education are at the core of human resources development,

*Stressing also* that human resources development is key to the efforts to achieve the internationally agreed development goals, including the Millennium Development Goals, and to expand opportunities for people, in particular for the most vulnerable groups of the population,

*Welcoming* the considerable efforts made over the years, yet recognizing that many countries continue to face formidable challenges in developing a sufficient pool of human resources capable of meeting national economic and social needs and that the formulation and implementation of effective human resources strategies often require resources and capacities not always available in developing countries, and also recognizing the need for new ways to address human resources development,

---

<sup>365</sup> The draft resolution recommended in the report was submitted by the Vice-Chair of the Committee.

*Recognizing* the potential of science, technological knowledge and innovation to address key challenges to human resources development, which can lead to positive transformations in people's lives,

*Stressing* that human resources development is even more critical in view of the current global challenges, including, despite evidence of an uneven and fragile recovery, the ongoing adverse impacts, particularly on development, of the world financial and economic crisis, in order to tackle the negative effects of the global crisis and set the basis for sustained, inclusive and equitable growth and recovery,

*Recognizing* that the benefits of human resources development are best realized in national and international environments that support equal opportunity, access to education and non-discrimination and maintain an enabling environment for job creation,

*Recognizing also* that despite evidence of an uneven and fragile recovery, the ongoing adverse impacts, particularly on development, of the world financial and economic crisis continue to diminish the ability of many countries, especially developing countries, to cope with and address human resources development challenges and to formulate and implement effective strategies for poverty eradication and sustainable development,

*Acknowledging* the important nexus between international migration and development and the need to deal with the challenges and opportunities that migration presents to countries of origin, transit and destination, recognizing that migration brings benefits as well as challenges to the global community, and stressing that the brain drain continues to be a severe problem in many developing and transitioning countries, undermining efforts in the area of human resources development,

*Recognizing* that science, technological knowledge and innovation can overcome important physical, infrastructural and cultural barriers that prevent people, especially in poor and marginalized communities, from living a healthy and productive life,

*Recognizing also* the need to align science, technological knowledge and innovation systems with national development objectives, fully integrated with national human resources development and poverty eradication strategies and supported by appropriate institutional and policy frameworks,

*Acknowledging* that science, technological knowledge and innovation policies should take into account the specific features of the economy in developing countries, including the size of the traditional sector, the importance of indigenous knowledge, the limited access to skilled labour and capital, weak infrastructure and inadequate institutional frameworks, in order to generate solutions that address the specific challenges of those countries and to foster synergies between modern science and technology and indigenous and local knowledge,

*Reaffirming* that gender equality is of fundamental importance for achieving sustained economic growth, poverty eradication and sustainable development, in accordance with the relevant General Assembly resolutions and United Nations conferences, and that investing in the development of women and girls has a multiplier effect, in particular on productivity, efficiency and sustained economic growth, in all sectors of the economy, especially in key areas such as agriculture, industry and services,

*Recognizing* that education is the key to promoting the development of human potential, equality and understanding among peoples, as well as to sustaining economic growth and eradicating poverty, and recognizing also that, to achieve those ends, it is essential that quality education be available to all, including indigenous peoples, girls and women, rural inhabitants and persons with disabilities,

*Stressing* that Governments have the primary responsibility for defining and implementing appropriate policies for human resources development, and the need for continued support from the international community for the national efforts of developing countries,

1. *Takes note* of the report of the Secretary-General;<sup>366</sup>

2. *Calls upon* Member States to place human resources development at the core of economic and social development and to develop short-, medium- and long-term strategies to effectively enhance their human resources capacities, as educated, skilled, healthy, capable, productive and flexible workforces are the foundation for achieving sustained, inclusive and equitable economic growth and development;

---

<sup>366</sup> A/68/228.

3. *Stresses* the need for Member States to emphasize and integrate human resources development into national development strategies, including national development policies and strategies to eradicate poverty and achieve the Millennium Development Goals, in order to address structural and multidimensional challenges to enhancing national productive capacities and to ensure that human resources development implications are taken into account by all national development stakeholders;

4. *Recognizes* that comprehensive approaches to human resources development that address poverty eradication and the creation of a skilled workforce are also critical in reducing unemployment and brain drain and in promoting greater social inclusion;

5. *Encourages* Member States to adopt and implement comprehensive human resources development strategies premised on national development objectives that ensure a strong link between education, training and employment, help to maintain a productive and competitive workforce and are responsive to the needs of the economy;

6. *Stresses* that human resources development policies should focus on supporting the emergence of a sufficiently wide and flexible pool of skilled human resources, especially among women and youth, to support all sectors of the economy and be matched with present and future workforce needs, which requires well-sequenced investments in basic education, vocational training, on-the-job training and more advanced managerial, engineering and scientific education to increase the supply of technological knowledge that can be absorbed by national innovation systems;

7. *Emphasizes* the need for Member States to adopt cross-sectoral approaches and mechanisms to identify human resources development needs in the medium and long term for all sectors of the economy and to formulate and implement policies and programmes to address those needs;

8. *Recognizes* that comprehensive and flexible science, technological knowledge and innovation strategies that encompass all sectors of the economy are critical to ensuring that skills are matched with labour market demand and ready to adapt to and benefit from a constantly evolving technology landscape;

9. *Emphasizes* that when science, technological knowledge and innovation and human resources development approaches are mutually reinforcing they can lead to a virtuous circle of economic growth, human progress and sustainable development;

10. *Stresses* that investment in human resources development should be an integral part of national development policies and strategies, and in this regard calls for the adoption of policies to facilitate investment focused on physical and social infrastructure, including education, in particular skills upgrading and vocational training in areas such as science and technology, including information and communications technology, as well as in capacity development, health and sustainable development;

11. *Encourages* Member States, as appropriate, to continue to strengthen comprehensive social protection systems, to adopt policies that strengthen existing safety nets and protect vulnerable groups and to take other appropriate actions, including boosting domestic consumption and production, recognizes that social protection floors, defined according to national priorities and the individual circumstances of Member States, can provide systemic approaches to address poverty and vulnerability and can contribute significantly to successful human resources development strategies, acknowledges in this regard that many developing countries lack the necessary financial resources and capacity to implement such countercyclical measures, and in this regard recognizes the need for continued mobilization of additional domestic and international resources, as appropriate;

12. *Encourages* Member States in a position to do so to consider implementing, and the States members of the International Labour Organization to implement, policies consistent with the International Labour Organization Declaration on Fundamental Principles and Rights at Work and their obligations under all relevant ratified conventions of the International Labour Organization, and recalls the importance of promoting decent work for all and of increasing quality jobs, including through measures aimed at ensuring occupational health and safety and through working relationships based on effective social dialogue;

13. *Stresses* that human resources development strategies should include measures aimed at reducing unemployment and underemployment among young men and women and the long-term unemployed, who have been disproportionately affected by slow growth in jobs recovery, and to integrate underutilized human resources into the labour market through policies that promote skills development and productivity and reduce barriers to employment, including gender barriers, including by providing incentives as appropriate for recruiting, retaining and

retooling, assistance in job-finding and job-matching and vocational and on-the-job training, and by promoting, inter alia, youth entrepreneurship, noting in this regard the call for action by the International Labour Conference;

14. *Also stresses* the need for Member States to retain and further enhance national human resources by boosting job-rich recovery and promoting decent work, including by adopting policies and incentives that enhance labour productivity and stimulate private investment and entrepreneurship and strengthen the role of labour administration and institutions in order to foster job creation and increase the participation of vulnerable groups, including workers in informal sectors;

15. *Emphasizes* the need to address the interlinkages among human resources development, energy and food security, agriculture and rural development, and encourages Member States to strengthen capacity in agriculture and rural development;

16. *Stresses* that sustainable development is dependent, inter alia, on healthy human resources, calls upon Member States to continue their efforts to strengthen national health systems, urges the further strengthening of international cooperation in the area of health, inter alia, by considering promoting universal health coverage and through the exchange of best practices in the areas of strengthening health systems, access to medicines, training of health personnel, transfer of technology and production of affordable, safe, effective and good-quality medicine, and in this regard stresses that international cooperation and assistance, in particular external funding, need to become more predictable and to be better aligned with national priorities and channelled to recipient countries in ways that strengthen national health systems;

17. *Calls upon* the international community, including the entities of the United Nations system, to support the efforts of developing countries to address the adverse effects of HIV/AIDS, malaria, tuberculosis and other infectious diseases, in particular in Africa, as well as the prevention and control of non-communicable diseases, which is a challenge of epidemic proportions, and their effects on human resources;

18. *Calls upon* relevant United Nations entities to support national efforts to build institutional capacities to address long-term national human resources development needs in addition to providing training to individuals;

19. *Stresses* that building national capacity for innovation should be a key priority for the international development cooperation agenda, given the importance of human resources development and science, technological knowledge and innovation for countries' future prosperity, including the capacity of enterprises to innovate;

20. *Calls upon* the international community to assist developing countries in the implementation of national human resources development strategies, and encourages the international community, including the private sector and relevant civil society actors, to provide and mobilize financial resources, capacity-building, technical assistance and technology transfer on mutually agreed terms and to supply expertise from all sources, as available;

21. *Calls for* steps to integrate gender perspectives into human resources development, including through policies, strategies and targeted actions aimed at promoting women's capacities and access to productive activities, and in this regard emphasizes the need to ensure the full participation of women in the formulation and implementation of such policies, strategies and actions;

22. *Stresses* the important contributions of the public and private sectors, respectively, in meeting national training and education needs to support the efficient functioning of enterprises and matching the needs of a rapidly changing economy, and encourages the integration of those contributions, including through the greater use of public-private partnerships and incentives;

23. *Calls for* actions at the national, regional and international levels that will give high priority to improving and expanding literacy, as well as science proficiency, including by providing tertiary, technical-vocational and adult education, and stresses the need to ensure that, by 2015, children everywhere, boys and girls alike, will be able to complete a full course of primary schooling and will have equal access to all levels of education;

Social Justice for a Fair Globalization,<sup>30</sup> in which the particular role of the Organization in promoting fair globalization and its responsibility to assist its members in their efforts were acknowledged, as well as in the Global Jobs Pact,

*Emphasizing* the need to enhance the role of the Commission for Social Development in the follow-up to and review of the World Summit for Social Development and the outcome of the twenty-fourth special session of the General Assembly, and welcoming the views of the Commission in the elaboration of the post-2015 development agenda,

*Recognizing* that the three core themes of social development, namely, poverty eradication, full and productive employment and decent work for all and social integration, are interrelated and mutually reinforcing, and that an enabling environment therefore needs to be created so that all three objectives can be pursued simultaneously,

*Recognizing also* that a people-centred approach must be at the centre of economic and social development,

*Expressing deep concern* that attainment of the social development objectives is being hindered by the ongoing adverse impact of the world financial and economic crisis, volatile energy and food prices and the challenges posed by climate change,

*Recognizing* the complex character of the ongoing food insecurity situation, including food price volatility, as a combination of several major factors, both structural and conjunctural, which is also negatively affected by, inter alia, environmental degradation, drought and desertification, global climate change, natural disasters and the lack of the necessary technology, and recognizing also that a strong commitment from national Governments and the international community as a whole is required to confront the major threats to food security and to ensure that policies in the area of agriculture do not distort trade and worsen food insecurity,

*Acknowledging* the need to further mainstream sustainable development at all levels, integrating economic, social and environmental aspects and recognizing their interlinkages, so as to achieve sustainable development in all its dimensions,

*Reaffirming* the need to achieve sustainable development by promoting sustained, inclusive and equitable economic growth, creating greater opportunities for all, reducing inequalities, raising basic standards of living, fostering equitable and inclusive social development and promoting the integrated and sustainable management of natural resources,

*Deeply concerned* that extreme poverty persists in all countries of the world, regardless of their economic, social and cultural situation, and that its extent and its manifestations, such as hunger and malnutrition, trafficking in human beings, disease, lack of adequate shelter and illiteracy, are particularly severe in developing countries, while acknowledging the significant progress made in several parts of the world in combating extreme poverty,

*Recognizing* the importance of the international community in supporting national capacity-building efforts in the area of social development, while recognizing the primary responsibility of national Governments in this regard,

*Affirming* its strong support for fair globalization and the need to translate growth into eradication of poverty and commitment to strategies and policies that aim to promote full, freely chosen and productive employment and decent work for all and that these should constitute a fundamental component of relevant national and international policies and national development strategies, including poverty reduction strategies, and reaffirming that employment creation and decent work for all should be incorporated into macroeconomic policies, taking fully into account the impact and social dimension of globalization, the benefits and costs of which are often unevenly shared and distributed,

*Recognizing* the need to enhance access to the benefits of trade, including agricultural trade, for developing countries in order to foster social development,

*Recognizing also* that social inclusion is a means for achieving social integration and is crucial for fostering stable, safe, harmonious, peaceful and just societies and for improving social cohesion so as to create an environment for development and progress,

---

<sup>30</sup> A/63/538-E/2009/4, annex.

1. *Takes note* of the report of the Secretary-General;<sup>31</sup>
2. *Welcomes* the reaffirmation by Governments of their will and commitment to continue implementing the Copenhagen Declaration on Social Development and the Programme of Action of the World Summit for Social Development,<sup>22</sup> in particular to eradicate poverty, promote full and productive employment and decent work for all and foster social integration to achieve stable, safe and just societies for all;

4. *Reaffirms* that the Commission for Social Development continues to have the primary responsibility for the follow-up to and review of the World Summit for Social Development and the outcome of the twenty-fourth special session of the General Assembly and that it serves as the main United Nations forum for an intensified global dialogue on social development issues, and calls upon Member States, the relevant specialized agencies, funds and programmes of the United Nations system and civil society to enhance their support for its work;
5. *Expresses deep concern* that the ongoing adverse impact of the world financial and economic crisis, volatile energy and food prices and food insecurity and the challenges posed by climate change, as well as the lack of results so far in the multilateral trade negotiations, have negative implications for social development;
6. *Stresses* the importance of the policy space of national Governments, in particular in the areas of social expenditure and social protection programmes, and calls upon international financial institutions and donors to support developing countries in achieving their social development, in line with their national priorities and strategies by, among other things, providing debt relief;
7. *Recognizes* that the broad concept of social development affirmed by the World Summit for Social Development and the twenty-fourth special session of the General Assembly has not been fully implemented in national and international policymaking and that, although poverty eradication is a central part of development policy and discourse, further attention should be given to the other commitments agreed to at the Summit, in particular those concerning employment and decent work and social integration, which have also suffered from a general disconnect between economic and social policymaking;
8. *Acknowledges* that the first United Nations Decade for the Eradication of Poverty (1997–2006), launched after the World Summit for Social Development, has provided the long-term vision for sustained and concerted efforts at the national and international levels to eradicate poverty;
9. *Recognizes* that the implementation of the commitments made by Governments during the first Decade has fallen short of expectations, and welcomes the proclamation of the Second United Nations Decade for the Eradication of Poverty (2008–2017) by the General Assembly in its resolution 62/205 of 19 December 2007 in order to support, in an efficient and coordinated manner, the internationally agreed development goals related to poverty eradication, including the Millennium Development Goals;
10. *Emphasizes* that the major United Nations conferences and summits, including the Millennium Summit, the 2005 World Summit, the high-level plenary meeting of the General Assembly on the Millennium Development Goals, the 2013 special event to follow up efforts made towards achieving the Millennium Development Goals, the International Conference on Financing for Development, in its Monterrey Consensus,<sup>32</sup> and the United Nations Conference on Sustainable Development, held in Rio de Janeiro, Brazil, from 20 to 22 June 2012, have reinforced the priority and urgency of poverty eradication within the United Nations development agenda;
11. *Also emphasizes* that poverty eradication policies should tackle poverty by addressing its root and structural causes and manifestations, and that equity, inclusivity, the reduction of inequalities and the empowerment of the poor need to be incorporated into those policies;

*Recalling* the declaration of the United Nations High-level Dialogue on International Migration and Development,<sup>53</sup> held on 3 and 4 October 2013, which reaffirmed the need to promote and protect effectively the human rights and fundamental freedoms of all migrants, regardless of their migration status, especially those of women and children, and to address international migration through international, regional or bilateral cooperation and dialogue and through a comprehensive and balanced approach, recognizing the roles and responsibilities of countries of origin, transit and destination in promoting and protecting the human rights of all migrants and avoiding approaches that might aggravate their vulnerability,

*Recalling also* that the declaration recognized that women and girls account for almost half of all international migrants at the global level and the need to address the special situation and vulnerability of migrant women and girls by, inter alia, incorporating a gender perspective into policies and strengthening national laws, institutions and programmes to combat gender-based violence, including trafficking in persons and discrimination against them, and emphasized in this regard the need to establish appropriate measures for the protection of women migrant workers in all sectors, including those involved in domestic work,

*Welcoming* the adoption of Convention No. 189 and Recommendation No. 201 on decent work for domestic workers by the International Labour Conference on 16 June 2011, at its 100th session, and the entry of the Convention into force on 5 September 2013, and inviting States to consider ratifying it, encouraging States parties to the Convention on the Elimination of All Forms of Discrimination against Women<sup>54</sup> to take note of and consider general recommendation No. 26 on women migrant workers adopted by the Committee on the Elimination of Discrimination against Women in November 2008,<sup>55</sup> and encouraging States parties to the International Convention on the Protection of the Rights of All Migrant Workers and Members of Their Families<sup>56</sup> to take note of and consider general comment No. 1 on migrant domestic workers adopted by the Committee on the Protection of the Rights of All Migrant Workers and Members of Their Families in December 2010,<sup>57</sup> acknowledging that they are complementary and mutually reinforcing,

<sup>57</sup> CMW/C/GC/1.

*Recognizing* the increasing participation of women in international migration, driven in large part by socioeconomic factors, and that this feminization of migration requires greater gender sensitivity in all policies and efforts related to the subject of international migration,

*Stressing* the shared responsibility of and need for cooperation among all stakeholders, in particular countries of origin, transit and destination, relevant regional and international organizations, the private sector and civil society, in promoting an environment that prevents and addresses violence against women migrant workers, including in the context of discrimination, through targeted measures, and in this regard recognizing the importance of joint and collaborative approaches and strategies at the national, bilateral, regional and international levels,

*Recognizing* that women migrant workers are important contributors to social and economic development through the economic and social impacts, as a result of their work, on countries of origin and destination, and underlining the value and dignity of their labour, including the labour of domestic workers,

*Recognizing also* the particular vulnerability and needs of women and their children at all stages of the migration process, extending from the moment of deciding to migrate, and including transit, engagement in formal and informal employment and integration into the host society, as well as during their return to and reintegration in their countries of origin,

*Expressing deep concern* at the continuing reports of grave abuses and violence committed against migrant women and girls, including gender-based violence, sexual violence, domestic and family violence, racist and xenophobic acts, discrimination, abusive labour practices, exploitative conditions of work and contemporary forms of slavery, inter alia, all forms of forced labour and trafficking in persons,

*Recognizing* that the intersection of, inter alia, gender, age, class, race and ethnic discrimination and stereotypes can compound the discrimination faced by women migrant workers and that gender-based violence is a form of discrimination,

*Reaffirming* the commitment to protect and promote the human rights of all women, including, without discrimination, indigenous women who migrate for work, and in this regard noting the attention paid in the United Nations Declaration on the Rights of Indigenous Peoples<sup>58</sup> to the elimination of all forms of violence and discrimination against indigenous women, as appropriate,

*Noting* that the priority theme of the fifty-eighth session of the Commission on the Status of Women will be “Challenges and achievements in the implementation of the Millennium Development Goals for women and girls” and that migration can enable equitable, inclusive and sustainable growth and human development for countries of origin and destination, migrants and their families, and in this regard recognizing the potential role and contribution of women migrant workers towards accelerating progress in the achievement of the Millennium Development Goals and attaining equitable, inclusive and sustainable growth and human development,

*Concerned* that many migrant women who are employed in the informal economy and in less skilled work are especially vulnerable to abuse and exploitation, underlining in this regard the obligation of States to protect the human rights of migrants so as to prevent and address abuse and exploitation, and observing with concern that many women migrant workers take on jobs for which they may be overqualified and in which, at the same time, they may be more vulnerable because of poor pay and inadequate social protection,

*Emphasizing* the need for objective, comprehensive and broad-based information, including sex- and age-disaggregated data and statistics, and gender-sensitive indicators for research and analysis, and a wide exchange of experience and lessons learned by individual Member States and civil society in the formulation of targeted policies and concrete strategies to specifically address violence against women migrant workers, including in the context of discrimination,

*Realizing* that the movement of a significant number of women migrant workers may be facilitated and made possible by means of fraudulent or irregular documentation and sham marriages with the object of migration, that this may be facilitated through, inter alia, the Internet and that those women migrant workers are more vulnerable to abuse and exploitation,

*Encouraged* by some measures adopted by some countries of destination to alleviate the plight of women migrant workers residing in their areas of jurisdiction and to promote access to justice, such as the establishment of gender-sensitive protection mechanisms for migrant workers, facilitating their access to mechanisms for reporting complaints or providing assistance during legal proceedings,

*Underlining* the important role of relevant United Nations treaty bodies in monitoring the implementation of human rights conventions and of the relevant special procedures, within their respective mandates, in addressing the problem of violence against women migrant workers and in protecting and promoting their human rights and welfare,

1. *Takes note with appreciation* of the report of the Secretary-General;<sup>59</sup>

3. *Takes note* of the reports of the Special Rapporteur of the Human Rights Council on the human rights of migrants submitted to the Council at its seventeenth and twentieth sessions,<sup>65</sup> in particular their elaboration of the vulnerabilities and challenges faced by irregular migrants, including negative public perceptions and limited access to protection, assistance and justice;

4. *Encourages* all United Nations special rapporteurs on human rights whose mandates touch on the issues of violence against women migrant workers to improve the collection of information on and analysis of those areas within their mandates relating to the current challenges facing women migrant workers, and also encourages Governments to cooperate with the special rapporteurs in this regard;

5. *Calls upon* all Governments to incorporate a human rights, gender-sensitive and people-centred perspective in legislation, policies and programmes on international migration and on labour and employment, consistent with their human rights obligations and commitments under human rights instruments, for the prevention of and protection of migrant women against violence and discrimination, exploitation and abuse, to take effective measures to ensure that such migration and labour policies do not reinforce discrimination, and, where necessary, to conduct impact assessment studies of such legislation, policies and programmes in order to identify the impact of measures taken and the results achieved in regard to women migrant workers;

6. *Calls upon* Governments to adopt or strengthen measures to protect the human rights of women migrant workers, including domestic workers, regardless of their immigration status, including in policies that regulate the recruitment and deployment of women migrant workers, to consider expanding dialogue among States on devising innovative methods to promote legal channels of migration, inter alia, in order to deter irregular migration, to consider incorporating a gender perspective into immigration laws in order to prevent discrimination and violence

10. *Encourages* all States to remove obstacles that may prevent the transparent, safe, unrestricted and expeditious transfer of remittances of migrants to their countries of origin or to any other countries, including, where appropriate, by reducing transaction costs and implementing woman-friendly remittance transfer, savings and investment schemes, including diaspora investment schemes, in conformity with applicable national legislation, and to consider, as appropriate, measures to solve other problems that may impede women migrant workers' access to and management of their economic resources;

13. *Urges* States that have not yet done so to adopt and implement legislation and policies that protect all women migrant workers, including those in domestic service, to include therein, and improve where necessary, relevant monitoring and inspection measures in line with applicable International Labour Organization conventions and other instruments to ensure compliance with international obligations and to grant women migrant workers in domestic service access to gender-sensitive, transparent mechanisms for bringing complaints against employers, including terminating their contracts in case of labour and economic exploitation, discrimination, sexual harassment, violence and sexual abuse in the workplace, while stressing that such instruments should not punish women migrant workers, and calls upon States to promptly investigate and punish all violations of their rights;

14. *Calls upon* Governments, in cooperation with international organizations, non-governmental organizations, the private sector and other stakeholders, to provide women migrant workers who are victims of violence, irrespective of their immigration status, in line with domestic legislation, with the full range of emergency assistance and protection and, to the extent possible, gender-sensitive services that are culturally and linguistically appropriate, in accordance with relevant international human rights instruments and applicable conventions;

37. *Urges* all States and relevant non-governmental and other organizations, in conjunction with the Office of the High Commissioner, in a spirit of international solidarity and burden-sharing, to cooperate and to mobilize resources, including through financial and in-kind assistance as well as direct aid to host countries, refugee populations and communities hosting them, with a view to enhancing the capacity of and reducing the heavy burden borne by countries and communities hosting refugees, in particular those that have received large numbers of refugees and asylum seekers, and whose generosity is appreciated;

38. *Calls upon* the Office of the High Commissioner to continue to play its catalytic role in mobilizing assistance from the international community to address the root causes as well as the economic, environmental and social impact of large-scale refugee populations in developing countries, in particular the least developed countries, and countries with economies in transition, and notes with appreciation those donor States, organizations and individuals that contribute to improving the condition of refugees who remain vulnerable members of society;

39. *Expresses deep concern* about the existing and potential challenges posed by the world financial and economic crisis to the activities of the Office of the High Commissioner, and calls upon the Office to further explore ways and means to broaden its donor base so as to achieve greater burden-sharing by reinforcing cooperation with governmental donors, non-governmental donors and the private sector;

## V. Resolutions adopted on the reports of the Third Committee

---

1. *Takes note* of the reports of the Secretary-General<sup>123</sup> and the United Nations High Commissioner for Refugees;<sup>124</sup>
2. *Calls upon* African Member States that have not yet signed or ratified the African Union Convention for the Protection and Assistance of Internally Displaced Persons in Africa to consider doing so as early as possible in order to ensure its wider implementation;
3. *Notes* the need for African Member States to address resolutely the root causes of all forms of forced displacement in Africa and to foster peace, stability and prosperity throughout the African continent so as to forestall flows of refugees;
4. *Notes with great concern* that, despite all the efforts made so far by the United Nations, the African Union and others, the situation of refugees and displaced persons in Africa remains precarious, and calls upon States and other parties to armed conflict to observe scrupulously the letter and spirit of international humanitarian law, bearing in mind that armed conflict is one of the principal causes of forced displacement in Africa;
5. *Welcomes* decisions EX.CL/Dec.686 (XX) and EX.CL/Dec.709 (XXI) adopted by the Executive Council of the African Union at its twentieth ordinary session, held in Addis Ababa from 23 to 27 January 2012, and at its twenty-first ordinary session, held in Addis Ababa from 9 to 13 July 2012, on the humanitarian situation in Africa, insofar as they relate to persons of concern to the Office of the United Nations High Commissioner for Refugees;
6. *Expresses its appreciation* for the leadership shown by the Office of the High Commissioner, and commends the Office for its ongoing efforts, with the support of the international community, to assist African countries of asylum, including by providing support to vulnerable local host communities, and to respond to the protection and assistance needs of refugees, returnees and displaced persons in Africa;
7. *Notes with appreciation* the initiatives taken by the African Union, the Subcommittee on Refugees, Returnees and Internally Displaced Persons of its Permanent Representatives Committee, and the African Commission on Human and Peoples' Rights, in particular the role of its Special Rapporteur on Refugees, Asylum Seekers, Migrants and Internally Displaced Persons in Africa, to ensure the protection of and assistance to refugees, returnees and displaced persons in Africa;
8. *Acknowledges* the important contribution of age, gender and diversity mainstreaming in identifying, through a participatory approach, the protection risks faced by the different members of the refugee communities, in particular the non-discriminatory treatment and protection of women, children, persons with disabilities and the elderly;
9. *Affirms* that children, because of their age, social status and physical and mental development, are often more vulnerable than adults in situations of forced displacement, recognizes that forced displacement, return to post-conflict situations, integration into new societies, protracted situations of displacement and statelessness can increase child protection risks, taking into account the particular vulnerability of refugee children to forcible exposure to the risks of physical and psychological injury, exploitation and death in connection with armed conflict, and acknowledges that wider environmental factors and individual risk factors, particularly when combined, may generate different protection needs;
10. *Recognizes* that no solution to displacement can be durable unless it is sustainable, and therefore encourages the Office of the High Commissioner to support the sustainability of voluntary return, reintegration and resettlement;
11. *Welcomes* the adoption of the conclusion on civil registration by the Executive Committee of the Programme of the United Nations High Commissioner for Refugees at its sixty-fourth session, held in Geneva from 30 September to 4 October 2013,<sup>125</sup> and recognizes the importance of early registration and effective registration systems and censuses as a tool of protection and as a means to the quantification and assessment of needs for the provision and distribution of humanitarian assistance and to implement appropriate durable solutions;

13. *Calls upon* the international community, including States and the Office of the High Commissioner and other relevant United Nations organizations, within their respective mandates, to take concrete action to meet the protection and assistance needs of refugees, returnees and displaced persons and to contribute generously to projects and programmes aimed at alleviating their plight, facilitating durable solutions for refugees and displaced persons and supporting vulnerable local host communities;

14. *Reaffirms* the importance of timely and adequate assistance and protection for refugees, returnees and displaced persons, also reaffirms that assistance and protection are mutually reinforcing and that inadequate material assistance and food shortages undermine protection, notes the importance of a rights- and community-based approach in engaging constructively with individual refugees, returnees and displaced persons and their communities so as to achieve fair and equitable access to food and other forms of material assistance, and expresses concern with regard to situations in which minimum standards of assistance are not met, including those in which adequate needs assessments have yet to be undertaken;

