## Letters of transmittal

[31 March 2006]

In accordance with financial regulation 6.5 and rule 106.1 of the United Nations, I have the honour to transmit the financial report and accounts of the United Nations Human Settlements Programme, including associated trust funds and other related accounts, for the biennium 2004-2005 ended 31 December 2005, which I hereby approve.

Copies of these statements are made available to both the Advisory Committee on Administrative and Budgetary Questions and the Board of Auditors.

(Signed) Anna Kajumulo **Tibaijuka**  
Executive Director  
United Nations Human Settlements Programme

Chairman, Board of Auditors  
United Nations Headquarters  
New York

[28 July 2006]

I have the honour to transmit to you the report of the Board of Auditors on the financial statements of the United Nations Human Settlements Programme for the biennium ended 31 December 2005.

*(Signed)* Guillermo N. **Carague**  
Chairman, Philippine Commission on Audit and  
Chairman United Nations Board of Auditors

The President of the General Assembly of the United Nations  
New York

## Chapter I

### **Financial report for the biennium 2004-2005 ended 31 December 2005**

#### **A. Introduction**

1. The Executive Director has the honour to submit herewith the financial report together with the financial statements of the United Nations Human Settlements Programme (UN-Habitat), including associated trust funds and other related accounts, for the biennium 2004-2005 ended 31 December 2005. The accounts consist of seven statements supported by five schedules and notes to the financial statements. The accounts were transmitted to the Board of Auditors on 31 March 2006.

2. As prescribed by financial regulation 1.2, the financial period of the Organization consists of two consecutive calendar years, the first one being an even year. The Board of Auditors conducted an interim audit on these accounts and did not report to the Advisory Committee on Administrative and Budgetary Questions any situations that should be brought to the attention of Member States.

3. The General Assembly, in its resolution 56/206 of 21 December 2001, elevated UN-Habitat to the status of a United Nations programme. Commencing in 2004, to reflect the full activities of UN-Habitat, and with the agreement of the United Nations Secretariat, a combined financial report has been prepared for the United Nations Human Settlements Programme incorporating both technical cooperation activities and the United Nations Habitat and Human Settlements Foundation. The reporting of UN-Habitat technical cooperation activities as part of the financial statements prepared by the United Nations Secretariat was then discontinued.

4. Comparative figures for the biennium 2002-2003 have been restated to achieve consistency and comparability as appropriate. The length of the financial report has been kept to a minimum in accordance with United Nations guidelines.

5. The financial statements and schedules, as well as the notes thereon, are an integral part of the financial report.

#### **B. Level of appropriations, allocations/allotments, expenditures and commitments**

6. The UN-Habitat Governing Council, in its decision 19/2 of 9 May 2003, approved for the biennium 2004-2005 a budget of \$44,412,900 for the expenditures of the Foundation. The Governing Council further endorsed the budget targets of the Executive Director and authorized her, subject to availability of resources and in consultation with the Committee of Permanent Representatives, to make commitments above the level of \$44,412,900 up to \$50,520,500. Further, the Governing Council at its twentieth session, in April 2005, acknowledged a revised budget of \$67,019,500 for the biennium 2004-2005.

7. The total expenditures remained within the budget allocations approved by the Governing Council. Total allocations and expenditures for the Foundation for the biennium 2004-2005 were as follows:

(Thousands of United States dollars)

	<i>Allocations</i>	<i>Expenditures</i>	<i>Unexpended allocations</i>
Programme activities	14 787	13 155	1 632
Project activities			
Non-earmarked	4 314	3 709	605
Earmarked	40 420	32 865	7 555
Water and sanitation trust fund	14 412	13 946	466
Palestinian trust fund	755	480	275
Programme support cost activities	2 675	2 192	483
<b>Total</b>	<b>77 363</b>	<b>66 347</b>	<b>11 016</b>

### C. Status of contributions

8. The United Nations Habitat and Human Settlements Foundation received non-earmarked pledges and contributions amounting to \$21,041,290 during the biennium (see schedule 5.2). In addition, the Foundation received \$22,735,006 for the water and sanitation trust fund, \$713,927 for the Special Human Settlements Programme for the Palestinian People and \$35,238,823 in other earmarked contributions during the biennium 2004-2005. The Executive Director accepted those contributions for purposes consistent with those of the Programme under her delegated authority, in line with the provisions in the special annex for the United Nations Habitat and Human Settlements Foundation to the Financial Regulations and Rules of the United Nations, ST/SGB/UNHHSF Financial Rules/3 (1978), rule 307.5.

9. The Governing Council, in its decision 19/2, approved an increase in the general-purpose statutory reserve for the Foundation from \$1,002,663 to \$2,419,100 for the biennium 2004-2005 (statement IV).

## Chapter II

# Report of the Board of Auditors

### *Summary*

The Board of Auditors has reviewed the operations of the United Nations Human Settlements Programme (UN-Habitat) for the biennium ended 31 December 2005 at its headquarters and three regional offices. The Board has also audited the financial statements of UN-Habitat for the biennium ended 31 December 2005.

The Board issued an unqualified audit opinion on the financial statements of UN-Habitat for the biennium ended 31 December 2005, as reflected in chapter III.

### **Implementation of previous recommendations**

The Board evaluated the ageing of its previous recommendations that had not yet been fully implemented and has indicated the financial period in which such recommendations were first made in the annex to the present chapter. Of the 14 recommendations 10 (71 per cent) had been implemented while 4 (29 per cent) were under implementation. Of the four recommendations not yet fully implemented, three related to the biennium 2002-2003 and one related to 2000-2001.

### **Financial overview for the biennium ended 31 December 2005**

For the biennium 2004-2005, the Programme's total income of \$228.48 million exceeded total expenditure of \$169.28 million before prior-period adjustments. The increase in income of \$121.53 million (114 per cent) compared to the previous biennium was due mainly to the increase in contributions from Governments and public donors by 159 per cent. The total expenditure increased by \$74.51 million (79 per cent) compared with \$94.78 million in the biennium 2002-2003.

Total assets increased by \$89.92 million (140 per cent) from \$64.11 million in 2003. The net increase is attributable to the increase in the investment in the cash pool by 91 per cent, from \$54.61 million to \$104.04 million. The increase in total liabilities of \$30.84 million (87 per cent) from \$35.29 million in 2003 to \$66.13 million in 2005 was due mainly to the increase in unliquidated obligations by 131 per cent. Total liabilities comprised 90 per cent unliquidated obligations and 10 per cent accounts payable.

The UN-Habitat Governing Council, in its decision 19/2 of 9 May 2003, approved an increase in the general-purpose statutory reserve for the United Nations Habitat and Human Settlements Foundation from \$1.0 million to its present level of \$2.4 million for the biennium 2004-2005. The total reserves and fund balances increased by \$59.08 million (205 per cent), from \$28.81 million in 2003 to \$87.89 million in 2005.

### **United Nations system accounting standards**

The financial statements were consistent with the United Nations system accounting standards, except for (a) the accounting for pension funds and advances from others as deferred charges instead of expenditures (disbursements) and other accounts payable, respectively, which resulted in the overstatement of the

unliquidated obligations account by \$265,699 and the accounts payable account by \$3,928; and (b) the non-recognition of the inventory of expendable items as required under paragraph 49 (iv) of the accounting standards.

#### **Presentation and disclosure of financial statements**

The “other assets” account in note 4 (b) disclosed the account balances of education grant advances, commitments against future years and others. However, it did not include the inventory of unused expendable items as at 31 December 2005, contrary to paragraph 49 (iv) of the accounting standards.

#### **Write-off of losses of cash, receivables and property**

The Administration reported the write-off of receivables of \$6,273 and non-expendable property of \$116,619. The non-expendable property reported as disposed of included \$98,306 covering the cost of five vehicles, which were recommended by the Local Property Survey Board for repair and subsequently confirmed by the Administration as having been repaired and already in operating condition.

