Overall orientation

- 29D.1 The Office of Central Support Services is responsible for the implementation of the programme of work under this section. The activities for which the Office is responsible fall under subprogramme 4, Support services, of programme 25, Management and support services, of the proposed consolidated changes to the biennial programme plan for the period 2018-2019.
- 29D.2 The main objectives of the Office of Central Support Services are to: (a) ensure continued efficient, effective and high-quality support for substantive programmes in the areas of procurement, travel and transportation, facilities and assets management, archives, mail operations, records management and management of commercial activities in meeting the goals of the Organization; (b) ensure efficient Secretariat support services for the sessions of the intergovernmental machinery and for the special conferences and meetings held under the auspices of the United Nations; (c) facilitate, through the provision of information and documentation, the deliberations of the General Assembly and its relevant subsidiary organs on specific support service issues under their review; and (d) enable an integrated and collaborative approach for the Organization to store, search and retrieve information. Within the context of the Secretary-General's management reforms, efforts to strengthen existing common and joint services among the United Nations organizations will continue.

Note: The following abbreviations are used in tables and charts: ASG, Assistant Secretary-General; GS, General Service; IPSAS, International Public Sector Accounting Standards; OL, Other level; PL, Principal level; TC, Trades and crafts.

Section 29D Office of Central Support Services

- 29D.3 The Office will: (a) continue to operate the renovated Headquarters complex in accordance with the capital master plan, including comprehensive servicing of the technological and design upgrades so that the complex is utilized and maintained in the most efficient and effective manner; (b) continue the implementation of flexible workplace strategies in New York; (c) promote the continued efficient and effective functioning of the Secretariat with regard to office and conference facilities, property management, travel and transportation services, archives and records management, mail and pouch operations and other commercial activities; (d) continue to facilitate the implementation of the organizational resilience management system/emergency management framework across the United Nations system; (e) in accordance with the guidance received from the General Assembly, continue the implementation of a global perspective in the strategic capital review initiative, which comprises a long-term capital programme and prioritization strategy for the global premises of the United Nations Secretariat; (f) provide increased oversight, monitoring and guidance across the entire United Nations Secretariat with respect to property management, major maintenance and renovation projects, long-term capital planning (projects, maintenance), real estate services, flexible workplace strategies and facilities management; and (g) continue efforts to streamline overall travel and effective material management processes as well as to implement tools to improve effectiveness and efficiency.
- 29D.4 With respect to procurement activities, the Office will continue to support the implementation of programmes and activities, at Headquarters and in field operations, through the provision of efficient, cost-effective, transparent, timely and high-quality procurement services. Against the background of the implementation of Umoja and other initiatives such as the global field support strategy, the supply chain management strategy and actions resulting from the report of the High-level Independent Panel on Peace Operations, the Office is strategically positioned to re-examine its procurement operations and is reviewing, in close consultation with clients and stakeholders, adjustments to its governance framework, organization structure and distribution of procurement offices worldwide, with a focus on client orientation and efficiency gains.
- 29D.5 With respect to business continuity, the major priority for the Business Continuity Management Unit in the biennium 2018-2019 will be to implement the newly endorsed approach to business continuity management at Headquarters, offices away from Headquarters and the regional commissions, including regular testing of the capability of the relevant departments and offices to continue the essential and time-critical business services as determined by senior management, as well as to implement successfully the organizational resilience management system by bringing together the participants in the system and ensure that the United Nations entities represented in the United Nations System Chief Executives Board for Coordination are participating in the community of practice of the system and further develop the systematic approach to resilience.

Overview of resources

- 29D.6 The overall resources proposed for the biennium 2018-2019 for this section amount to \$163,774,200 (before recosting), reflecting a net decrease of \$3,222,100 (or 1.9 per cent) compared with the appropriation for the biennium 2016-2017. Resource changes result from three factors, namely: (a) technical adjustment relating to the removal of non-recurrent requirements; (b) new and expanded mandates; and (c) other resource changes. The proposed resource level provides for the full, efficient and effective implementation of mandates.
- 29D.7 The distribution of resources is reflected in tables 29D.3 to 29D.5.

Technical adjustments

29D.8 Resource changes reflect the removal of non-recurrent requirements relating to the one-time provisions in the biennium 2016-2017 and reductions relating to the phased abolishment of posts as approved by the General Assembly in resolution 70/247.