15. *Also reaffirms* that respect by States for their protection responsibilities towards refugees is strengthened by international solidarity involving all members of the international community and that the refugee protection regime is enhanced through committed international cooperation in a spirit of solidarity and burden- and responsibility-sharing among all States;

16. *Further reaffirms* that host States have the primary responsibility to ensure the civilian and humanitarian character of asylum, calls upon States, in cooperation with international organizations, within their mandates, to take all measures necessary to ensure respect for the principles of refugee protection and, in particular, to ensure that the civilian and humanitarian nature of refugee camps is not compromised by the presence or the activities of armed elements or used for purposes that are incompatible with their civilian character, and encourages the High Commissioner to continue efforts, in consultation with States and other relevant actors, to ensure the civilian and humanitarian character of camps;

17. *Condemns* all acts that pose a threat to the personal security and well-being of refugees and asylum seekers, such as refoulement, unlawful expulsion and physical attacks, calls upon States of refuge, in cooperation with international organizations, where appropriate, to take all measures necessary to ensure respect for the principles of refugee protection, including the humane treatment of asylum seekers, notes with interest that the High Commissioner has continued to take steps to encourage the development of measures to better ensure the civilian and humanitarian character of asylum, and encourages the High Commissioner to continue those efforts, in consultation with States and other relevant actors;

18. *Deplores* the continuing violence and insecurity which constitute an ongoing threat to the safety and security of staff members of the Office of the High Commissioner and other humanitarian organizations and an obstacle to the effective fulfilment of the mandate of the Office and the ability of its implementing partners and other humanitarian personnel to discharge their respective humanitarian functions, urges States, parties to conflict and all other relevant actors to take all measures necessary to protect activities related to humanitarian assistance, prevent attacks on and kidnapping of national and international humanitarian workers and ensure the safety and security of the personnel and property of the Office and that of all humanitarian organizations discharging functions mandated by the Office, and calls upon States to investigate fully any crime committed against humanitarian personnel and bring to justice the persons responsible for such crimes;

20. *Calls upon* the Office of the High Commissioner, the international community and other entities concerned to continue and, where appropriate, to intensify their support to African Governments through appropriate capacity-building activities, including training of relevant officers, disseminating information about refugee instruments and principles, providing financial, technical and advisory services to accelerate the enactment or amendment and implementation of legislation relating to refugees, strengthening emergency response and enhancing capacities for the coordination of humanitarian activities, in particular those Governments that have received large numbers of refugees and asylum seekers;

21. *Reaffirms* the right of return and the principle of voluntary repatriation, appeals to countries of origin and countries of asylum to create conditions that are conducive to voluntary repatriation, and recognizes that, while voluntary repatriation remains the pre-eminent solution, local integration and third-country resettlement, where appropriate and feasible, are also viable options for dealing with the situation of African refugees who, owing to prevailing circumstances in their respective countries of origin, are unable to return home;

22. *Also reaffirms* that voluntary repatriation should not necessarily be conditioned on the accomplishment of political solutions in the country of origin in order not to impede the exercise of the refugees' right to return, recognizes that the voluntary repatriation and reintegration process is normally guided by the conditions in the country of origin, in particular that voluntary repatriation can be accomplished in conditions of safety and dignity, and urges the High Commissioner to promote sustainable return through the development of durable and lasting solutions, particularly in protracted refugee situations;

23. *Calls upon* the international donor community to provide financial and material assistance that allows for the implementation of community-based development programmes that benefit both refugees and host communities, as appropriate, in agreement with host countries and consistent with humanitarian objectives;

24. *Appeals* to the international community to respond positively, in the spirit of solidarity and burden- and responsibility-sharing, to the third-country resettlement needs of African refugees, notes in this regard the importance of using resettlement strategically, as part of situation-specific comprehensive responses to refugee situations, and to this end encourages States, the Office of the High Commissioner and other relevant partners to make full use of the Multilateral Framework of Understandings on Resettlement, where appropriate and feasible;

25. *Calls upon* the international donor community to provide material and financial assistance for the implementation of programmes intended for the rehabilitation of the environment and infrastructure affected by refugees in countries of asylum as well as internally displaced persons, where appropriate;

26. *Urges* the international community, in the spirit of international solidarity and burden-sharing, to continue to fund generously the refugee programmes of the Office of the High Commissioner and, taking into account the substantially increased needs of programmes in Africa, inter alia, as a result of repatriation possibilities, to ensure that Africa receives a fair and equitable share of the resources designated for refugees;

27. *Encourages* the Office of the High Commissioner and interested States to identify protracted refugee situations which might lend themselves to resolution through the development of specific, multilateral, comprehensive and practical approaches to resolving such refugee situations, including the improvement of international burden- and responsibility-sharing and the realization of durable solutions, within a multilateral context;

and the high-level plenary meeting of the General Assembly on the Millennium Development Goals, entitled “Keeping the promise: united to achieve the Millennium Development Goals”,<sup>145</sup> and welcoming the outcome document of the special event to follow up efforts made towards achieving the Millennium Development Goals held in 2013,<sup>146</sup>

*Reaffirming further* all other relevant outcomes of major United Nations summits and conferences relevant to the girl child, as well as their 5-, 10- and 15-year reviews, including the Beijing Declaration<sup>151</sup> and Platform for Action,<sup>152</sup> the outcome of the twenty-third special session of the General Assembly, entitled “Women 2000: gender equality, development and peace for the twenty-first century”,<sup>153</sup> the Programme of Action of the International Conference on Population and Development<sup>154</sup> and the Programme of Action of the World Summit for Social Development,<sup>155</sup> and reiterating that their full and effective implementation is essential to achieving the internationally agreed development goals, including the Millennium Development Goals,

*Recognizing* that education, adequate health care, nutrition, skills development and combating discrimination and violence against girls, inter alia, are all necessary for the empowerment of the girl child, in this regard recalling the agreed conclusions adopted by the Commission on the Status of Women at its fifty-seventh session,<sup>156</sup> which highlight the intrinsic linkages between empowerment of the girl child and the prevention and elimination of violence, and Commission on Population and Development resolution 2012/1 of 27 April 2012,<sup>157</sup> which highlights actions concerning development and the human rights of adolescents and youth, and further recalling the importance of mainstreaming a gender perspective across the United Nations system in relation to the girl child,

*Recognizing also* that urgent national and international action is required to eliminate poverty, in particular extreme poverty, and noting that the ongoing effects of the global financial and economic crisis, volatile energy and food prices and continuing food insecurity as a result of various factors are felt directly by households, especially those headed by girls,

*Recognizing further* that the phenomenon of child-headed households is linked to other economic, social and political realities, such as armed conflict, natural disasters, lack of economic empowerment and health inequities, and that a comprehensive approach to these problems is needed to resolve the issue of child-headed households,

*Deeply concerned* about the serious social problem of child-headed households, in particular those headed by girls, and that the impact of the HIV and AIDS epidemic, including illness and mortality, the erosion of the extended family, the exacerbation of poverty, unemployment and underemployment and migration, as well as urbanization, have contributed to the increase in the number of child-headed households,

*Recognizing* that child-headed households may result from the death of parents and/or legal guardians, and that children can become de facto heads of households owing to parental illness, whether physical or mental, parental neglect, the migration of parents or other such factors,

*Deeply concerned* about the extreme vulnerability of children who are heads of households, particularly girls, who may be exceptionally negatively affected by the economic and care burdens placed on them at a young age, which in turn may lead to their having difficulty completing their education and increase their vulnerability to poverty, discrimination, trafficking and physical abuse,

*Deeply concerned also* about the vulnerability of children raised in child-headed households, in particular the girl child, who suffer from the lack of adult support and may be particularly vulnerable to poverty, mental and psychosocial trauma and physical vulnerability owing to, inter alia, food insecurity and poor nutrition, limited access to safe water and adequate sanitation, and communicable and non-communicable diseases,

*Deeply concerned further* that children in child-headed households may be subjected to stigma and discrimination owing to the fact that parental death is a result of HIV/AIDS, and that children heading households may be at greater risk of HIV because of their vulnerability to violence and exploitation as they seek to support their households,

*Deeply concerned that*, in situations of poverty, armed conflict, natural disasters and other humanitarian emergencies, the incidence of child-headed households increases and makes the girl child particularly vulnerable to sexual violence, abuse, exploitation and sexually transmitted infections, including HIV, which have a serious impact on the quality of their lives and leave them open to further discrimination, violence and neglect, thus limiting their potential for full development,

*Recognizing* that women and girls are more vulnerable to HIV infection and that they bear a disproportionate burden of the impact of the HIV and AIDS epidemic, including the care of and support for those living with and affected by HIV and AIDS, and that this negatively affects girls by depriving them of their childhood and diminishing their opportunities to receive an education, often resulting in their having to head households and increasing their vulnerability to the worst forms of child labour and to sexual exploitation,

*Noting with concern* that an estimated 68 million girls<sup>158</sup> are engaged in child labour and that many of them face the double burden of having to combine economic activities with domestic chores, which deprive them of their childhood and diminish their opportunities to benefit from education and decent employment in the future,

*Recognizing* that the needs of girls vary, according to a number of factors, including their age, and that the risks of violence and discrimination that they face change over their life cycles, from childhood through adolescence,

*Recognizing also* that girl children are often at greater risk of being exposed to and encountering various forms of discrimination and violence, which continue to hinder efforts towards the achievement of the Millennium Development Goals, and reaffirming the need to achieve gender equality to ensure a just and equitable world for girls, including through partnering with men and boys, as an important strategy for advancing the rights of the girl child,

---

<sup>158</sup> As stated in the 2013 report of the International Labour Organization on marking progress against child labour and global estimates and trends for the period 2000–2012.

*Recognizing further* that the empowerment of and investment in girls, which is critical for economic growth, and the achievement of all Millennium Development Goals, including the eradication of poverty and extreme poverty, as well as the meaningful participation of girls in decisions that affect them, are key in breaking the cycle of discrimination and violence and in promoting and protecting the full and effective enjoyment of their human rights, and recognizing that empowering girls requires their active participation in decision-making processes and the active support and engagement of their parents, legal guardians, families and care providers, boys and men, as well as the wider community,

*Deeply concerned* about all forms of violence against children, in particular the phenomena that disproportionately affect girls, such as commercial sexual exploitation and child pornography, child, early and forced marriage, rape, sexual abuse, domestic violence and trafficking in persons, and, in addition, about the corresponding lack of accountability and impunity, which reflect discriminatory norms that reinforce the lower status of girls in society,

*Deeply concerned also* that violence against women and girls is underrecognized, particularly at the community level, and underreported or unrecorded as a result of stigma, fear, social tolerance and the often illegal and covert nature of such activities,

*Deeply concerned further* about discrimination against the girl child and the violation of the rights of the girl child, which often result in less access for girls to education, and to quality education, nutrition, including food allocation, and physical and mental health-care services, in girls enjoying fewer of the rights, opportunities and benefits of childhood and adolescence than boys, and in leaving them more vulnerable than boys to the consequences of unprotected and premature sexual relations and often being subjected to various forms of cultural, social, sexual and economic exploitation and violence, abuse, rape, incest, honour-related crimes and harmful practices, such as female infanticide, child, early and forced marriage, prenatal sex selection and female genital mutilation,

*Taking note with appreciation* of the adoption by the Human Rights Council of its resolution 24/23 of 27 September 2013 entitled “Strengthening efforts to prevent and eliminate child, early and forced marriage: challenges, achievements, best practices and implementation gaps”,<sup>159</sup>

*Deeply concerned* that, despite its widespread practice, child, early and forced marriage is still underreported, recognizing that this requires further attention and that child, early and forced marriage exposes the girl child to greater risk of HIV and sexually transmitted infections, often leads to premature sexual relations, early pregnancy and early childbearing and increases the risk of obstetric fistula and high levels of maternal mortality and morbidity, and furthermore entails complications during pregnancy and childbirth, which often lead to disability, stillbirth and maternal death, particularly for young women and girls, which require appropriate prenatal and postnatal health-care services for mothers, including in the area of skilled birth attendance and emergency obstetric care, and noting with concern that this reduces girls’ opportunities to complete their education, gain comprehensive knowledge, participate in the community or develop employable skills and is likely to have a long-term adverse impact on their employment opportunities and their and their children’s quality of life and violates and impairs the full enjoyment of their human rights,

*Deeply concerned also* that female genital mutilation violates and impairs the full enjoyment of the human rights of women and girls and that it is an irreparable and irreversible harmful practice, and that the goal of ending female genital mutilation in the next generation, as reaffirmed by the General Assembly in its resolution 67/146 of 20 December 2012, remains unfinished business,

*Stressing* the need for the international community, the relevant United Nations entities, the specialized agencies, civil society and international financial institutions to continue to actively support, through the allocation of enhanced financial resources and technical assistance, targeted comprehensive programmes that address the needs and priorities of child-headed households and women and girls at risk of or subjected to child, early and forced marriage and female genital mutilation,

*Emphasizing* that increased access to education for young people, especially adolescent girls, including in the areas of sexual and reproductive health, as well as health care, hygiene and sanitation, dramatically lowers their vulnerability to preventable diseases and infections, in particular HIV and other sexually transmitted infections,

---

<sup>159</sup> See *Official Records of the General Assembly, Sixty-eighth Session, Supplement No. 53A (A/68/53/Add.1)*, chap. III.

*Recognizing* that women and girls with disabilities are subject to multiple forms of discrimination, including in respect of their access to education, health-care services and employment, and the importance of the implementation of the Convention on the Rights of Persons with Disabilities in this regard,

1. *Stresses* the need for the full and urgent implementation of the rights of the girl child as provided to her under human rights instruments, and urges States to consider signing and ratifying or acceding to the Convention on the Rights of the Child,<sup>139</sup> the Convention on the Elimination of All Forms of Discrimination against Women,<sup>140</sup> the Convention on the Rights of Persons with Disabilities<sup>141</sup> and the Optional Protocols thereto<sup>142</sup> as a matter of priority;

2. *Urges* all States that have not yet ratified or acceded to the Minimum Age Convention, 1973 (No. 138)<sup>160</sup> and the Worst Forms of Child Labour Convention, 1999 (No. 182)<sup>161</sup> of the International Labour Organization to consider doing so;

3. *Urges* all Governments and the United Nations system to strengthen efforts bilaterally and with international organizations and private sector donors in order to achieve the goals of the World Education Forum<sup>162</sup> and to implement the United Nations Girls' Education Initiative, and calls for the reaffirmation and implementation of the commitments contained in the Education for All goals and the Millennium Development Goals, particularly those related to gender and education;

4. *Calls upon* all States to place enhanced emphasis on quality education, including communications and technology education, where available, for the girl child, including catch-up and literacy education for those who did not receive formal education, to promote access to skills and entrepreneurship training for young women and to tackle male and female stereotypes in order to ensure that young women entering the labour market have opportunities to obtain full and productive employment, equitable compensation and decent work;

5. *Calls upon* States and the international community to recognize the right to education on the basis of equal opportunity and non-discrimination by making primary education compulsory and available free to all children and ensuring that all children have access to education of good quality, as well as making secondary education generally available and accessible to all, in particular through the progressive introduction of free education, bearing in mind that special measures to ensure equal access, including affirmative action, improving the safety of girls on the way to and from school, ensuring all schools are accessible, safe, secure and free from violence and providing separate and adequate sanitation facilities contribute to achieving equal opportunity and combating exclusion and ensuring school attendance, in particular for girls and children from low-income families and children who become heads of households;

6. *Calls upon* States, with the support of international organizations, civil society and non-governmental organizations, as appropriate, to develop policies and programmes, giving priority to formal, informal and non-formal education programmes, including age-appropriate sex education, with appropriate direction and guidance from parents and legal guardians, that support girls and enable them to acquire knowledge, develop self-esteem and take responsibility for their own lives, and to place special focus on programmes to educate women and men, especially parents, about the importance of girls' physical and mental health and well-being;

7. *Urges* States to acknowledge the different needs of girls and boys during their childhood and adolescence and, as appropriate, to make differential investments that are responsive to their changing needs;

8. *Calls upon* all States, the United Nations system and civil society to take measures to address the obstacles that continue to affect the achievement of the goals set forth in the Beijing Platform for Action,<sup>152</sup> as contained in paragraph 33 of the further actions and initiatives,<sup>163</sup> including reviewing remaining laws that discriminate against women and girls in order to modify or abolish them and, where appropriate, strengthening national mechanisms to implement policies and programmes for the girl child and, in some cases, to enhance coordination among responsible institutions for the realization of the human rights of girls, and to mobilize all necessary resources and support in order to achieve those goals;

<sup>163</sup> Resolution S-23/3, annex.

9. *Urges* States to strengthen efforts to urgently eradicate all forms of discrimination against women and girls and, where applicable, to remain dedicated to the implementation of the Convention on the Elimination of All Forms of Discrimination against Women and the Optional Protocol thereto,<sup>164</sup>

10. *Also urges* States to improve the situation of girl children living in poverty, in particular extreme poverty, deprived of nutrition, water and sanitation facilities, with limited or no access to basic physical and mental health-care services, shelter, education, participation and protection, taking into account that, while a severe lack of goods and services hurts every human being, it is particularly threatening and harmful to the girl child, leaving her unable to enjoy her rights, to reach her full potential and to participate as a full member of society, with a particular focus on children living in child-headed households, including the child head of household;

11. *Further urges* States to ensure that the applicable requirements of the International Labour Organization for the employment of girls and boys are respected and effectively enforced and that girls who are employed have equal access to decent work and equal payment and remuneration, are protected from economic and sexual exploitation, discrimination, sexual harassment, violence and abuse in the workplace, are aware of their rights and have access to formal and non-formal education, skills development and vocational training, and also urges States to develop gender-sensitive measures, including national action plans, where appropriate, to eliminate the worst forms of child labour, commercial sexual exploitation, hazardous forms of child labour, trafficking and slavery-like practices, including forced and bonded labour, and to recognize that girls, including in child-headed households, face greater risks in this regard;

12. *Calls upon* States, with the support of relevant stakeholders, including the private sector, civil society, non-governmental organizations and community-based organizations, as appropriate, to take all measures necessary to ensure the right of girls to the enjoyment of the highest attainable standard of health, including sexual and reproductive health, and to develop sustainable health systems, strengthen existing ones to ensure primary health care with an integrated HIV response and make them more accessible to adolescent girls;

13. *Urges* all States to promote gender equality and equal access to basic social services, such as education, nutrition, water and sanitation, birth registration, health care, vaccinations and protection from diseases representing the major causes of mortality, including non-communicable diseases, and to mainstream a gender perspective into all development policies and programmes, including those specific to the girl child;

14. *Calls upon* States to strengthen the capacity of national health systems, and in this regard calls upon the international community to assist national efforts, including by allocating adequate resources in order to provide essential services needed to prevent obstetric fistula and to treat those cases that occur by providing the continuum of services, including family planning, prenatal and postnatal care, skilled birth attendance, emergency obstetric care and post-partum care, to adolescent girls, including those living in poverty and in underserved rural areas where obstetric fistula is most common;

15. *Urges* all States to enact and strictly enforce laws ending child, early and forced marriage and ensure that marriage is entered into only with the informed, free and full consent of the intending spouses, to enact and strictly enforce laws concerning the minimum legal age of consent and the minimum age for marriage, to raise the minimum age for marriage, engage all stakeholders, where necessary, and ensure that these laws to end child, early and forced marriage are well known, to further develop and implement comprehensive policies, plans of action and programmes for the survival, protection, development and advancement of the girl child in order to promote and protect the full enjoyment of her human rights and to ensure equal opportunities for girls, including by making such plans an integral part of her total development process;

16. *Calls upon* States to support and implement, including with dedicated resources, multisectoral policies and programmes that end the practice of child, early and forced marriage and ensure the provision of viable alternatives and institutional support, especially educational opportunities for girls, with an emphasis on keeping girls in school through post-primary education, including those who are already married or pregnant, ensuring physical access to education, including by increasing financial incentives to families, promoting the empowerment of girls, improving educational quality, ensuring safe and hygienic conditions in schools and, where applicable, establishing safe residential facilities;

---

<sup>164</sup> United Nations, *Treaty Series*, vol. 2131, No. 20378.

17. *Urges* States to ensure that the rights of children in child-headed households are respected and that the heads of such households exercise all the rights of the child and to further ensure that children in child-headed households, particularly girls, receive the support they need to ensure their continued attendance in school consistent with their age;

18. *Also urges* States to ensure that efforts to enact and implement legislation to protect, support and empower child-headed households, in particular those headed by girls, include provisions to ensure their economic well-being, access to health-care services, nutrition, clean water and sanitation, shelter and education, and inheritance, and that the family is protected and assisted to stay together;

19. *Calls upon* States to put in place concrete measures to ensure that while children heading households, especially girls, exercise all the rights of the child, they also receive appropriate assistance to enable them to fulfil their de facto responsibilities as household heads by ensuring and protecting their property and inheritance rights;

20. *Also calls upon* States to include an integrated approach in supporting and empowering child-headed households, given the mental and psychosocial trauma, stigma and physical and economic stress children may experience as a result of becoming heads of households at a very young age;

21. *Urges* States to forge partnerships with relevant stakeholders, particularly by working with and involving communities in developing programmes and mechanisms designed to ensure the safety, protection and empowerment of children, especially girls, in child-headed households, as well as to ensure that they receive the support they need from their communities;

22. *Calls upon* States to strengthen research on families and household formation and structure, with a particular emphasis on the existence of de facto child-headed households and the long-term economic and psychological impact that being a child head of household or a child raised by another child has on the children and on social sustainability;

23. *Also calls upon* States to strengthen research, data collection and analysis on the girl child, disaggregated by household structure, sex, age, disability status, economic situation, marital status and geographical location, in order to provide a better understanding of the situations of girls, especially of the multiple forms of discrimination that they face, and to inform the development of necessary policies and programme responses, which should take a holistic age-appropriate approach to addressing the full range of the forms of discrimination that girls may face, in order to protect their rights effectively;

24. *Urges* States to take all measures necessary to ensure the full enjoyment by girls with disabilities of all human rights and fundamental freedoms on an equal basis with other children, to adopt, implement and strengthen appropriate policies and programmes designed to address their needs and to take into account the conclusions contained in the outcome document adopted at the high-level meeting of the General Assembly on the realization of the Millennium Development Goals and other internationally agreed development goals for persons with disabilities, held on 23 September 2013;<sup>165</sup>

2001,<sup>250</sup> in particular paragraph 2 of the Declaration and paragraph 86 of the Programme of Action, as well as the relevant provisions of the outcome document of the Durban Review Conference, of 24 April 2009,<sup>251</sup> in particular paragraphs 11 and 54,

*Alarmed*, in this regard, at the spread in many parts of the world of various extremist political parties, movements and groups, including neo-Nazis and skinhead groups, as well as similar extremist ideological movements,

*Deeply concerned* by all recent manifestations of violence and terrorism incited by violent nationalism, racism, xenophobia and related intolerance,

1. *Reaffirms* the relevant provisions of the Durban Declaration<sup>250</sup> and of the outcome document of the Durban Review Conference,<sup>251</sup> in which States condemned the persistence and resurgence of neo-Nazism, neo-Fascism and violent nationalist ideologies based on racial and national prejudice and stated that those phenomena could never be justified in any instance or in any circumstances;

2. *Takes note* of the report of the Special Rapporteur on contemporary forms of racism, racial discrimination, xenophobia and related intolerance, prepared in accordance with the request contained in General Assembly resolution 67/154;<sup>252</sup>

3. *Expresses its appreciation* to the United Nations High Commissioner for Human Rights for her commitment to maintaining the fight against racism, racial discrimination, xenophobia and related intolerance as one of the priority activities of her Office, and welcomes in this regard the launch by the Office of the United Nations High Commissioner for Human Rights of the database on practical means to combat racism, racial discrimination, xenophobia and related intolerance;

4. *Expresses deep concern* about the glorification, in any form, of the Nazi movement, neo-Nazism and former members of the Waffen SS organization, including by erecting monuments and memorials and holding public demonstrations in the name of the glorification of the Nazi past, the Nazi movement and neo-Nazism, as well as by declaring or attempting to declare such members and those who fought against the anti-Hitler coalition and collaborated with the Nazi movement participants in national liberation movements;

5. *Emphasizes* the recommendation of the Special Rapporteur that “any commemorative celebration of the Nazi Waffen SS organization and its crimes against humanity, whether official or non-official, should be prohibited by States”,<sup>253</sup>

6. *Expresses concern* at recurring attempts to desecrate or demolish monuments erected in remembrance of those who fought against Nazism during the Second World War, as well as to unlawfully exhume or remove the remains of such persons, and in this regard urges States to fully comply with their relevant obligations, inter alia, under article 34 of Additional Protocol I to the Geneva Conventions of 1949;<sup>254</sup>

8. *Reaffirms* that such acts may be qualified to fall within the scope of the International Convention on the Elimination of All Forms of Racial Discrimination,<sup>244</sup> that they may not be justified as exercises of the rights to freedom of peaceful assembly and of association as well as the rights to freedom of opinion and expression, and that they may fall within the scope of article 20 of the International Covenant on Civil and Political Rights<sup>243</sup> and may legitimately be restricted, as set out in articles 19, 21 and 22 of the Covenant;

<sup>253</sup> *Ibid.*, para.137.

<sup>254</sup> United Nations, *Treaty Series*, vol. 1125, No. 17512.