#### **Programme management**

For the biennium 2004-2005, UN-Habitat headquarters and its regional offices implemented 467 projects, with a budget or appropriation of \$212.61 million and total expenditure of \$157.85 million for the biennium. The Board noted that:

(a) At the UN-Habitat Regional Office for Latin America and the Caribbean, expected accomplishments for the “Global Campaigns” programme were not quantified so that actual performance against expectations could not be determined as required under rule 105.4 of the Regulations and Rules Governing Programme Planning, the Programme Aspects of the Budget, the Monitoring of Implementation and the Methods of Evaluation (ST/SGB/2000/8), and in the final reporting of projects, while all accomplishments per objective were comprehensively listed, they were not organized according to project milestones;

(b) At the UN-Habitat Regional Office for Asia and the Pacific, the 90-day report summarizing project implementation status was not promptly issued for tsunami-related projects, and out of 23 ongoing projects in 2004, 5 did not have workplans, while 1 did not specify the project’s performance indicators;

(c) At the UN-Habitat Regional Office for Africa and the Arab States, activities undertaken were reported without reference to the time frame indicated in the respective workplan, and although delays and reasons for them were mentioned, slippages were not quantified and therefore were not captured in the report; and 15 projects had been completed by 31 December 2003 or earlier, but the accounts remained open as at 31 December 2004.

#### **Fund management**

Pursuant to ST/SGB/2000/13 and Corr.1, the United Nations Office at Nairobi provides financial services to UN-Habitat. The Board noted that:

(a) TDF fund receivable from the United Nations Development Programme (UNDP) had not been settled for more than five years;

(b) At the UN-Habitat Regional Office for Asia and the Pacific, fees on bank transfers were reflected in the disbursement vouchers (in journal voucher format) as charges to the foreign exchange loss/gain account instead of the bank charge account, resulting in the overstatement of the foreign exchange loss/gain account.

### **Property management**

UN-Habitat reported total acquisitions for the biennium 2004-2005 amounting to \$2.653 million. The Board noted that:

(a) Various acquisitions of non-expendable property amounting to \$2.43 million were neither included in the listing of acquisitions prepared by the Procurement, Travel and Shipping Section nor in the inventory report prepared by the outposted offices;

(b) The inventory report prepared by a contractor hired by UN-Habitat headquarters did not contain data such as purchase date, purchase amount and, in some instances, serial numbers of computer equipment; included items owned by the United Nations Environment Programme (UNEP) and the United Nations Office at Nairobi; and did not reflect the movement of property;

(c) The Regional Office for Africa and the Arab States inventory reports did not contain information such as dates on which the property was purchased or acquired or the location where it was issued;

(d) At the Regional Office for Latin America and the Caribbean, 231 items of non-expendable equipment listed in the inventory report belonged to the Municipality of Rio de Janeiro and included 30 expendable items, 7 disposed of items and 3 personal items belonging to the senior human settlements officer.

### **Human resources management**

Managing human resources and determining the resource requirements, including directing policy and guiding, supervising and implementing personnel administration policies in accordance with the staff regulations and rules are among the services provided by the United Nations Office at Nairobi to UN-Habitat. The Board noted that at the Regional Office for Latin America and the Caribbean there were no written contracts to support the payment of services by three individual contractors, contrary to the provisions of administrative instruction ST/AI/1999/7; no formal training needs assessment, training plan or monitoring system were in place for staff development; and no formal assessment/evaluation of the impact of the training on the staff and the Organization had been conducted.

### **Information and communication technology**

The Board in its previous report had raised the issue of the functionality of the Integrated Management Information System (IMIS) that automatically closed any unencumbered allotment at the end of the fiscal year. As a temporary solution, pending the receipt of the approved funding document or allotment, IMIS allowed the creation of allotments with zero balances in the next fiscal year if related allotments existed in the prior fiscal year. Those allotments would then be registered with negative balances in the project status report generated by IMIS if expenditures were charged against them.

The fund status report as at 31 December 2005 containing, inter alia, allotment, expenditure and unencumbered balance of allotment, reflected negative balances in expenditures totalling \$674,556 for seven funds. Also, the Board's review of a sample of the project status reports of the QXB fund disclosed that 5 out of 51 projects had exceeded their allotments by a total of \$361,366 and 1 project had incurred an expenditure of \$500,923 against a zero allotment.

**Fraud and presumptive fraud**

The Administration reported to the Board two cases of fraud or presumptive fraud during the biennium 2004-2005. One case pertained to a false overtime claim from March 2003 to March 2005 in the total amount of 298,386 Kenya shillings (approximately \$4,202), and the other pertained to an attempted fraud of a United Nations Office at Nairobi account with a depository bank.

**Recommendations**

A summary of the main recommendations of the Board is set out in paragraph 10 of the report.

## A. Introduction

1. The Board of Auditors has audited the financial statements and reviewed the operations of the United Nations Human Settlements Programme (UN-Habitat) for the biennium 2004-2005 in accordance with General Assembly resolution 74 (I) of 7 December 1946. The audit was conducted in conformity with article VII of the Financial Regulations and Rules of the United Nations and the annex thereto, the common auditing standards of the Panel of External Auditors of the United Nations, the specialized agencies and the International Atomic Energy Agency and the International Standards on Auditing. Those standards require that the Board plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free of material misstatement.

2. The audit was conducted primarily to enable the Board to form an opinion as to whether the expenditures recorded in the financial statements for the biennium ended 31 December 2005 had been incurred for the purposes approved by the General Assembly; whether income and expenditure had been properly classified and recorded in accordance with the Financial Regulations and Rules; and whether the financial statements of the Programme presented fairly the financial position as at 31 December 2005 and the results of its operations for the biennium then ended, in accordance with the United Nations system accounting standards. The audit included a general review of financial systems and internal controls and a test examination of the accounting records and other supporting evidence to the extent the Board considered it necessary to form an opinion on the financial statements.

3. In addition to the audit of accounts and financial transactions, the Board carried out reviews under United Nations financial regulation 7.5. The reviews focused primarily on the efficiency of financial procedures, the internal financial controls and, in general, the administration and management of UN-Habitat.

4. The audit was carried out at UN-Habitat headquarters in Nairobi and at its regional offices in Fukuoka, Japan (Regional Office for Asia and the Pacific), Rio de Janeiro, Brazil (Regional Office for Latin America and the Caribbean) and Nairobi (Regional Office for Africa and the Arab States).

5. The Board continued its practice of reporting the results of specific audits through management letters containing audit findings and recommendations to the Administration. This practice allowed an ongoing dialogue with the Administration.

6. The present report covers matters that, in the opinion of the Board, should be brought to the attention of the General Assembly. The Board's observations and conclusions were discussed with the Administration, whose views have been appropriately reflected in the report.

7. A summary of the Board's main recommendations is contained in paragraph 10 below. The detailed findings and recommendations are reported in paragraphs 15 to 102.

### 1. Previous recommendations not fully implemented

#### *Biennium ended 31 December 2003*

8. In accordance with General Assembly resolution 48/216 B of 23 December 1993, the Board reviewed the measures taken by the Administration to implement

the recommendations made in its report for the biennium ended 31 December 2003.<sup>1</sup> Details of the action taken and the comments of the Board are included in the report and have been summarized in the annex to the present chapter. The review showed that out of the 14 recommendations, 10 (71 per cent) had been implemented and 4 (29 per cent) were under implementation.

*Ageing of previous recommendations*

9. The Board evaluated the ageing of its previous recommendations that had not yet been fully implemented and indicated the financial period in which such recommendations were first made in the annex to the present chapter. Of the four recommendations not yet fully implemented, one (25 per cent) relates to the 2000-2001 period and three (75 per cent) relate to 2002-2003.

