III. RECOMMENDATION OF THE FIRST COMMITTEE

7. The First Committee recommends to the General Assembly the adoption of the following draft resolution:

Amendment of the Treaty Banning Nuclear Weapon Tests in  
the Atmosphere, in Outer Space and under Water

The General Assembly,

Recalling its resolutions 44/106 of 15 December 1989, 45/50 of 4 December 1990, 46/28 of 6 December 1991 and 47/46 of 9 December 1992,

Reiterating its conviction that a comprehensive nuclear-test-ban treaty is the highest-priority measure for the cessation of the nuclear-arms race and for the achievement of the objective of nuclear disarmament,

Recalling the central role of the United Nations in the field of nuclear disarmament and in particular in the cessation of all nuclear-test explosions, as well as the persistent efforts of non-governmental organizations in the achievement of a comprehensive nuclear-test-ban treaty,

Conscious of the growing environmental concerns throughout the world and of the past and potential negative effects of nuclear testing on the environment,

Recalling its resolution 1910 (XVIII) of 27 November 1963, in which it noted with approval the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water, 2/ signed on 5 August 1963, and requested the Conference of the Eighteen-Nation Committee on Disarmament 3/ to continue with a sense of urgency its negotiations to achieve the objectives set forth in the preamble to the Treaty,

Recalling also that more than one third of the parties to the Treaty requested the Depositary Governments to convene a conference to consider an amendment that would convert the Treaty into a comprehensive test-ban treaty,

Recalling further that a substantive session of the Amendment Conference of the States Parties to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water was held in New York from 7 to 18 January 1991,

Reiterating its conviction that the Amendment Conference will facilitate the attainment of the objectives set forth in the Treaty and thus serve to strengthen it,

2/ United Nations, Treaty Series, vol. 480, No. 6964.

3/ The Committee on Disarmament was redesignated the Conference on Disarmament as from 7 February 1984.

Noting with satisfaction the unilateral nuclear-test moratoria announced by several nuclear-weapon States,

Welcoming the decision of the Conference on Disarmament to give its Ad Hoc Committee a mandate to negotiate a comprehensive test ban,

Recalling its recommendation that arrangements be made to ensure that intensive efforts continue, under the auspices of the Amendment Conference, until a comprehensive nuclear-test-ban treaty is achieved, and its call that all parties participate in, and contribute to the success of, the Amendment Conference,

Recalling also the decision adopted by the Amendment Conference 4/ to the effect that, since further work needed to be undertaken on certain aspects of a comprehensive test-ban treaty, especially those with regard to verification of compliance and possible sanctions against non-compliance, the President of the Conference should conduct consultations with a view to achieving progress on those issues and to resuming the work of the Conference at an appropriate time,

Welcoming the ongoing consultations being conducted by the President of the Amendment Conference,

1. Notes the Concluding Statement 5/ made by the President of the Amendment Conference at the special meeting of the States parties to the Treaty Banning

Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water, held on 10 August 1993, in which broad agreement was found for:

(a) Pursuing work for a comprehensive test ban in the Amendment Conference and the Conference on Disarmament in a mutually supportive and mutually complementary manner;

(b) Holding another special meeting early in 1994 to review developments and assess the situation regarding a comprehensive test ban and to examine the feasibility of resuming the work of the Amendment Conference later that year;

(c) Promoting universality of a comprehensive test ban, by having the President of the Amendment Conference liaise closely with the Conference on Disarmament and the five nuclear-weapon States;

2. Recommends that arrangements should be made to ensure the fullest possible participation of non-governmental organizations in the Amendment Conference;

3. Reiterates its conviction that, pending the conclusion of a comprehensive nuclear-test-ban treaty, the nuclear-weapon States should suspend