10. *Stresses* that the practices described above do injustice to the memory of the countless victims of crimes against humanity committed in the Second World War, in particular those committed by the SS organization and by those who fought against the anti-Hitler coalition and collaborated with the Nazi movement, and may negatively influence children and young people, and that failure by States to effectively address such practices is incompatible with the obligations of States Members of the United Nations under its Charter and is incompatible with the purposes and principles of the Organization;

11. *Also stresses* that such practices fuel contemporary forms of racism, racial discrimination, xenophobia and related intolerance and contribute to the spread and multiplication of various extremist political parties, movements and groups, including neo-Nazis and skinhead groups, and in this regard calls for increased vigilance;

12. *Expresses concern* at the human rights and democratic challenges posed by all extremist political parties, movements and groups;

13. *Emphasizes* the need to take the measures necessary to put an end to the practices described above, and calls upon States to take more effective measures in accordance with international human rights law to combat those phenomena and the extremist movements, which pose a real threat to democratic values;

14. *Encourages* States to adopt further measures to provide training to the police and other law enforcement bodies on the ideologies of extremist political parties, movements and groups whose advocacy constitutes incitement to racist and xenophobic violence, to strengthen their capacity to address racist and xenophobic crimes, to fulfil their responsibility of bringing to justice the perpetrators of such crimes and to combat impunity;

15. *Notes* the recommendation of the Special Rapporteur regarding the responsibility of political leaders and parties in relation to messages that incite racial discrimination or xenophobia;

16. *Recalls* the recommendation of the Special Rapporteur to introduce into national criminal law a provision according to which committing an offence with racist or xenophobic motivations or aims constitutes an aggravating circumstance, allowing for enhanced penalties, and encourages those States whose legislation does not contain such provisions to consider that recommendation;

17. *Underlines* that the roots of extremism are multifaceted and must be addressed through adequate measures such as education, awareness-raising and the promotion of dialogue, and in this regard recommends the increase of measures to raise awareness among young people of the dangers of the ideologies and activities of extremist political parties, movements and groups;

18. *Reaffirms*, in this regard, the particular importance of all forms of education, including human rights education, as a complement to legislative measures, as outlined by the Special Rapporteur;

19. *Emphasizes* the recommendation of the Special Rapporteur presented at the sixty-fourth session of the General Assembly, in which he emphasized the importance of history classes in teaching the dramatic events and human suffering which arose out of the adoption of ideologies such as Nazism and Fascism;

20. *Stresses* the importance of other positive measures and initiatives aimed at bringing communities together and providing them with space for genuine dialogue, such as round tables, working groups and seminars, including training seminars for State agents and media professionals, as well as awareness-raising activities, especially those initiated by civil society representatives, which require continued State support;

21. *Calls upon* States to continue to invest in education, in both conventional and non-conventional curricula, inter alia, in order to transform attitudes and correct ideas of racial hierarchies and superiority promoted by extremist political parties, movements and groups and counter their negative influence;

22. *Underlines* the potentially positive role that relevant United Nations entities and programmes, in particular the United Nations Educational, Scientific and Cultural Organization, can play in the aforementioned areas;

23. *Reaffirms* article 4 of the Convention, according to which States parties to that instrument condemn all propaganda and all organizations that are based on ideas or theories of superiority of one race or group of persons of one colour or ethnic origin, or that attempt to justify or promote racial hatred and discrimination in any form, and undertake to adopt immediate and positive measures designed to eradicate all incitement to, or acts of, such discrimination and, to that end, with due regard to the principles embodied in the Universal Declaration of Human Rights<sup>242</sup> and the rights expressly set forth in article 5 of the Convention, inter alia:

(a) Shall declare an offence punishable by law all dissemination of ideas based on racial superiority or hatred, and incitement to racial discrimination, as well as all acts of violence or incitement to such acts against any race or group of persons of another colour or ethnic origin, and also the provision of any assistance to racist activities, including the financing thereof;

(b) Shall declare illegal and prohibit organizations, and organized and all other propaganda activities, that promote and incite racial discrimination, and shall recognize participation in such organizations or activities as an offence punishable by law;

(c) Shall not permit public authorities or public institutions, national or local, to promote or incite racial discrimination;

24. *Also reaffirms* that, as underlined in paragraph 13 of the outcome document of the Durban Review Conference, any advocacy of national, racial or religious hatred that constitutes incitement to discrimination, hostility or violence should be prohibited by law, that all dissemination of ideas based on racial superiority or hatred, or incitement to racial discrimination, as well as all acts of violence or incitement to such acts, shall be declared offences punishable by law, in accordance with the international obligations of States, and that these prohibitions are consistent with freedom of opinion and expression;

25. *Recognizes* the positive role that the exercise of the right to freedom of opinion and expression, as well as full respect for the freedom to seek, receive and impart information, including through the Internet, can play in combating racism, racial discrimination, xenophobia and related intolerance;

7. *Stresses* that an independent, competent domestic authority must promptly, effectively and impartially investigate all allegations of torture or other cruel, inhuman or degrading treatment or punishment, as well as wherever there is reasonable ground to believe that such an act has been committed, and that those who encourage, instigate, order, tolerate, acquiesce in, consent to or perpetrate such acts must be held responsible, brought to justice and punished in a manner commensurate with the severity of the offence, including the officials in charge of any place of detention or other place where persons are deprived of their liberty where the prohibited act is found to have been committed;

16. *Emphasizes* that acts of torture in armed conflict are serious violations of international humanitarian law and in this regard constitute war crimes, that acts of torture can constitute crimes against humanity and that the perpetrators of all acts of torture must be prosecuted and punished, and in this regard notes the efforts of the International Criminal Court to end impunity by seeking to ensure accountability and punishment of perpetrators of such acts, in accordance with the Rome Statute,<sup>300</sup> bearing in mind its principle of complementarity, and encourages States that have not yet done so to consider ratifying or acceding to the Rome Statute;

27. *Reminds* all States that prolonged incommunicado detention or detention in secret places can facilitate the perpetration of torture and other cruel, inhuman or degrading treatment or punishment and can in itself constitute a form of such treatment, and urges all States to respect the safeguards concerning the liberty, security and dignity of the person and to ensure that secret places of detention and interrogation are abolished;

## V. Resolutions adopted on the reports of the Third Committee

---

*Reaffirming* the previous resolutions of the Human Rights Council regarding the human right to safe drinking water and sanitation, inter alia, Council resolution 24/18 of 27 September 2013,<sup>310</sup>

*Recalling* the Universal Declaration of Human Rights,<sup>311</sup> the International Covenant on Economic, Social and Cultural Rights,<sup>312</sup> the International Covenant on Civil and Political Rights,<sup>312</sup> the International Convention on the Elimination of All Forms of Racial Discrimination,<sup>313</sup> the Convention on the Elimination of All Forms of Discrimination against Women,<sup>314</sup> the Convention on the Rights of the Child<sup>315</sup> and the Convention on the Rights of Persons with Disabilities,<sup>316</sup>

*Reaffirming* its commitments to human rights as expressed in its resolution 55/2 of 8 September 2000, entitled “United Nations Millennium Declaration”, and its follow-up resolutions 60/1 of 16 September 2005, entitled “2005 World Summit Outcome”, and 65/1 of 22 September 2010, entitled “Keeping the promise: united to achieve the Millennium Development Goals”,

*Reaffirming also* its resolutions 58/217 of 23 December 2003, by which it proclaimed the period from 2005 to 2015 the International Decade for Action, “Water for Life”, and 65/154 of 20 December 2010, by which it declared 2013 the International Year of Water Cooperation,

*Recalling* the Rio Declaration on Environment and Development of June 1992<sup>317</sup> and its resolution 66/288 of 27 July 2012, entitled “The future we want”, and emphasizing the critical importance of water and sanitation within the three dimensions of sustainable development,

*Welcoming* the holding of the plenary meeting of the General Assembly on the human right to water and sanitation, on 27 July 2011,

*Welcoming also* the designation of 19 November as World Toilet Day, in the context of Sanitation for All, pursuant to General Assembly resolution 67/291 of 24 July 2013,

*Recalling* general comment No. 15 (2002) of the Committee on Economic, Social and Cultural Rights on the right to water (articles 11 and 12 of the International Covenant on Economic, Social and Cultural Rights),<sup>318</sup> and the statement on the right to sanitation of the Committee of 19 November 2010,<sup>319</sup> as well as the reports of the Special Rapporteur on the human right to safe drinking water and sanitation,

*Deeply concerned* that approximately 768 million people still lack access to improved drinking water sources and that more than 2.5 billion do not have access to improved sanitation facilities, including more than 1.04 billion people who still practice open defecation, as defined by the World Health Organization and the United Nations Children’s Fund in their 2013 update on the Joint Monitoring Programme for Water Supply and Sanitation, and that these figures do not fully capture the dimensions of water safety, the affordability of services and the safe management of excreta and wastewater, as well as equality, non-discrimination and differences between urban and rural areas, and therefore underestimate the numbers of those without access to safe drinking water and sanitation,

*Noting* that the target of the Millennium Development Goals of halving, by 2015, the proportion of people without access to improved sources of water was formally met five years ahead of schedule, and deeply concerned that the world remains off track to meet the sanitation component of the same target, which called for halving the

proportion of the population without sustainable access to an improved sanitation facility, that by 2015, if current trends continue, the world is set to miss the target by more than half a billion people, and that inexistent or inadequate sanitation facilities and serious deficiencies in water management and wastewater treatment can have a negative impact on water provision and sustainable access to safe drinking water,

*Deeply concerned* that women and girls often face particular barriers in accessing water and sanitation and that they shoulder the main burden of collecting household water in many parts of the world, restricting their time for other activities,

*Deeply alarmed* that, every year, almost 700,000 children under 5 years of age die, and millions of schooldays are lost, as a result of water- and sanitation-related diseases, and that girls in many parts of the world do not go to school as a result of the lack of separate toilets for girls,

*Reaffirming* the responsibility of States to ensure the promotion and protection of all human rights, which are universal, indivisible, interdependent and interrelated, and must be treated globally, in a fair and equal manner, on the same footing and with the same emphasis,

*Recalling* that the human right to safe drinking water and sanitation is derived from the right to an adequate standard of living and is inextricably related to the right to the highest attainable standard of physical and mental health, as well as to the right to life and human dignity,

*Acknowledging* the importance of equal access to safe and clean drinking water and sanitation as an integral component of the realization of all human rights,

1. *Reaffirms* the recognition of the right to safe drinking water and sanitation as a human right that is essential for the full enjoyment of life and all human rights;

2. *Recognizes* the need to give due consideration to the human right to safe drinking water and sanitation in the elaboration of the post-2015 development agenda, in particular while defining concrete goals, targets and indicators, taking into account an approach that supports the promotion and protection of human rights;

3. *Welcomes* the extension of the mandate of the Special Rapporteur on the human right to safe drinking water and sanitation by the Human Rights Council;<sup>310</sup>

4. *Also welcomes* the work of the Special Rapporteur on the human right to safe drinking water and sanitation, and takes note with appreciation in particular of her reports<sup>320</sup> and her contributions to shaping the post-2015 development agenda and to progressively eliminating inequalities in access to safe drinking water and sanitation;

5. *Takes note* of the recommendation in the report of the High-level Panel of Eminent Persons on the Post-2015 Development Agenda,<sup>321</sup> commissioned by the Secretary-General, in which the Panel lists water and sanitation among the illustrative goals in the post-2015 development agenda, and also takes note of the report of the Secretary-General entitled “A life of dignity for all: accelerating progress towards the Millennium Development Goals and advancing the United Nations development agenda beyond 2015”,<sup>322</sup> in which the Secretary-General recognizes the human right to safe drinking water and sanitation as one of the foundations for a decent life;

6. *Calls upon* States:

(a) To ensure the progressive realization of the human right to safe drinking water and sanitation;

(b) To continuously monitor and regularly analyse the status of the realization of the human right to safe drinking water;

(c) To give due consideration to the human right to safe drinking water and sanitation and the principles of equality and non-discrimination in the elaboration of the post-2015 development agenda;

(d) To ensure the progressive realization of the human right to safe drinking water and sanitation for all in a non-discriminatory manner while eliminating inequalities in access, including for individuals belonging to vulnerable and marginalized groups, on the grounds of race, gender, age, disability, ethnicity, culture, religion and national or social origin or on any other grounds and with a view to progressively eliminating inequalities based on factors such as rural-urban disparities, residence in a slum, income levels and other relevant considerations;

(e) To consult with communities on adequate solutions to ensure sustainable access to safe drinking water and sanitation;

(f) To provide for effective accountability mechanisms for all water and sanitation service providers to ensure that they respect human rights and do not cause human rights violations or abuses;

7. *Invites* regional and international organizations to complement efforts by States to progressively realize the human right to safe drinking water and sanitation;

8. *Encourages* Member States to intensify global partnerships for development as means to achieve and sustain the targets of the Millennium Development Goals on water and sanitation;

9. *Reaffirms* that States have the primary responsibility to ensure the full realization of all human rights and to endeavour to take steps, individually and through international assistance and cooperation, especially economic and technical, to the maximum of their available resources, with a view to progressively achieving the full realization of the right to safe drinking water and sanitation by all appropriate means, including in particular the adoption of legislative measures;

10. *Stresses* the important role of the international cooperation and technical assistance provided by States, specialized agencies of the United Nations system and international and development partners, as well as by donor agencies, in particular in the timely achievement of the relevant Millennium Development Goals, and urges development partners to adopt a human rights-based approach when designing and implementing development programmes in support of national initiatives and plans of action related to the right to safe drinking water and sanitation;

11. *Decides* to continue its consideration of the question at its sixty-ninth session.

## 68/158. The right to development

*The General Assembly,*

*Guided* by the Charter of the United Nations, which expresses, in particular, the determination to promote social progress and better standards of life in larger freedom and, to that end, to employ international mechanisms for the promotion of the economic and social advancement of all peoples,

*Recalling* the Universal Declaration of Human Rights,<sup>324</sup> as well as the International Covenant on Civil and Political Rights<sup>325</sup> and the International Covenant on Economic, Social and Cultural Rights,<sup>325</sup>

*Recalling also* the outcomes of all the major United Nations conferences and summits in the economic and social fields,

*Recalling further* the Declaration on the Right to Development, adopted by the General Assembly in its resolution 41/128 of 4 December 1986, which confirmed that the right to development is an inalienable human right and that equality of opportunity for development is a prerogative both of nations and of individuals who make up nations, and that the individual is the central subject and beneficiary of development,

*Stressing* that 2013 marks the twentieth anniversary of the World Conference on Human Rights in Vienna, and that the Vienna Declaration and Programme of Action<sup>326</sup> reaffirmed the right to development as a universal and inalienable right and an integral part of fundamental human rights, and the individual as the central subject and beneficiary of development,

*Reaffirming* the objective of making the right to development a reality for everyone, as set out in the United Nations Millennium Declaration, adopted by the General Assembly on 8 September 2000,<sup>327</sup>

*Deeply concerned* that the majority of indigenous peoples in the world live in conditions of poverty, and recognizing the critical need to address the negative impact of poverty and inequity on indigenous peoples by ensuring their full and effective inclusion in development and poverty eradication programmes,

*Reaffirming* the universality, indivisibility, interrelatedness, interdependence and mutually reinforcing nature of all civil, cultural, economic, political and social rights, including the right to development,

*Deeply concerned* about the negative impacts of the global economic and financial crises on the realization of the right to development,

*Recognizing* that, while development facilitates the enjoyment of all human rights, the lack of development may not be invoked to justify the abridgement of internationally recognized human rights,

*Recognizing also* that Member States should cooperate with each other in ensuring development and eliminating obstacles to development, that the international community should promote effective international cooperation for the realization of the right to development and the elimination of obstacles to development and that lasting progress towards the implementation of the right to development requires effective development policies at the national level, as well as equitable economic relations and a favourable economic environment at the international level,

3. *Supports* the realization of the mandate of the Working Group on the Right to Development, as renewed by the Human Rights Council in its resolution 9/3 of 24 September 2008,<sup>337</sup> with the recognition that the Working Group may convene annual sessions of five working days and submit its reports to the Council;

4. *Endorses* the recommendations adopted by the Working Group at its fourteenth session,<sup>338</sup> and, while reaffirming them, calls for their immediate, full and effective implementation by the Office of the High Commissioner for Human Rights and other relevant actors, noting also the efforts under way within the framework of the Working Group with a view to completing the tasks entrusted to it by the Council in its resolution 4/4;<sup>334</sup>

5. *Emphasizes* the relevant provisions of General Assembly resolution 60/251 of 15 March 2006 establishing the Human Rights Council, and in this regard calls upon the Council to implement the agreement to continue to act to ensure that its agenda promotes and advances sustainable development and the achievement of the Millennium Development Goals, and also in this regard to lead to raising the right to development, as set out in paragraphs 5 and 10 of the Vienna Declaration and Programme of Action,<sup>326</sup> to the same level as and on a par with all other human rights and fundamental freedoms;

6. *Welcomes* the launching, in the Working Group, of the process for considering, revising and refining the draft right-to-development criteria and corresponding operational subcriteria,<sup>339</sup> with the first reading of the draft criteria and operational subcriteria;

7. *Stresses* that the above-mentioned compilations of views, criteria and corresponding operational subcriteria, once considered, revised and endorsed by the Working Group, should be used, as appropriate, in the elaboration of a comprehensive and coherent set of standards for the implementation of the right to development;

8. *Emphasizes* the importance of the Working Group taking appropriate steps to ensure respect for and practical application of the above-mentioned standards, which could take various forms, including the elaboration of guidelines on the implementation of the right to development, and evolve into a basis for the consideration of an international legal standard of a binding nature through a collaborative process of engagement;

9. *Stresses* the importance of the core principles contained in the conclusions of the Working Group at its third session,<sup>340</sup> congruent with the purpose of international human rights instruments, such as equality, non-discrimination, accountability, participation and international cooperation, as critical to mainstreaming the right to development at the national and international levels, and underlines the importance of the principles of equity and transparency;

**68/161. Promotion of equitable geographical distribution in the membership of the human rights treaty bodies**

*The General Assembly,*

*Recalling* its previous resolutions on this question,

*Welcoming* the significant increase in the number of ratifications of United Nations human rights instruments and the movement of some treaties towards universal ratification,

*Reiterating* the importance of the effective functioning of treaty bodies established pursuant to United Nations human rights instruments for the full and effective implementation of those instruments,

*Recognizing* that the equitable geographical distribution of membership is an essential requirement for the effective functioning of the treaty bodies,

*Recalling* that, with regard to the election of the members of the human rights treaty bodies, the General Assembly and the former Commission on Human Rights recognized the importance of giving consideration in their membership to equitable geographical distribution, gender balance and representation of the principal legal systems and of bearing in mind that the members shall be elected and shall serve in their personal capacity, and shall be of high moral character, acknowledged impartiality and recognized competence in the field of human rights,

*Reaffirming* the significance of national and regional particularities and various historical, cultural and religious backgrounds, as well as of different political, economic and legal systems,

1. *Reiterates* that the States parties to the United Nations human rights instruments should take into account, in their nomination of members to the human rights treaty bodies, that these committees shall be composed of persons of high moral character and recognized competence in the field of human rights, consideration being given to the usefulness of the participation of some persons having legal experience and to equal representation of

(b) There must be provision for periodic revisions of the allocation of seats in order to reflect relative changes in the level of treaty ratification in each regional group;

(c) Automatic periodic revisions should be envisaged in order to avoid amending the text of the instrument when the quotas are revised;

5. *Stresses* that the process needed to achieve the goal of equitable geographical distribution in the membership of human rights treaty bodies can contribute to raising awareness of the importance of gender balance, the representation of the principal legal systems and the principle that the members of the treaty bodies shall be elected and shall serve in their personal capacity, and shall be of high moral character, acknowledged impartiality and recognized competence in the field of human rights;

6. *Requests* the Secretary-General, in consultation with the Office of the United Nations High Commissioner for Human Rights, to submit to the General Assembly at its seventieth session a comprehensive updated report in this regard, including information on any steps taken by States parties at meetings or conferences of States parties to address the matter of equitable geographical distribution in the membership of the human rights treaty bodies, as well as concrete recommendations on the implementation of the present resolution;

*The General Assembly,*

*Recalling* all its previous resolutions on this subject, the most recent of which was resolution 67/170 of 20 December 2012, and Human Rights Council decision 18/120 of 30 September 2011<sup>363</sup> and resolution 24/14 of 27 September 2013,<sup>364</sup> as well as previous resolutions of the Council and the Commission on Human Rights,

*Reaffirming* the pertinent principles and provisions contained in the Charter of Economic Rights and Duties of States proclaimed by the General Assembly in its resolution 3281 (XXIX) of 12 December 1974, in particular article 32 thereof, in which it declared that no State may use or encourage the use of economic, political or any other type of measures to coerce another State in order to obtain from it the subordination of the exercise of its sovereign rights,

*Taking note* of the report of the Secretary-General submitted pursuant to General Assembly resolution 67/170,<sup>365</sup> and recalling the reports of the Secretary-General on the implementation of Assembly resolutions 52/120 of 12 December 1997<sup>366</sup> and 55/110 of 4 December 2000,<sup>367</sup>

*Recalling also* that, at the World Conference on Human Rights, held in Vienna from 14 to 25 June 1993, States were called upon to refrain from any unilateral measure not in accordance with international law and the Charter that creates obstacles to trade relations among States and impedes the full realization of all human rights<sup>370</sup> and also severely threatens the freedom of trade,

*Deeply concerned* that, despite the recommendations adopted on this question by the General Assembly, the Human Rights Council, the Commission on Human Rights and recent major United Nations conferences, and contrary to general international law and the Charter, unilateral coercive measures continue to be promulgated and implemented, with all their negative implications for the social- humanitarian activities and economic and social development of developing countries, including their extraterritorial effects, thereby creating additional obstacles to the full enjoyment of all human rights by peoples and individuals under the jurisdiction of other States,

*Bearing in mind* all the extraterritorial effects of any unilateral legislative, administrative and economic measures, policies and practices of a coercive nature against the development process and the enhancement of human rights in developing countries, which create obstacles to the full realization of all human rights,

*Reaffirming* that unilateral coercive measures are a major obstacle to the implementation of the Declaration on the Right to Development,<sup>374</sup>

*Recalling* article 1, paragraph 2, common to the International Covenant on Civil and Political Rights<sup>375</sup> and the International Covenant on Economic, Social and Cultural Rights,<sup>375</sup> which provides, inter alia, that in no case may a people be deprived of its own means of subsistence,

*Noting* the continuing efforts of the open-ended Working Group on the Right to Development of the Human Rights Council, and reaffirming in particular its criteria, according to which unilateral coercive measures are one of the obstacles to the implementation of the Declaration on the Right to Development,

1. *Urges* all States to cease adopting or implementing any unilateral measures not in accordance with international law, international humanitarian law, the Charter of the United Nations and the norms and principles governing peaceful relations among States, in particular those of a coercive nature, with all their extraterritorial effects, which create obstacles to trade relations among States, thus impeding the full realization of the rights set forth in the Universal Declaration of Human Rights<sup>376</sup> and other international human rights instruments, in particular the right of individuals and peoples to development;

2. *Strongly urges* States to refrain from promulgating and applying any unilateral economic, financial or trade measures not in accordance with international law and the Charter that impede the full achievement of economic and social development, particularly in developing countries;

countries, in particular children and women, that hinder their well-being and that create obstacles to the full enjoyment of their human rights, including the right of everyone to a standard of living adequate for his or her health and well-being and his or her right to food, medical care and education and the necessary social services, as well as to ensure that food and medicine are not used as tools for political pressure;

4. *Strongly objects* to the extraterritorial nature of those measures which, in addition, threaten the sovereignty of States, and in this context calls upon all Member States neither to recognize those measures nor to apply them, as well as to take administrative or legislative measures, as appropriate, to counteract the extraterritorial applications or effects of unilateral coercive measures;

5. *Condemns* the continuing unilateral application and enforcement by certain Powers of unilateral coercive measures, and rejects those measures, with all their extraterritorial effects, as being tools for political or economic pressure against any country, in particular against developing countries, adopted with a view to preventing those countries from exercising their right to decide, of their own free will, their own political, economic and social systems, and because of the negative effects of those measures on the realization of all the human rights of vast sectors of their populations, in particular children, women, the elderly and persons with disabilities;

6. *Expresses grave concern* that, in some countries, the situation of children is adversely affected by unilateral coercive measures not in accordance with international law and the Charter that create obstacles to trade relations among States, impede the full realization of social and economic development and hinder the well-being of the population in the affected countries, with particular consequences for women, children, including adolescents, the elderly and persons with disabilities;

7. *Reaffirms* that essential goods such as food and medicines should not be used as tools for political coercion and that under no circumstances should people be deprived of their own means of subsistence and development;

8. *Calls upon* Member States that have initiated such measures to abide by the principles of international law, the Charter, the declarations of the United Nations and world conferences and relevant resolutions and to commit themselves to their obligations and responsibilities arising from the international human rights instruments to which they are parties by revoking such measures at the earliest possible time;

9. *Reaffirms*, in this context, the right of all peoples to self-determination, by virtue of which they freely determine their political status and freely pursue their economic, social and cultural development;

10. *Recalls* that, according to the Declaration on Principles of International Law concerning Friendly Relations and Cooperation among States in accordance with the Charter of the United Nations, contained in the annex to General Assembly resolution 2625 (XXV) of 24 October 1970, and the relevant principles and provisions contained in the Charter of Economic Rights and Duties of States proclaimed by the Assembly in its resolution 3281 (XXIX), in particular article 32 thereof, no State may use or encourage the use of economic, political or any other type of measures to coerce another State in order to obtain from it the subordination of the exercise of its sovereign rights and to secure from it advantages of any kind;

11. *Rejects* all attempts to introduce unilateral coercive measures, and urges the Human Rights Council to take fully into account the negative impact of those measures, including through the enactment of national laws and their extraterritorial application which are not in conformity with international law, in its task concerning the implementation of the right to development;

12. *Requests* the United Nations High Commissioner for Human Rights, in discharging her functions relating to the promotion, realization and protection of the right to development and bearing in mind the continuing impact of unilateral coercive measures on the population of developing countries, to give priority to the present resolution in her annual report to the General Assembly;

13. *Underlines* the fact that unilateral coercive measures are one of the major obstacles to the implementation of the Declaration on the Right to Development,<sup>374</sup> and in this regard calls upon all States to avoid the unilateral imposition of economic coercive measures and the extraterritorial application of national laws that run counter to the principles of free trade and hamper the development of developing countries, as recognized by the Working Group on the Right to Development of the Human Rights Council;

14. *Recognizes* that, in the Declaration of Principles adopted at the first phase of the World Summit on the Information Society, held in Geneva from 10 to 12 December 2003,<sup>377</sup> States were strongly urged to avoid and refrain from any unilateral measure not in accordance with international law and the Charter of the United Nations in building the information society;

15. *Welcomes* the increased attention paid by the Human Rights Council and the Office of the United Nations High Commissioner for Human Rights to the negative impact of the application of unilateral coercive measures, and invites the Council to continue to explore ways to address this issue;

16. *Reiterates its support* for the invitation of the Human Rights Council to all special rapporteurs and existing thematic mechanisms of the Council in the field of economic, social and cultural rights to pay due attention, within the scope of their respective mandates, to the negative impact and consequences of unilateral coercive measures;

17. *Reaffirms* the request of the Human Rights Council that the Office of the United Nations High Commissioner for Human Rights organize a workshop on the impact of the application of unilateral coercive measures on the enjoyment of human rights by the affected populations, in particular their socioeconomic impact on women and children, in the States targeted;

18. *Requests* the Secretary-General to bring the present resolution to the attention of all Member States, to continue to collect their views and information on the implications and negative effects of unilateral coercive measures on their populations and to submit an in-depth and comprehensive report on the negative impacts of unilateral coercive measures on the full enjoyment of human rights to the General Assembly at its sixty-ninth session, while reiterating once again the need to highlight the practical and preventive measures in this respect;

19. *Decides* to examine the question on a priority basis at its sixty-ninth session, under the sub-item entitled "Human rights questions, including alternative approaches for improving the effective enjoyment of human rights and fundamental freedoms" of the item entitled "Promotion and protection of human rights".

*Reaffirming further* the Vienna Declaration and Programme of Action,<sup>429</sup>

*Noting* that the rapid pace of technological development enables individuals all over the world to use new information and communication technologies and at the same time enhances the capacity of governments, companies and individuals to undertake surveillance, interception and data collection, which may violate or abuse human rights, in particular the right to privacy, as set out in article 12 of the Universal Declaration of Human Rights and article 17 of the International Covenant on Civil and Political Rights, and is therefore an issue of increasing concern,

*Reaffirming* the human right to privacy, according to which no one shall be subjected to arbitrary or unlawful interference with his or her privacy, family, home or correspondence, and the right to the protection of the law against such interference, and recognizing that the exercise of the right to privacy is important for the realization of the right to freedom of expression and to hold opinions without interference, and is one of the foundations of a democratic society,

<sup>445</sup> Resolution 60/1.

*Emphasizing* the global character of the migratory phenomenon, the importance of international, regional and bilateral cooperation and the need to protect the human rights of migrants, particularly at a time in which migration flows have increased in the globalized economy,

*Expressing grave concern* at the negative impact of international financial turmoil on social and economic development and on the full enjoyment of all human rights, particularly in the light of the continuing global financial and economic crisis, which has an adverse impact on the realization of the internationally agreed development goals, particularly the Millennium Development Goals, and recognizing that developing countries are in a more vulnerable situation when facing such impact and that regional economic cooperation and development strategies and programmes can play a role in mitigating such impact,

*Expressing deep concern* at the negative impact of the continuing global food and energy crises and climate change challenges on social and economic development and on the full enjoyment of all human rights for all,

*Recognizing* that globalization should be guided by the fundamental principles that underpin the corpus of human rights, such as equity, participation, accountability, non-discrimination at both the national and the international levels, respect for diversity, tolerance and international cooperation and solidarity,

*Emphasizing* that the existence of widespread extreme poverty inhibits the full realization and effective enjoyment of human rights and that its immediate alleviation and eventual elimination must remain a high priority for the international community,

*Acknowledging* that there is greater acceptance that the increasing debt burden faced by the most indebted developing countries is unsustainable and constitutes one of the principal obstacles to achieving sustainable development and poverty eradication and that, for many developing countries, excessive debt servicing has severely constrained their capacity to promote social development and to provide basic services to realize economic, social and cultural rights,

*Strongly reiterating* the determination to ensure the timely and full realization of the development goals and objectives agreed at the major United Nations conferences and summits, including those agreed at the Millennium Summit, described as the Millennium Development Goals, which have helped to galvanize efforts towards poverty eradication,

*Emphasizing* that transnational corporations and other business enterprises have a responsibility to respect all human rights,

*Emphasizing also* that human beings strive for a world that is respectful of human rights and cultural diversity and that, in this regard, they work to ensure that all activities, including those affected by globalization, are consistent with those aims,

1. *Recognizes* that, while globalization, by its impact on, inter alia, the role of the State, may affect human rights, the promotion and protection of all human rights is first and foremost the responsibility of the State;

2. *Emphasizes* that development should be at the centre of the international economic agenda and that coherence between national development strategies and international obligations and commitments is imperative for an enabling environment for development and an inclusive and equitable globalization;

3. *Reaffirms* that narrowing the gap between rich and poor, both within and between countries, is an explicit goal at the national and international levels, as part of the effort to create an enabling environment for the full enjoyment of all human rights;

4. *Also reaffirms* the commitment to create an environment at both the national and the global levels that is conducive to development and to the eradication of poverty by, inter alia, promoting good governance within each country and at the international level, eliminating protectionism, enhancing transparency in the financial, monetary and trading systems and committing to an open, equitable, rules-based, predictable and non-discriminatory multilateral trading and financial system;

## V. Resolutions adopted on the reports of the Third Committee

---

5. *Recognizes* the impacts that the global financial and economic crisis is still having on the ability of countries, particularly developing countries, to mobilize resources for development and to address the impact of this crisis, and in this context calls upon all States and the international community to alleviate, in an inclusive and development-oriented manner, any negative impacts of this crisis on the realization and the effective enjoyment of all human rights;

6. *Also recognizes* that, while globalization offers great opportunities, the fact that its benefits are very unevenly shared and its costs unevenly distributed represents an aspect of the process that affects the full enjoyment of all human rights, in particular in developing countries;

7. *Welcomes* the report of the United Nations High Commissioner for Human Rights on globalization and its impact on the full enjoyment of human rights,<sup>446</sup> which focuses on the liberalization of agricultural trade and its impact on the realization of the right to development, including the right to food, and takes note of the conclusions and recommendations contained therein;

8. *Reaffirms* the international commitment to eliminating hunger and to securing food for all, today and tomorrow, and reiterates that the relevant United Nations organizations should be assured the resources needed to expand and enhance their food assistance and support social safety net programmes designed to address hunger and malnutrition, when appropriate, through the use of local or regional purchase;

9. *Calls upon* Member States, relevant agencies of the United Nations system, intergovernmental organizations and civil society to promote inclusive, equitable and environmentally sustainable economic growth for managing globalization so that poverty is systematically reduced and the international development targets are achieved;

10. *Recognizes* that the responsible operations of transnational corporations and other business enterprises can contribute to the promotion, protection and fulfilment of all human rights and fundamental freedoms, in particular economic, social and cultural rights;

11. *Also recognizes* that only through broad and sustained efforts, including policies and measures at the global level to create a shared future based upon our common humanity in all its diversity, can globalization be made fully inclusive and equitable and have a human face, thus contributing to the full enjoyment of all human rights;

12. *Underlines* the urgent need to establish an equitable, transparent and democratic international system to strengthen and broaden the participation of developing countries in international economic decision-making and norm-setting;

13. *Affirms* that globalization is a complex process of structural transformation, with numerous interdisciplinary aspects, which has an impact on the enjoyment of civil, political, economic, social and cultural rights, including the right to development;

14. *Also affirms* that the international community should strive to respond to the challenges and opportunities posed by globalization in a manner that promotes and protects human rights while ensuring respect for the cultural diversity of all;

15. *Underlines*, therefore, the need to continue to analyse the consequences of globalization for the full enjoyment of all human rights;

16. *Takes note* of the report of the Secretary-General,<sup>447</sup> and requests him to continue to seek further the views of Member States and relevant agencies of the United Nations system and to submit to the General Assembly at its sixty-ninth session a substantive report on the subject based on those views, including recommendations on ways to address the impact of globalization on the full enjoyment of all human rights.