**2. Main recommendations**

**10. The Board recommends that the United Nations Human Settlements Programme:**

*United Nations system accounting standards*

(a) **Ensure that the United Nations Office at Nairobi adjust the inappropriate entries to the deferred charges account (para. 22);**

*Presentation and disclosure of financial statements*

(b) **Conduct an inventory of expendable items and account for as well as disclose them pursuant to paragraph 49 (iv) of the United Nations system accounting standards (para. 25);**

*Write-off of losses of cash, receivables and property*

(c) **Make the necessary adjustments in note 8 to the financial statements in respect of those vehicles reported as disposed of but actually in operating condition and one piece of equipment pending write-offs and awaiting disposal (para. 33);**

*Programme management*

(d) **Revise and improve the final report format such that the reported accomplishments match the groupings as presented in the project action plan for ease of evaluation (para. 45);**

(e) **Ensure that activities reported in the progress reports make reference to the time frame indicated in the approved workplans and that any slippages are quantified and indicated in the report (para. 49);**

(f) **Comply with the requirements of the biennial programme plan of UN-Habitat in the preparation of workplans (para. 52);**

---

<sup>1</sup> *Official Records of the General Assembly, Fifty-ninth Session, Supplement No. 5H (A/59/5/Add.8), chap. II.*

*Property management*

(g) **Ensure that programme managers include and report all non-expendable property acquired by outposted offices in their inventory reports in the period in which it was acquired and coordinate with the Procurement, Travel and Shipping Section of the United Nations Office at Nairobi in conjunction with the Accounts Section of the Budget and Financial Management Service to keep track of the acquisitions of outposted offices (para. 64);**

*Human resources management*

(h) **Execute contracts with individual contractors irrespective of the amount involved to ensure the faithful performance of the agreed work to be done (para. 82);**

(i) **Evaluate the performance of consultants in a timely manner and strictly ensure that final payments are not released until the final performance evaluation is issued, in accordance with administrative instruction ST/AI/1999/7 (para. 86);**

*Integrated Management Information System*

(j) **In conjunction with the United Nations Office at Nairobi, coordinate with the United Nations Secretariat in respect of the need for IMIS enhancement to prevent over-obligation or overexpenditure in technical cooperation projects and to reflect the actual financial status of projects in the IMIS-generated project status reports (para. 98).**

11. The Board's other recommendations appear in paragraphs 38, 42, 57, 61, 73, 75, 79 and 92.

### 3. Background

12. The General Assembly, in its resolution 56/206 of 21 December 2001, decided to transform the Commission on Human Settlements and its secretariat, the United Nations Centre for Human Settlements, including the United Nations Habitat and Human Settlements Foundation, with effect from 1 January 2002, into the United Nations Human Settlements Programme, to be known as UN-Habitat.

13. Commencing in 2004, to reflect the full activities of UN-Habitat and with the agreement of the United Nations Secretariat, a combined financial report is prepared for the United Nations Human Settlements Programme incorporating both technical cooperation activities and the United Nations Habitat and Human Settlements Foundation. The reporting of UN-Habitat technical cooperation activities as part of the United Nations financial statements was superseded by this combined report.

14. The functions relating to human resources management and other staff-related services, financial operations, general support services, including contracts and procurement, common conference services and library and information facilities have been managed by the United Nations Office at Nairobi since 1 January 1996.

## B. Detailed findings and recommendations

### 1. Financial overview

15. The Board performed an analysis of the financial position of UN-Habitat as at 31 December 2005 and the results of its operations and cash flows for the period then ended. Some key financial data are set out in the following table:

(Thousands of United States dollars)

	2002-2003 <sup>a</sup>	2004-2005
Total income	106 952	228 482
Total expenditure	94 777	169 283
Excess of income over expenditure	12 175	59 199
Total assets	64 106	154 028
Total liabilities	35 292	66 132
Reserves and fund balances	28 814	87 896
Cumulative surplus	11 495	19 669
<b>Major accounts</b>		
Voluntary contributions	76 038	196 580
Cash and term deposits, investments and cash pool	62 436	129 039
Unliquidated obligations	25 707	59 485

<sup>a</sup> Figures have been restated to conform to the current presentation.

16. For the biennium 2004-2005, the Programme's total income of \$228.48 million exceeded total expenditure of \$169.28 million before prior-period adjustments. The increase in income of \$121.53 million (114 per cent) over income reported in the biennium 2002-2003 was due mainly to the increase in contributions from Governments and public donors by 159 per cent. Total expenditure increased by \$74.51 million (79 per cent) compared with \$94.78 million in the biennium 2002-2003.

17. Total assets increased by \$89.92 million (140 per cent) from \$64.11 million in 2003. The net increase is attributable to the increase in the investment in the cash pool by 91 per cent, from \$54.61 million to \$104.04 million. Investment in the cash pool comprises a significant portion, 68 per cent, of total assets. The increase in total liabilities of \$30.84 million (87 per cent) from \$35.29 million in 2003 to \$66.13 million in 2005 was due mainly to the increase in unliquidated obligations by 131 per cent. Total liabilities comprise 90 per cent unliquidated obligations and 10 per cent accounts payable.

18. The Governing Council, in its decision 19/2 of 9 May 2003, approved an increase in the general-purpose statutory reserve for the Foundation from \$1.0 million to its present level of \$2.4 million for the biennium 2004-2005. The total reserves and fund balances increased by \$59.08 million (205 per cent), from \$28.81 million in 2003 to \$87.89 million in 2005.

## 2. United Nations system accounting standards

19. The Board assessed the extent to which the financial statements of UN-Habitat for the biennium 2004-2005 conformed to the United Nations system accounting standards. The review indicated that the financial statements were consistent with the standards, except for (a) the accounting for pension funds and advances from others as deferred charges instead of expenditures (disbursements) and other accounts payable, respectively, which resulted in the overstatement of the unliquidated obligations account by \$265,699 and the accounts payable account by \$3,928; and (b) the non-recognition of the inventory of expendable items as "other assets" as required under paragraph 49 (iv) of the accounting standards.

20. The Board, in its review of the composition of the other assets account, noted that the deferred charges account included debit entries relating to the TIP, QXB and FOD funds in the total amount of \$489,254, consisting of the field staff pension fund and medical insurance plan for 2005 amounting to \$485,326 and advances from others amounting to \$3,928, instead of a debit entry to the expenditure account (disbursements) and other accounts payable.

21. The Administration informed the Board that the deferred charges account had been debited for the following reasons:

(a) Pension reports were received late from UNDP and, to ensure timely reporting to the United Nations Joint Staff Pension Fund, charges were debited to the deferred charges account pending recording in the following period to the correct budget account classification;

(b) To accommodate review and clean-up of the Foundation accounts.

**22. The Board recommends that the Administration ensure that the Budget and Financial Management Service of the United Nations Office at Nairobi adjust the inappropriate entries to the deferred charges account.**

23. The Administration informed the Board that since the closure of the accounts, a total of \$235,000 had been cleared.

## 3. Presentation and disclosure of financial statements

24. In its review of the financial report and statements for the biennium 2004-2005 of UN-Habitat, the Board noted that "other assets" under note 4 (b) disclosed the account balances of education grant advances, commitments against future years and other items. Because no physical inventory was conducted of expendable items, no amount was disclosed and recognized as "other assets" representing unused expendable items as at 31 December 2005, contrary to paragraph 49 (iv) of the United Nations system accounting standards.

**25. The Board recommends that the Administration conduct an inventory of expendable items as at the end of the biennium and account for as well as disclose them pursuant to paragraph 49 (iv) of the United Nations system accounting standards.**

#### 4. Write-off of losses of cash, receivables and property

##### *Receivables*

26. The Administration reported to the Board the write-off of receivables for the biennium 2004-2005 for a total of \$6,273.

27. The summary statement of losses was submitted for the QXB and HFU funds in the total amount of \$6,273. The write-offs represented uncollectable receivables and were duly supported with requests and properly approved by the Chief, Division of Administrative Services, United Nations Office at Nairobi.

##### *Property*

28. For the biennium 2004-2005, the Administration informed the Board that there was a write-off of vehicles destroyed during the riots in Kosovo amounting to \$116,619 and a laptop computer lost through theft amounting to \$421.

