Recognizing the progress achieved, while nonetheless remaining deeply concerned about the problem of millions of anti-personnel landmines and explosive remnants of war, which constitute a great danger for the population and a major obstacle for the resumption of economic activities and for recovery and reconstruction efforts,

Noting that, despite improvements in building the security sector, increased terrorist attacks caused by the Taliban, Al-Qaida and other extremist groups, in particular in the south and east of Afghanistan over the past months, and the lack of security caused by criminal activity and the illicit production of and trafficking in drugs, remain a serious challenge, threatening the democratic process as well as reconstruction and economic development,

Aware of the high vulnerability of Afghanistan to natural disasters and harsh climate conditions, in particular drought or flooding,

Expressing its appreciation for the work of the provincial reconstruction teams and of the executive steering committee,