*Recalling* that States have the primary responsibility to promote and protect human rights, including the human rights of persons belonging to religious minorities, including their right to exercise their religion or belief freely,

*Concerned* that official authorities sometimes tolerate or encourage acts of violence, or credible threats of violence, against persons belonging to religious communities and religious minorities,

*Concerned also* at the increasing number of laws and regulations that limit the freedom of thought, conscience and religion or belief and at the implementation of existing laws in a discriminatory manner,

*Convinced* of the need to address the rise in various parts of the world of religious extremism that affects the rights of individuals, the situations of violence and discrimination that affect many women and other individuals on the basis or in the name of religion or belief or in accordance with cultural and traditional practices and the misuse of religion or belief for ends inconsistent with the principles set out in the Charter of the United Nations and in other relevant instruments of the United Nations,

*Seriously concerned* about all attacks on religious places, sites and shrines in violation of international law, in particular human rights and humanitarian law, including any deliberate destruction of relics and monuments,

*Emphasizing* that States, regional organizations, non-governmental organizations, religious bodies, the media and civil society as a whole have an important role to play in promoting tolerance and respect for religious and cultural diversity and in the universal promotion and protection of human rights, including freedom of religion or belief,

*Underlining* the importance of education, including human rights education, in the promotion of tolerance, which involves the acceptance by the public of, and its respect for, diversity, including with regard to religious expression, and underlining also the fact that education, in particular at school, should contribute in a meaningful way to promoting tolerance and the elimination of discrimination based on religion or belief,

1. *Stresses* that everyone has the right to freedom of thought, conscience and religion or belief, which includes the freedom to have or not to have, or to adopt, a religion or belief of one's own choice and the freedom, either alone or in community with others and in public or private, to manifest one's religion or belief in teaching, practice, worship and observance, including the right to change one's religion or belief;

2. *Also stresses* that the right to freedom of thought, conscience and religion or belief applies equally to all persons, regardless of their religion or belief and without any discrimination as to their equal protection by the law;

3. *Strongly condemns* violations of freedom of thought, conscience and religion or belief as well as all forms of intolerance, discrimination and violence based on religion or belief;

4. *Recognizes with deep concern* the overall rise in instances of discrimination, intolerance and violence, regardless of the actors, directed against members of many religious and other communities in various parts of the world, including cases motivated by Islamophobia, anti-Semitism and Christianophobia and prejudices against persons of other religions or beliefs;

6. *Condemns* violence and acts of terrorism, which are increasing in number, targeting individuals, including persons belonging to religious minorities across the world;

7. *Recalls* that States have an obligation to exercise due diligence to prevent, investigate and punish acts of violence against persons belonging to religious minorities, regardless of the perpetrator, and that failure to do so may constitute a human rights violation;

10. *Expresses concern* at the persistence of institutionalized social intolerance and discrimination practised against many on the grounds of religion or belief, and emphasizes that legal procedures pertaining to religious or belief-based groups and places of worship are not a prerequisite for the exercise of the right to manifest one's religion or belief and that such procedures, when legally required at the national or local level, should be non-discriminatory in order to contribute to the effective protection of the right of all persons to practise their religion or belief, either individually or in community with others and in public or private;

11. *Recognizes with concern* the situation of persons in vulnerable situations, including persons deprived of their liberty, refugees, asylum seekers and internally displaced persons, children, persons belonging to national or ethnic, religious and linguistic minorities and migrants, as regards their ability to freely exercise their right to freedom of religion or belief;

12. *Emphasizes* that, as underlined by the Human Rights Committee, restrictions on the freedom to manifest one's religion or belief are permitted only if limitations are prescribed by law, are necessary to protect public safety, order, health or morals or the fundamental rights and freedoms of others, are non-discriminatory and are applied in a manner that does not vitiate the right to freedom of thought, conscience and religion or belief;

(f) Constitutional and legislative systems that fail to provide adequate and effective guarantees of freedom of thought, conscience and religion or belief to all without distinction;

(a) To ensure that their constitutional and legislative systems provide adequate and effective guarantees of freedom of thought, conscience and religion or belief to all without distinction, inter alia, by providing access to justice and effective remedies in cases where the right to freedom of thought, conscience and religion or belief or the right to freely choose and practise one's religion is violated;

*Stressing also* the need for adequate financing of and technology transfer to developing countries, in particular the landlocked developing countries and small island developing States, including to support their efforts to adapt to climate change,

*Recalling* Human Rights Council resolutions 5/1 on institution-building of the Council and 5/2 on the Code of Conduct for Special Procedures Mandate Holders of the Council of 18 June 2007,<sup>500</sup> and stressing that all mandate holders shall discharge their duties in accordance with those resolutions and the annexes thereto,

4. *Declares* that democracy includes respect for all human rights and fundamental freedoms and is a universal value based on the freely expressed will of people to determine their own political, economic, social and cultural systems and their full participation in all aspects of their lives, and reaffirms the need for universal adherence to and implementation of the rule of law at both the national and international levels;

## V. Resolutions adopted on the reports of the Third Committee

---

*Reaffirming* the concrete recommendations contained in the Voluntary Guidelines to Support the Progressive Realization of the Right to Adequate Food in the Context of National Food Security, adopted by the Council of the Food and Agriculture Organization of the United Nations in November 2004,<sup>513</sup>

*Reaffirming also* the Five Rome Principles for Sustainable Global Food Security contained in the Declaration of the World Summit on Food Security, adopted in Rome on 16 November 2009,<sup>514</sup>

*Reaffirming further* that all human rights are universal, indivisible, interdependent and interrelated and that they must be treated globally, in a fair and equal manner, on the same footing and with the same emphasis,

*Reaffirming* that a peaceful, stable and enabling political, social and economic environment, at both the national and the international levels, is the essential foundation that will enable States to give adequate priority to food and nutrition security and poverty eradication,

*Reiterating*, as set out in the Rome Declaration on World Food Security and the Declaration of the World Food Summit, that food should not be used as an instrument of political or economic pressure, and reaffirming in this regard the importance of international cooperation and solidarity, as well as the necessity of refraining from unilateral measures that are not in accordance with international law and the Charter and that endanger food and nutrition security,

*Convinced* that each State must adopt a strategy consistent with its resources and capacities to achieve its individual goals in implementing the recommendations contained in the Rome Declaration on World Food Security and the World Food Summit Plan of Action and, at the same time, cooperate regionally and internationally in order to organize collective solutions to global issues of food and nutrition security in a world of increasingly interlinked institutions, societies and economies where coordinated efforts and shared responsibilities are essential,

*Recognizing* that the complex character of the global food crisis, in which the right to adequate food is threatened to be violated on a substantial scale, is a combination of several major factors, such as the global financial and economic crisis, environmental degradation, desertification and the impacts of global climate change, as well as natural disasters and the lack in many countries of the appropriate technology, investment and capacity-building necessary to confront its impact, particularly in developing countries, least developed countries and small island developing States,

*Resolved* to act to ensure that the human rights perspective is taken into account at the national, regional and international levels in measures to address the global food crisis,

*Expressing its deep concern* at the number and scale of natural disasters, diseases and pest infestations, as well as the negative impact of climate change, and their increasing impact in recent years, which have resulted in substantial loss of life and livelihood and threatened agricultural production and food and nutrition security, in particular in developing countries,

*Emphasizing* that a multisectoral approach that integrates nutrition across all sectors, including agriculture, health, water and sanitation, social protection and education, as well as a gender perspective, is critical to achieving global food and nutrition security and the realization of the right to food,

*Recalling* the endorsement of the Voluntary Guidelines on the Responsible Governance of Tenure of Land, Fisheries and Forests in the Context of National Food Security<sup>515</sup> by the Committee on World Food Security at its 38th session, held on 11 May 2012, and by the Council of the Food and Agriculture Organization of the United Nations at its 144th session,

*Stressing* the importance of reversing the continuing decline of official development assistance devoted to agriculture, both in real terms and as a share of total official development assistance,

*Recognizing* the importance of the protection and preservation of agrobiodiversity in guaranteeing food security and the right to food for all,

<sup>515</sup> Food and Agriculture Organization of the United Nations, document CL 144/9 (C 2013/20), appendix D.

*Recognizing also* the role of the Food and Agriculture Organization of the United Nations as the key United Nations agency for rural and agricultural development and its work in supporting the efforts of Member States to achieve the full realization of the right to food, including through its provision of technical assistance to developing countries in support of the implementation of national priority frameworks,

*Recalling* the outcome document of the United Nations Conference on Sustainable Development, entitled “The future we want”, endorsed by the General Assembly in its resolution 66/288 of 27 July 2012,

*Acknowledging* the High-level Task Force on the Global Food Security Crisis established by the Secretary-General, and supporting the Secretary-General in his continuing efforts in this regard, including continued engagement with Member States and the Special Rapporteur of the Human Rights Council on the right to food,

1. *Reaffirms* that hunger constitutes an outrage and a violation of human dignity and therefore requires the adoption of urgent measures at the national, regional and international levels for its elimination;

2. *Also reaffirms* the right of everyone to have access to safe, sufficient and nutritious food, consistent with the right to adequate food and the fundamental right of everyone to be free from hunger, so as to be able to fully develop and maintain his or her physical and mental capacities;

3. *Considers it intolerable* that, as estimated by the United Nations Children’s Fund, more than one third of the children who die every year before the age of 5 die from hunger-related illness, that, as estimated by the Food and Agriculture Organization of the United Nations, about 842 million people worldwide suffer from chronic hunger and that an additional 1 billion people are suffering from serious malnutrition, including as a result of the global food crisis, while, according to the latter organization, the planet could produce enough food to feed everyone around the world;

4. *Expresses its concern* at the fact that the effects of the world food crisis continue to have serious consequences for the poorest and most vulnerable people, particularly in developing countries, which have been further aggravated by the world financial and economic crisis, and at the particular effects of this crisis on many net food-importing countries, especially least developed countries;

5. *Expresses its deep concern* that, according to the report of the Food and Agriculture Organization of the United Nations entitled *The State of Food Insecurity in the World 2013*, the number of hungry people in the world remains unacceptably high and the vast majority of hungry people live in developing countries;

6. *Expresses its concern* that women and girls are disproportionately affected by hunger, food and nutrition insecurity and poverty, in part as a result of gender inequality and discrimination, that in many countries, girls are twice as likely as boys to die from malnutrition and preventable childhood diseases and that it is estimated that almost twice as many women as men suffer from malnutrition;

7. *Encourages* all States to take action to address gender inequality and discrimination against women, in particular where they contribute to the malnutrition of women and girls, including measures to ensure the full and equal realization of the right to food and ensuring that women have equal access to resources, including income, land and water and their ownership and agricultural inputs, as well as full and equal access to health care, education, science and technology, to enable them to feed themselves and their families, and in this regard stresses the need to empower women and strengthen their role in decision-making;

8. *Encourages* the Special Rapporteur of the Human Rights Council on the right to food to continue mainstreaming a gender perspective in the fulfilment of his mandate, and encourages the Food and Agriculture Organization of the United Nations and all other United Nations bodies and mechanisms addressing the right to food and food insecurity to integrate a gender perspective into their relevant policies, programmes and activities;

9. *Reaffirms* the need to ensure that programmes delivering safe and nutritious food are inclusive of and accessible to persons with disabilities;

10. *Calls upon* all States and, if appropriate, relevant international organizations to take measures and support programmes which are aimed at combating undernutrition in mothers, in particular during pregnancy, and children and the irreversible effects of chronic undernutrition in early childhood, in particular from birth to the age of 2 years;

11. *Encourages* all States to take steps with a view to progressively achieving the full realization of the right to food, including steps to promote the conditions for everyone to be free from hunger and, as soon as possible, to enjoy fully the right to food and to create and adopt national plans to combat hunger;

12. *Recognizes* the advances reached through South-South cooperation in developing countries and regions in connection with food security and the development of agricultural production for the full realization of the right to food;

13. *Stresses* that improving access to productive resources and public investment in rural development are essential for eradicating hunger and poverty, in particular in developing countries, including through the promotion of investments, including private investments, in appropriate small-scale irrigation and water management technologies in order to reduce vulnerability to droughts;

14. *Recognizes* the critical contribution made by the fisheries sector to the realization of the right to food and to food security and the contribution of small-scale fishers to the local food security of coastal communities;

15. *Also recognizes* that 80 per cent of hungry people live in rural areas and 50 per cent are small-scale farm-holders and that these people are especially vulnerable to food insecurity given the increasing cost of inputs and the fall in farm incomes; that access to land, water, seeds and other natural resources is an increasing challenge for poor producers; that sustainable and gender-sensitive agricultural policies are important tools for promoting land and agrarian reform, rural credit and insurance, technical assistance and other associated measures to achieve food security and rural development; and that support by States for small farmers, fishing communities and local enterprises, including through the facilitation of access of their products to national and international markets and empowerment of small producers, particularly women, in value chains, is a key element for food security and the provision of the right to food;

16. *Stresses* the importance of fighting hunger in rural areas, including through national efforts supported by international partnerships to stop desertification and land degradation and through investments and public policies that are specifically appropriate to the risk of drylands, and in this regard calls for the full implementation of the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa;<sup>516</sup>

17. *Urges* States that have not yet done so to favourably consider becoming parties to the Convention on Biological Diversity<sup>517</sup> and to consider becoming parties to the International Treaty on Plant Genetic Resources for Food and Agriculture<sup>518</sup> as a matter of priority;

18. *Recalls* the United Nations Declaration on the Rights of Indigenous Peoples,<sup>519</sup> acknowledges that many indigenous organizations and representatives of indigenous peoples have expressed in different forums their deep concerns over the obstacles and challenges they face in achieving the full enjoyment of the right to food, and calls upon States to take special actions to combat the root causes of the disproportionately high level of hunger and malnutrition among indigenous peoples and the continuous discrimination against them;

19. *Notes* the need to further examine various concepts such as, inter alia, “food sovereignty” and their relation with food security and the right to food, bearing in mind the need to avoid any negative impact on the enjoyment of the right to food for all people at all times;

20. *Requests* all States and private actors, as well as international organizations, within their respective mandates, to take fully into account the need to promote the effective realization of the right to food for all, including in the ongoing negotiations in different fields;

21. *Recognizes* the need to strengthen national commitment as well as international assistance, upon the request of and in cooperation with the affected countries, towards the full realization and protection of the right to food, and in particular to develop national protection mechanisms for people forced to leave their homes and land because of hunger or humanitarian emergencies affecting the enjoyment of the right to food;

22. *Takes note with appreciation* of the growing movement, in different regions of the world, towards the adoption of framework laws, national strategies and measures in support of the full realization of the right to food for all;

## V. Resolutions adopted on the reports of the Third Committee

---

23. *Stresses* the need to make efforts to mobilize and optimize the allocation and utilization of technical and financial resources from all sources, including external debt relief for developing countries, and to reinforce national actions to implement sustainable food security policies;

24. *Calls for* the early conclusion and a successful, development-oriented outcome of the Doha Round of trade negotiations of the World Trade Organization as a contribution to creating international conditions that permit the full realization of the right to food;

25. *Stresses* that all States should make all efforts to ensure that their international policies of a political and economic nature, including international trade agreements, do not have a negative impact on the right to food in other countries;

26. *Recalls* the importance of the New York Declaration on Action against Hunger and Poverty, and recommends the continuation of efforts aimed at identifying additional sources of financing for the fight against hunger and poverty, as well as non-communicable diseases;

27. *Recognizes* that the promises made at the World Food Summit in 1996 to halve the number of persons who are undernourished are not being fulfilled, while recognizing the efforts of Member States in this regard, and once again invites all international financial and development institutions, as well as the relevant United Nations agencies and funds, to give priority to and provide the necessary funding to realize the aim of halving by 2015 the proportion of people who suffer from hunger, as well as the right to food as set out in the Rome Declaration on World Food Security and the United Nations Millennium Declaration;<sup>510</sup>

28. *Reaffirms* that integrating food and nutritional support, with the goal that all people at all times will have access to sufficient, safe and nutritious food to meet their dietary needs and food preferences for an active and healthy life, is part of a comprehensive effort to improve public health, including the response to the spread of HIV/AIDS, tuberculosis, malaria and other communicable diseases;

29. *Urges* States to give adequate priority in their development strategies and expenditures to the realization of the right to food;

30. *Stresses* the importance of international cooperation and development assistance as an effective contribution both to the expansion and improvement of agriculture and its environmental sustainability, food production, breeding projects on diversity of crops and livestock and institutional innovations such as community seed banks, farmer field schools and seed fairs and to the provision of humanitarian food assistance in activities related to emergency situations for the realization of the right to food and the achievement of sustainable food security, while recognizing that each country has the primary responsibility for ensuring the implementation of national programmes and strategies in this regard;

31. *Also stresses* that States parties to the World Trade Organization Agreement on Trade-Related Aspects of Intellectual Property Rights should consider implementing that agreement in a manner that is supportive of food security, while being mindful of the obligation of Member States to promote and protect the right to food;

32. *Calls upon* Member States, the United Nations system and other relevant stakeholders to support national efforts aimed at responding rapidly to the food crises currently occurring across different regions, and expresses its deep concern that funding shortfalls are forcing the World Food Programme to cut operations across different regions, including Southern Africa;

37. *Welcomes* the work already done by the Committee on Economic, Social and Cultural Rights in promoting the right to adequate food, in particular its general comment No. 12 (1999) on the right to adequate food (article 11 of the International Covenant on Economic, Social and Cultural Rights),<sup>522</sup> in which the Committee affirmed, inter alia, that the right to adequate food is indivisibly linked to the inherent dignity of the human person and is indispensable for the fulfilment of other human rights enshrined in the International Bill of Human Rights and is also inseparable from social justice, requiring the adoption of appropriate economic, environmental and social policies, at both the national and the international levels, oriented to the eradication of poverty and the fulfilment of all human rights for all;

38. *Recalls* general comment No. 15 (2002) of the Committee on Economic, Social and Cultural Rights on the right to water (articles 11 and 12 of the Covenant),<sup>523</sup> in which the Committee noted, inter alia, the importance of ensuring sustainable access to water resources for human consumption and agriculture in realization of the right to adequate food;

39. *Reaffirms* that the Voluntary Guidelines to Support the Progressive Realization of the Right to Adequate Food in the Context of National Food Security, adopted by the Council of the Food and Agriculture Organization of the United Nations in November 2004,<sup>513</sup> represent a practical tool to promote the realization of the right to food for all, contribute to the achievement of food security and thus provide an additional instrument in the attainment of internationally agreed development goals, including those contained in the Millennium Declaration, and looks forward to the holding of a meeting for a 10-year retrospective on progress made in implementing the Voluntary Guidelines to mark the tenth anniversary of their adoption, at the forty-first session of the Committee on World Food Security, to be held in October 2014;

40. *Calls upon* all Governments to cooperate with and assist the Special Rapporteur in his task, to supply all necessary information requested by him and to give serious consideration to responding favourably to the requests of the Special Rapporteur to visit their countries to enable him to fulfil his mandate more effectively;

*Reiterating* the important contribution of measures taken at all levels against terrorism, consistent with international law, in particular international human rights, refugee and humanitarian law, to the functioning of democratic institutions and the maintenance of peace and security and thereby to the full enjoyment of human rights and fundamental freedoms, as well as the need to continue this fight, including through strengthening international cooperation and the role of the United Nations in this respect,

<sup>562</sup> Resolution 68/4.

*Bearing in mind* the seventh meeting of the Global Forum on Migration and Development, to be held in Sweden in May 2014, whose main theme will be “Unlocking the potential of migration for inclusive development” and which will take into consideration the results of the second High-level Dialogue on International Migration and Development,

*Recognizing* the cultural and economic contributions made by migrants to receiving societies and their communities of origin, as well as the need to identify appropriate means of maximizing development benefits and responding to the challenges that migration poses to countries of origin, transit and destination, especially in the light of the impact of the financial and economic crisis, and committing to ensuring dignified, humane treatment with applicable protections and to strengthening mechanisms for international cooperation,

*Emphasizing* the global character of the migratory phenomenon, the importance of international, regional and bilateral cooperation and dialogue in this regard, as appropriate, and the need to protect the human rights of all migrants, particularly at a time in which migration flows have increased in the globalized economy and take place in a context of continued security concerns,

*Bearing in mind* the obligations of States under international law, as applicable, to exercise due diligence to prevent crimes against migrants and to investigate and punish perpetrators, and that not doing so violates and impairs or nullifies the enjoyment of the human rights and fundamental freedoms of victims,

*Affirming* that crimes against migrants, including trafficking in persons, continue to pose a serious challenge and require a concerted international assessment and response and genuine multilateral cooperation among countries of origin, transit and destination for their eradication,

*Bearing in mind* that policies and initiatives on the issue of migration, including those that refer to the orderly management of migration, should promote holistic approaches that take into account the causes and consequences of the phenomenon, as well as full respect for the human rights and fundamental freedoms of migrants,

*Stressing* the importance of regulations and laws regarding irregular migration, at all levels of government, being in accordance with the obligations of States under international law, including international human rights law,

*Stressing also* the obligation of States to protect the human rights of migrants regardless of their migration status, including when implementing their specific migration and border security policies, and expressing its concern at measures which, including in the context of policies aimed at reducing irregular migration, treat irregular migration as a criminal rather than an administrative offence, where the effect of doing so is to deny migrants the full enjoyment of their human rights and fundamental freedoms, and in this regard recalling that sanctions and the treatment given to irregular migrants should be commensurate with their offences,

*Aware* that, as criminals take advantage of migratory flows and attempt to circumvent restrictive immigration policies, migrants become more vulnerable to, inter alia, kidnapping, extortion, forced labour, sexual exploitation, physical assault, debt servitude and abandonment,

*Recognizing* the contributions of young migrants to countries of origin and destination, and in that regard encouraging States to consider the specific circumstances and needs of young migrants,

*Concerned* about the large and growing number of migrants, especially women and children, including those unaccompanied or separated from their parents, who place themselves in a vulnerable situation by attempting to cross international borders without the required travel documents, and recognizing the obligation of States to respect the human rights of those migrants,

*Recognizing* the importance of having a comprehensive and balanced approach to international migration, and bearing in mind that migration enriches the economic, political, social and cultural fabric of States and the historical and cultural ties that exist among some regions,

*Recognizing also* the obligations of countries of origin, transit and destination under international human rights law,

*Underlining* the importance for States, in cooperation with civil society, including non-governmental organizations, workers’ organizations and the private sector, among other relevant stakeholders, to undertake information campaigns aimed at clarifying opportunities, limitations, risks and rights in the event of migration in order to enable everyone to make informed decisions and to prevent anyone from utilizing dangerous means to cross international borders,

6. *Expresses particular concern* that many internally displaced children, particularly girls, lack access to education in all phases of displacement owing to attacks against schools, damaged or destroyed school buildings, insecurity, loss of documentation, language barriers and discrimination, and calls upon States, in cooperation with all other relevant actors, including humanitarian and development agencies and donors, to ensure the right to a quality education, including primary and secondary education, for internally displaced children, without discrimination of any kind, as well as to support existing schools to enable them to include internally displaced persons, and calls upon parties to armed conflict to respect the civilian character of schools and other educational institutions and to refrain from undertaking actions that could adversely affect the protection of these buildings against direct attacks;

7. *Expresses deep concern* about the full range of threats and human rights violations and abuses experienced by internally displaced women and girls in armed conflict and post-conflict situations, recognizing that those women and girls who are particularly vulnerable or disadvantaged may be specifically targeted or at increased risk of violence, and recognizes the need to provide better support to victims and to support both national and international efforts to build the capacity to prevent and respond to sexual violence in conflict;

8. *Welcomes* the initiatives undertaken by regional organizations, such as the African Union, the International Conference on the Great Lakes Region, the Organization of American States and the Council of Europe, to address the protection, assistance and development needs of internally displaced persons and to find durable solutions for them, and encourages regional organizations to strengthen their activities and their cooperation with the Special Rapporteur;

10. *Recognizes* that Member States have the primary responsibility to promote durable solutions for their internally displaced persons, thus contributing to their national, economic and social development processes, and encourages the international community, the United Nations system, the Special Rapporteur, relevant international and regional organizations and donor countries to continue to support international, regional and national efforts to meet the needs of internally displaced persons on the basis of solidarity, the principles of international cooperation and the Guiding Principles on Internal Displacement<sup>570</sup> and to ensure that humanitarian assistance, early recovery and development assistance efforts are appropriately funded;

11. *Expresses particular concern* about the grave problems faced by many internally displaced women and children, especially violence, exploitation and abuse, including sexual and gender-based violence and sexual exploitation and abuse, trafficking in persons, forced recruitment and abduction, and encourages the continued commitment of the Special Rapporteur to promote action to address their particular assistance, protection and development needs, as well as those of other groups with special needs, such as severely

traumatized individuals, older persons and persons with disabilities, taking into account all relevant resolutions of the General Assembly and the Security Council;

12. *Emphasizes* the importance of consultation with internally displaced persons and host communities by Governments and other relevant actors, in accordance with their specific mandates, during all phases of displacement, as well as the participation of internally displaced persons, where appropriate, in policies, programmes and activities pertaining to them, taking into account the primary responsibility of States for the protection of and assistance to internally displaced persons within their jurisdiction;

threats and harassment and suffer insecurity as a result of those activities, including through the curtailment of freedom of association or expression or the right to peaceful assembly or the abuse of civil or criminal proceedings,

*Gravely concerned* that women human rights defenders are at risk of and suffer from violations and abuses, including systematic violations and abuses of their fundamental rights to life, liberty and security of person, to psychological and physical integrity, to privacy and respect for private and family life and to freedom of opinion and expression, association and peaceful assembly, and in addition can experience gender-based violence, rape and other forms of sexual violence, harassment and verbal abuse and attacks on reputation, online and offline, by State actors, including law enforcement personnel and security forces, and non-State actors, such as those related to family and community, in both public and private spheres,

*Deeply concerned* that historical and structural inequalities in power relations and discrimination against women, as well as various forms of extremism, have direct implications for the status and treatment of women and that the rights of some women human rights defenders are violated or abused and their work stigmatized owing to discriminatory practices and those social norms or patterns that serve to condone violence against women or perpetuate practices involving such violence,

*Gravely concerned* that impunity for violations and abuses against women human rights defenders persists owing to factors including a lack of reporting, documentation, investigation and access to justice, social barriers and constraints with regard to addressing gender-based violence, including sexual violence and the stigmatization that may result from such violations and abuses, and a lack of recognition of the legitimate role of women human rights defenders, all of which entrench or institutionalize gender discrimination,

*Concerned* that all forms of discrimination, including racism, racial discrimination, xenophobia and related intolerance, can lead to the targeting or vulnerability to violence of women human rights defenders, who are prone to multiple, aggravated or intersecting forms of discrimination,

*Aware* that information-technology-related violations, abuses, discrimination and violence against women, including women human rights defenders, such as online harassment, cyberstalking, violation of privacy, censorship and the hacking of e-mail accounts, mobile phones and other electronic devices, with a view to discrediting them and/or inciting other violations and abuses against them, are a growing concern and can be a manifestation of systemic gender-based discrimination, requiring effective responses compliant with human rights,

*Mindful* that domestic law and administrative provisions and their application should enable the work of women human rights defenders, including by avoiding any criminalization or stigmatization of the important activities and legitimate role of women human rights defenders and the communities of which they are a part or on whose behalf they work, as well as by avoiding impediments, obstructions, restrictions or selective enforcement thereof contrary to relevant provisions of international human rights law,

*Recalling* that the primary responsibility for promoting and protecting human rights and fundamental freedoms rests with the State, and reaffirming that national legislation consistent with the Charter and other international obligations of the State in the field of human rights and fundamental freedoms is the juridical framework within which human rights defenders, including women human rights defenders, conduct their activities,

*Gravely concerned* that, in some instances, national security and counter-terrorism legislation and other measures have been misused to target human rights defenders, including women human rights defenders, or have hindered their work and endangered their safety in a manner contrary to international law,