29. The non-expendable property reported as disposed of included the cost of five vehicles amounting to \$98,306, which had earlier been recommended by the Local Property Survey Board for repair and subsequently confirmed to be in operating condition.

30. The Administration subsequently confirmed that the vehicles had been repaired and were in operating condition. The necessary reclassification was reflected accordingly in the inventory report.

31. The Board noted, however, that in note 8 to the financial statements, the cost of the above-mentioned five vehicles was still disclosed as written-off.

32. In another case, a car costing \$10,623 had been approved for sale by the Local Property Survey Board under case No. SS'04/0001. However, the Board noted that this case had not been disclosed in note 8 to the financial statements as "pending write-off: awaiting disposal".

33. **The Administration agreed with the Board's recommendation that it make necessary adjustments in note 8 to the financial statements in respect of those vehicles reported as disposed of but actually in operating condition and one piece of equipment pending write-off and awaiting disposal.**

#### 5. Ex gratia payments

34. The Administration informed the Board that no ex gratia payments had been made during the biennium 2004-2005.

#### 6. Programme management

35. For the biennium 2004-2005, UN-Habitat headquarters and its regional offices implemented 467 projects with a budget of \$212.61 million, composed of 60 non-earmarked projects with a budget of \$4.31 million and 407 earmarked projects with a budget of \$208.30 million. Total expenditure for the biennium was \$157.85 million, consisting of \$3.71 million for non-earmarked projects and \$154.14 million for earmarked projects. These projects were implemented by UN-Habitat and funded by multilateral, bilateral and other donors.

*Project planning*

36. UN-Habitat has embarked on a programme dubbed “Global Campaigns” to guarantee the right to housing, particularly for the poor and dispossessed. At the Regional Office for Latin America and the Caribbean, the action plan relative to this programme reflected the highlights and products as the expected accomplishments. The Board noted, however, that the expected accomplishments were not quantified so that actual performance against expectation could not be determined, as required under rule 105.4 of the Regulations and Rules Governing Programme Planning.

37. With the implementation of the Integrated Monitoring and Documentation Information System at the Regional Office for Latin America and the Caribbean, the Administration assured the Board that it could implement a standardized project performance evaluation tool.

**38. The Board recommends that the Administration quantify the expected accomplishments in order to assess performance of the Global Campaigns programme.**

*Project reporting*

39. UN-Habitat, through its regional offices in Fukuoka, Japan (Regional Office for Asia and the Pacific), and Nairobi (Regional Office for Africa and the Arab States), executed 15 tsunami-related projects amounting to \$32.2 million. Donors and country recipients were as follows:

(United States dollars)

<i>Donor</i>	<i>Amount</i>
UNDP	22 932 234
Japan	3 000 000
Italy	1 878 560
Germany	1 533 780
UNICEF	1 353 642
China	500 000
BASF	500 000
New Zealand	341 440
Spain	134 710
<b>Total</b>	<b>32 174 366</b>

  

<i>Recipient</i>	<i>Amount</i>
Indonesia	20 327 306
Sri Lanka	7 989 704
Maldives	2 263 714

<i>Recipient</i>	<i>Amount</i>
Somalia	1 353 642
Thailand	240 000
<b>Total</b>	<b>32 174 366</b>

40. As at 31 December 2005, total expenditure for the 15 projects amounted to \$9.4 million, detailed as follows:

(United States dollars)

<i>Object of expenditure</i>	<i>Amount</i>
Project personnel	2 409 477
Subcontracts	2 512 250
Training	36 534
Equipment	843 745
Miscellaneous	196 388
Microcapital grants	3 740 030
<b>Total</b>	<b>9 378 424</b>

41. In the verification of documents of three tsunami-related projects implemented by UN-Habitat, the Board noted that they were in accordance with the mandate of UN-Habitat to provide shelter to the affected inhabitants of a particular country. It was noted, however, that in the case of the project in north-eastern Somalia (Puntland), while the programmed activities had been accomplished, they had not been completed within the specified period as set out in the agreement. For example, agreements with the community and the construction of model units, which were scheduled for completion between July and September, were actually completed only in January 2006. In another instance, instead of a report covering the first 90-day period, ended 31 October 2005, a progress report covering the inception of the project to 22 January 2006 was prepared on 30 January for internal purposes only. From the progress report it was evident that there was a need to revise the budget owing to a higher cost for operational set-up, the need for site preparation and other factors. Had this information been reported on time, measures could have been taken to avert any further delay in the implementation of the project.

**42. The Board recommends that the Administration summarize the project status implementation reports, including achievements and constraints, in accordance with the agreement.**

43. The Administration informed the Board that the tsunami project in Somaliland was situated in a very remote region. In view of security problems, only two international staff had been deployed. The difficulty in logistics had resulted in some delays and increased costs, which the donor (the United Nations Children's Fund) was fully aware of. Revisions in the budget as well as progress reports taking

into account constraints in project implementation have been forwarded to the donor.

44. Section 6.1 of the UN-Habitat Manual for Project and Programme Cycle Management requires that in the final reporting of projects, the report format should correspond to the original project document for easy reference. At the Regional Office for Latin America and the Caribbean, although all the accomplishments under each objective were comprehensively listed in the final report of the projects, they were not organized according to the indicators of achievement and expected accomplishments set out in the workplan, which would have facilitated performance evaluation.

**45. The Board recommends that the Administration revise and improve the final report format such that the reported accomplishments match the groupings as presented in the project action plan for ease of evaluation.**

#### *Project monitoring*

46. At the Regional Office for Africa and the Arab States, the review of sample progress reports disclosed that activities undertaken were reported without reference to the time frame indicated in the respective workplan. The reasons for delays were mentioned, but slippages were not quantified and therefore were not captured in the report.

47. Information quantifying slippages would be a valuable input to decision makers and would guide them to take appropriate action to complete the project schedule. Furthermore, such input would provide added transparency to funding agencies and donors on the progress of the project in relation to the approved workplan.

48. The Administration informed the Board that the implementing and funding partners were aware of implementation delays and their impact on the projects. It assured the Board that progress, including delays in project implementation, were continuously discussed during the tripartite reviews. The Administration also informed the Board that progress and delays, if any, in the implementation of the projects were detailed in the substantive reports prepared for the individual donors.

**49. Pursuant to the Board's recommendation, the Administration agreed to ensure that activities reported in the progress reports make reference to the time frame indicated in the approved workplans and that any slippages are quantified and indicated in the report.**

#### *Project evaluation*

50. The operational activities or projects planned for 2004 were contained in an annual workplan in the framework of the biennial programme plan of UN-Habitat. Since many projects contributed to more than one goal, each project had been classified under one particular goal with a corresponding performance indicator by which its achievement would be measured. At the Regional Office for Asia and the Pacific, out of 23 ongoing projects in 2004, 5 did not have workplans, and performance indicators were not specified for 1 project. The absence of a project workplan makes it difficult for the Regional Office to assess whether its strategies had been effective in meeting its objectives, such as financial targets, time deadlines, post-implementation review and the submission of annual reports.

51. The Administration informed the Board that every effort was being made to integrate results-based budgeting in all projects. UN-Habitat was working on a six-year medium-term strategic and institutional plan to be presented to the Governing Council at its next session.

**52. The Board recommends that the Administration comply with the requirements of the biennial programme plan of UN-Habitat in the preparation of workplans and the provision of performance indicators to facilitate assessment of progress of projects against the target schedules and related expenditures.**

## **7. Fund management**

### *Trust funds*

53. UN-Habitat had implemented two “TDF” projects funded by the United Nations Capital Development Fund. The Board noted that those projects had been operationally completed as at 31 December 2004 and financially closed as at 31 December 2005. Records of UN-Habitat, however, showed an outstanding receivable of \$848,256 from UNDP, which the Board observed that UN-Habitat, through the United Nations Office at Nairobi, did not bill UNDP.

54. Management informed the Board that “TDF” was an IMIS fund code for projects funded by the United Nations Capital Development Fund, which included two projects (C021 and D011).