New and expanded mandates

29D.9 Resource changes reflect an increase of \$1,012,000, including recurrent provisions (\$508,800) and non-recurrent provisions (\$503,200), in support of new posts proposed under section 1, Overall policymaking, direction and coordination, and section 28, Public information for the biennium 2018-2019.

Changes within and/or across section(s)

29D.10 Resource changes for the Office, reflect on a cost-neutral basis under component 1, the proposed upward reclassification of the post of Chief of Global Property Management Service (P-5) as a D-1 post and additional requirements under general operating expenses, offset by the abolishment of one post of Team Assistant (General Service (Other Level)).

Other changes

- 29D.11 Resource changes reflect a reduction of \$1,422,300 made possible by efficiencies that the Office plans to bring about in the biennium 2018-2019. The proposed reduction is a result of, among other things, the efforts of the Office to apply the anticipated Umoja efficiencies presented in the eighth progress report of the Secretary-General on the enterprise resource planning project (A/71/390) to individual day-to-day operations. The Umoja efficiencies set out in the eighth progress report were based on the Organization's experience with the system, anticipated future changes, including future roll-outs, a global review of end-to-end processes, the retirement of legacy systems and improvements to business process and planning capabilities. Efficiencies were expressed, inter alia, as the dollar value of a full-time equivalent, where applicable. Further information on the approach is provided in the foreword and introduction to the proposed programme budget for the biennium 2018-2019.
- 29D.12 For the Office, this translates to post and non-post reductions of \$1,422,300 which fall under component 1 (\$1,320,900) and component 2 (\$101,400).

Other assessed and extrabudgetary resources

- 29D.13 Regular budget resources under this section are complemented by other assessed contributions related to the support account for peacekeeping operations and extrabudgetary funding derived from programme support income received as reimbursement for the services provided by the central administration for extrabudgetary activities, funds and programmes.
- 29D.14 For the biennium 2018-2019, other assessed contributions are estimated at \$71,670,100 (\$25,013,500 for posts and \$46,656,600 for non-post requirements). Extrabudgetary resources in cash are estimated at \$61,485,600 (\$4,192,000 for posts and \$57,293,600 for non-post requirements).

Other information

29D.15 Pursuant to General Assembly resolution 58/269, resources have been identified within the available capacity in the Professional and General Service categories for monitoring and evaluation in the Office of Central Support Services, equivalent to \$3,465,800 (comprising \$1,279,600 from the regular budget, \$2,042,100 from the support account for peacekeeping operations and \$144,100 from extrabudgetary resources).

A. Executive direction and management

Resource requirements (before recosting): \$2,336,200

29D.16 The Assistant Secretary-General is responsible for all the activities of the Office of Central Support Services and its administration and management, as well as the coordination of common services. The Assistant Secretary-General provides leadership and direction relating to the implementation and coordination of policies in respect of the three organizational entities, namely, the Procurement Division, the Facilities and Commercial Services Division, and the Business Continuity Management Unit. The Assistant Secretary-General provides the Secretary-General, through the Under-Secretary-General for Management, with advice and support on all matters that relate to the provision of central support services to all entities of the Secretariat, the offices away

from Headquarters and the regional commissions. The Assistant Secretary-General plans, organizes, directs and monitors, through the senior managers of the Office, the effective and efficient provision of central support services, procurement and contract administration, travel and transportation, facilities management, mail operations, commercial activities services, including the United Nations Postal Administration, the management of the archives and records and business continuity management. The Assistant Secretary-General approves the designation of staff members whose functions involve significant management duties in areas where this authority is to be exercised by the Assistant Secretary-General pursuant to the existing rules.

- 29D.20 The estimated requirements amounting to \$1,655,900 under posts would provide for the continuation of five posts (1 Assistant Secretary-General, 1 P-5, 1 P-4 and 2 General Service (Other level)) to support the implementation of mandates under the programme. The non-post requirements in the amount of \$680,300 would cover, inter alia, other staff costs, travel, contractual services and other operational requirements.
- 29D.21 Regular budget resources are complemented by other assessed contributions derived from the support account for peacekeeping operations. Other assessed contributions in the amount of \$325,300 would provide for the financing of one post, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2017 to 30 June 2018 (A/71/806).