*Recognizing* the urgent need to address, and to take concrete steps to prevent and stop, the use of legislation to hinder or limit unduly the ability of human rights defenders, including women human rights defenders, to exercise their work, including by reviewing and, where necessary, amending relevant legislation and its implementation in order to ensure compliance with States' obligations and commitments under international human rights law,

*Underlining* the need for all appropriate measures to be taken to modify the social and cultural patterns of conduct of men and women with a view to achieving the elimination of prejudices and customary and other practices based on the idea of the inferiority or superiority of either of the sexes or on stereotyped roles for men and women, in accordance with States' obligations and commitments under international human rights law, thereby addressing harmful attitudes, customs, practices and gender stereotypes that underlie and perpetuate violence against women, including women human rights defenders,

*Reaffirming* that the empowerment, autonomy and advancement of women and the improvement of their political, social, legal and economic status are essential to respect for all human rights, the growth and prosperity of society and the achievement of representative, transparent and accountable government, democratic institutions and sustainable development in all areas of life,

*Recognizing* the valuable work of human rights defenders, including women human rights defenders, in promoting civil, political, economic, social and cultural rights and the right to development,

*Welcoming* the opportunity afforded by the post-2015 development agenda for the global community to advance the human rights and fundamental freedoms of all persons, including gender equality and non-discrimination, as well as real and effective participation, including equal political participation, in decision-making processes,

*Welcoming also* the steps taken by some States towards the adoption of national policies or legislation for the protection of individuals, groups and organs of society engaged in promoting and defending human rights, including as follow-up to the universal periodic review mechanism of the Human Rights Council,

1. *Calls upon* all States to promote, translate and give full effect to the Declaration on the Right and Responsibility of Individuals, Groups and Organs of Society to Promote and Protect Universally Recognized Human Rights and Fundamental Freedoms,<sup>590</sup> including by taking appropriate, robust and practical steps to protect women human rights defenders;

2. *Takes note with appreciation* of the work of the Special Rapporteur on the situation of human rights defenders, noting the particular attention given to women human rights defenders;<sup>591</sup>

3. *Stresses* that respect and support for the activities of human rights defenders, including women human rights defenders, is essential to the overall enjoyment of human rights, and condemns all human rights violations and abuses committed against persons engaged in promoting and defending human rights and fundamental freedoms;

4. *Recognizes* that all human rights are universal, indivisible and interdependent and that the international community must treat human rights globally in a fair and equal manner, on the same footing and with the same emphasis, and stresses that, while the significance of national and regional particularities and various historical, cultural and religious backgrounds must be borne in mind, it is the duty of States, regardless of their political, economic and cultural systems, to promote and protect all human rights and fundamental freedoms;

5. *Expresses particular concern* about systemic and structural discrimination and violence faced by women human rights defenders of all ages, and calls upon States to take all measures necessary to ensure their protection and to integrate a gender perspective into their efforts to create a safe and enabling environment for the defence of human rights;

6. *Reiterates strongly* the right of anyone, individually and in association with others, to defend the human rights of women in all their aspects, and stresses the important role of women human rights defenders in promoting and protecting human rights and fundamental freedoms, to which everyone is entitled without distinction of any kind, including in addressing all forms of human rights violations, combating impunity, fighting poverty and discrimination and promoting access to justice, democracy, the full participation of women in society, tolerance, human dignity and the right to development, while recalling that the exercise of these rights carries duties and responsibilities set out in the Declaration;

7. *Urges* States to acknowledge publicly the important and legitimate role of women human rights defenders in the promotion and protection of human rights, democracy, the rule of law and development as an essential component of ensuring their protection, including by publicly condemning violence and discrimination against women human rights defenders;

8. *Calls upon* States to ensure that human rights defenders, including women human rights defenders, can perform their important role in the context of peaceful protests, in accordance with national legislation consistent with the Charter of the United Nations and international human rights law, and in this regard to ensure that no one is

subject to excessive or indiscriminate use of force, arbitrary arrest or detention, torture or other cruel, inhuman or degrading treatment or punishment, enforced disappearance, abuse of criminal and civil proceedings or threats of such acts;

9. *Also calls upon* States to exercise due diligence in preventing violations and abuses against human rights defenders, including through practical steps to prevent threats, harassment and violence against women human rights defenders, who face particular risks, and in combating impunity by ensuring that those responsible for violations and abuses, including gender-based violence and threats against women human rights defenders, committed by State and non-State actors, including online, are promptly brought to justice through impartial investigations;

10. *Further calls upon* States to ensure that the promotion and protection of human rights are not criminalized or met with limitations in contravention of their obligations and commitments under international human rights law and that women human rights defenders are not prevented from enjoying universal human rights owing to their work, including by ensuring that all legal provisions, administrative measures and policies affecting women human rights defenders, including those aimed at preserving public morals, are clearly defined, determinable, non-retroactive and compatible with relevant provisions of international human rights law;

11. *Underlines* the fundamental principle of the independence of the judiciary and that procedural safeguards must be in place in accordance with States' obligations and commitments under international human rights law in order to protect women human rights defenders from unwarranted criminal actions and sanctions as a consequence of their work in line with the Declaration;

12. *Also underlines* that women human rights defenders have the right to the lawful exercise of their occupation or profession and that everyone who, as a result of his or her profession, can affect the human dignity, human rights and fundamental freedoms of others should respect those rights and freedoms and comply with relevant national and international standards of occupational and professional conduct or ethics;

13. *Stresses* that, in the exercise of the rights and freedoms referred to in the Declaration, women human rights defenders, acting individually and in association with others, shall be subject only to such limitations as are in accordance with applicable international obligations and are determined by law solely for the purpose of securing due recognition and respect for the rights and freedoms of others and of meeting the just requirements of morality, public order and the general welfare in a democratic society;

14. *Urges* States to strengthen and implement legal, policy and other measures to promote gender equality, empower women and promote their autonomy and to promote and protect their equal participation, full involvement and leadership in society, including in the defence of human rights;

15. *Invites* leaders in all sectors of society and in their respective communities, including political, military, social and religious leaders and leaders in business and the media, to express public support for the important role of women human rights defenders and the legitimacy of their work;

16. *Calls upon* States to implement, effectively and expeditiously, Security Council resolutions 1325 (2000) of 31 October 2000, 1820 (2008) of 19 June 2008, 1888 (2009) of 30 September 2009, 1889 (2009) of 5 October 2009, 1960 (2010) of 16 December 2010, 2106 (2013) of 24 June 2013 and 2122 (2013) of 18 October 2013 on women and peace and security, including through the provision of gender-sensitivity training for police officers and law enforcement personnel, inter alia, on the barriers that women human rights defenders face in gaining access to justice in armed conflict and post-conflict situations, ensuring the inclusion of sexual violence in the definition of acts prohibited by ceasefires and in provisions for ceasefire monitoring and the exclusion of sexual violence crimes from amnesty provisions in the context of conflict resolution processes, as a step towards the effective protection of women, including women human rights defenders;

17. *Strongly calls upon* States to refrain from, and ensure adequate protection from, any act of intimidation or reprisal against women human rights defenders who cooperate, have cooperated or seek to cooperate with international institutions, including their family members and associates;

18. *Reaffirms* the right of everyone, individually and in association with others, to unhindered access to and communication with international bodies, in particular the United Nations, its special procedures, the universal periodic review mechanism and the treaty bodies, as well as regional human rights mechanisms;

19. *Urges* States to develop and put in place comprehensive, sustainable and gender-sensitive public policies and programmes that support and protect women human rights defenders, including by providing adequate resources for immediate and long-term protection and making sure that these can be mobilized in a flexible and timely manner to guarantee effective physical and psychological protection, while also extending protection measures to their relatives, including children, and otherwise to take into account the role of many women human rights defenders as the main or sole caregivers in their families;

20. *Emphasizes* the need for the participation of women human rights defenders in the development of effective policies and programmes related to their protection, recognizing their independence and expertise with regard to their own needs, and the need to create and strengthen mechanisms for consultation and dialogue with women human rights defenders, such as focal points for human rights defenders within the public administration, for example, through national mechanisms for the advancement of women and girls, where they exist, or other mechanisms, depending on the national and local context;

21. *Urges* States to adopt and implement policies and programmes that provide women human rights defenders with access to effective remedies, including by ensuring:

(a) The effective participation of women human rights defenders in all initiatives, including transitional justice processes, to secure accountability for violations and abuses, and also ensuring that the guarantee of non-recurrence incorporates overcoming the root causes of gender-based violations and abuses in everyday life and institutions;

(b) Adequate access to comprehensive support services for those women human rights defenders who experience violence, including shelters, psychosocial services, counselling, medical care and legal and social services;

(c) That women human rights defenders who are victims of sexual and other forms of violence are attended to by adequately trained and equipped personnel with gender sensitivity and expertise and are consulted during each step of the process;

(d) That women human rights defenders are able to avoid situations of violence, including by preventing the occurrence or recurrence of such violence in the exercise of their important and legitimate role in accordance with the present resolution;

22. *Also urges* States to promote and support projects to improve and further develop the documentation and monitoring of cases of violations against women human rights defenders, and encourages the provision of adequate support and resources for those working to protect women human rights defenders, such as government agencies, national human rights institutions and civil society, including national and international non-governmental organizations;

(iv) The situation of refugees and asylum seekers expelled or returned to the Democratic People's Republic of Korea and sanctions imposed on citizens of the Democratic People's Republic of Korea who have been repatriated from abroad, leading to punishments of internment, torture, cruel, inhuman or degrading treatment or the death penalty, and in this regard strongly urges all States to respect the fundamental principle of non-refoulement, to treat those who seek refuge humanely and to ensure unhindered access to the United Nations High Commissioner for Refugees and his Office, with a view to protecting the human rights of those who seek refuge, and once again urges States parties to comply with their obligations under the 1951 Convention relating to the Status of Refugees<sup>617</sup> and the 1967 Protocol thereto<sup>618</sup> in relation to refugees from the Democratic People's Republic of Korea who are covered by those instruments;

(vii) Continuing violations of the human rights and fundamental freedoms of women, in particular the creation of internal conditions that force women to leave the country and risk falling victim to trafficking for the purpose of prostitution or forced marriage and the subjection of women to human smuggling, forced abortions, gender-based discrimination, including in the economic sphere, and gender-based violence and continuing impunity for such violence;

(viii) Continuing reports of violations of the human rights and fundamental freedoms of children, in particular the continued lack of access to basic economic, social and cultural rights for many children, and in this regard notes the particularly vulnerable situation faced by, inter alia, returned or repatriated children, street children, children with disabilities, children whose parents are detained, children living in detention or in institutions and children in conflict with the law;

3. *Expresses its very deep concern* at the precarious humanitarian situation in the country, which could rapidly deteriorate owing to limited resilience to natural disasters and to government policies causing limitations in the availability of and access to food, compounded by structural weaknesses in agricultural production resulting in significant shortages of diversified food and the State restrictions on the cultivation and trade in foodstuffs, as well as the prevalence of chronic and acute malnutrition, particularly among the most vulnerable groups, pregnant women, infants and children and the elderly, which, despite some progress, continues to affect the physical and mental development of a significant proportion of children, and urges the Government of the Democratic People's Republic of Korea, in this regard, to take preventive and remedial action, cooperating where necessary with international donor agencies and in accordance with international standards for monitoring humanitarian assistance;

### 68/194. United Nations African Institute for the Prevention of Crime and the Treatment of Offenders

*The General Assembly,*

*Recalling* its resolution 67/191 of 20 December 2012 and all other relevant resolutions,

*Taking note* of the report of the Secretary-General,<sup>740</sup>

*Bearing in mind* that weaknesses in crime prevention lead to subsequent difficulties at the level of crime control mechanisms, and bearing in mind also the urgent need to establish effective crime prevention strategies for Africa, as well as the importance of law enforcement agencies and the judiciary at the regional and subregional levels,

*Aware* of the devastating impact of new and more dynamic crime trends on the national economies of African States, such as the high levels of transnational organized crime being recorded in Africa, including the utilization of digital technology to commit all types of cybercrime, and aware also of illicit trafficking in cultural property, drugs, precious metals, rhinoceros horns and ivory, of piracy and money-laundering, and of the fact that crime is a major obstacle to harmonious and sustainable development in Africa,

*Emphasizing* that combating crime is a collective endeavour to meet the global challenge of organized crime and that investment of necessary resources in crime prevention is important to that aim and contributes to sustainable development,

*Noting with concern* that in most African countries the existing criminal justice system does not have sufficiently skilled personnel and adequate infrastructure and is therefore ill-equipped to manage the emergence of new crime trends, and acknowledging the challenges that Africa faces in litigation processes and the management of correctional institutions,

*Recognizing* that the United Nations African Institute for the Prevention of Crime and the Treatment of Offenders is a focal point for all professional efforts aimed at promoting the active cooperation and collaboration of Governments, academics, institutions and scientific and professional organizations and experts in crime prevention and criminal justice,

*Bearing in mind* the revised African Union Plan of Action on Drug Control and Crime Prevention (2013–2017), aimed at encouraging Member States to participate in and own the regional initiatives for effective crime prevention and good governance and strengthened justice administration,

*Recognizing* the importance of promoting sustainable development as a complement to crime prevention strategies,

*Emphasizing* the need to create necessary coalitions with all partners in the process of achieving effective crime prevention policies,

*Welcoming* the undertaking and conclusion of a preliminary diagnostic study by a consultant of the Economic Commission for Africa prior to the commencement of a full system-wide review process, including the significance of the Institute as a viable mechanism for promoting cooperation among the relevant entities to respond to the crime problem afflicting Africa,

*Expressing concern* over the resignation in May 2013 of the newly recruited Director of the Institute owing to unsatisfactory conditions of service, and its likely negative impact on the activities of the Institute,

*Noting with concern* that the financial situation of the Institute has greatly affected its capacity to deliver services to African Member States in an effective and comprehensive manner, and noting that one of the findings of the diagnostic preliminary study is that the Institute urgently needs to increase its income,

## V. Resolutions adopted on the reports of the Third Committee

---

*Reaffirming* the importance of respect for human rights, the rule of law, good governance and democracy in the fight against corruption,

*Recognizing* that supportive national legal systems are essential in preventing and combating corrupt practices, facilitating asset recovery and returning the proceeds of corruption to legitimate owners,

*Bearing in mind* the need to promote and strengthen measures to prevent and combat corruption more efficiently and effectively, that the return of assets is one of the main objectives and a fundamental principle of the Convention and that the States parties to the Convention are obligated to afford one another the widest measure of cooperation in that regard,

*Recalling* the purposes of the Convention, including to promote the integrity, accountability and proper management of public affairs and public property,

*Reaffirming* the obligations set out in chapter V of the Convention, in order to prevent, detect and deter in a more effective manner the international transfer of proceeds of crime and to strengthen international cooperation in asset recovery,

*Acknowledging* that the fight against all forms of corruption requires comprehensive anti-corruption frameworks and strong institutions at all levels, including at the local and international levels, able to undertake efficient preventive and law enforcement measures in accordance with the Convention, in particular chapters II and III,

*Recognizing* that the success of the Mechanism for the Review of Implementation of the United Nations Convention against Corruption depends on the full commitment and constructive engagement of all States parties to the Convention in a progressive and comprehensive process, and recalling in that regard resolution 3/1 of 13 November 2009 of the Conference of the States Parties to the United Nations Convention against Corruption,<sup>746</sup> including the terms of reference of the Mechanism contained in the annex to that resolution,

*Noting with appreciation* that more than 160 States parties to the United Nations Convention against Corruption have been involved in the ongoing review process and the support provided by the United Nations Office on Drugs and Crime in this regard,

*Bearing in mind* that the prevention and eradication of corruption is a responsibility of all States and that they must cooperate with one another, with the support and involvement of individuals and groups outside the public sector, such as civil society, non-governmental organizations and community-based organizations, if their efforts in this area are to be effective,

*Recognizing* that States continue to face challenges in recovering assets owing to, inter alia, differences among legal systems, the complexity of multijurisdictional investigations and prosecutions, lack of familiarity with the mutual legal assistance procedures of other States and difficulties in identifying the flow of corruption proceeds, and noting the particular challenges posed in recovering the proceeds of corruption in cases involving individuals who are or have been entrusted with prominent public functions and their family members and close associates,

### **International Guiding Principles on Alternative Development**

#### **A. General provisions**

1. Alternative development policies are an important component of enhancing development in States affected by, or in some cases at risk of, the illicit cultivation of crops used for illicit drug production and manufacture, and play an important role in national, regional and international development policies and in comprehensive policies of poverty reduction and cooperation.

2. Alternative development, as an integral component of policies and programmes for reducing drug production, is an important, viable and sustainable option for preventing, eliminating or significantly and measurably reducing the illicit cultivation of crops used for the production and manufacture of narcotic drugs and psychotropic substances through tackling poverty and providing livelihood opportunities.

3. Alternative development, including in some cases preventive alternative development, constitutes an international policy founded on the principle of shared and common responsibility that seeks to discourage the cultivation of illicit crops in countries affected by that problem and in those countries which are vulnerable to illicit activities.

4. Alternative development, which includes, as appropriate, preventive alternative development strategies and programmes, should be formulated and implemented by taking into account the vulnerability and specific needs of the communities and groups affected by illicit cultivation of crops used for drug production and manufacture, within the broader framework of national policies.

5. Effective alternative development strategies and programmes require, as appropriate, the strengthening of relevant governmental institutions at the national, regional and local levels. Public policies should be supported to the extent possible by, inter alia, strengthening legal frameworks, involving local communities and relevant organizations, identifying and providing adequate financial support, technical assistance and increased investment, and recognizing and enforcing property rights, including access to land.

6. Local communities and relevant organizations should be involved in the design, implementation, monitoring and evaluation of all alternative development programmes in order to truly reflect the needs of targeted communities.

7. Civil society can contribute significantly to the formulation of effective and sustainable alternative development programmes, and its active participation should therefore be encouraged in all phases of alternative development programmes.

8. An integrated and complementary approach to alternative development programmes and strategies is crucial and should be implemented in concert with broader drug control policies, including demand reduction, law enforcement, illicit crop elimination and awareness-raising, taking into account demographic, cultural, social and geographic considerations, as appropriate, and in line with the three drug control conventions.

9. States should ensure the proper and coordinated sequencing of development interventions when designing alternative development programmes, and in that regard should take into account issues related to the establishment of agreements and viable partnerships with small producers, favourable climatic conditions, strong political support and adequate market access.

10. Alternative development programmes in the areas where crops are cultivated for illicit drug production and manufacture should be undertaken with a clear understanding of the overall objectives, as appropriate, of eliminating or significantly and measurably reducing the supply of drugs while promoting comprehensive

development and social inclusion, alleviating poverty and strengthening social development, the rule of law, security and stability at the country and regional levels, taking into account the promotion and protection of human rights.

11. Alternative development programmes should include measures to protect the environment at the local level, according to national and international law and policies, through the provision of incentives for conservation, proper education and awareness programmes so that the local communities can improve and preserve their livelihoods and mitigate negative environmental impacts.

12. Alternative development programmes, including, as appropriate, preventive alternative development programmes, should be designed to address subregional and regional needs and should be integrated, when circumstances require, into broader regional, subregional and bilateral treaties and arrangements.

13. International cooperation, coordination and stakeholder ownership are essential for the successful implementation and sustainability of alternative development programmes. Alternative development should be considered by all parties involved as a long-term commitment whose results may require time to attain.

14. International cooperation programmes aimed at alternative development should take into account the experiences of different countries, including with regard to South-South cooperation, should draw on best practices and lessons learned in alternative development programmes and projects and should take into account the available financial and technical support provided by donors.

15. Alternative development policies, as one of the tools available in the fight against the world drug problem, should be implemented alongside efforts made by States to strengthen the rule of law and promote health, safety and security so as to ensure a comprehensive approach to tackling the challenges that may be posed by the possible links between drug trafficking, corruption and different forms of organized crime and, in some cases, terrorism.

16. Alternative development can be an integral element of an overall development strategy and should complement economic efforts in the fight against poverty.

17. The impact of alternative development programmes should be assessed by taking into account their contribution to the control of illicit crop cultivation, including the eradication of such crops, and through estimates based on human development indices, socioeconomic and environmental indicators and impartial and accurate evaluations.

## **B. Actions and implementation measures**

18. States Members of the United Nations, international organizations, regional organizations, development agencies, donors and international financial institutions, as well as civil society, should apply their utmost efforts, as appropriate:

(a) To target illicit cultivation and production of crops used for the production and manufacture of illicit drugs, and address related factors, by alleviating poverty, by strengthening the rule of law and institutional frameworks, as appropriate, and by promoting sustainable development aimed at enhancing the welfare of the population;

(b) To build and maintain confidence, dialogue and cooperation with and between stakeholders, from people at the community level and local authorities to leaders at the national and regional levels, so as to ensure participation and ownership for long-term sustainability;

(c) To implement long-term projects and programmes to provide opportunities to fight poverty, diversify livelihoods and strengthen development, institutional frameworks and the rule of law;

(d) To develop policies and programmes that take into account an evidence- and science-based assessment of the potential impact of alternative development on the illicit cultivation of crops used for the illicit production and manufacture of narcotic drugs and psychotropic substances, and on rural and socioeconomic development, including the gender dimension related thereto, and the environment;

(e) To take into account the need to promote the diversification of licit crops cultivated and licit economic activities undertaken when implementing alternative development programmes;

(f) Owing to the transnational nature of drug-related crimes, to encourage and support coordinated cross-border collaboration and alternative development activities, where appropriate and feasible, with the support of international cooperation;

(g) To address with specific measures the situation of women, children, youth and other high-risk populations, including, in some cases, dependent drug users, owing to their vulnerability and exploitation in the illicit drug economy;

(h) To provide, within a holistic and integrated development approach, essential basic services and legal livelihood opportunities to the communities affected by, or in some cases vulnerable to, illicit crop cultivation;

(i) To recognize that alternative development, including, as appropriate, preventive alternative development, requires the implementation of articulated short-, medium- and long-term plans and actions from all relevant stakeholders to promote positive and sustainable socioeconomic changes in the affected and, in some cases, vulnerable areas;

(j) To promote coordination and encourage alternative development programmes which contain complementary measures at the local, regional and national levels;

(k) To ensure, when considering crop control measures, that small-farmer households have opportunities for viable and sustainable licit livelihoods so that the measures may be properly sequenced in a sustainable fashion and appropriately coordinated, taking into account the circumstances of the region, country or area concerned;

(l) To ensure that programmes or projects related to alternative development effectively discourage the illicit cultivation of crops used for the illicit production and manufacture of drugs;

(m) To also ensure that drug control programmes are implemented in a comprehensive and balanced manner, so as to avoid the shifting of illicit crop cultivation domestically, as well as from one country or region to another;

(n) To respect the legitimate interests and specific needs of the local affected and, in some cases, vulnerable population when designing and implementing alternative development programmes;

(o) To address basic human needs, in full conformity with the three drug conventions and relevant human rights instruments, in order to promote the welfare of targeted communities;

(p) To integrate those communities which are in marginalized regions into the economic and political mainstream; as appropriate, such integration should involve supporting access to roads, schools, primary health-care services, electricity and other services and infrastructure;

(q) To promote increased coordination and cooperation between relevant governmental agencies, when appropriate, and adopt an integrated approach to drug control that involves all relevant stakeholders;

(r) To ensure that the implementation of alternative development programmes is conducted in a manner that helps to enhance synergy and confidence among national Governments, regional authorities and local administrations and communities with regard to building local ownership and coordination and cooperation;

(s) To promote the strengthening of the justice and security sectors and social development, as well as institutional legal frameworks and anti-corruption measures, in a manner conducive to enhancing alternative development efforts;

(t) To promote governance capabilities, when appropriate, in order to strengthen the rule of law, including at the local level;

(u) To ensure that measures aimed at strengthening the rule of law are included in development-oriented drug control policies in order to, inter alia, support farmers in their efforts to stop, and in some cases prevent, the cultivation of illicit crops;

(v) To apply, in addition to estimates of illicit cultivation and other illicit activities related to the world drug problem, indicators related to human development, socioeconomic conditions, rural development and the alleviation of poverty, as well as institutional and environmental indicators, when assessing alternative development programmes in order to ensure that the outcomes are in line with national and international development objectives, including the Millennium Development Goals, and that they reflect accountable use of donor funds and truly benefit the affected communities;

(w) To utilize objective impact evaluations that examine a broad range of social, economic and environmental factors and incorporate the lessons learned from these evaluations in future projects to ensure that the

design and implementation of alternative development programmes are based on a reliable and evidence-based evaluation and thorough analysis of local socioeconomic, geographical and cultural realities, as well as the assessment of benefits and risks;

(x) To undertake further research and strengthen data collection with a view to providing a basis for more effective and evidence-based alternative development programmes, as well as conduct research to assess the factors leading to the illicit cultivation of drug crops used for the production and manufacture of narcotic drugs and psychotropic substances;

(y) To utilize data and conduct analysis to identify areas, communities and affected populations that are vulnerable to illicit cultivation and its related illicit activities, and tailor the implementation of programmes and projects to address identified needs;

(z) To encourage partners in cross-border alternative development activities to consider measures to support the implementation of alternative development strategies and programmes, which may include special preferential policies, protection of property rights and facilitation of the import and export of products, in accordance with relevant international law, including trade agreements;

(aa) To enhance technical support, including exchange of expertise, best practices and resources, while seeking to secure long-term flexible funding for alternative development programmes in order to ensure their sustainability;

(bb) To consider the possibility of creating an international fund for alternative development programmes that could be used to face major emergency situations, in order to ensure continuity;

(cc) To recognize that international cooperation resources for the implementation of alternative development programmes should be used in consultation and in coordination with partner countries to support joint efforts to eliminate, reduce and, in some cases, prevent the cultivation of illicit crops through reducing poverty and enhancing rural development in areas affected by, or in some cases vulnerable to, illicit cultivation and engaging in effective law enforcement measures;

(dd) To recognize that long-term cooperation, coordination and the commitment of multilevel and multisectoral stakeholders are essential to a holistic and integrated approach to the effectiveness and sustainability of alternative development programmes;

*Deeply concerned* about the need to take all appropriate measures, including legislative, administrative, social and educational measures, to protect children and young people against the use or abuse of narcotic drugs and psychotropic substances, as defined in the relevant treaties, and to prevent the use of children and young people in the illicit production of and trafficking in such substances, and urging Governments to implement Commission on Narcotic Drugs resolution 53/10 of 12 March 2010,<sup>789</sup>

*Recognizing also* the critical importance of forensic and scientific laboratory and treatment centre data and qualitative information in understanding the problem of illicit synthetic drugs and the range of products available on the illicit market,

*Considering* Commission on Narcotic Drugs resolution 56/5 of 15 March 2013,<sup>788</sup> in which the Commission encouraged the United Nations Office on Drugs and Crime to consider the dissemination of forensic drug profiling, to the extent possible, in national and regional programmes,

#### A. Comprehensive review of the common system compensation package

1. *Recalls* paragraph 4 of its resolution 67/257, and requests the Commission to provide to the General Assembly, at the first part of its resumed sixty-eighth session, a briefing on the progress made on the comprehensive review of the common system compensation package;
2. *Welcomes* the comprehensive review, affirms the objectives set out in paragraph 31 of the report of the Commission, and requests the Commission to review all remuneration elements holistically in order to achieve those objectives and to safeguard the core values of the organizations of the United Nations common system;
3. *Requests* the Commission, in its proposals resulting from the ongoing comprehensive review, to ensure the comparability of the total compensation package in the United Nations common system, including all monetary and non-monetary elements, under the Noblemaire principle;
4. *Also requests* the Commission to ensure that the executive heads of organizations and staff federations of the United Nations common system and Member States are duly apprised of the process and have an opportunity to provide their feedback;
5. *Further requests* the Commission not to increase any of the allowances under its purview until the comprehensive review decided in resolution 67/257 has been submitted to the General Assembly for its consideration;
6. *Expresses its deep concern* about the long-term sustainability of the after-service health insurance scheme within the United Nations system, and in this regard invites the Commission to review, in the context of its annual report, the apportionment of health insurance premiums between the United Nations organizations and participants in both United States and non-United States plans;

#### B. Mandatory age of separation

1. *Decides* to defer its decision on the recommendation of the Commission to raise the mandatory age of separation to 65 years without prejudice to its proposed time frame, and requests the Commission to undertake further analysis, in consultation with all relevant stakeholders, on the impact of the adoption of this recommendation on workforce and succession planning frameworks and all relevant human resources management policies, including performance management and appraisal, rejuvenation, gender balance and equitable geographic representation, across the United Nations common system and to report thereon at its sixty-ninth session;
2. *Recalls* paragraph 61 of the report of the Commission, in which it is indicated that raising the mandatory age of separation for existing staff to 65 years would result in a marginal reduction in the actuarial deficit of the United Nations Joint Staff Pension Fund in the range of 0.13 per cent of pensionable remuneration;

### Conditions of service of staff in the Professional and higher categories

#### A. Base/floor salary scale

*Recalling* its resolution 44/198, by which it established a floor net salary level for staff in the Professional and higher categories by reference to the corresponding base net salary levels of officials in comparable positions serving at the base city of the comparator civil service (the United States federal civil service),

*Approves*, with effect from 1 January 2014, as recommended by the Commission in paragraph 82 of its report, the revised base/floor scale of gross and net salaries for staff in the Professional and higher categories, as contained in annex III to the report;

