## **I. Mandate of the Fund**

1. The General Assembly, in its resolution 46/122, established the United Nations Voluntary Trust Fund on Contemporary Forms of Slavery with the purpose of extending humanitarian, legal and financial aid to individuals whose human rights have been violated as a result of contemporary forms of slavery. Funding is obtained by means of voluntary contributions from Governments, non-governmental organizations, other private or public entities and individuals.

## **II. Administration and Board of Trustees**

2. In conformity with Assembly resolution 46/122, the Fund is administered in accordance with the relevant financial regulations and rules of the United Nations on general trust funds for humanitarian assistance, by the Secretary-General, through the Office of the United Nations High Commissioner for Human Rights (OHCHR), with the advice of a Board of Trustees.

3. The Board of Trustees is composed of five experts with relevant experience in the field of human rights and, in particular, with issues of contemporary forms of slavery, serving in their personal capacities. In December 2007 the Secretary-General appointed the following members for a three-year term ending on 31 December 2010, with due regard to equitable geographical distribution: Gulnara Shahinian (Armenia), Virginia Herrera Murillo (Costa Rica), Prateep Unsongtham Hata (Thailand), Cleophas Kwdjo Mally (Togo) and David Weissbrodt (United States of America). Ms. Shahinian resigned on 23 May 2008 because she was nominated Special Rapporteur on contemporary forms of slavery, including its causes and consequences. In March 2009, the Secretary-General appointed Klara Skrivankova (Czech Republic) to replace Ms. Shahinian.

## **III. Grant cycle and admissibility criteria**

### **A. Grant cycle**

4. The deadline for submitting applications for project grants for 2008 was 31 December 2007. Admissible applications received were examined by the Board of Trustees at its thirteenth session, which took place in Geneva from 8 to 12 September 2008. The recommendations for grants adopted by the Board of Trustees at that session were subsequently approved by the United Nations High Commissioner for Human Rights, on behalf of the Secretary-General. Six months after receipt of payment, beneficiaries of project grants will have to provide the secretariat of the Fund with mid-year narrative and financial reports on the use of their grants and one month after the project completion they will have to provide final-year narrative and financial reports on the use of their grants. Until satisfactory reports on the use of previous grants are received, no new project grant can be paid to these beneficiaries. In addition, grantees are requested to submit additional impact assessment reports two years after the termination of projects.

5. The deadline for submitting applications for travel or project grants for 2009 was 31 March 2009. Admissible applications received will be examined by the

Board of Trustees at its fourteenth session, scheduled to take place in Geneva on 17 and 18 September 2009.

## **B. Admissibility of new applications and selection process**

6. In accordance with the selection criteria adopted by the General Assembly in its resolution 46/122, the beneficiaries of assistance from the Fund shall be individuals whose human rights have been severely violated as a result of contemporary forms of slavery. Project admissibility criteria are outlined in the Board's guidelines.

7. Admissible application forms are verified as to their conformity with approved selection criteria, and additional information is requested from the organization if necessary. Reference organizations and specialized networks are also consulted if necessary. The complete application form and all additional documents mentioned in paragraph 43 below are then summarized and analysed by the secretariat in accordance with the selection criteria, to facilitate the work of the Board of Trustees. At its annual session, the Board of Trustees reviews all applications declared admissible, including the original application form, the summary analysis prepared by the secretariat and any other relevant information. The Board of Trustees then makes recommendations to the Secretary-General in accordance with its guidelines. Following the session, the secretariat reviews all the recommendations of the Board of Trustees for consistency with relevant United Nations administrative and financial rules and regulations. The High Commissioner approves, on behalf of the Secretary-General, the recommendations regarding project grants.

8. The beneficiary organizations are requested to accept all conditions attached to the grant, such as providing mid-year and final narrative and financial reports on the use of grants by a given deadline. Upon receipt of this confirmation, the secretariat of the Fund requests the financial services of the United Nations Office at Geneva to pay the project grant promptly.