55. The Board noted that those projects had been operationally completed as at 31 December 2004 and financially closed as at 31 December 2005, as shown in IMIS and Crystal reports.

56. The Board is concerned that the non-settlement of the TDF receivable from UNDP for more than five years could be the result of inadvertently excluding the account in UN-Habitat billings to UNDP.

**57. The Board recommends that the Administration coordinate with the United Nations Office at Nairobi to review the TDF receivable and promptly bill UNDP.**

### *Imprest fund account*

58. The Regional Office for Asia and the Pacific maintained an imprest account for its regular expenditures at a level of \$120,000 a month. Those expenditures were replenished by the United Nations Office at Nairobi where the financial accounting of the Regional Office was done. All transactions in the imprest account were processed through bank-to-bank transfers, which generated bank fees at a monthly average rate of \$363, or approximately \$4,356 a year.

59. The fees on those bank transfers, however, were reflected in the disbursement vouchers (in journal voucher format) as debits to the foreign exchange loss/gain account instead of the bank charge account. This resulted in the overstatement of the foreign exchange loss/gain account.

60. The Administration informed the Board that the bank charges had been lodged in another account in view of the absence of an account specifically for bank charges.

61. **The Administration agreed with the Board's recommendation that it take, in coordination with the United Nations Office at Nairobi, the necessary steps to ensure that all bank charges are correctly classified.**

## 8. Property management

### *Acquisitions*

62. Various acquisitions of non-expendable property amounting to \$2.4 million, consisting of \$1.7 million purchased through obligating documents for the purchase of goods and \$738,506 through other miscellaneous obligating documents, were included neither in the listing of acquisitions prepared by the Procurement, Travel and Shipping Section nor in the inventory report prepared by the outposted offices.

63. The Administration informed the Board that since the contracts and procurement system were not linked to outposted offices, it could not identify acquisitions done in the field offices. The United Nations Office at Nairobi, however, would decentralize property management to the appropriate "owners", who would be made responsible for maintaining updated records to link with the main inventory database held by the United Nations Office at Nairobi.

64. **The Board recommends that the Administration ensure that programme managers include and report all non-expendable property acquired by outposted offices in their inventory reports in the period in which it was acquired and coordinate with the Procurement, Travel and Shipping Section in conjunction with the Accounts Section of the Budget and Financial Management Service to keep track of the acquisitions of outposted offices.**

### *Inventory report*

65. UN-Habitat, through the Procurement, Travel and Shipping Section, compiled a report in 2005 using a contractor that reflected non-expendable property in its market values for insurance purposes.

66. The Administration informed the Board that the inventory report prepared by the contractor would be utilized to update the existing records. The Board noted, however, that the report did not contain data such as the purchase date, purchase amount and, in some instances, serial numbers of computer equipment, which are essential for maintaining accurate information and establishing property accountability.

67. The Board also noted that there were items in the report that were owned by UNEP and the United Nations Office at Nairobi.

68. A random physical inspection of various property showed that most of the property was not found in the locations indicated in the inventory report. Although the Administration informed the Board that property such as furniture and equipment had been relocated in June 2005 as a result of the merging of two or three rooms, such relocation was not reflected in the inventory report.

69. The Board is concerned that the absence of purchase price, serial numbers and exact locations of property in the inventory report would hinder the conduct of a physical count and the determination of accountability in case of property loss.

70. At the Regional Office for Africa and the Arab States, the following was observed relative to the consolidated inventory reports of field offices:

(a) There were 169 items under the equipment category with no serial number;

(b) There were 34 items of the same category with zero value;

(c) They did not contain information such as dates when the property was purchased or acquired or the location where it was issued.

71. The Board is concerned that without this essential information, pinpointing accountability, facilitating the taking of inventory and providing fair valuation and adequate disclosure in the financial statements cannot be assured.

72. The Chief of the Purchasing Unit confirmed that the value of many items in the inventory report was not provided because of a lack of information in the purchase orders, which were the basis of data capture in the Crystal application system.

**73. The Administration agreed with the Board's recommendation to require the heads of project offices to submit complete inventory reports.**

*Custody and control*

74. At the Regional Office for Latin America and the Caribbean, 231 items of non-expendable equipment listed in the inventory report belonged to the municipality of Rio de Janeiro, Brazil. Those items were part of the agreement between the Regional Office and the municipality, but no formal transfer was made to the former. The inventory report also included 30 items of expendable property, 7 disposed of items and 3 personal items that belonged to the senior human settlements officer.

**75. The Administration agreed with the Board's recommendation that it: (a) exclude the items categorized as not owned by the Regional Office for Latin America and the Caribbean from the inventory report; and (b) prepare a separate list of all properties owned by the municipality of Rio de Janeiro and cause the formal transfer of said properties.**

76. The Administration informed the Board those recommendations had been implemented.

*Personal property receipts*

77. During the audit, the Board observed that 17 items of non-expendable property were not covered with personal property receipts.

78. The issuance of personal property receipts in sequential numbers to users of property is consonant with section 1.2 of administrative instruction ST/AI/2003/5 requiring each head of department or office to be responsible for maintaining and updating property inventory control records as well as monitoring property movements.

**79. The Administration agreed with the Board's recommendation that it cover with sequentially numbered personal property receipts all non-expendable property items issued.**

## 9. Human resources management

### *Contracts*

80. At the Regional Office for Latin America and the Caribbean, there were no written contracts to support the payment of services by three individual contractors. The Administration explained that the service fees were minimal: the contractors were paid fees of \$426, \$683 and \$1,422 respectively. It assured the Board, however, that it would coordinate with UN-Habitat headquarters in addressing the issue of small contracts.

81. Since the administrative instruction on the hiring of consultants/individual contractors (ST/AI/1999/7) does not grant exceptions irrespective of the amount involved, all agreements need to be in writing to protect the interests of the United Nations.

**82. The Administration agreed with the Board's recommendation that it execute contracts with individual contractors irrespective of the amount involved to ensure the faithful performance of the agreed work to be done.**

### *Performance evaluation*

83. At the Regional Office for Asia and the Pacific, five consultants were evaluated as to their performance from one to six months after the expiration of their contracts. Two of the consultants had been paid in full an approximate total of \$4,116 prior to such evaluation. The Administration noted the payments but explained that there had been an initial evaluation of the performance of one of them at the expiration of the contract.

84. Also the Regional Office for Asia and the Pacific, another three consultants had not been issued performance reports because no final outputs had been submitted as at the audit date. The Administration informed the Board that performance evaluations were done after the submission of the outputs, which had been delayed because of several factors, such as revisions made by the consultants to the original report.

85. Evaluation reports on the performance of consultants are used as reference for consideration of future consultancy contracts; hence, if they are not prepared on time, there is a risk that consultants with unsatisfactory performance will be rehired or that those with quality performance will not be immediately considered for rehiring. Either way, it is detrimental to the Administration.

**86. The Administration agreed with the Board's recommendation that it evaluate the performance of consultants in a timely manner and strictly ensure that final payments are not released until the final performance evaluation is issued, in accordance with administrative instruction ST/AI/1999/7.**

87. The Administration further explained that with the introduction of IMIS at the Regional Office for Asia and the Pacific, no payments to consultants can be effected in the absence of a performance evaluation.

### *Staff training*

88. The approved budget revision "C" on the operation of the Regional Office for Asia and the Pacific had included an allocation in the amount of \$1,500 for staff

training in 2004, but a corresponding training plan for that year had not been prepared. The Administration informed the Board that it had developed a staff training plan in 1999 and carried the plan until 2003, but the plan had not been updated in subsequent years. For the period from 1 January to 30 September 2004, only in-house training for new staff had been conducted. The Administration did not utilize the \$1,500 budget allocation for training for 2004 but carried it over to 2005 for the development of a concrete training plan for support staff.

89. At the Regional Office for Latin America and the Caribbean, there was no formal training needs assessment, training plan or monitoring system in place for staff development. In addition, no formal assessment/evaluation of the impact of training on the staff and the Organization was conducted.

