**Annex to the letter dated 28 December 2018 from the Chargé d'affaires a.i. of the Permanent Mission of Turkey to the United Nations addressed to the Secretary-General**

Upon instructions from my Government, I am writing in response to the letter dated 29 November 2018 addressed to you by the Greek Cypriot representative in New York and circulated as a document of the Security Council ([A/73/606-S/2018/1066](#)), which, yet again, contains false assertions similar to those made in his previous letters. I would like to bring the following to your kind attention with a view to setting the record straight.

At the outset, regarding the claims of so-called “infringements of international air traffic regulations” and “violations of the national airspace of Cyprus”, I wish to underline that flights within the sovereign airspace of the Turkish Republic of Northern Cyprus take place with the full knowledge and permission of the relevant authorities of the State, over which the Greek Cypriot administration in South Cyprus has no jurisdiction or right of say whatsoever. The civil aviation authority of the Turkish Republic of Northern Cyprus is the only competent body to provide air traffic and aeronautical information services within its own national airspace, and notices to airmen are issued in accordance with article 3 of the Convention on International Civil Aviation (Chicago Convention).

Similarly, the assertion made in the letter regarding the use of Turkish Cypriot ports is also baseless, given the fact that the Greek Cypriot administration has no jurisdiction or right of say over Northern Cyprus. Furthermore, this claim ignores the present realities on the ground, namely, the existence of two independent, self-governing States on the island of Cyprus, each exercising sovereignty and jurisdiction within its respective territory.

As regards the false allegations concerning Ercan Airport in the North, it should once again be underlined that the technologically up-to-date Ercan area control centre and airport in North Cyprus have been providing regular, reliable and safe air traffic services since the Greek Cypriot side’s refusal in 1977 to provide air traffic services in the northern part of the island, in line with its policy of isolating the Turkish Cypriot people. Ever since, all flights within the sovereign airspace of the Turkish Republic of Northern Cyprus have taken place with the full knowledge and permission of the Civil Aviation Department of the Turkish Republic of Northern Cyprus, over which it has full jurisdiction and control.

Moreover, the unjust isolation imposed on the Turkish Cypriots, which the Greek Cypriot side attempts to bolster by deeming all air and sea ports in Northern Cyprus “illegal”, is in complete contravention of international law, as well as the call made by the then Secretary-General, Kofi Annan, in his report to the Security Council dated 28 May 2004 ([S/2004/437](#)), in which he clearly stated: “I would hope they [members of the Security Council] can give a strong lead to all States to cooperate both bilaterally and in international bodies to eliminate unnecessary restrictions and barriers that have the effect of isolating the Turkish Cypriots and impeding their development, deeming such a move as consistent with Security Council resolutions 541 (1983) and 550 (1984).”

The legislation of the Turkish Republic of Northern Cyprus on aeronautical safety meets all standards and recommendations of the International Civil Aviation Organization, ensuring aviation safety and security by regulating all aspects of civil aviation, including the operation of airports and the management of air traffic. All airports in Northern Cyprus are in full conformity with international standards, and necessary upgrades have been performed to keep up with the developing technology. Moreover, the number of air traffic controllers has been increased in accordance with

the growing number of flights over the years, and the Ercan area control centre is in regular and close cooperation with the Ankara area control centre in order to ensure the safe conduct of all flights in the region. In 2017 alone, the number of passengers who used Ercan Airport stood at 3,962,541, and this number is expected to be 4,200,294 in 2018. Moreover, in 2017, 27,197 aeroplanes used Ercan Airport for arrival and departure and 189,787 aeroplanes used the Ercan advisory airspace, and these numbers are expected to reach 27,469 and 193,583, respectively, in 2018. In that regard, it must also be stressed that the Turkish Cypriot side is committed to upholding the highest standards in the field of air navigation safety in full conformity with the Chicago Convention of 1944, and that it is ready to cooperate with the Greek Cypriot authorities on this very important issue.

Availing myself of the present opportunity, I would like to call upon the Greek Cypriot side to discontinue such unfavourable and outdated rhetoric and remind it that its counterpart is, and has always been, the Turkish Cypriot side, not Turkey.

I should be grateful if the present letter could be circulated as a document of the General Assembly, under agenda item 45, and of the Security Council.

Turkish Republic of Northern Cyprus