## **C. Monitoring and evaluation by the Board and secretariat**

9. The secretariat reviews all narrative and financial reports received from beneficiary organizations on the use of project grants, and asks for additional information if needed. OHCHR field presences and other United Nations field offices, such as those of the United Nations Development Programme (UNDP), may be requested to provide the secretariat of the Fund with additional information on the organization or project.

10. In carrying out their evaluation, the Board and the secretariat carry out the following activities:

(a) At its annual session the Board of Trustees reviews the situation of all project grants allocated in previous years. When the Board is satisfied with the reporting by a given organization, it recommends closing the file. If the report is not complete, the Board makes a recommendation requesting specific additional information. No new grants will be allocated to that organization until the Board is satisfied with its report;

(b) Board members may visit projects financed by the Fund within their geographic region. The secretariat of the Fund and OHCHR staff in national and regional offices may also visit projects;

(c) Board members may establish, if needed, direct contact with project leaders in the field, during sessions of the Board of Trustees or at relevant human rights meetings, in order to better evaluate the use of the grants. The secretariat may also meet with project leaders;

(d) Reference organizations and specialized networks may be invited to the session of the Board of Trustees at which their applications are examined in order, inter alia, to provide additional information on specific organizations or projects, answer questions and explain their activities to the Board.

17. The Board also recommended a contingency list of 15 project grants for a total amount of \$108,000, which will assist 15 non-governmental organizations in India (see annex II).

18. The Board held its annual meeting with regular and new donor Governments, interested Governments and other donors. The meeting was attended by representatives of Canada, Denmark, Finland, Greece, the Holy See, Israel, Malaysia, Romania, Saudi Arabia, Switzerland, Thailand and the United Kingdom of Great Britain and Northern Ireland.

## **C. Implementation of the recommendations made by the Office of Internal Oversight Services**

19. As recommended by the Board at its eleventh session, a global review of the Fund was undertaken by the Office of Internal Oversight Services from November 2006 to January 2007. The Office reviewed the impact of the Fund's activities on the target groups to ascertain if grants were awarded in accordance with United Nations regulations and rules and Fund guidelines, and to assess the efficiency and effectiveness of reporting and monitoring processes. The final report containing 21 recommendations was issued in June 2007.

20. The overall assessment of the Office of Internal Oversight Services was that the Fund was addressing its mandate and had a positive impact on victims of contemporary forms of slavery. The Office emphasized that the Fund had certain unique characteristics. It assisted small organizations working at the grass-roots level, focused on issues that Governments were often reluctant to recognize and gave credibility to new initiatives which could then access other sources of funds to further grow and develop.

21. In order to follow-up on the 21 recommendations, the Board met with a representative of the Office of Internal Oversight Services who stressed the progress that was being made by the secretariat in implementing recommendations and noted the net increase in the number of applications and contributions received.

### **Recommendations 1, 2 and 3**

22. The Office of Internal Oversight Services recommended that the Board establish more detailed guidelines that included key indicators of contemporary forms of slavery for the selection of beneficiaries; prioritize certain forms of contemporary slavery, in particular those not addressed by other international organizations; and support projects adopting a strategy that addressed the root causes of the problem, combined with direct assistance and income-generating activities that assisted victims of contemporary forms of slavery.

23. Pursuant to those recommendations, the Board elaborated and provisionally adopted a draft detailed revised version of its guidelines to be used by organizations in 2009 and new policies including key indicators of contemporary forms of slavery. Special provisions were inserted encouraging non-governmental organizations to develop sustainable projects accompanied by actions addressing the root cause of

modern slavery, combined with direct assistance and income-generating activities that assisted victims of contemporary forms of slavery. The Board also decided to request grantees to submit additional impact assessment reports two years after the termination of projects to enable a better impact assessment in the long term.

#### **Recommendation 4**

24. The Office of Internal Oversight Services recommended that the Fund should consider building a longer-term relationship with organizations that gave direct assistance by providing funding to them over a period of two to three years.