90. The Administration informed the Board that while the United Nations Office at Nairobi Division of Administrative Services manages human resources and defines resource requirements, including the training and development of staff, the management of the Regional Office for Latin America and the Caribbean is responsible for determining staff development needs, providing development opportunities and ensuring that staff members' needs with respect to upgrading substantive or technical skills are identified during staff performance evaluation discussions and included in the overall departmental training plan. Owing to resource constraints, however, there were regular training activities for nationally recruited staff only. Training for international staff was actively promoted, but it was provided in an ad hoc manner depending on the opportunities available. More structured assessments will be conducted in 2006.

91. The Administration also informed the Board that the Regional Office for Latin America and the Caribbean was in the process of preparing an evaluation of ongoing training activities in the Office, to be ready by the end of 2006. Through the UN-Habitat Programme Support Division and Regional and Technical Cooperation Division, the Regional Office for Latin America and the Caribbean will coordinate with the Division of Administrative Services for the inclusion of its training needs in the Division's overall programme. The Administration further informed the Board that at the Regional Office, staff training needs were assessed as part of its annual review and planning meetings.

**92. The Board recommends that the Administration: (a) formalize a training needs assessment with a view to developing an annual training plan; (b) document the evaluation of the impact of the training as the basis for future needs assessments; and (c) coordinate with the United Nations Office at Nairobi on the inclusion of the annual training plan of the Regional Office in the overall United Nations Office at Nairobi training plan.**

## **10. Information and communication technology**

93. As at 31 December 2005, expenditures for seven funds exceeded allotments by \$674,556.

94. The Board observed that 6 out of 51 technical cooperation projects had exceeded their allotments by a total of \$862,289, with 1 project incurring an expenditure of \$500,923 against a zero allotment.

95. Owing to the nature of these projects, which run for more than one year, unencumbered project allotments at the end of one year could be rephased to the

next year, provided the technical cooperation projects were still active in January of that year. However, the current functionality of IMIS automatically closes any unencumbered allotment at the end of the year. As a temporary solution, pending the receipt of the approved funding document or allotment, IMIS allows the creation of allotments with zero balances in the following year if related allotments existed in the preceding year. These allotments would be registered with negative balances in the project status report generated by IMIS if expenditures were charged against them.

96. In its previous report, the Board had raised this issue and had expressed the same concern that the above procedure could result in project expenditures being incurred without allotments and that that would present an inaccurate picture of the actual financial status of the project.

97. The Administration commented that neither UN-Habitat nor the United Nations Office at Nairobi had the authority or the capacity to make any system changes in IMIS. Any enhancement to IMIS would therefore be implemented at the United Nations Secretariat level.

**98. The Board recommends that the Administration, in conjunction with the United Nations Office at Nairobi, coordinate with the United Nations Secretariat in respect of the need for IMIS enhancement to prevent over-obligation or overexpenditure in technical cooperation projects and to reflect the actual financial status of projects in the IMIS-generated project status reports.**

#### **11. Cases of fraud and presumptive fraud**

99. The Administration reported to the Board two cases of fraud or presumptive fraud during the biennium 2004-2005.

100. A staff member falsified her supervisor's signature on numerous overtime authorization forms for overtime work not performed. Records revealed that the fraudulent practice involved a total amount of \$4,202 for the overtime work the staff member had allegedly carried out from March 2003 to March 2005.

101. The staff member had also falsified the signature of the Human Resources Liaison Officer of UN-Habitat to obtain loans from the United Nations Cooperative Savings and Credit Society Limited.

102. UN-Habitat and the United Nations Office at Nairobi were in the process of recovering the amount from the final entitlements of the staff member. The Office of Legal Affairs at United Nations Headquarters has sent a charge letter to the staff member concerned.

### **C. Acknowledgement**

103. The Board of Auditors wishes to express its appreciation for the cooperation and assistance extended to its auditors by the Executive Director, her officers and members of their staff.

## Chapter III

### Audit opinion

We have audited the accompanying financial statements of the United Nations Human Settlements Programme, comprising statements numbered I to VII, schedules numbered 3.1, 5.1, 5.2, 7.1 and 7.2, and the supporting notes for the biennium ended 31 December 2005. The financial statements are the responsibility of the Executive Director. Our responsibility is to express an opinion on the financial statements based on our audit.

We conducted our audit in accordance with the common auditing standards of the Panel of External Auditors of the United Nations, the specialized agencies and the International Atomic Energy Agency and with the International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Executive Director, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for the audit opinion.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the United Nations Human Settlements Programme as at 31 December 2005 and the results of its operations and its cash flows for the biennium then ended, in accordance with the United Nations system accounting standards.

Furthermore, in our opinion, the transactions of the United Nations Human Settlements Programme that have come to our notice or which we have tested as part of our audit have in all significant respects been in accordance with the Financial Regulations of the United Nations and legislative authority.

In accordance with article VII of the Financial Regulations, we have also issued a long-form report on our audit of the financial statements of the United Nations Human Settlements Programme.

## Chapter IV

### Certification of the financial statements

31 March 2006

The financial statements of the United Nations Human Settlements Programme for the biennium 2004-2005 ended 31 December 2005 have been prepared in accordance with financial rule 106.10 of the United Nations.

The summary of significant accounting policies applied in the preparation of these statements is included in the notes to the financial statements. The notes provide additional information for and clarifications of the financial activities undertaken by the Organization during the period covered by the statements, for which the Secretary-General has administrative responsibility.

I certify that the appended financial statements of the United Nations Human Settlements Programme, including the associated trust funds and other related accounts numbered I to VII, are correct.

(Signed) Anna Kajumulo **Tibaijuka**  
Executive Director  
United Nations Human Settlements Programme

United States dollars <sup>a,b</sup>	Statement VII	16 677	60 098
Represented by			
Cash and term deposits		16 677	39 121
Short-term investments at lower of cost or market value		—	20 789
Accrued interest receivable		—	188
<b>Total</b>		<b>16 677</b>	<b>60 098</b>
<b>Total foundation and technical cooperation activities</b>	<b>Statement II</b>	<b>24 999</b>	<b>104 040</b>

<sup>a</sup> All investments system-wide are placed in joint investment pools for all offices away from Headquarters. The Treasury at United Nations Headquarters is solely responsible for the investment policy and participating offices are only responsible for their own cash flow/liquidity planning. The Treasury invests in different securities, with varying due dates and interest rates. Hence, it is not practical to indicate due dates and interest rates against the investment pools.

<sup>b</sup> When the market value of the short-term investments is lower than cost, the book value is adjusted accordingly. There were no long-term investments reported at the end of the period.

<sup>c</sup> Equivalent to \$7,334,901 at the rate of \$1.00:45.25 rupees.

## Notes to the financial statements

### Note 1

#### United Nations Human Settlements Programme and its objectives

(a) On 16 December 1974, the General Assembly adopted resolution 3327 (XXIX), by which it created the United Nations Habitat and Human Settlements Foundation.

(b) On 19 December 1977, the General Assembly adopted resolution 32/162, by which it established a secretariat (the United Nations Centre for Human Settlements (Habitat)) and a Commission on Human Settlements.

(c) On 21 December 2001, the General Assembly adopted resolution 56/206, by which, with effect from 1 January 2002, it transformed the United Nations Centre for Human Settlements, including the United Nations Habitat and Human Settlements Foundation, into the United Nations Human Settlements Programme and the Commission on Human Settlements into the Governing Council of the United Nations Human Settlements Programme. By the same resolution, the Assembly confirmed that the Executive Director of the United Nations Human Settlements Programme should be responsible for the management of the United Nations Habitat and Human Settlements Foundation.