#### B. Evolution of the margin

*Recalling* section I.B of its resolution 51/216 and the standing mandate from the General Assembly, in which the Commission is requested to continue its review of the relationship between the net remuneration of United Nations staff in the Professional and higher categories in New York and that of the comparator civil service employees in comparable positions in Washington, D.C. (referred to as “the margin”),

1. *Reaffirms* that the Noblemaire principle is the basis for the determination of the level of remuneration for staff in Professional and higher categories in New York, the base city for the post adjustment system, and in other duty stations;

2. *Also reaffirms* that the range of 110 to 120 for the margin between the net remuneration of officials in the Professional and higher categories of the United Nations in New York and officials in comparable positions in the comparator civil service should continue to apply, on the understanding that the margin would be maintained at a level around the desirable midpoint of 115 over a period of time;

3. *Notes* that the margin between net remuneration of the United Nations staff in grades P-1 to D-2 in New York and that of officials in comparable positions in the United States federal civil service in Washington, D.C., for the period from 1 January to 31 December 2013 is 119.6 and that its five-year average (2009–2013) stands at 115.7, which is above the desirable midpoint of 115;

4. *Welcomes* the initiative by the Commission to manage the margin actively, following the management procedure approved by the General Assembly, and not to increase the post adjustment for New York in 2014 in view of the elevated level of the margin;

5. *Recalls* that the five-year average of the net remuneration margin should be maintained around the desirable midpoint of 115, and requests the Commission to submit to the General Assembly, no later than at the main part of its sixty-ninth session, recommendations on the range of actions and time schedules that would bring the margin back to its desirable midpoint;

#### C. Children’s and secondary dependants’ allowances: review of the methodology

14. *Notes with satisfaction* that, in paragraph 8 of the declaration of the high-level meeting of the General Assembly on the rule of law at the national and international levels, adopted by consensus as resolution 67/1 of 24 September 2012, Member States recognized the importance of fair, stable and predictable legal frameworks for generating inclusive, sustainable and equitable development, economic growth and employment, generating investment and facilitating entrepreneurship and, in this regard, commended the work of the Commission in modernizing and harmonizing international trade law and that, in paragraph 7 of the declaration, Member States expressed their conviction that the rule of law and development were strongly interrelated and mutually reinforcing;

15. *Reiterates its request* to the Secretary-General, in conformity with resolutions of the General Assembly on documentation-related matters,<sup>29</sup> which, in particular, emphasize that any invitation to limit, where appropriate, the length of documents should not adversely affect either the quality of the presentation or the substance of the documents, to bear in mind the particular characteristics of the mandate and functions of the Commission in the progressive development and codification of international trade law when implementing page limits with respect to the documentation of the Commission;<sup>30</sup>

16. *Requests* the Secretary-General to continue the publication of Commission standards and the provision of summary records of the meetings of the Commission, including committees of the whole established by the Commission for the duration of its annual session, relating to the formulation of normative texts, and takes note of the Commission's decision to continue the trial use of digital recordings, in parallel with summary records where applicable, with a view to assessing at its forty-seventh session, in 2014, the experience of using digital recordings and, on the basis of that assessment, taking a decision regarding the possible replacement of summary records by digital recordings;<sup>31</sup>

17. *Recalls* paragraph 48 of its resolution 66/246 of 24 December 2011 regarding the rotation scheme of meetings between Vienna and New York;

18. *Notes with appreciation* the work of the Secretariat on the system for the collection and dissemination of case law on Commission texts in the six official languages of the United Nations (the CLOUT system), notes the resource-intensive nature of the system, acknowledges the need for further resources to sustain and expand it, and in this regard welcomes efforts by the Secretariat towards building partnerships with interested institutions, and appeals to Governments, the relevant bodies of the United Nations system, organizations, institutions and individuals to assist the secretariat of the Commission in raising awareness as to the availability and usefulness of the CLOUT system in professional, academic and judiciary circles and in securing the funding required for the coordination and expansion of the system and the establishment, within the secretariat of the Commission, of a pillar focused on the promotion of ways and means of interpreting Commission texts in a uniform manner;

19. *Stresses* the importance of promoting the use of texts emanating from the work of the Commission for the global unification and harmonization of international trade law, and to this end urges States that have not yet done so to consider signing, ratifying or acceding to conventions, enacting model laws and encouraging the use of other relevant texts;

20. *Welcomes* the continued work of the Secretariat on digests of case law related to Commission texts, including their wide dissemination, as well as the continuing increase in the number of abstracts available through the CLOUT system, in view of the role of the digests and the CLOUT system as important tools for the promotion of the uniform interpretation of international trade law, in particular by building local capacity of judges, arbitrators and other legal practitioners to interpret those standards in the light of their international character and the need to promote uniformity in their application and the observance of good faith in international trade.

**REVISION OF THE GUIDE TO ENACTMENT OF THE MODEL LAW  
ON CROSS-BORDER INSOLVENCY**

*The General Assembly,*

*Recalling* its resolution 2205 (XXI) of 17 December 1966, by which it established the United Nations Commission on International Trade Law with a mandate to further the progressive harmonization and unification of the law of international trade and in that respect to bear in mind the interests of all peoples, in particular those of developing countries, in the extensive development of international trade,

*Recalling also* its resolution 52/158 of 15 December 1997, in which it recommended the use of the Model Law on Cross-Border Insolvency of the United Nations Commission on International Trade Law, contained in the annex thereto,

*Noting* that legislation based upon the Model Law on Cross-Border Insolvency has been enacted in some 20 States,

*Noting also* the widespread increase in the incidence of cross-border insolvency proceedings and, accordingly, the growing opportunities for use and application of the Model Law on Cross-Border Insolvency in cross-border insolvency proceedings and the development of international jurisprudence interpreting its provisions,

*Noting further* that courts frequently have reference to the Guide to Enactment of the Model Law on Cross-Border Insolvency<sup>33</sup> for guidance on the background to the drafting and interpretation of its provisions,

*Recognizing* that some uncertainty with respect to the interpretation of certain provisions of the Model Law on Cross-Border Insolvency has emerged in the jurisprudence arising from its application in practice,

*Convinced* of the desirability, in the interpretation of those provisions, of regard to the international origin of the Model Law on Cross-Border Insolvency and the need to promote uniformity in its application,

*Convinced also* of the desirability of providing additional guidance through revision of the Guide to Enactment of the Model Law on Cross-Border Insolvency with respect to the interpretation and application of selected aspects of the Model Law to facilitate uniform interpretation,

1. *Expresses its appreciation* to the United Nations Commission on International Trade Law for revising the Guide to Enactment of the Model Law on Cross-Border Insolvency;<sup>33</sup>

2. *Requests* the Secretary-General to publish, including electronically, the text of the Guide to Enactment and Interpretation of the Model Law on Cross-Border Insolvency, together with the text of the Model Law on Cross-Border Insolvency,<sup>34</sup> and to transmit it to Governments and interested bodies, so that it becomes widely known and available;

3. *Recommends* that the Guide to Enactment and Interpretation of the Model Law on Cross-Border Insolvency be given due consideration, as appropriate, by legislators, policymakers, judges, insolvency practitioners and other individuals concerned with cross-border insolvency laws and proceedings;

4. *Also recommends* that all States continue to consider implementation of the Model Law on Cross-Border Insolvency, and invites States that have enacted legislation based upon the Model Law to advise the Commission accordingly.

PART FOUR OF THE LEGISLATIVE GUIDE  
ON INSOLVENCY LAW

*The General Assembly,*

*Recalling* its resolution 2205 (XXI) of 17 December 1966, by which it established the United Nations Commission on International Trade Law with a mandate to further the progressive harmonization and unification of the law of international trade and in that respect to bear in mind the interests of all peoples, in particular those of developing countries, in the extensive development of international trade,

*Recalling also* its resolutions 59/40 of 2 December 2004, in which it recommended the use of the *Legislative Guide on Insolvency Law* of the United Nations Commission on International Trade Law,<sup>35</sup> and 65/24 of 6 December 2010, in which it recommended the use of part three of the *Guide*, on the treatment of enterprise groups in insolvency,

*Considering* that effective insolvency regimes, in addition to providing a predictable legal process for addressing the financial difficulties of troubled enterprises and the necessary framework for their efficient reorganization or orderly liquidation, should also permit an examination to be made of the circumstances giving rise to insolvency and, in particular, of the conduct of directors of such an enterprise in the period before insolvency proceedings commence,

*Noting* that the *Legislative Guide*, while addressing the obligations of directors of an enterprise once insolvency proceedings commence, does not address the conduct of directors in the period approaching insolvency and the obligations that might be applicable to directors in that period,

*Considering* that the provision of incentives for directors to take timely action to address the effects of financial distress experienced by an enterprise may be key to its successful reorganization or liquidation and that such incentives should be part of an effective insolvency regime,

1. *Expresses its appreciation* to the United Nations Commission on International Trade Law for developing and adopting part four of the *Legislative Guide on Insolvency Law*, addressing the obligations of directors of an enterprise in the period approaching the insolvency of that enterprise;<sup>36</sup>

2. *Requests* the Secretary-General to publish, including electronically, the text of part four of the *Legislative Guide* and to transmit it to Governments and other interested bodies;

3. *Recommends* that all States utilize the *Legislative Guide* to assess the economic efficiency of their insolvency law regimes and give favourable consideration to the *Guide* when revising or adopting legislation relevant to insolvency, and invites States that have used the *Guide* to advise the Commission accordingly.

**RESOLUTION 68/108**

## VII. Resolutions adopted on the reports of the Sixth Committee

---

*Recognizing also* that access to affordable secured credit is likely to assist all countries, in particular developing countries and countries with economies in transition, in their efforts to achieve economic growth, sustainable development, the rule of law and financial inclusion,

*Recalling* its resolution 63/121 of 11 December 2008, in which it recommended that all States give favourable consideration to the *Legislative Guide on Secured Transactions* of the United Nations Commission on International Trade Law<sup>38</sup> when revising or adopting legislation relevant to secured transactions,

*Recognizing* that an efficient secured transactions regime with a publicly accessible security rights registry of the kind recommended in the *Legislative Guide on Secured Transactions* is likely to increase access to affordable secured credit,

*Noting with satisfaction* that the United Nations Commission on International Trade Law Guide on the Implementation of a Security Rights Registry<sup>39</sup> is consistent with and usefully supplements the *Legislative Guide on Secured Transactions* and that the two Guides, together, will provide comprehensive guidance to States with respect to legal and practical issues that need to be addressed when implementing a modern secured transactions regime,

*Noting* that secured transactions law reform could not be effectively implemented without the establishment of an efficient, publicly accessible security rights registry where information about the potential existence of a security right in movable assets may be registered and that States urgently need guidance with respect to the establishment and operation of such registries,

*Taking into account* that the harmonization of national security rights registries on the basis of the Guide on the Implementation of a Security Rights Registry is likely to increase the availability of credit across national borders and thus facilitate the development of international trade, which, if achieved on the basis of equality and mutual benefit to all States, is an important element in promoting friendly relations among States,

*Expressing its appreciation* to intergovernmental and international non-governmental organizations active in the field of secured transactions law reform for their participation in and support for the development of the Guide on the Implementation of a Security Rights Registry,

1. *Expresses its appreciation* to the United Nations Commission on International Trade Law for the completion and adoption of the Guide on the Implementation of a Security Rights Registry;<sup>39</sup>

2. *Requests* the Secretary-General to publish the Guide on the Implementation of a Security Rights Registry, including through electronic means, and to disseminate it broadly to Governments and other interested bodies such as national and international financial institutions and chambers of commerce;

3. *Recommends* that all States give favourable consideration to the Guide on the Implementation of a Security Rights Registry when revising relevant legislation, administrative regulations or guidelines and to the *Legislative Guide on Secured Transactions* of the Commission<sup>38</sup> when revising or adopting legislation relevant to secured transactions, and invites States that have used the Guides to advise the Commission accordingly;

4. *Also recommends* that all States continue to consider becoming parties to the United Nations Convention on the Assignment of Receivables in International Trade,<sup>40</sup> the principles of which are reflected in the *Legislative Guide on Secured Transactions* and the optional annex to which refers to the registration of data with regard to assignments.

**68/109. United Nations Commission on International Trade Law Rules on Transparency in Treaty-based Investor-State Arbitration and Arbitration Rules (as revised in 2010, with new article 1, paragraph 4, as adopted in 2013)**

*The General Assembly,*

*Recalling* its resolution 2205 (XXI) of 17 December 1966, by which it established the United Nations Commission on International Trade Law with a mandate to further the progressive harmonization and unification of the law of international trade and in that respect to bear in mind the interests of all peoples, in particular those of developing countries, in the extensive development of international trade,

*Recognizing* the value of arbitration as a method of settling disputes that may arise in the context of international relations and the wide use of arbitration for the settlement of treaty-based investor-State disputes,

*Recalling* its resolutions 31/98 of 15 December 1976 and 65/22 of 6 December 2010, in which it recommended the use of the Arbitration Rules of the United Nations Commission on International Trade Law,<sup>42</sup>

*Bearing in mind* that the Arbitration Rules are widely used for the settlement of treaty-based investor-State disputes,

*Recognizing* the need for provisions on transparency in the settlement of such treaty-based investor-State disputes to take account of the public interest involved in such arbitrations,

*Believing* that rules on transparency in treaty-based investor-State arbitration would contribute significantly to the establishment of a harmonized legal framework for a fair and efficient settlement of international investment disputes, increase transparency and accountability and promote good governance,

*Noting* that the Commission, at its forty-sixth session, adopted the Rules on Transparency in Treaty-based Investor-State Arbitration<sup>43</sup> and amended the Arbitration Rules as revised in 2010 to include, in a new article 1, paragraph 4, a reference to the Rules on Transparency,<sup>44</sup>

*Noting also* that the Rules on Transparency are available for use in investor-State arbitrations initiated under rules other than the Arbitration Rules or in ad hoc proceedings,

*Noting further* that the preparation of the Rules on Transparency was the subject of due deliberation in the Commission and that they benefited from consultations with Governments and interested intergovernmental and international non-governmental organizations,

1. *Expresses its appreciation* to the United Nations Commission on International Trade Law for having prepared and adopted the Rules on Transparency in Treaty-based Investor-State Arbitration<sup>43</sup> and the Arbitration Rules (as revised in 2010, with new article 1, paragraph 4, as adopted in 2013),<sup>44</sup> as annexed to the report of the Commission on the work of its forty-sixth session;<sup>45</sup>

2. *Requests* the Secretary-General to publish, including electronically, and disseminate broadly the text of the Rules on Transparency, both together with the Arbitration Rules (as revised in 2010, with new article 1, paragraph 4, as adopted in 2013) and as a stand-alone text, and to transmit them to Governments and organizations interested in the field of dispute settlement;

<sup>44</sup> *Ibid.*, chap. III and annex II.

<sup>45</sup> *Official Records of the General Assembly, Sixty-eighth Session, Supplement No. 17 (A/68/17)*.

3. *Recommends* the use of the Rules on Transparency in relation to the settlement of investment disputes within the scope of their application as defined in article 1 of the Rules, and invites Member States that have chosen to include the Rules in their treaties to inform the Commission accordingly;

4. *Also recommends* that, subject to any provision in relevant treaties that may require a higher degree of transparency than that provided in the Rules on Transparency, the Rules be applied through appropriate mechanisms to investor-State arbitration initiated pursuant to treaties providing for the protection of investors or investments concluded before the date of coming into effect of the Rules, to the extent that such application is consistent with those treaties.

#### RESOLUTION 68/110

Adopted at the 68th plenary meeting, on 16 December 2013, without a vote, on the recommendation of the Committee (A/68/463, para. 7)<sup>46</sup>

#### **68/110. United Nations Programme of Assistance in the Teaching, Study, Dissemination and Wider Appreciation of International Law**

*The General Assembly,*

*Recalling* its resolution 2099 (XX) of 20 December 1965, in which the General Assembly established the United Nations Programme of Assistance in the Teaching, Study, Dissemination and Wider Appreciation of International Law to contribute towards a better knowledge of international law as a means of strengthening international peace and security and promoting friendly relations and cooperation among States,

*Reaffirming* that the Programme of Assistance is a core activity of the United Nations and that it has provided the foundation for the efforts of the United Nations to promote a better knowledge of international law for nearly half a century,

*Recognizing* the major contribution of the Programme of Assistance to the teaching and dissemination of international law for the benefit of lawyers in all countries, legal systems and regions of the world for almost half a century,

*Emphasizing* the important contribution of the Programme of Assistance, in particular the United Nations Regional Courses in International Law and the United Nations Audiovisual Library of International Law, to the furtherance of United Nations rule of law programmes and activities,

*Reaffirming* that the increasing demand for international law training and dissemination activities creates new challenges for the Programme of Assistance,

*Recognizing* the importance of the Programme of Assistance effectively reaching its beneficiaries, including with regard to languages, while bearing in mind limitations on available resources,

*Taking note with appreciation* of the report of the Secretary-General on the implementation of the Programme of Assistance<sup>47</sup> and the views of the Advisory Committee on the United Nations Programme of Assistance in the Teaching, Study, Dissemination and Wider Appreciation of International Law, which are contained in the report,<sup>48</sup>

*Noting with concern* that the activities of the Programme of Assistance, in particular the organization of the United Nations Regional Courses in International Law on a regular basis and the further development of the United Nations Audiovisual Library of International Law, cannot be sustained with the resources available under the current or the proposed programme budget, notwithstanding its resolutions 64/113 of 16 December 2009, 65/25 of 6 December 2010, 66/97 of 9 December 2011 and 67/91 of 14 December 2012,

*Considering* that international law should occupy an appropriate place in the teaching of legal disciplines at all universities,

23. *Urges*, in particular, all Member States and interested organizations, institutions and individuals to make voluntary contributions for the United Nations Regional Courses in International Law organized by the Codification Division as an important complement to the International Law Fellowship Programme, thus alleviating the burden on prospective host countries and making it possible to conduct the Regional Courses on a regular basis;

25. *Requests* the Secretary-General to report to the General Assembly at its sixty-ninth session on the implementation of the Programme of Assistance in 2014 and, following consultations with the Advisory Committee on the United Nations Programme of Assistance in the Teaching, Study, Dissemination and Wider Appreciation of International Law, to submit recommendations regarding the Programme in subsequent years;
26. *Concludes* that voluntary contributions have not proven to be an adequate method for funding activities of the Programme of Assistance specified in the report of the Secretary-General and in General Assembly resolution 67/91, in particular the United Nations Regional Courses in International Law and the United Nations Audiovisual

Library of International Law,<sup>50</sup> and that, consequently, there is a need to provide more reliable funding for those activities, taking into account the conclusion of the Advisory Committee at its forty-eighth session;<sup>51</sup>

27. *Decides* to include in the provisional agenda of its sixty-ninth session the item entitled “United Nations Programme of Assistance in the Teaching, Study, Dissemination and Wider Appreciation of International Law”.

## RESOLUTION 68/111

Adopted at the 68th plenary meeting, on 16 December 2013, without a vote, on the recommendation of the Committee (A/68/464, para. 11)<sup>52</sup>

### 68/111. Reservations to treaties

**1.1.1 Statements purporting to limit the obligations of their author**

A unilateral statement formulated by a State or an international organization at the time when that State or that organization expresses its consent to be bound by a treaty, by which its author purports to limit the obligations imposed on it by the treaty, constitutes a reservation.

**1.1.2 Statements purporting to discharge an obligation by equivalent means**

A unilateral statement formulated by a State or an international organization at the time when that State or that organization expresses its consent to be bound by a treaty, by which that State or that organization purports to discharge an obligation pursuant to the treaty in a manner different from, but considered by the author of the statement to be equivalent to, that imposed by the treaty, constitutes a reservation.

**1.1.3 Reservations relating to the territorial application of the treaty**

A unilateral statement by which a State purports to exclude the application of some provisions of a treaty, or of the treaty as a whole with respect to certain specific aspects, to a territory to which they would be applicable in the absence of such a statement constitutes a reservation.

**1.1.4 Reservations formulated when extending the territorial application of a treaty**

A unilateral statement by which a State, when extending the application of a treaty to a territory, purports to exclude or to modify the legal effect of certain provisions of the treaty in relation to that territory constitutes a reservation.

**1.1.5 Reservations formulated jointly**

The joint formulation of a reservation by several States or international organizations does not affect the unilateral character of that reservation.

**1.1.6 Reservations formulated by virtue of clauses expressly authorizing the exclusion or the modification of certain provisions of a treaty**

A unilateral statement made by a State or an international organization when that State or organization expresses its consent to be bound by a treaty, in accordance with a clause expressly authorizing the parties or some of them to exclude or to modify the legal effect of certain provisions of the treaty with regard to the party that has made the statement, constitutes a reservation expressly authorized by the treaty.

**1.2 Definition of interpretative declarations**

“Interpretative declaration” means a unilateral statement, however phrased or named, made by a State or an international organization, whereby that State or that organization purports to specify or clarify the meaning or scope of a treaty or of certain of its provisions.

**1.2.1 Interpretative declarations formulated jointly**

The joint formulation of an interpretative declaration by several States or international organizations does not affect the unilateral character of that interpretative declaration.

**1.3 Distinction between reservations and interpretative declarations**

The character of a unilateral statement as a reservation or as an interpretative declaration is determined by the legal effect that its author purports to produce.

### **1.3.1 Method of determining the distinction between reservations and interpretative declarations**

To determine whether a unilateral statement formulated by a State or an international organization in respect of a treaty is a reservation or an interpretative declaration, the statement should be interpreted in good faith in accordance with the ordinary meaning to be given to its terms, with a view to identifying therefrom the intention of its author, in the light of the treaty to which it refers.

### **1.3.2 Phrasing and name**

The phrasing or name of a unilateral statement provides an indication of the purported legal effect.

### **1.3.3 Formulation of a unilateral statement when a reservation is prohibited**

When a treaty prohibits reservations to all or certain of its provisions, a unilateral statement formulated in respect of those provisions by a State or an international organization shall be presumed not to constitute a reservation. Such a statement nevertheless constitutes a reservation if it purports to exclude or modify the legal effect of certain provisions of the treaty, or of the treaty as a whole with respect to certain specific aspects, in their application to its author.

## **1.4 Conditional interpretative declarations**

1. A conditional interpretative declaration is a unilateral statement formulated by a State or an international organization when signing, ratifying, formally confirming, accepting, approving or acceding to a treaty, or by a State when making a notification of succession to a treaty, whereby the State or international organization subjects its consent to be bound by the treaty to a specific interpretation of the treaty or of certain provisions thereof.

2. Conditional interpretative declarations are subject to the rules applicable to reservations.

## **1.5 Unilateral statements other than reservations and interpretative declarations**

Unilateral statements formulated in relation to a treaty which are neither reservations nor interpretative declarations (including conditional interpretative declarations) are outside the scope of the present Guide to Practice.

### **1.5.1 Statements of non-recognition**

A unilateral statement by which a State indicates that its participation in a treaty does not imply recognition of an entity which it does not recognize is outside the scope of the present Guide to Practice even if it purports to exclude the application of the treaty between the declaring State and the non-recognized entity.

### **1.5.2 Statements concerning modalities of implementation of a treaty at the internal level**

A unilateral statement formulated by a State or an international organization whereby that State or that organization indicates the manner in which it intends to implement a treaty at the internal level, without affecting its rights and obligations towards the other contracting States or contracting organizations, is outside the scope of the present Guide to Practice.

### **1.5.3 Unilateral statements made under a clause providing for options**

1. A unilateral statement made by a State or an international organization in accordance with a clause in a treaty permitting the parties to accept an obligation that is not otherwise imposed by the treaty, or permitting them to choose between two or more provisions of the treaty, is outside the scope of the present Guide to Practice.

2. A restriction or condition contained in a statement by which a State or an international organization accepts, by virtue of a clause in a treaty, an obligation that is not otherwise imposed by the treaty does not constitute a reservation.

## **1.6 Unilateral statements in respect of bilateral treaties**

### **1.6.1 “Reservations” to bilateral treaties**

A unilateral statement, however phrased or named, formulated by a State or an international organization after initialling or signature but prior to entry into force of a bilateral treaty, by which that State or that organization purports to obtain from the other party a modification of the provisions of the treaty, does not constitute a reservation within the meaning of the present Guide to Practice.

### **1.6.2 Interpretative declarations in respect of bilateral treaties**

Guidelines 1.2 and 1.4 are applicable to interpretative declarations in respect of both multilateral and bilateral treaties.

### **1.6.3 Legal effect of acceptance of an interpretative declaration made in respect of a bilateral treaty by the other party**

The interpretation resulting from an interpretative declaration made in respect of a bilateral treaty by a State or an international organization party to the treaty and accepted by the other party constitutes an authentic interpretation of that treaty.

## **1.7 Alternatives to reservations and interpretative declarations**

### **1.7.1 Alternatives to reservations**

In order to achieve results comparable to those effected by reservations, States or international organizations may also have recourse to alternative procedures, such as:

- the insertion in the treaty of a clause purporting to limit its scope or application;
- the conclusion of an agreement, under a specific provision of a treaty, by which two or more States or international organizations purport to exclude or modify the legal effect of certain provisions of the treaty as between themselves.

### **1.7.2 Alternatives to interpretative declarations**

In order to specify or clarify the meaning or scope of a treaty or certain of its provisions, States or international organizations may also have recourse to procedures other than interpretative declarations, such as:

- the insertion in the treaty of provisions purporting to interpret the treaty;
- the conclusion of a supplementary agreement to the same end, simultaneously or subsequently to the conclusion of the treaty.

## **1.8 Scope of definitions**

The definitions of unilateral statements included in the present Part are without prejudice to the validity and legal effects of such statements under the rules applicable to them.

## **2. Procedure**

### **2.1 Form and notification of reservations**

#### **2.1.1 Form of reservations**

A reservation must be formulated in writing.

#### **2.1.2 Statement of reasons for reservations**

A reservation should, to the extent possible, indicate the reasons why it is being formulated.

### **2.1.3 Representation for the purpose of formulating a reservation at the international level**

1. Subject to the usual practices followed in international organizations which are depositaries of treaties, a person is considered as representing a State or an international organization for the purpose of formulating a reservation if:

(a) that person produces appropriate full powers for the purposes of adopting or authenticating the text of the treaty with regard to which the reservation is formulated or expressing the consent of the State or organization to be bound by the treaty; or

(b) it appears from practice or from other circumstances that it was the intention of the States and international organizations concerned to consider that person as representing the State or the international organization for such purposes without having to produce full powers.

2. In virtue of their functions and without having to produce full powers, the following are considered as representing their State for the purpose of formulating a reservation at the international level:

(a) Heads of State, Heads of Government and Ministers for Foreign Affairs;

(b) representatives accredited by States to an international conference, for the purpose of formulating a reservation to a treaty adopted at that conference;

(c) representatives accredited by States to an international organization or one of its organs, for the purpose of formulating a reservation to a treaty adopted in that organization or organ;

(d) heads of permanent missions to an international organization, for the purpose of formulating a reservation to a treaty between the accrediting States and that organization.

### **2.1.4 Absence of consequences at the international level of the violation of internal rules regarding the formulation of reservations**

1. The competent authority and the procedure to be followed at the internal level for formulating a reservation are determined by the internal law of each State or the relevant rules of each international organization.

2. A State or an international organization may not invoke the fact that a reservation has been formulated in violation of a provision of the internal law of that State or the rules of that organization regarding competence and the procedure for formulating reservations for the purpose of invalidating the reservation.

### **2.1.5 Communication of reservations**

1. A reservation must be communicated in writing to the contracting States and contracting organizations and other States and international organizations entitled to become parties to the treaty.

2. A reservation to a treaty in force which is the constituent instrument of an international organization must also be communicated to such organization.

### **2.1.6 Procedure for communication of reservations**

1. Unless otherwise provided in the treaty or agreed by the contracting States and contracting organizations, the communication of a reservation to a treaty shall be transmitted:

(i) if there is no depositary, directly by the author of the reservation to the contracting States and contracting organizations and other States and international organizations entitled to become parties to the treaty; or

(ii) if there is a depositary, to the depositary, which shall notify the States and international organizations for which it is intended as soon as possible.

2. The communication of a reservation shall be considered as having been made with regard to a State or an international organization only upon receipt by that State or organization.

3. The communication of a reservation to a treaty by means other than a diplomatic note or depositary notification, such as electronic mail or facsimile, must be confirmed within an appropriate period of time by such a note or notification. In such case, the reservation is considered as having been formulated at the date of the initial communication.

### **2.1.7 Functions of depositaries**

1. The depositary shall examine whether a reservation to a treaty formulated by a State or an international organization is in due and proper form and, if need be, bring the matter to the attention of the State or international organization concerned.

2. In the event of any difference appearing between a State or an international organization and the depositary as to the performance of the latter's functions, the depositary shall bring the question to the attention of:

- (a) the signatory States and organizations and the contracting States and contracting organizations; or
- (b) where appropriate, the competent organ of the international organization concerned.

## **2.2 Confirmation of reservations**

### **2.2.1 Formal confirmation of reservations formulated when signing a treaty**

If formulated when signing a treaty subject to ratification, act of formal confirmation, acceptance or approval, a reservation must be formally confirmed by the reserving State or international organization when expressing its consent to be bound by the treaty. In such a case, the reservation shall be considered as having been formulated on the date of its confirmation.

### **2.2.2 Instances of non-requirement of confirmation of reservations formulated when signing a treaty**

A reservation formulated when signing a treaty does not require subsequent confirmation when a State or an international organization expresses by signature its consent to be bound by the treaty.