25. The Board developed and provisionally adopted new guidelines and policies containing special provisions on a two-year funding policy, subject to the availability of funds.

#### **Recommendation 5**

26. The Office of Internal Oversight Services recommended that the Board of Trustees should encourage applicants to focus their project proposals on capacity-building through activities such as technical assistance or training.

27. Special provisions were inserted into the new guidelines and policies to encourage applicants to use part of their grants for capacity-building, for example, for human rights education, project management and training. In addition, the Board decided to request non-governmental organizations to include beneficiaries in the design and implementation phases of the projects.

28. The Board also stressed that its members should have a more proactive role by providing capacity-building training, without any financial implications for the Fund, to selected non-governmental organizations in their respective regions.

#### **Recommendations 6 and 7**

29. The Office of Internal Oversight Services recommended improving access to information available on the Fund's website in order to facilitate the establishment of partnerships and sharing of best practices among grantees, further raise awareness of the problem of slavery and publicize the achievements of the Fund.

30. The Board discussed the new version of the website of the Fund prepared by the secretariat which contained links to other organizations working on slavery issues, success stories, and a directory of alternative sources of funding available for projects aiming to provide assistance to victims of contemporary forms of slavery and recommended that it be put online. The Board recommended that a compilation of best practices taken from narrative reports be drafted at the end of each reporting year and made publicly available. The Board also recommended disseminating its report to non-governmental organizations and OHCHR field offices.

31. The Board reviewed the directory of non-governmental organizations working on contemporary forms of slavery that had been compiled by the secretariat and recommended extending the directory by including grass-roots non-governmental organizations.

**Recommendation 8**

32. The Office of Internal Oversight Services recommended that the Board of Trustees should focus to a greater extent on policy issues such as establishing priorities for the future development of the Fund, fund-raising, monitoring and technical expertise for non-governmental organizations in order to better address the needs of victims of slavery over the long term.

33. During its thirteenth session, the Board of Trustees devoted one day to policy and strategic issues to address the needs of victims of slavery over the long term.

**Recommendation 9**

34. The Office of Internal Oversight Services recommended the establishment of a formal monitoring and evaluation mechanism to ensure that the grants approved were used for the purposes intended.

35. In line with recommendations made by the Office, the Board recommended monitoring projects on a regular basis. Reports of project visits should be prepared by the secretariat for consideration by the Board at its annual session. The Board recommended undertaking two field missions prior to the disbursements of new grants in December 2008 and to make available 4 per cent of the total budget of the Fund for those field missions. The Board recommended informing UNDP field offices of any planned evaluation missions, and to use those visits for outreach to organizations, particularly in affected areas, that had low numbers of applications. The first field mission was undertaken from 2 to 11 November 2008 by one member of the Board of Trustees (Prateep Ungsongtham Hata) and the secretariat of the Fund to pre-screen and monitor 13 grant recipients and potential grant recipients of the Fund in India (Andhra Pradesh). Findings and recommendations will be presented to the Board for its consideration at its fourteenth session.

36. The Board also revised and adopted new forms for financial and narrative reports strengthening the monitoring and evaluation of grantees.

**Recommendation 10**

37. The Office of Internal Oversight Services recommended establishing a management information system to enable effective monitoring and follow-up of grants.

38. Pursuant to this recommendation, OHCHR developed a new grant management system which allowed for the follow-up of financial and narrative reports, the generation of statistics on the number, gender and age of the victims assisted and the types of assistance provided by the various projects financed, and that would allow organizations to report online.

**Recommendation 12**

39. The Office of Internal Oversight Services recommended that OHCHR should further strengthen its fund-raising efforts to raise more resources to increase the dissemination of the purpose and impact of the Fund's work.

40. A fund-raising meeting was organized on 19 February 2008 with donors and other interested Governments to discuss the future direction of the Fund. In

addition, 15 bilateral meetings were organized with representatives of Permanent Missions.