(d) The main objectives of the Programme are:

(i) To assist countries and regions in increasing and improving their own efforts to solve human settlements problems;

(ii) To promote greater international cooperation in order to increase the availability of resources of developing countries and regions;

(iii) To promote the integral concept of human settlements and a comprehensive approach to human settlements problems in all countries;

(iv) To strengthen cooperation and co-participation in this domain among all regions;

(v) To ensure the harmonization of human settlements programmes planned and carried out by the United Nations system and to coordinate human settlements activities in the United Nations system, keep them under review and assess their effectiveness at the inter-secretariat level;

(vi) To supplement the resources of the regions in formulating and implementing human settlements projects when required;

(vii) To serve as a focal point for the global exchange of information about human settlements and to initiate public information activities on human settlements in cooperation with the Department of Public Information of the Secretariat;

(viii) To promote collaboration with and involvement of the world scientific community concerned with human settlements.

**Note 2****Summary of significant accounting and financial reporting policies of the United Nations**

(a) The accounts of the United Nations Human Settlements Programme are maintained in accordance with the Financial Regulations of the United Nations as adopted by the General Assembly, the rules formulated by the Secretary-General as required under the regulations and administrative instructions issued by the Under-Secretary-General for Management or the Controller, including the special annex of the financial rules of the United Nations Human Settlements Programme and specific decisions of the Governing Council. They also take fully into account the United Nations system accounting standards, as adopted by the Administrative Committee on Coordination, which has been replaced by the United Nations System Chief Executives Board for Coordination (CEB). The Organization follows International Accounting Standard 1 on the disclosure of accounting policies, as modified and adopted by CEB as set out below:

(i) Going concern, consistency and accrual are fundamental accounting assumptions. Where fundamental accounting assumptions are followed in financial statements, disclosure of such assumptions is not required. If a fundamental accounting assumption is not followed, that fact should be disclosed together with the reasons;

(ii) Prudence, substance over form and materiality should govern the selection and application of accounting policies;

(iii) Financial statements should include clear and concise disclosure of all significant accounting policies that have been used;

(iv) The disclosure of the significant accounting policies used should be an integral part of the financial statements. These policies should normally be disclosed in one place;

(v) Financial statements should show comparative figures for the corresponding period of the preceding financial period;

(vi) A change in an accounting policy that has a material effect in the current period or may have a material effect in subsequent periods should be disclosed together with the reasons. The effect of the change should, if material, be disclosed and quantified.

(b) The Organization's accounts are maintained on a fund accounting basis. Each fund is maintained as a distinct financial and accounting entity with a separate self-balancing double-entry group of accounts. Separate financial statements are prepared for each fund or for a group of funds of the same nature.

(c) The financial period of the Organization is a biennium consisting of two consecutive calendar years for all funds.

(d) Generally, income, expenditure, assets and liabilities are recognized on the accrual basis of accounting. For voluntary contribution income, the policy in paragraph (k) (i) below applies.

(e) The accounts of the Organization are presented in United States dollars. Accounts maintained in other currencies are translated into United States dollars at the time of the transaction, at rates of exchange established by the United Nations.

In respect of such currencies, the financial statements shall reflect the cash, investments, unpaid pledges and current accounts receivable and payable in currencies other than the United States dollar, translated at the applicable United Nations rate of exchange in effect as at the date of the statement. In the event that the application of actual exchange rates at the date of the statement would provide a valuation materially different from the application of the Organization's rate of exchange for the last month of the financial period, a footnote will be provided quantifying the difference.

(f) The Organization's financial statements are prepared on the historical cost basis of accounting and are not adjusted to reflect the effects of changing prices for goods and services.

(g) The cash flow summary statement is based on the indirect method of cash flow as referred to in the United Nations system accounting standards.

(h) The Organization's financial statements are prepared in accordance with the ongoing recommendations of the Working Party on Accounting Standards of CEB.

(i) The results of the Organization's operations presented in statements I, II and III are shown at a summary level by general type of activity as well as on a combined basis for funds other than those that are reported on separately after the elimination of all inter-fund balances and instances of double-counting of income and expenditure. Their presentation on a combined basis does not imply that the various separate funds can be intermingled in any way, since, normally, resources may not be utilized between funds.

(j) Under General Assembly resolution 32/162 of 19 December 1977, the regular budget of the United Nations meets part of the costs of the secretariat of the United Nations Human Settlements Programme. Details of the expenditure may be found in the financial report and audited financial statements of the United Nations. They are not considered further in this report.

(k) Income:

(i) Voluntary contributions from Member States or other donors are recorded as income on the basis of a written commitment to pay monetary contributions at specified times within the current financial period. Voluntary contributions made in the form of services and supplies that are acceptable to the Secretary-General are credited to income or noted in the financial statements;

(ii) Income received under inter-organizational arrangements represents allocations of funding from agencies to enable the Organization to administer projects or other programmes on their behalf;

(iii) Allocations from other funds represent monies appropriated or designated from one fund for transfer to and disbursement from another fund;

(iv) Income for services rendered includes reimbursements for salaries of staff members and other costs that are attributable to providing technical and administrative support to other organizations;

(v) Interest income includes all interest earned on deposits in various bank accounts, investment income earned on marketable securities and other negotiable instruments and investment income earned in the cash pools. All

realized losses and net unrealized losses on short-term investments are offset against investment income. Investment income and costs associated with the operation of investments in the cash pools are allocated to the participating funds;

(vi) Miscellaneous income includes the sale of used or surplus property, refunds of expenditures charged to prior periods, income from net gains resulting from currency translations, settlements of insurance claims, monies accepted for which no purpose was specified and other sundry income;

(vii) Income relating to future financial periods is not recognized in the current financial period and is recorded as payments or contributions received in advance, as referred to in item (n) (iii);

(viii) Savings from the liquidation of prior-period obligations relating to programme costs are credited directly to the fund balances. Savings relating to project costs are credited to the project.

(l) Expenditure:

(i) Expenditures are incurred against authorized allotments. Total expenditures reported include unliquidated obligations and disbursements;

(ii) Expenditures incurred for non-expendable property are charged to the budget of the period when acquired and are not capitalized. Inventory of such non-expendable property is maintained at the historical cost;

(iii) Expenditures for future financial periods are not charged to the current financial period and are recorded as deferred charges, as referred to in item (m) (iv) and (v) below.

(m) Assets:

(i) Cash and term deposits represent funds held in demand-deposit accounts and interest-bearing bank deposits;

(ii) Investments include marketable securities and other negotiable instruments acquired by the Organization to produce income. Short-term investments are stated at lower of cost or market value; long-term investments are stated at cost. Cost is defined as the nominal value plus/minus any unamortized premium/discount. The market value of the short-term investments was lower than the book value. The book value has been adjusted accordingly (see schedule 3.1);

(iii) Cash pools comprise participating funds' share of cash and term deposits, short-term and long-term investments and accrual of investment income, all of which are managed in the pools. The investments in the cash pools are similar in nature and are accounted for as stated in item (m) (ii) above. The share in the cash pools is reported separately in each of the participating fund's statements and its composition and the market value of its investments are disclosed in schedule 3.1;

(iv) Deferred charges normally comprise expenditure items that are not properly chargeable to the current financial period. They will be charged as expenditure in a subsequent period. These expenditure items include commitments approved by the Controller for future financial periods in

accordance with financial rule 106.7. Such commitments are normally restricted to administrative requirements of a continuing nature and to contracts or legal obligations where long lead times are required for delivery;

(v) For purpose of the balance sheet statements only, those portions of education grant advances that are assumed to pertain to the scholastic years completed as at the date of the financial statement are shown as deferred charges. The full amounts of the advances are maintained as accounts receivable from staff members until the required proofs of entitlement are produced, at which time the budgetary accounts are charged and the advances settled;

(vi) Maintenance and repairs of capital assets are charged against the appropriate budgetary accounts. Furniture, equipment, other non-expendable property and leasehold improvements are not included in the assets of the Organization. Such acquisitions are charged against budgetary accounts in the year of purchase. The value of non-expendable property is disclosed in note 8 to the financial statements.