### **2.2.3 Reservations formulated upon signature when a treaty expressly so provides**

Where the treaty expressly provides that a State or an international organization may formulate a reservation when signing the treaty, such a reservation does not require formal confirmation by the reserving State or international organization when expressing its consent to be bound by the treaty.

### **2.2.4 Form of formal confirmation of reservations**

The formal confirmation of a reservation must be made in writing.

## **2.3 Late formulation of reservations**

A State or an international organization may not formulate a reservation to a treaty after expressing its consent to be bound by the treaty, unless the treaty otherwise provides or none of the other contracting States and contracting organizations opposes the late formulation of the reservation.

### **2.3.1 Acceptance of the late formulation of a reservation**

Unless the treaty otherwise provides or the well-established practice followed by the depositary differs, the late formulation of a reservation shall be deemed to have been accepted only if no contracting State or contracting organization has opposed such formulation after the expiry of the twelve-month period following the date on which notification was received.

### **2.3.2 Time period for formulating an objection to a reservation that is formulated late**

An objection to a reservation that is formulated late must be made within twelve months of the acceptance, in accordance with guideline 2.3.1, of the late formulation of the reservation.

### **2.3.3 Limits to the possibility of excluding or modifying the legal effect of a treaty by means other than reservations**

A contracting State or a contracting organization cannot exclude or modify the legal effect of provisions of the treaty by:

- (a) the interpretation of an earlier reservation; or
- (b) a unilateral statement made subsequently under a clause providing for options.

#### **2.3.4 Widening of the scope of a reservation**

The modification of an existing reservation for the purpose of widening its scope is subject to the rules applicable to the late formulation of a reservation. If such a modification is opposed, the initial reservation remains unchanged.

### **2.4 Procedure for interpretative declarations**

#### **2.4.1 Form of interpretative declarations**

An interpretative declaration should preferably be formulated in writing.

#### **2.4.2 Representation for the purpose of formulating interpretative declarations**

An interpretative declaration must be formulated by a person who is considered as representing a State or an international organization for the purpose of adopting or authenticating the text of a treaty or expressing the consent of the State or international organization to be bound by a treaty.

#### **2.4.3 Absence of consequences at the international level of the violation of internal rules regarding the formulation of interpretative declarations**

1. The competent authority and the procedure to be followed at the internal level for formulating an interpretative declaration are determined by the internal law of each State or the relevant rules of each international organization.
2. A State or an international organization may not invoke the fact that an interpretative declaration has been formulated in violation of a provision of the internal law of that State or the rules of that organization regarding competence and the procedure for formulating interpretative declarations for the purpose of invalidating the declaration.

#### **2.4.4 Time at which an interpretative declaration may be formulated**

Without prejudice to the provisions of guidelines 1.4 and 2.4.7, an interpretative declaration may be formulated at any time.

#### **2.4.5 Communication of interpretative declarations**

The communication of written interpretative declarations should follow the procedure established in guidelines 2.1.5, 2.1.6 and 2.1.7.

#### **2.4.6 Non-requirement of confirmation of interpretative declarations formulated when signing a treaty**

An interpretative declaration formulated when signing a treaty does not require subsequent confirmation when a State or an international organization expresses its consent to be bound by the treaty.

#### **2.4.7 Late formulation of an interpretative declaration**

Where a treaty provides that an interpretative declaration may be formulated only at specified times, a State or an international organization may not formulate an interpretative declaration concerning that treaty subsequently, unless none of the other contracting States and contracting organizations objects to the late formulation of the interpretative declaration.

#### **2.4.8 Modification of an interpretative declaration**

Unless the treaty otherwise provides, an interpretative declaration may be modified at any time.

### **2.5 Withdrawal and modification of reservations and interpretative declarations**

#### **2.5.1 Withdrawal of reservations**

Unless the treaty otherwise provides, a reservation may be withdrawn at any time without the consent of a State or of an international organization which has accepted the reservation being required for its withdrawal.

### **2.5.2 Form of withdrawal**

The withdrawal of a reservation must be formulated in writing.

### **2.5.3 Periodic review of the usefulness of reservations**

1. States or international organizations which have formulated one or more reservations to a treaty should undertake a periodic review of such reservations and consider withdrawing those which no longer serve their purpose.
2. In such a review, States and international organizations should devote special attention to the aim of preserving the integrity of multilateral treaties and, where relevant, consider the usefulness of retaining the reservations, in particular in relation to developments in their internal law since the reservations were formulated.

### **2.5.4 Representation for the purpose of withdrawing a reservation at the international level**

1. Subject to the usual practices followed in international organizations which are depositaries of treaties, a person is considered as representing a State or an international organization for the purpose of withdrawing a reservation made on behalf of a State or an international organization if:

(a) that person produces appropriate full powers for the purpose of that withdrawal; or

(b) it appears from practice or from other circumstances that it was the intention of the States and international organizations concerned to consider that person as representing the State or the international organization for such purpose without having to produce full powers.

2. In virtue of their functions and without having to produce full powers, the following are considered as representing a State for the purpose of withdrawing a reservation at the international level on behalf of that State:

(a) Heads of State, Heads of Government and Ministers for Foreign Affairs;

(b) representatives accredited by States to an international organization or one of its organs, for the purpose of withdrawing a reservation to a treaty adopted in that organization or organ;

(c) heads of permanent missions to an international organization, for the purpose of withdrawing a reservation to a treaty between the accrediting States and that organization.

### **2.5.5 Absence of consequences at the international level of the violation of internal rules regarding the withdrawal of reservations**

1. The competent authority and the procedure to be followed at the internal level for withdrawing a reservation are determined by the internal law of each State or the relevant rules of each international organization.
2. A State or an international organization may not invoke the fact that a reservation has been withdrawn in violation of a provision of the internal law of that State or the rules of that organization regarding competence and the procedure for the withdrawal of reservations for the purpose of invalidating the withdrawal.

### **2.5.6 Communication of withdrawal of a reservation**

The procedure for communicating the withdrawal of a reservation follows the rules applicable to the communication of reservations contained in guidelines 2.1.5, 2.1.6 and 2.1.7.

### **2.5.7 Effects of withdrawal of a reservation**

1. The withdrawal of a reservation entails the full application of the provisions to which the reservation relates in the relations between the State or international organization which withdraws the reservation and all the other parties, whether they had accepted the reservation or objected to it.
2. The withdrawal of a reservation entails the entry into force of the treaty in the relations between the State or international organization which withdraws the reservation and a State or international organization which had objected to the reservation and opposed the entry into force of the treaty between itself and the reserving State or international organization by reason of that reservation.

### **2.5.8 Effective date of withdrawal of a reservation**

Unless the treaty otherwise provides, or it is otherwise agreed, the withdrawal of a reservation becomes operative in relation to a contracting State or a contracting organization only when notice of it has been received by that State or that organization.

### **2.5.9 Cases in which the author of a reservation may set the effective date of withdrawal of the reservation**

The withdrawal of a reservation becomes operative on the date set by the State or international organization which withdraws the reservation, where:

(a) that date is later than the date on which the other contracting States or contracting organizations received notification of it; or

(b) the withdrawal does not add to the rights of the withdrawing State or international organization, in relation to the other contracting States or contracting organizations.

### **2.5.10 Partial withdrawal of reservations**

1. The partial withdrawal of a reservation limits the legal effect of the reservation and achieves a more complete application of the provisions of the treaty, or of the treaty as a whole, in the relations between the withdrawing State or international organization and the other parties to the treaty.

2. The partial withdrawal of a reservation is subject to the same rules on form and procedure as a total withdrawal and becomes operative under the same conditions.

### **2.5.11 Effect of a partial withdrawal of a reservation**

1. The partial withdrawal of a reservation modifies the legal effect of the reservation to the extent provided by the new formulation of the reservation. Any objection formulated to the reservation continues to have effect as long as its author does not withdraw it, insofar as the objection does not apply exclusively to that part of the reservation which has been withdrawn.

2. No new objection may be formulated to the reservation resulting from the partial withdrawal, unless that partial withdrawal has a discriminatory effect.

### **2.5.12 Withdrawal of interpretative declarations**

An interpretative declaration may be withdrawn at any time by an authority considered as representing the State or international organization for that purpose, following the same procedure applicable to its formulation.

## **2.6 Formulation of objections**

### **2.6.1 Definition of objections to reservations**

“Objection” means a unilateral statement, however phrased or named, made by a State or an international organization in response to a reservation formulated by another State or international organization, whereby the former State or organization purports to preclude the reservation from having its intended effects or otherwise opposes the reservation.

### **2.6.2 Right to formulate objections**

A State or an international organization may formulate an objection to a reservation irrespective of the permissibility of the reservation.

### **2.6.3 Author of an objection**

An objection to a reservation may be formulated by:

- (i) any contracting State or contracting organization; and
- (ii) any State or international organization that is entitled to become a party to the treaty, in which case the objection does not produce any legal effect until the State or international organization has expressed its consent to be bound by the treaty.

**2.6.4 Objections formulated jointly**

The joint formulation of an objection by several States or international organizations does not affect the unilateral character of that objection.

**2.6.5 Form of objections**

An objection must be formulated in writing.

**2.6.6 Right to oppose the entry into force of the treaty vis-à-vis the author of the reservation**

A State or an international organization that formulates an objection to a reservation may oppose the entry into force of the treaty as between itself and the author of the reservation.

**2.6.7 Expression of intention to preclude the entry into force of the treaty**

When a State or an international organization formulating an objection to a reservation intends to preclude the entry into force of the treaty as between itself and the reserving State or international organization, it shall definitely express its intention before the treaty would otherwise enter into force between them.

**2.6.8 Procedure for the formulation of objections**

Guidelines 2.1.3, 2.1.4, 2.1.5, 2.1.6 and 2.1.7 are applicable mutatis mutandis to objections.

**2.6.9 Statement of reasons for objections**

An objection should, to the extent possible, indicate the reasons why it is being formulated.

**2.6.10 Non-requirement of confirmation of an objection formulated prior to formal confirmation of a reservation**

An objection to a reservation formulated by a State or an international organization prior to confirmation of the reservation in accordance with guideline 2.2.1 does not itself require confirmation.

**2.6.11 Confirmation of an objection formulated prior to the expression of consent to be bound by a treaty**

An objection formulated prior to the expression of consent to be bound by the treaty does not need to be formally confirmed by the objecting State or international organization at the time it expresses its consent to be bound if that State or that organization was a signatory to the treaty when it formulated the objection; it must be confirmed if the State or international organization had not signed the treaty.

**2.6.12 Time period for formulating objections**

Unless the treaty otherwise provides, a State or an international organization may formulate an objection to a reservation within a period of twelve months after it was notified of the reservation or by the date on which such State or international organization expresses its consent to be bound by the treaty, whichever is later.

**2.6.13 Objections formulated late**

An objection to a reservation formulated after the end of the time period specified in guideline 2.6.12 does not produce all the legal effects of an objection formulated within that time period.

**2.7 Withdrawal and modification of objections to reservations**

**2.7.1 Withdrawal of objections to reservations**

Unless the treaty otherwise provides, an objection to a reservation may be withdrawn at any time.

**2.7.2 Form of withdrawal of objections to reservations**

The withdrawal of an objection to a reservation must be formulated in writing.

### **2.7.3 Formulation and communication of the withdrawal of objections to reservations**

Guidelines 2.5.4, 2.5.5 and 2.5.6 are applicable mutatis mutandis to the withdrawal of objections to reservations.

### **2.7.4 Effect on reservation of withdrawal of an objection**

A State or an international organization that withdraws an objection formulated to a reservation is presumed to have accepted that reservation.

### **2.7.5 Effective date of withdrawal of an objection**

Unless the treaty otherwise provides, or it is otherwise agreed, the withdrawal of an objection to a reservation becomes operative only when notice of it has been received by the State or international organization which formulated the reservation.

### **2.7.6 Cases in which the author of an objection may set the effective date of withdrawal of the objection**

The withdrawal of an objection becomes operative on the date set by its author where that date is later than the date on which the reserving State or international organization received notice of it.

### **2.7.7 Partial withdrawal of an objection**

1. Unless the treaty otherwise provides, a State or an international organization may partially withdraw an objection to a reservation.
2. The partial withdrawal of an objection is subject to the same rules on form and procedure as a total withdrawal and becomes operative under the same conditions.

### **2.7.8 Effect of a partial withdrawal of an objection**

The partial withdrawal modifies the legal effects of the objection on the treaty relations between the author of the objection and the author of the reservation to the extent provided by the new formulation of the objection.

### **2.7.9 Widening of the scope of an objection to a reservation**

1. A State or an international organization which has made an objection to a reservation may widen the scope of that objection during the time period referred to in guideline 2.6.12.
2. Such a widening of the scope of the objection cannot have an effect on the existence of treaty relations between the author of the reservation and the author of the objection.

## **2.8 Formulation of acceptances of reservations**

### **2.8.1 Forms of acceptance of reservations**

The acceptance of a reservation may arise from a unilateral statement to this effect or from silence of a contracting State or contracting organization during the periods specified in guideline 2.6.12.

### **2.8.2 Tacit acceptance of reservations**

Unless the treaty otherwise provides, a reservation is considered to have been accepted by a State or an international organization if it shall have raised no objection to the reservation within the time period provided for in guideline 2.6.12.

### **2.8.3 Express acceptance of reservations**

A State or an international organization may, at any time, expressly accept a reservation formulated by another State or international organization.

**2.8.4 Form of express acceptance of reservations**

The express acceptance of a reservation must be formulated in writing.

**2.8.5 Procedure for formulating express acceptance of reservations**

Guidelines 2.1.3, 2.1.4, 2.1.5, 2.1.6 and 2.1.7 apply *mutatis mutandis* to express acceptances.

**2.8.6 Non-requirement of confirmation of an acceptance formulated prior to formal confirmation of a reservation**

An express acceptance of a reservation formulated by a State or an international organization prior to confirmation of the reservation in accordance with guideline 2.2.1 does not itself require confirmation.

**2.8.7 Unanimous acceptance of reservations**

In the event of a reservation requiring unanimous acceptance by some or all States or international organizations which are parties or entitled to become parties to the treaty, such acceptance, once obtained, is final.

**2.8.8 Acceptance of a reservation to the constituent instrument of an international organization**

When a treaty is a constituent instrument of an international organization and unless it otherwise provides, a reservation requires the acceptance of the competent organ of that organization.

**2.8.9 Organ competent to accept a reservation to a constituent instrument**

Subject to the rules of the organization, competence to accept a reservation to a constituent instrument of an international organization belongs to the organ competent:

- to decide on the admission of a member to the organization; or
- to amend the constituent instrument; or
- to interpret this instrument.

**2.8.10 Modalities of the acceptance of a reservation to a constituent instrument**

1. Subject to the rules of the organization, the acceptance by the competent organ of the organization shall not be tacit. However, the admission of the State or the international organization which is the author of the reservation is tantamount to the acceptance of that reservation.
2. For the purposes of the acceptance of a reservation to the constituent instrument of an international organization, the individual acceptance of the reservation by States or international organizations that are members of the organization is not required.

**2.8.11 Acceptance of a reservation to a constituent instrument that has not yet entered into force**

In the case set forth in guideline 2.8.8 and where the constituent instrument has not yet entered into force, a reservation is considered to have been accepted if no signatory State or signatory international organization has raised an objection to that reservation within a period of twelve months after they were notified of that reservation. Such a unanimous acceptance, once obtained, is final.

**2.8.12 Reaction by a member of an international organization to a reservation to its constituent instrument**

Guideline 2.8.10 does not preclude States or international organizations that are members of an international organization from taking a position on the permissibility or appropriateness of a reservation to a constituent instrument of the organization. Such an opinion is in itself devoid of legal effects.

**2.8.13 Final nature of acceptance of a reservation**

The acceptance of a reservation cannot be withdrawn or amended.

## **2.9 Formulation of reactions to interpretative declarations**

### **2.9.1 Approval of an interpretative declaration**

“Approval” of an interpretative declaration means a unilateral statement made by a State or an international organization in reaction to an interpretative declaration in respect of a treaty formulated by another State or another international organization, whereby the former State or organization expresses agreement with the interpretation formulated in that declaration.

### **2.9.2 Opposition to an interpretative declaration**

“Opposition” to an interpretative declaration means a unilateral statement made by a State or an international organization in reaction to an interpretative declaration in respect of a treaty formulated by another State or another international organization, whereby the former State or organization disagrees with the interpretation formulated in the interpretative declaration, including by formulating an alternative interpretation.

### **2.9.3 Recharacterization of an interpretative declaration**

1. “Recharacterization” of an interpretative declaration means a unilateral statement made by a State or an international organization in reaction to an interpretative declaration in respect of a treaty formulated by another State or another international organization, whereby the former State or organization purports to treat the declaration as a reservation.

2. A State or an international organization that intends to treat an interpretative declaration as a reservation should take into account guidelines 1.3 to 1.3.3.

### **2.9.4 Right to formulate approval or opposition, or to recharacterize**

An approval, opposition or recharacterization in respect of an interpretative declaration may be formulated at any time by any contracting State or any contracting organization and by any State or any international organization that is entitled to become a party to the treaty.

### **2.9.5 Form of approval, opposition and recharacterization**

An approval, opposition or recharacterization in respect of an interpretative declaration should preferably be formulated in writing.

### **2.9.6 Statement of reasons for approval, opposition and recharacterization**

An approval, opposition or recharacterization in respect of an interpretative declaration should, to the extent possible, indicate the reasons why it is being formulated.

### **2.9.7 Formulation and communication of approval, opposition or recharacterization**

Guidelines 2.1.3, 2.1.4, 2.1.5, 2.1.6 and 2.1.7 are applicable mutatis mutandis to an approval, opposition or recharacterization in respect of an interpretative declaration.

### **2.9.8 Non-presumption of approval or opposition**

1. An approval of, or an opposition to, an interpretative declaration shall not be presumed.
2. Notwithstanding guidelines 2.9.1 and 2.9.2, an approval of an interpretative declaration or an opposition thereto may be inferred, in exceptional cases, from the conduct of the States or international organizations concerned, taking into account all relevant circumstances.

### **2.9.9 Silence with respect to an interpretative declaration**

An approval of an interpretative declaration shall not be inferred from the mere silence of a State or an international organization.

### **3. Permissibility of reservations and interpretative declarations**

#### **3.1 Permissible reservations**

A State or an international organization may, when signing, ratifying, formally confirming, accepting, approving or acceding to a treaty, formulate a reservation unless:

- (a) the reservation is prohibited by the treaty;
- (b) the treaty provides that only specified reservations, which do not include the reservation in question, may be made; or
- (c) in cases not falling under subparagraphs (a) and (b), the reservation is incompatible with the object and purpose of the treaty.

##### **3.1.1 Reservations prohibited by the treaty**

A reservation is prohibited by the treaty if it contains a provision:

- (a) prohibiting all reservations;
- (b) prohibiting reservations to specified provisions to which the reservation in question relates; or
- (c) prohibiting certain categories of reservations including the reservation in question.

##### **3.1.2 Definition of specified reservations**

For the purposes of guideline 3.1, the expression “specified reservations” means reservations that are expressly envisaged in the treaty to certain provisions of the treaty or to the treaty as a whole with respect to certain specific aspects.

##### **3.1.3 Permissibility of reservations not prohibited by the treaty**

Where the treaty prohibits the formulation of certain reservations, a reservation which is not prohibited by the treaty may be formulated by a State or an international organization only if it is not incompatible with the object and purpose of the treaty.

##### **3.1.4 Permissibility of specified reservations**

Where the treaty envisages the formulation of specified reservations without defining their content, a reservation may be formulated by a State or an international organization only if it is not incompatible with the object and purpose of the treaty.

##### **3.1.5 Incompatibility of a reservation with the object and purpose of the treaty**

A reservation is incompatible with the object and purpose of the treaty if it affects an essential element of the treaty that is necessary to its general tenor, in such a way that the reservation impairs the *raison d’être* of the treaty.

###### **3.1.5.1 Determination of the object and purpose of the treaty**

The object and purpose of the treaty is to be determined in good faith, taking account of the terms of the treaty in their context, in particular the title and the preamble of the treaty. Recourse may also be had to the preparatory work of the treaty and the circumstances of its conclusion and, where appropriate, the subsequent practice of the parties.

###### **3.1.5.2 Vague or general reservations**

A reservation shall be worded in such a way as to allow its meaning to be understood, in order to assess in particular its compatibility with the object and purpose of the treaty.

###### **3.1.5.3 Reservations to a provision reflecting a customary rule**

The fact that a treaty provision reflects a rule of customary international law does not in itself constitute an obstacle to the formulation of a reservation to that provision.

**3.1.5.4 Reservations to provisions concerning rights from which no derogation is permissible under any circumstances**

A State or an international organization may not formulate a reservation to a treaty provision concerning rights from which no derogation is permissible under any circumstances, unless the reservation in question is compatible with the essential rights and obligations arising out of that treaty. In assessing that compatibility, account shall be taken of the importance which the parties have conferred upon the rights at issue by making them non-derogable.

**3.1.5.5 Reservations relating to internal law**

A reservation by which a State or an international organization purports to exclude or to modify the legal effect of certain provisions of a treaty or of the treaty as a whole in order to preserve the integrity of specific rules of the internal law of that State or of specific rules of that organization in force at the time of the formulation of the reservation may be formulated only insofar as it does not affect an essential element of the treaty nor its general tenor.

**3.1.5.6 Reservations to treaties containing numerous interdependent rights and obligations**

To assess the compatibility of a reservation with the object and purpose of a treaty containing numerous interdependent rights and obligations, account shall be taken of that interdependence as well as the importance that the provision to which the reservation relates has within the general tenor of the treaty, and the extent of the impact that the reservation has on the treaty.

**3.1.5.7 Reservations to treaty provisions concerning dispute settlement or the monitoring of the implementation of the treaty**

A reservation to a treaty provision concerning dispute settlement or the monitoring of the implementation of the treaty is not, in itself, incompatible with the object and purpose of the treaty, unless:

- (i) the reservation purports to exclude or modify the legal effect of a provision of the treaty essential to its *raison d'être*; or
- (ii) the reservation has the effect of excluding the reserving State or international organization from a dispute settlement or treaty implementation monitoring mechanism with respect to a treaty provision that it has previously accepted, if the very purpose of the treaty is to put such a mechanism into effect.

**3.2 Assessment of the permissibility of reservations**

The following may assess, within their respective competences, the permissibility of reservations to a treaty formulated by a State or an international organization:

- contracting States or contracting organizations;
- dispute settlement bodies;
- treaty monitoring bodies.

**3.2.1 Competence of the treaty monitoring bodies to assess the permissibility of reservations**

1. A treaty monitoring body may, for the purpose of discharging the functions entrusted to it, assess the permissibility of reservations formulated by a State or an international organization.
2. The assessment made by such a body in the exercise of this competence has no greater legal effect than that of the act which contains it.

**3.2.2 Specification of the competence of treaty monitoring bodies to assess the permissibility of reservations**

When providing bodies with the competence to monitor the application of treaties, States or international organizations should specify, where appropriate, the nature and the limits of the competence of such bodies to assess the permissibility of reservations.

### **3.2.3 Consideration of the assessments of treaty monitoring bodies**

States and international organizations that have formulated reservations to a treaty establishing a treaty monitoring body shall give consideration to that body's assessment of the permissibility of the reservations.

### **3.2.4 Bodies competent to assess the permissibility of reservations in the event of the establishment of a treaty monitoring body**

When a treaty establishes a treaty monitoring body, the competence of that body is without prejudice to the competence of the contracting States or contracting organizations to assess the permissibility of reservations to that treaty, or to that of dispute settlement bodies competent to interpret or apply the treaty.

### **3.2.5 Competence of dispute settlement bodies to assess the permissibility of reservations**

When a dispute settlement body is competent to adopt decisions binding upon the parties to a dispute, and the assessment of the permissibility of a reservation is necessary for the discharge of such competence by that body, such assessment is, as an element of the decision, legally binding upon the parties.

## **3.3 Consequences of the non-permissibility of a reservation**

### **3.3.1 Irrelevance of distinction among the grounds for non-permissibility**

A reservation formulated notwithstanding a prohibition arising from the provisions of the treaty or notwithstanding its incompatibility with the object and purpose of the treaty is impermissible, without there being any need to distinguish between the consequences of these grounds for non-permissibility.

### **3.3.2 Non-permissibility of reservations and international responsibility**

The formulation of an impermissible reservation produces its consequences pursuant to the law of treaties and does not engage the international responsibility of the State or international organization which has formulated it.

### **3.3.3 Absence of effect of individual acceptance of a reservation on the permissibility of the reservation**

Acceptance of an impermissible reservation by a contracting State or by a contracting organization shall not affect the impermissibility of the reservation.

## **3.4 Permissibility of reactions to reservations**

### **3.4.1 Permissibility of the acceptance of a reservation**

Acceptance of a reservation is not subject to any condition of permissibility.

### **3.4.2 Permissibility of an objection to a reservation**

An objection to a reservation by which a State or an international organization purports to exclude in its relations with the author of the reservation the application of provisions of the treaty to which the reservation does not relate is only permissible if:

1. the provisions thus excluded have a sufficient link with the provisions to which the reservation relates; and
2. the objection would not defeat the object and purpose of the treaty in the relations between the author of the reservation and the author of the objection.

## **3.5 Permissibility of an interpretative declaration**

A State or an international organization may formulate an interpretative declaration unless the interpretative declaration is prohibited by the treaty.

### **3.5.1 Permissibility of an interpretative declaration which is in fact a reservation**

If a unilateral statement which appears to be an interpretative declaration is in fact a reservation, its permissibility must be assessed in accordance with the provisions of guidelines 3.1 to 3.1.5.7.

### **3.6 Permissibility of reactions to interpretative declarations**

An approval of, opposition to, or recharacterization of, an interpretative declaration shall not be subject to any conditions for permissibility.

## **4. Legal effects of reservations and interpretative declarations**

### **4.1 Establishment of a reservation with regard to another State or international organization**

A reservation formulated by a State or an international organization is established with regard to a contracting State or a contracting organization if it is permissible and was formulated in accordance with the required form and procedures, and if that contracting State or contracting organization has accepted it.

#### **4.1.1 Establishment of a reservation expressly authorized by a treaty**

1. A reservation expressly authorized by a treaty does not require any subsequent acceptance by the other contracting States and contracting organizations, unless the treaty so provides.
2. A reservation expressly authorized by a treaty is established with regard to the other contracting States and contracting organizations if it was formulated in accordance with the required form and procedures.

#### **4.1.2 Establishment of a reservation to a treaty which has to be applied in its entirety**

When it appears, from the limited number of negotiating States and organizations and the object and purpose of the treaty, that the application of the treaty in its entirety between all the parties is an essential condition of the consent of each one to be bound by the treaty, a reservation to this treaty is established with regard to the other contracting States and contracting organizations if it is permissible and was formulated in accordance with the required form and procedures, and if all the contracting States and contracting organizations have accepted it.

#### **4.1.3 Establishment of a reservation to a constituent instrument of an international organization**

When a treaty is a constituent instrument of an international organization, a reservation to this treaty is established with regard to the other contracting States and contracting organizations if it is permissible and was formulated in accordance with the required form and procedures, and if it has been accepted in conformity with guidelines 2.8.8 to 2.8.11.

## **4.2 Effects of an established reservation**

### **4.2.1 Status of the author of an established reservation**

As soon as a reservation is established in accordance with guidelines 4.1 to 4.1.3, its author becomes a contracting State or contracting organization to the treaty.

### **4.2.2 Effect of the establishment of a reservation on the entry into force of a treaty**

1. When a treaty has not yet entered into force, the author of a reservation shall be included in the number of contracting States and contracting organizations required for the treaty to enter into force once the reservation is established.
2. The author of the reservation may however be included at a date prior to the establishment of the reservation in the number of contracting States and contracting organizations required for the treaty to enter into force, if no contracting State or contracting organization is opposed.

### **4.2.3 Effect of the establishment of a reservation on the status of the author as a party to the treaty**

The establishment of a reservation constitutes its author a party to the treaty in relation to contracting States and contracting organizations in respect of which the reservation is established if or when the treaty is in force.

#### **4.2.4 Effect of an established reservation on treaty relations**

1. A reservation established with regard to another party excludes or modifies for the reserving State or international organization in its relations with that other party the legal effect of the provisions of the treaty to which the reservation relates or of the treaty as a whole with respect to certain specific aspects, to the extent of the reservation.
2. To the extent that an established reservation excludes the legal effect of certain provisions of a treaty, the author of that reservation has neither rights nor obligations under those provisions in its relations with the other parties with regard to which the reservation is established. Those other parties shall likewise have neither rights nor obligations under those provisions in their relations with the author of the reservation.
3. To the extent that an established reservation modifies the legal effect of certain provisions of a treaty, the author of that reservation has rights and obligations under those provisions, as modified by the reservation, in its relations with the other parties with regard to which the reservation is established. Those other parties shall have rights and obligations under those provisions, as modified by the reservation, in their relations with the author of the reservation.

#### **4.2.5 Non-reciprocal application of obligations to which a reservation relates**

Insofar as the obligations under the provisions to which the reservation relates are not subject to reciprocal application in view of the nature of the obligations or the object and purpose of the treaty, the content of the obligations of the parties other than the author of the reservation remains unaffected. The content of the obligations of those parties likewise remains unaffected when reciprocal application is not possible because of the content of the reservation.