Total	263 058.9	259 734.1	285	280	

- 29D.26 The amount of \$47,494,600, reflecting a net decrease of \$90,200, provides for the financing of 252 posts (1 D-2, 3 D-1, 4 P-5, 9 P-4, 7 P-3, 6 P-2, 9 General Service (Principal level), 118 General service (Other level) and 95 Trades and crafts), to support the implementation of mandates under the programme.
- 29D.27 The net decrease relates to the combined effect of: (a) reductions relating to the phased abolishment of posts, as approved by the General Assembly in resolution 70/247 for the biennium 2016-2017; (b) the proposed abolishment of three posts (1 Associate Information Management Officer (P-2), 1 Team Assistant (General Service (Other level)) and 1 Trade and Crafts) made possible by efficiencies that the Division plans to bring about in the biennium 2018-2019; offset in part by (c) the proposed upward reclassification of the existing post of Chief, Overseas Property Management Unit, at the P-5 level, to establish the post of Chief, Global Property Management Services, at the D-1 level, in the light of the increased level of responsibilities and scope of work; and (d) the proposed establishment of four posts (1 Global Travel Production Support Team Leader (P-2), 1 Travel Business Process Analyst (P-2), 1 Production Support Specialist (General Service (Principal level)) and 1 Travel Assistant (General Service (Other level)) in the Travel and Transportation Service to address the increased workload resulting from the shift of functions from

the Departments and Offices of the Secretariat following the implementation of the Umoja travel module.

- 29D.28 Non-post requirements amounting to \$105,410,300, reflecting a decrease of \$2,872,300, would provide for other staff costs, consultants, travel of staff, contractual services, general operating expenses, supplies and materials and furniture and equipment. The net decrease results from the combined effect of the following factors: (a) the removal of non-recurrent requirements relating to the one-time provisions in the biennium 2016-2017 (\$2,622,800); (b) reductions in the amount of \$1,367,600 due to anticipated efficiencies that the Division plans to bring about in 2018-2019; partially offset by (c) an increase of \$1,012,000 including recurrent provisions (\$508,800) and non-recurrent provisions (\$503,200) in support of new posts proposed under section 1, Overall policymaking, direction and coordination, and section 28, Public information for the biennium 2018-2019; and (d) additional requirements mainly for the operation and maintenance of the elevators in the Dag Hammarskjöld Library (\$106,100).
- 29D.29 Regular budget resources are complemented by other assessed contributions derived from the support account for peacekeeping operations and extrabudgetary resources derived mainly from programme support income received as reimbursement for the services provided by the central administration for extrabudgetary activities, funds and programmes. Other assessed contributions in the amount of \$45,945.900 would provide for the financing of eight posts, general temporary assistance, consultants and general operating requirements, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2017 to 30 June 2018 (A/71/806). Furthermore, extrabudgetary funding estimated at \$60,833,300 would provide for the continuation of 20 posts, general temporary assistance, contractual services and general operating expenses.

Component 2. Procurement services

Resource requirements (before recosting): \$7,503,900

29D.30 Substantive responsibility for this component is vested within the Procurement Division. The programme will be implemented in accordance with the strategy detailed under subprogramme 4 of programme 25 of the biennial programme plan for the period 2018-2019.

Table 29D.15 Resource requirements: procurement services

- 29D.34 The amount of \$7,207,000, reflecting a decrease of \$158,200, would provide for the continuation of 33 posts (1 D-2, 1 D-1, 1 P-5, 1 P-4, 4 P-3, 3 P-2 and 22 General Service (Other level)) to support the implementation of mandates under the programme. The decrease relates to the phased abolishment of posts approved by the General Assembly in resolution 70/247 for the biennium 2016-2017.
- 29D.35 A non-post requirement amounting to \$296,900, reflecting a decrease of \$101,400, provides for consultants, travel of staff, contractual services and other operational expenses. The decrease is as a result of efficiencies the Division plans to bring about in the biennium 2018-2019.
- 29D.36 Regular budget resources are complemented by other assessed contributions derived from the support account for peacekeeping operations and extrabudgetary resources derived mainly from programme support income received as reimbursement for the services provided by the central administration for extrabudgetary activities, funds and programmes. Other assessed contributions in the amount of \$25,398,900 would provide for 75 posts, general temporary assistance, consultants, travel of staff, general operating and supplies and materials requirements, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2017 to 30 June 2018 (A/71/806). Furthermore, extrabudgetary resources estimated at \$602,300 would provide for the continuation of two posts, and other operational expenses.

Component 3. Business continuity

Resource requirements (before recosting): \$1,029,200

29D.37 The Business Continuity Management Unit is responsible for this component of the subprogramme. The Unit will implement the programme of work in accordance with the strategy detailed under component 3 of subprogramme 4, support services, of the biennial programme plan for the period 2018-2019.