### **Recommendation 13**

41. The Office of Internal Oversight Services recommended reformulating the processing and funding cycle of the Fund. The Board adopted a new grant cycle for project grants for 2010 as follows:

- (a) Deadline for the submission of project applications for 2010: 31 March 2009;
- (b) Annual session of the Board of Trustees: September 2009;
- (c) Disbursement: October to December 2009;
- (d) Submission of interim financial and narrative reports: 30 June 2010;
- (e) Submission of financial and narrative reports: 28 February 2011.

### **Recommendations 15 and 16**

42. The Office of Internal Oversight Services recommended that OHCHR establish a more comprehensive and cost-effective pre-screening policy to ensure that grants were approved for credible applicants in a cost-effective manner and in coordination with OHCHR, UNDP field presences and other relevant partners to verify the actual existence of new applicants.

43. The Board adopted a new format for the pre-screening of applications, as well as new application forms requesting applicants applying for the first time to the Fund to provide additional documents including: a registration certificate of the organization; statute of the organization; copy of bank records indicating signatories for the organization; copies of six months of bank statements; two letters of recommendation; and evidence of other sources of funding. The secretariat also coordinated with OHCHR and UNDP field presences to verify the existence and quality of all applicants.

### **Recommendation 18**

44. The Office of Internal Oversight Services recommended that OHCHR require grantees to sign a comprehensive agreement that safeguarded the interests of the Fund and included the obligation to cooperate with project evaluations, submit reports, maintain documentation as to how the grant was spent, and to refund the grant in cases of fraud, misuse or mismanagement.

45. A new standard grant agreement containing all requested provisions is now being used by the secretariat.

## **D. Collaboration with the Special Rapporteur on contemporary forms of slavery, including its causes and consequences**

46. The Board met with the Special Rapporteur on contemporary forms of slavery, including its causes and consequences to discuss means of collaboration. The Special Rapporteur agreed to contribute to the monitoring and evaluation of

grantees, pre-screening processes of new applicants and capacity-building of grantees during her field missions.

47. In line with recommendations 6 and 8 of the Office of Internal Oversight Services, the Board proposed to allocate \$10,000 to non-governmental organizations to fund grantees so that they could attend regional, subregional and national meetings organized in the framework of the field missions of the Special Rapporteur.

48. On 10 September 2008, the Board members and the Special Rapporteur convened a meeting in the framework of the ninth session of the Human Rights Council with interested Governments and non-governmental organizations to discuss collaboration between the Fund and the Special Rapporteur. The meeting was attended by representatives of Azerbaijan, Bahrain, Belarus, Canada, Denmark, Israel, Finland, France, the Netherlands, Spain, Sweden, Switzerland and the United States of America, and representatives of 14 non-governmental organizations. Various States expressed their support for the collaboration between the Fund and the Special Rapporteur.

## VI. How to contribute to the Fund

49. Governments, non-governmental organizations and other private or public entities can contribute to the Fund. Donors should indicate "For the Slavery Fund, account SH" on a payment order. ## VII. Conclusions and recommendations

50. **The working methods and procedures of the Fund are being strengthened to ensure a rigorous review of grant applications and projects implementation. The Voluntary Fund has attracted increased interests among non-governmental organizations working to assist victims of slavery. About 220 applications for grants amounting to approximately \$2,490,837 were received in 2008. The Board of Trustees was able to recommend some \$733,109. In 2009, the Fund received about 320 applications for grants amounting to approximately \$4,340,226. The number of applications has increased significantly and there has been a welcome increase in the contributions made by donors. Nevertheless, the Fund continues to fall short of the growing demand and need for support.**

51. **Donors and potential donors are encouraged to step up their support to the Fund to allow the Voluntary Fund to expand its crucial assistance to victims of slavery. In respect of the next cycle, donors are invited to contribute to the Fund before July 2010 in order for the contributions to be duly recorded by the United Nations Treasurer in advance of the annual session of the Board.**