#### **4.2.6 Interpretation of reservations**

A reservation is to be interpreted in good faith, taking into account the intention of its author as reflected primarily in the text of the reservation, as well as the object and purpose of the treaty and the circumstances in which the reservation was formulated.

#### **4.3 Effect of an objection to a valid reservation**

Unless the reservation has been established with regard to an objecting State or organization, the formulation of an objection to a valid reservation precludes the reservation from having its intended effects as against that State or international organization.

##### **4.3.1 Effect of an objection on the entry into force of the treaty as between the author of the objection and the author of a reservation**

An objection by a contracting State or by a contracting organization to a valid reservation does not preclude the entry into force of the treaty as between the objecting State or organization and the reserving State or organization, except in the case mentioned in guideline 4.3.5.

##### **4.3.2 Effect of an objection to a reservation that is formulated late**

If a contracting State or a contracting organization to a treaty objects to a reservation whose late formulation has been unanimously accepted in accordance with guideline 2.3.1, the treaty shall enter into or remain in force in respect of the reserving State or international organization without the reservation being established.

##### **4.3.3 Entry into force of the treaty between the author of a reservation and the author of an objection**

The treaty enters into force between the author of a valid reservation and the objecting contracting State or contracting organization as soon as the author of the reservation has become a contracting State or a contracting organization in accordance with guideline 4.2.1 and the treaty has entered into force.

##### **4.3.4 Non-entry into force of the treaty for the author of a reservation when unanimous acceptance is required**

If the establishment of a reservation requires the acceptance of the reservation by all the contracting States and contracting organizations, any objection by a contracting State or by a contracting organization to a valid reservation precludes the entry into force of the treaty for the reserving State or organization.

**4.3.5 Non-entry into force of the treaty as between the author of a reservation and the author of an objection with maximum effect**

An objection by a contracting State or a contracting organization to a valid reservation precludes the entry into force of the treaty as between the objecting State or organization and the reserving State or organization, if the objecting State or organization has definitely expressed an intention to that effect in accordance with guideline 2.6.7.

**4.3.6 Effect of an objection on treaty relations**

1. When a State or an international organization objecting to a valid reservation has not opposed the entry into force of the treaty between itself and the reserving State or organization, the provisions to which the reservation relates do not apply as between the author of the reservation and the objecting State or organization, to the extent of the reservation.
2. To the extent that a valid reservation purports to exclude the legal effect of certain provisions of the treaty, when a contracting State or a contracting organization has raised an objection to it but has not opposed the entry into force of the treaty between itself and the author of the reservation, the objecting State or organization and the author of the reservation are not bound, in their treaty relations, by the provisions to which the reservation relates.
3. To the extent that a valid reservation purports to modify the legal effect of certain provisions of the treaty, when a contracting State or a contracting organization has raised an objection to it but has not opposed the entry into force of the treaty between itself and the author of the reservation, the objecting State or organization and the author of the reservation are not bound, in their treaty relations, by the provisions of the treaty as intended to be modified by the reservation.
4. All the provisions of the treaty other than those to which the reservation relates shall remain applicable as between the reserving State or organization and the objecting State or organization.

**4.3.7 Effect of an objection on provisions other than those to which the reservation relates**

1. A provision of the treaty to which the reservation does not relate, but which has a sufficient link with the provisions to which the reservation does relate, is not applicable in the treaty relations between the author of the reservation and the author of an objection formulated in accordance with guideline 3.4.2.
2. The reserving State or international organization may, within a period of twelve months following the notification of an objection which has the effect referred to in paragraph 1, oppose the entry into force of the treaty between itself and the objecting State or organization. In the absence of such opposition, the treaty shall apply between the author of the reservation and the author of the objection to the extent provided by the reservation and the objection.

**4.3.8 Right of the author of a valid reservation not to comply with the treaty without the benefit of its reservation**

The author of a valid reservation is not required to comply with the provisions of the treaty without the benefit of its reservation.

**4.4 Effect of a reservation on rights and obligations independent of the treaty**

**4.4.1 Absence of effect on rights and obligations under other treaties**

A reservation, acceptance of a reservation or objection to a reservation neither modifies nor excludes any rights and obligations of their authors under other treaties to which they are parties.

**4.4.2 Absence of effect on rights and obligations under customary international law**

A reservation to a treaty provision which reflects a rule of customary international law does not of itself affect the rights and obligations under that rule, which shall continue to apply as such between the reserving State or organization and other States or international organizations which are bound by that rule.

#### **4.4.3 Absence of effect on a peremptory norm of general international law (*jus cogens*)**

1. A reservation to a treaty provision which reflects a peremptory norm of general international law (*jus cogens*) does not affect the binding nature of that norm, which shall continue to apply as such between the reserving State or organization and other States or international organizations.
2. A reservation cannot exclude or modify the legal effect of a treaty in a manner contrary to a peremptory norm of general international law.

#### **4.5 Consequences of an invalid reservation**

##### **4.5.1 Nullity of an invalid reservation**

A reservation that does not meet the conditions of formal validity and permissibility set out in Parts 2 and 3 of the Guide to Practice is null and void, and therefore devoid of any legal effect.

##### **4.5.2 Reactions to a reservation considered invalid**

1. The nullity of an invalid reservation does not depend on the objection or the acceptance by a contracting State or a contracting organization.
2. Nevertheless, a State or an international organization which considers that a reservation is invalid should formulate a reasoned objection as soon as possible.

##### **4.5.3 Status of the author of an invalid reservation in relation to the treaty**

1. The status of the author of an invalid reservation in relation to a treaty depends on the intention expressed by the reserving State or international organization on whether it intends to be bound by the treaty without the benefit of the reservation or whether it considers that it is not bound by the treaty.
2. Unless the author of the invalid reservation has expressed a contrary intention or such an intention is otherwise established, it is considered a contracting State or a contracting organization without the benefit of the reservation.
3. Notwithstanding paragraphs 1 and 2, the author of the invalid reservation may express at any time its intention not to be bound by the treaty without the benefit of the reservation.
4. If a treaty monitoring body expresses the view that a reservation is invalid and the reserving State or international organization intends not to be bound by the treaty without the benefit of the reservation, it should express its intention to that effect within a period of twelve months from the date at which the treaty monitoring body made its assessment.

#### **4.6 Absence of effect of a reservation on the relations between the other parties to the treaty**

A reservation does not modify the provisions of the treaty for the other parties to the treaty *inter se*.

#### **4.7 Effect of interpretative declarations**

##### **4.7.1 Clarification of the terms of the treaty by an interpretative declaration**

1. An interpretative declaration does not modify treaty obligations. It may only specify or clarify the meaning or scope which its author attributes to a treaty or to certain provisions thereof and may, as appropriate, constitute an element to be taken into account in interpreting the treaty in accordance with the general rule of interpretation of treaties.
2. In interpreting the treaty, account shall also be taken, as appropriate, of the approval of, or opposition to, the interpretative declaration, by other contracting States or contracting organizations.

##### **4.7.2 Effect of the modification or the withdrawal of an interpretative declaration**

The modification or the withdrawal of an interpretative declaration may not produce the effects provided for in guideline 4.7.1 to the extent that other contracting States or contracting organizations have relied upon the initial declaration.

**4.7.3 Effect of an interpretative declaration approved by all the contracting States and contracting organizations**

An interpretative declaration that has been approved by all the contracting States and contracting organizations may constitute an agreement regarding the interpretation of the treaty.

**5. Reservations, acceptances of reservations, objections to reservations, and interpretative declarations in cases of succession of States**

**5.1 Reservations in cases of succession of States**

**5.1.1 Newly independent States**

1. When a newly independent State establishes its status as a party or as a contracting State to a multilateral treaty by a notification of succession, it shall be considered as maintaining any reservation to that treaty which was applicable at the date of the succession of States in respect of the territory to which the succession of States relates unless, when making the notification of succession, it expresses a contrary intention or formulates a reservation which relates to the same subject matter as that reservation.

2. When making a notification of succession establishing its status as a party or as a contracting State to a multilateral treaty, a newly independent State may formulate a reservation unless the reservation is one the formulation of which would be excluded by the provisions of subparagraph (a), (b) or (c) of guideline 3.1.

3. When a newly independent State formulates a reservation in conformity with paragraph 2, the relevant rules set out in Part 2 (Procedure) of the Guide to Practice apply in respect of that reservation.

4. For the purposes of this Part of the Guide to Practice, “newly independent State” means a successor State the territory of which immediately before the date of the succession of States was a dependent territory for the international relations of which the predecessor State was responsible.

**5.1.2 Uniting or separation of States**

1. Subject to the provisions of guideline 5.1.3, a successor State which is a party to a treaty as the result of a uniting or separation of States shall be considered as maintaining any reservation to the treaty which was applicable at the date of the succession of States in respect of the territory to which the succession of States relates, unless it expresses its intention not to maintain one or more reservations of the predecessor State at the time of the succession.

2. A successor State which is a party to a treaty as the result of a uniting or separation of States may neither formulate a new reservation nor widen the scope of a reservation that is maintained.

3. When a successor State formed from a uniting or separation of States makes a notification whereby it establishes its status as a contracting State to a treaty which, at the date of the succession of States, was not in force for the predecessor State but to which the predecessor State was a contracting State, that State shall be considered as maintaining any reservation to the treaty which was applicable at the date of the succession of States in respect of the territory to which the succession of States relates, unless it expresses a contrary intention when making the notification or formulates a reservation which relates to the same subject matter as that reservation. That successor State may formulate a new reservation to the treaty.

4. A successor State may formulate a reservation in accordance with paragraph 3 only if the reservation is one the formulation of which would not be excluded by the provisions of subparagraph (a), (b) or (c) of guideline 3.1. The relevant rules set out in Part 2 (Procedure) of the Guide to Practice apply in respect of that reservation.

**5.1.3 Irrelevance of certain reservations in cases involving a uniting of States**

When, following a uniting of two or more States, a treaty in force at the date of the succession of States in respect of any of them continues in force in respect of the successor State, such reservations as may have been formulated by any such State which, at the date of the succession of States, was a contracting State in respect of which the treaty was not in force shall not be maintained.

#### **5.1.4 Maintenance of the territorial scope of reservations formulated by the predecessor State**

Subject to the provisions of guideline 5.1.5, a reservation considered as being maintained in conformity with guideline 5.1.1, paragraph 1, or guideline 5.1.2, paragraph 1 or 3, shall retain the territorial scope that it had at the date of the succession of States, unless the successor State expresses a contrary intention.

#### **5.1.5 Territorial scope of reservations in cases involving a uniting of States**

1. When, following a uniting of two or more States, a treaty in force at the date of the succession of States in respect of only one of the States forming the successor State becomes applicable to a part of the territory of that State to which it did not apply previously, any reservation considered as being maintained by the successor State shall apply to that territory unless:

(a) the successor State expresses a contrary intention when making the notification extending the territorial scope of the treaty; or

(b) the nature or purpose of the reservation is such that the reservation cannot be extended beyond the territory to which it was applicable at the date of the succession of States.

2. When, following a uniting of two or more States, a treaty in force at the date of the succession of States in respect of two or more of the uniting States becomes applicable to a part of the territory of the successor State to which it did not apply at the date of the succession of States, no reservation shall extend to that territory unless:

(a) an identical reservation has been formulated by each of those States in respect of which the treaty was in force at the date of the succession of States;

(b) the successor State expresses a different intention when making the notification extending the territorial scope of the treaty; or

(c) a contrary intention otherwise becomes apparent from the circumstances surrounding that State's succession to the treaty.

3. A notification purporting to extend the territorial scope of a reservation in accordance with paragraph 2 (b) shall be without effect if such an extension would give rise to the application of contradictory reservations to the same territory.

4. The provisions of paragraphs 1 to 3 apply *mutatis mutandis* to reservations considered as being maintained by a successor State that is a contracting State, following a uniting of States, to a treaty which was not in force for any of the uniting States at the date of the succession of States but to which one or more of those States were contracting States at that date, when the treaty becomes applicable to a part of the territory of the successor State to which it did not apply at the date of the succession of States.

#### **5.1.6 Territorial scope of reservations of the successor State in cases of succession involving part of territory**

When, as a result of a succession of States involving part of the territory of a State, a treaty to which the successor State is a contracting State becomes applicable to that territory, any reservation to the treaty formulated previously by that State shall also apply to that territory as from the date of the succession of States unless:

(a) the successor State expresses a contrary intention; or

(b) it appears from the reservation that its scope was limited to the territory of the successor State that was within its borders prior to the date of the succession of States, or to a part of this territory.

#### **5.1.7 Timing of the effects of non-maintenance by a successor State of a reservation formulated by the predecessor State**

The non-maintenance, in conformity with guideline 5.1.1 or 5.1.2, by the successor State of a reservation formulated by the predecessor State becomes operative in relation to another contracting State or a contracting organization only when notice of it has been received by that State or organization.

### **5.1.8 Late formulation of a reservation by a successor State**

A reservation shall be considered as late if it is formulated:

- (a) by a newly independent State after it has made a notification of succession to the treaty;
- (b) by a successor State other than a newly independent State after it has made a notification establishing its status as a contracting State to a treaty which, at the date of the succession of States, was not in force for the predecessor State but in respect of which the predecessor State was a contracting State; or
- (c) by a successor State other than a newly independent State in respect of a treaty which, following the succession of States, continues in force for that State.

## **5.2 Objections to reservations in cases of succession of States**

### **5.2.1 Maintenance by the successor State of objections formulated by the predecessor State**

Subject to the provisions of guideline 5.2.2, a successor State shall be considered as maintaining any objection formulated by the predecessor State to a reservation formulated by a contracting State or contracting organization, unless it expresses a contrary intention at the time of the succession.

### **5.2.2 Irrelevance of certain objections in cases involving a uniting of States**

1. When, following a uniting of two or more States, a treaty in force at the date of the succession of States in respect of any of them continues in force in respect of the State so formed, such objections to a reservation as may have been formulated by any of those States in respect of which the treaty was not in force on the date of the succession of States shall not be maintained.
2. When, following a uniting of two or more States, the successor State is a contracting State to a treaty to which it has maintained reservations in conformity with guideline 5.1.1 or 5.1.2, objections to a reservation made by another contracting State or a contracting organization shall not be maintained if the reservation is identical or equivalent to a reservation which the successor State itself has maintained.

### **5.2.3 Maintenance of objections to reservations of the predecessor State**

When a reservation formulated by the predecessor State is considered as being maintained by the successor State in conformity with guideline 5.1.1 or 5.1.2, any objection to that reservation formulated by another contracting State or by a contracting organization shall be considered as being maintained in respect of the successor State.

### **5.2.4 Reservations of the predecessor State to which no objections have been made**

When a reservation formulated by the predecessor State is considered as being maintained by the successor State in conformity with guideline 5.1.1 or 5.1.2, a State or an international organization that had not formulated an objection to the reservation in respect of the predecessor State may not object to it in respect of the successor State, unless:

- (a) the time period for formulating an objection has not yet expired at the date of the succession of States and the objection is made within that time period; or
- (b) the territorial extension of the reservation radically changes the conditions for the operation of the reservation.

### **5.2.5 Right of a successor State to formulate objections to reservations**

1. When making a notification of succession establishing its status as a contracting State, a newly independent State may, in accordance with the relevant guidelines, formulate an objection to reservations formulated by a contracting State or a contracting organization, even if the predecessor State made no such objection.
2. A successor State, other than a newly independent State, shall also have the right provided for in paragraph 1 when making a notification establishing its status as a contracting State to a treaty which, at the date of the succession of States, was not in force for the predecessor State but in respect of which the predecessor State was a contracting State.

3. The right referred to in paragraphs 1 and 2 is nonetheless excluded in the case of treaties falling under guidelines 2.8.7 and 4.1.2.

**5.2.6 Objections by a successor State other than a newly independent State in respect of which a treaty continues in force**

A successor State, other than a newly independent State, in respect of which a treaty continues in force following a succession of States may not formulate an objection to a reservation to which the predecessor State had not objected, unless the time period for formulating an objection has not yet expired at the date of the succession of States and the objection is made within that time period.

**5.3 Acceptances of reservations in cases of succession of States**

**5.3.1 Maintenance by a newly independent State of express acceptances formulated by the predecessor State**

When a newly independent State establishes its status as a contracting State to a treaty, it shall be considered as maintaining any express acceptance by the predecessor State of a reservation formulated by a contracting State or by a contracting organization, unless it expresses a contrary intention within twelve months of the date of the notification of succession.

**5.3.2 Maintenance by a successor State other than a newly independent State of express acceptances formulated by the predecessor State**

1. A successor State, other than a newly independent State, in respect of which a treaty continues in force following a succession of States shall be considered as maintaining any express acceptance by the predecessor State of a reservation formulated by a contracting State or by a contracting organization.

2. When making a notification of succession establishing its status as a contracting State to a treaty which, on the date of the succession of States, was not in force for the predecessor State but to which the predecessor State was a contracting State, a successor State other than a newly independent State shall be considered as maintaining any express acceptance by the predecessor State of a reservation formulated by a contracting State or by a contracting organization, unless it expresses a contrary intention within twelve months of the date of the notification of succession.

**5.3.3 Timing of the effects of non-maintenance by a successor State of an express acceptance formulated by the predecessor State**

The non-maintenance, in conformity with guideline 5.3.1 or guideline 5.3.2, paragraph 2, by the successor State of the express acceptance by the predecessor State of a reservation formulated by a contracting State or a contracting organization becomes operative in relation to a contracting State or a contracting organization only when notice of it has been received by that State or that organization.

**5.4 Legal effects of reservations, acceptances and objections in cases of succession of States**

1. Reservations, acceptances and objections considered as being maintained pursuant to the guidelines contained in this Part of the Guide to Practice shall continue to produce their legal effects in conformity with the provisions of Part 4 of the Guide.

## **Part one**

### **Introduction**

#### *Article 1*

##### *Scope*

The present articles apply to:

- (a) Utilization of transboundary aquifers or aquifer systems;

---

<sup>89</sup> *Report of the United Nations Conference on Environment and Development, Rio de Janeiro, 3–14 June 1992*, vol. I, *Resolutions Adopted by the Conference* (United Nations publication, Sales No. E.93.I.8 and corrigendum), resolution 1, annex I.

<sup>90</sup> *Ibid.*, annex II.

- (b) Other activities that have or are likely to have an impact upon such aquifers or aquifer systems; and
- (c) Measures for the protection, preservation and management of such aquifers or aquifer systems.

*Article 2*

*Use of terms*

For the purposes of the present articles:

- (a) “aquifer” means a permeable water-bearing geological formation underlain by a less permeable layer and the water contained in the saturated zone of the formation;
- (b) “aquifer system” means a series of two or more aquifers that are hydraulically connected;
- (c) “transboundary aquifer” or “transboundary aquifer system” means, respectively, an aquifer or aquifer system, parts of which are situated in different States;
- (d) “aquifer State” means a State in whose territory any part of a transboundary aquifer or aquifer system is situated;
- (e) “utilization of transboundary aquifers or aquifer systems” includes extraction of water, heat and minerals, and storage and disposal of any substance;
- (f) “recharging aquifer” means an aquifer that receives a non-negligible amount of contemporary water recharge;
- (g) “recharge zone” means the zone which contributes water to an aquifer, consisting of the catchment area of rainfall water and the area where such water flows to an aquifer by run-off on the ground and infiltration through soil;
- (h) “discharge zone” means the zone where water originating from an aquifer flows to its outlets, such as a watercourse, a lake, an oasis, a wetland or an ocean.

**Part two**

**General principles**

*Article 3*

*Sovereignty of aquifer States*

Each aquifer State has sovereignty over the portion of a transboundary aquifer or aquifer system located within its territory. It shall exercise its sovereignty in accordance with international law and the present articles.

*Article 4*

*Equitable and reasonable utilization*

Aquifer States shall utilize transboundary aquifers or aquifer systems according to the principle of equitable and reasonable utilization, as follows:

- (a) They shall utilize transboundary aquifers or aquifer systems in a manner that is consistent with the equitable and reasonable accrual of benefits therefrom to the aquifer States concerned;
- (b) They shall aim at maximizing the long-term benefits derived from the use of water contained therein;
- (c) They shall establish individually or jointly a comprehensive utilization plan, taking into account present and future needs of, and alternative water sources for, the aquifer States; and
- (d) They shall not utilize a recharging transboundary aquifer or aquifer system at a level that would prevent continuance of its effective functioning.

*Article 5*

*Factors relevant to equitable and reasonable utilization*

1. Utilization of a transboundary aquifer or aquifer system in an equitable and reasonable manner within the meaning of article 4 requires taking into account all relevant factors, including:

- (a) The population dependent on the aquifer or aquifer system in each aquifer State;

- (b) The social, economic and other needs, present and future, of the aquifer States concerned;
  - (c) The natural characteristics of the aquifer or aquifer system;
  - (d) The contribution to the formation and recharge of the aquifer or aquifer system;
  - (e) The existing and potential utilization of the aquifer or aquifer system;
  - (f) The actual and potential effects of the utilization of the aquifer or aquifer system in one aquifer State on other aquifer States concerned;
  - (g) The availability of alternatives to a particular existing and planned utilization of the aquifer or aquifer system;
  - (h) The development, protection and conservation of the aquifer or aquifer system and the costs of measures to be taken to that effect;
  - (i) The role of the aquifer or aquifer system in the related ecosystem.
2. The weight to be given to each factor is to be determined by its importance with regard to a specific transboundary aquifer or aquifer system in comparison with that of other relevant factors. In determining what is equitable and reasonable utilization, all relevant factors are to be considered together and a conclusion reached on the basis of all the factors. However, in weighing different kinds of utilization of a transboundary aquifer or aquifer system, special regard shall be given to vital human needs.

*Article 6*

*Obligation not to cause significant harm*

1. Aquifer States shall, in utilizing transboundary aquifers or aquifer systems in their territories, take all appropriate measures to prevent the causing of significant harm to other aquifer States or other States in whose territory a discharge zone is located.
2. Aquifer States shall, in undertaking activities other than utilization of a transboundary aquifer or aquifer system that have, or are likely to have, an impact upon that transboundary aquifer or aquifer system, take all appropriate measures to prevent the causing of significant harm through that aquifer or aquifer system to other aquifer States or other States in whose territory a discharge zone is located.
3. Where significant harm nevertheless is caused to another aquifer State or a State in whose territory a discharge zone is located, the aquifer State whose activities cause such harm shall take, in consultation with the affected State, all appropriate response measures to eliminate or mitigate such harm, having due regard for the provisions of articles 4 and 5.

*Article 7*

*General obligation to cooperate*

1. Aquifer States shall cooperate on the basis of sovereign equality, territorial integrity, sustainable development, mutual benefit and good faith in order to attain equitable and reasonable utilization and appropriate protection of their transboundary aquifers or aquifer systems.
2. For the purpose of paragraph 1, aquifer States should establish joint mechanisms of cooperation.

*Article 8*

*Regular exchange of data and information*

1. Pursuant to article 7, aquifer States shall, on a regular basis, exchange readily available data and information on the condition of their transboundary aquifers or aquifer systems, in particular of a geological, hydrogeological, hydrological, meteorological and ecological nature and related to the hydrochemistry of the aquifers or aquifer systems, as well as related forecasts.
2. Where knowledge about the nature and extent of a transboundary aquifer or aquifer system is inadequate, aquifer States concerned shall employ their best efforts to collect and generate more complete data and information

relating to such aquifer or aquifer system, taking into account current practices and standards. They shall take such action individually or jointly and, where appropriate, together with or through international organizations.

3. If an aquifer State is requested by another aquifer State to provide data and information relating to an aquifer or aquifer system that are not readily available, it shall employ its best efforts to comply with the request. The requested State may condition its compliance upon payment by the requesting State of the reasonable costs of collecting and, where appropriate, processing such data or information.

4. Aquifer States shall, where appropriate, employ their best efforts to collect and process data and information in a manner that facilitates their utilization by the other aquifer States to which such data and information are communicated.

*Article 9*

*Bilateral and regional agreements and arrangements*

For the purpose of managing a particular transboundary aquifer or aquifer system, aquifer States are encouraged to enter into bilateral or regional agreements or arrangements among themselves. Such agreements or arrangements may be entered into with respect to an entire aquifer or aquifer system or any part thereof or a particular project, programme or utilization except insofar as an agreement or arrangement adversely affects, to a significant extent, the utilization by one or more other aquifer States of the water in that aquifer or aquifer system, without their express consent.

**Part three**

**Protection, preservation and management**

*Article 10*

*Protection and preservation of ecosystems*

Aquifer States shall take all appropriate measures to protect and preserve ecosystems within, or dependent upon, their transboundary aquifers or aquifer systems, including measures to ensure that the quality and quantity of water retained in an aquifer or aquifer system, as well as that released through its discharge zones, are sufficient to protect and preserve such ecosystems.

*Article 11*

*Recharge and discharge zones*

1. Aquifer States shall identify the recharge and discharge zones of transboundary aquifers or aquifer systems that exist within their territory. They shall take appropriate measures to prevent and minimize detrimental impacts on the recharge and discharge processes.

2. All States in whose territory a recharge or discharge zone is located, in whole or in part, and which are not aquifer States with regard to that aquifer or aquifer system, shall cooperate with the aquifer States to protect the aquifer or aquifer system and related ecosystems.

*Article 12*

*Prevention, reduction and control of pollution*

Aquifer States shall, individually and, where appropriate, jointly, prevent, reduce and control pollution of their transboundary aquifers or aquifer systems, including through the recharge process, that may cause significant harm to other aquifer States. Aquifer States shall take a precautionary approach in view of uncertainty about the nature and extent of a transboundary aquifer or aquifer system and of its vulnerability to pollution.

*Article 13*

*Monitoring*

1. Aquifer States shall monitor their transboundary aquifers or aquifer systems. They shall, wherever possible, carry out these monitoring activities jointly with other aquifer States concerned and, where appropriate, in collaboration with competent international organizations. Where monitoring activities cannot be carried out jointly, the aquifer States shall exchange the monitored data among themselves.

2. Aquifer States shall use agreed or harmonized standards and methodology for monitoring their transboundary aquifers or aquifer systems. They should identify key parameters that they will monitor based on an agreed conceptual model of the aquifers or aquifer systems. These parameters should include parameters on the condition of the aquifer or aquifer system as listed in article 8, paragraph 1, and also on the utilization of the aquifers or aquifer systems.

*Article 14*  
*Management*

Aquifer States shall establish and implement plans for the proper management of their transboundary aquifers or aquifer systems. They shall, at the request of any of them, enter into consultations concerning the management of a transboundary aquifer or aquifer system. A joint management mechanism shall be established, wherever appropriate.

*Article 15*  
*Planned activities*

1. When a State has reasonable grounds for believing that a particular planned activity in its territory may affect a transboundary aquifer or aquifer system and thereby may have a significant adverse effect upon another State, it shall, as far as practicable, assess the possible effects of such activity.

2. Before a State implements or permits the implementation of planned activities which may affect a transboundary aquifer or aquifer system and thereby may have a significant adverse effect upon another State, it shall provide that State with timely notification thereof. Such notification shall be accompanied by available technical data and information, including any environmental impact assessment, in order to enable the notified State to evaluate the possible effects of the planned activities.

3. If the notifying and the notified States disagree on the possible effect of the planned activities, they shall enter into consultations and, if necessary, negotiations with a view to arriving at an equitable resolution of the situation. They may utilize an independent fact-finding body to make an impartial assessment of the effect of the planned activities.

**Part four**  
**Miscellaneous provisions**

*Article 16*  
*Technical cooperation with developing States*

States shall, directly or through competent international organizations, promote scientific, educational, technical, legal and other cooperation with developing States for the protection and management of transboundary aquifers or aquifer systems, including, inter alia:

- (a) Strengthening their capacity-building in scientific, technical and legal fields;

*Article 17*

*Emergency situations*

1. For the purpose of the present article, “emergency” means a situation, resulting suddenly from natural causes or from human conduct, that affects a transboundary aquifer or aquifer system and poses an imminent threat of causing serious harm to aquifer States or other States.
2. The State within whose territory the emergency originates shall:
  - (a) Without delay and by the most expeditious means available, notify other potentially affected States and competent international organizations of the emergency;
  - (b) In cooperation with potentially affected States and, where appropriate, competent international organizations, immediately take all practicable measures necessitated by the circumstances to prevent, mitigate and eliminate any harmful effect of the emergency.
3. Where an emergency poses a threat to vital human needs, aquifer States, notwithstanding articles 4 and 6, may take measures that are strictly necessary to meet such needs.
4. States shall provide scientific, technical, logistical and other cooperation to other States experiencing an emergency. Cooperation may include coordination of international emergency actions and communications, making available emergency response personnel, emergency response equipment and supplies, scientific and technical expertise and humanitarian assistance.

*Article 18*

*Protection in time of armed conflict*

Transboundary aquifers or aquifer systems and related installations, facilities and other works shall enjoy the protection accorded by the principles and rules of international law applicable in international and non-international armed conflict and shall not be used in violation of those principles and rules.

*Article 19*

*Data and information vital to national defence or security*

Nothing in the present articles obliges a State to provide data or information vital to its national defence or security. Nevertheless, that State shall cooperate in good faith with other States with a view to providing as much information as possible under the circumstances.