(n) Liabilities, reserves and fund balances:

(i) Operating and other types of reserves are included in the reserves and fund balances shown in the financial statements;

(ii) Unliquidated obligations for future years are reported as deferred charges and as unliquidated obligations;

(iii) Payments or contributions received in advance include pledged contributions for future periods and other income received but not yet earned;

(iv) The commitments of the Organization relating to prior, current and future financial periods are shown as unliquidated obligations. Current period obligations related to special accounts remain valid for 12 months following the end of the biennium to which they relate. Obligations for most technical cooperation activities remain valid for 12 months after the end of each calendar year. Unliquidated obligations of funds of a multi-year nature remain valid until the completion of the project;

(v) Contingent liabilities, if any, are disclosed in the notes to the financial statements;

(vi) The United Nations Human Settlements Programme is a member organization participating in the United Nations Joint Staff Pension Fund (UNJSPF) which was established by the General Assembly to provide retirement, death, disability and related benefits. The Pension Fund is a funded defined-benefit plan. The financial obligation of the Organization to the Fund consists of its mandated contribution at the rate established by the Assembly together with its share of any actuarial deficiency payments under article 26 of the Regulations of the Fund. Such deficiency payments are payable only if and when the Assembly has invoked the provision of article 26, following a determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Fund as at the valuation date. As at the date of the current financial statement, the Assembly has not invoked this provision.

(o) Financial reserve. As stated in rule 311.2 (b) of the financial rules of the United Nations Habitat and Human Settlements Foundation, the purpose of the financial reserve is to guarantee the financial liquidity and integrity of the Foundation, to compensate for uneven cash flows and to meet such other similar requirements as may be decided upon by the Governing Council. The Governing Council, in its decision 19/2 of 9 May 2003, approved an increase in the general-purpose statutory reserve for the Foundation from \$1,002,663 to \$2,419,100 for the 2004-2005 biennium.

(p) Operational reserve. With regard to the special account for programme support costs and as stated in administrative instruction ST/AI/286, an operational reserve held at 20 per cent of the estimated annual programme support income is required to be held in a separate account at all times. This reserve is to protect against unforeseen shortfalls in delivery, inflation and currency adjustments or to liquidate legal obligations in case of abrupt terminations of activities financed from extrabudgetary resources.

(q) Earmarked fund balance. Funds designated for specified project activities are not available for the non-earmarked project and programme expenditures of the Foundation.

(r) Contingencies. A provision to meet contingent liabilities for compensation payments under appendix D to the Staff Rules of the United Nations for the personnel financed from trust funds and the Foundation has been made and is calculated on the basis of 1 per cent of net base salary. Furthermore, since July 2002, a provision calculated at 8 per cent of net base salary is made for end-of-service benefits.

(s) Technical cooperation activities:

(i) The technical cooperation financial statements report on activities financed by voluntary contributions, funds received under inter-organizational arrangements from UNDP and other sources;

(ii) Voluntary contributions. Effective 1 January 2002, voluntary contributions from Member States or other donors for technical cooperation activities are recorded as income upon receipt of cash, including amounts received pending the identification of specific projects;

(iii) Funds received under inter-organizational arrangements. The allocation of income from UNDP is determined by taking into account interest and other miscellaneous income against total expenditure;

(iv) Interest and miscellaneous income for technical cooperation trust funds are credited to the trust funds concerned;

(v) Unliquidated obligations for the current period in respect of all technical cooperation activities remain valid for 12 months following the end of the calendar year, rather than the biennium, to which they relate. However in accordance with UNDP reporting requirements, executing agencies may retain unliquidated obligations beyond 12 months when a firm liability to pay still exists. Savings on liquidation or cancellation of prior-period obligations are credited to individual projects as a reduction of the current period expenditure in accordance with the UNDP reporting requirements;

(vi) The distribution of interest income for trust funds is calculated at the end of the year using the percentage participation of each fund based on the monthly average fund balance.

### Note 3

#### Reserves and fund balances

The cumulative surplus account of UN-Habitat represents savings in the liquidation of obligations for prior periods, contributions from Member States and other designated income. The level of earmarked fund balances of UN-Habitat has increased during the period. The account relates to funds earmarked for specific project activities, which tend to have a forward lag and may span a number of years.

### Note 4

#### Combined statement of assets, liabilities, reserves and fund balances (statement II)

(a) Other accounts receivable

The following is a breakdown of other accounts receivable that are included in statement II as at 31 December 2005 and 2003:

(Thousands of United States dollars)

	<i>Foundation activities</i>	<i>Technical cooperation activities</i>	<i>Total 2005</i>	<i>Total 2003</i>
Staff members	390	174	564	508
Other United Nations entities	248	2 714	2 962	247
Vendors	-	5	5	16
Others	21	2	23	123
<b>Total</b>	<b>659</b>	<b>2 895</b>	<b>3 554</b>	<b>894</b>

(b) Other assets

The following is a breakdown of other assets that are included in statement II as at 31 December 2005 and 2003:

(Thousands of United States dollars)

	<i>Foundation activities</i>	<i>Technical cooperation activities</i>	<i>Total 2005</i>	<i>Total 2003</i>
Education grant advances	81	78	159	131
Commitments against future years	18	2 772	2 790	41
Other	51	251	302	450
<b>Total</b>	<b>150</b>	<b>3 101</b>	<b>3 251</b>	<b>622</b>

## (c) Other accounts payable

The following is a breakdown of other accounts payable that are included in statement II as at 31 December 2005 and 2003:

(Thousands of United States dollars)

	<i>Foundation activities</i>	<i>Technical cooperation activities</i>	<i>Total 2005</i>	<i>Total 2003</i>
Governments	64	-	64	1
Staff members	88	169	257	508
Vendors	139	219	358	270
Other United Nations entities	1 466	1 413	2 879	2 607
Provisions for repatriation grant claims	744	-	744	412
Others	337	161	498	52
<b>Total</b>	<b>2 838</b>	<b>1 962</b>	<b>4 800</b>	<b>3 850</b>

## (d) Inter-fund balances

The inter-fund accounts reflect transactions between the Foundation and technical cooperation activities, the United Nations general fund and other funds, which are settled periodically. The following is a breakdown of inter-fund balances that are included in statement II as at 31 December 2005 and 2003:

(Thousands of United States dollars)

	<i>Foundation activities</i>	<i>Technical cooperation activities</i>	<i>Total 2005</i>	<i>Total 2003</i>
Inter-fund balances receivable	6 680	-	6 680	-
Inter-fund balances payable	-	8 501	8 501	422
<b>Net inter-fund receivable/(payable)</b>	<b>6 680</b>	<b>(8 501)</b>	<b>(1 821)</b>	<b>(422)</b>
Net inter-fund receivable/payable is due from/to:				
Escrow account			-	2 434
UNEP			(1 821)	(2 856)
<b>Net inter-fund receivable/(payable)</b>			<b>(1 821)</b>	<b>(422)</b>

<b>Fund balances, end of period</b>	<b>18 118</b>	<b>—</b>	<b>18 118</b>

**Note 7****Technical cooperation activities**

(a) The United Nations General Assembly, in its resolution 56/206, elevated UN-Habitat to the status of a United Nations programme.

(b) Commencing in 2004, to reflect the full activities of UN-Habitat and with the agreement of the United Nations Secretariat, a combined financial report has been prepared to reflect technical cooperation activities and activities of the United Nations Habitat and Human Settlements Foundation. Comparative figures have been restated accordingly.

(c) The reporting of UN-Habitat technical cooperation activities as part of the United Nations financial statements prepared by the Secretariat was then discontinued.

(d) The amount of \$18.1 million shown in statement VII as "Balances relating to projects funded by donors" represents amount receivable from UNDP, in accordance with existing arrangements with UNDP out of which \$12.2 million related to unliquidated obligations.

(e) The increase in the level of unliquidated obligations for the current biennium can be mainly attributed to pending billings from UNDP due to the increased level of field activities.

## Note 8

### Non-expendable property

In accordance with United Nations accounting policies, non-expendable property is not included in the fixed assets of the Organization but is charged against the current appropriations when acquired. The following shows the non-expendable property.

(Thousands of United States dollars)

	2005	2003
