Seventy-second session

Item 100 (g) of the provisional agenda*

General and complete disarmament: transparency in armaments

United Nations Register of Conventional Arms

Report of the Secretary-General

Summary

The present report, submitted pursuant to General Assembly resolution [71/44](#), contains information received from Member States on the export and import of conventional arms covered by the United Nations Register of Conventional Arms, as well as information on their international transfers of small arms and light weapons, in accordance with the “seven plus one formula” referred to in paragraph 6 (c) of resolution [71/44](#) and the recommendation contained in paragraph 83 of the report of the Secretary-General, with the assistance of a group of governmental experts, on the continuing operation of the United Nations Register of Conventional Arms and its further development ([A/71/259](#)).

The report also contains additional background information received from Member States on military holdings and procurement through national production for the calendar year 2018. As at the date of submission of the present report, the Secretary-General has received reports from 33 Governments. In addition, as at the date mentioned above, 17 Member States had replied to the questionnaire circulated by the Office for Disarmament Affairs, pursuant to paragraph 6 (a) of resolution [71/44](#).

I. Introduction

1. The present report is the twenty-seventh consolidated report on the United Nations Register of Conventional Arms issued by the Secretary-General since the establishment of the Register.¹ The General Assembly, in its resolution 71/44, called upon Member States to provide, on an annual basis, data and information on international transfers of major conventional arms covered by the Register, including nil reports, and invited them to provide additional background information on military holdings and procurement through national production of arms.

2. The General Assembly also called upon Member States to submit their views on the continuing operation of the Register and its further development, including on whether the absence of small arms and light weapons as a main category in the Register has limited its relevance and directly affected decisions on participation, by completing a questionnaire that was dispatched by the Secretariat. Furthermore, the General Assembly requested the Secretary-General to continue to assist Member States to build capacity to submit meaningful reports and encouraged States in a position to do so to provide assistance for this purpose upon request, including capacity to report on small arms and light weapons using the seven plus one formula.

3. On 6 February 2019, the Secretariat sent a note verbale to Member States requesting them to submit their reports and it circulated to Member States the questionnaire referred to in paragraph 6 (a) of resolution 71/44. The note verbale was followed by email reminders, tweets and reminders on the website of the Office for Disarmament Affairs. The replies received are reproduced in section II of the present report. Any national reports and additional information received from Governments after the submission of the present report will be made available in the online database, in the original language of submission.

4. The percentage of Member States using the online reporting tool in filing their national reports with the Register has risen from 20 per cent in 2012, when the tool was introduced, to over 85 per cent in 2019.

5. The originals of the submissions by Member States are made available to Governments by the Secretariat. The annual reports and other relevant information on the Register of Conventional Arms are available on the website of the United Nations Register of Conventional Arms.²

6. Since the questionnaire mentioned in paragraph 2 above was first circulated in 2017, the following 17 Member States have submitted replies to the Secretariat: Argentina, Bhutan, Brazil, China, Dominican Republic, Finland, Germany, Italy, Japan, Madagascar, Netherlands, Romania, Singapore, Slovakia, Russian Federation, Turkey and Ukraine.

7. Pursuant to the request contained in paragraph 6 (b) of resolution 71/44, the Secretary-General convened a group of governmental experts on the continuing operation and relevance of the Register and its further development. The Group held three sessions of work,³ which culminated with a consensus report that will be transmitted to the General Assembly at its seventy-fourth session.

¹ The first 26 reports were issued under the following symbols: A/48/344 and Corr.1–3 and Add.1–3; A/49/352 and Corr.1–2 and Add.1–4; A/50/547 and Corr.1 and Add.1–4; A/51/300 and Add.1–5; A/52/312 and Corr.1–2 and Add.1–4; A/53/334 and Corr.1–2 and Add.1–2; A/54/226 and Corr.1 and Add.1–6; A/55/299 and Corr.1 and Add.1–6; A/56/257 and Corr.1 and Add.1–2; A/57/221 and Corr.1–2 and Add.1–3; A/58/203 and Corr.1–2 and Add.1–2; A/59/193 and Corr.1–2 and Add.1–2; A/60/160 and Corr.1–2 and Add.1–3; A/61/159 and Corr.1–2 and Add.1–3; A/62/170 and Add.1–3; A/63/120 and Add.1–3; A/64/135 and Add.1–3; A/65/133 and Add.1–5; A/66/127 and Corr.1–2; A/67/212 and Corr.1–2 and Add.1–2; and A/68/138 and Add.1; A/69/124 and Add.1; A/70/168 and Add.1; A/71/138 and Add.1; A/72/331; and A/73/185.

New legislation for arms control

The Dominican Republic does not manufacture or export firearms. Since 2006, Decree No. 309-06 has prohibited the importation of firearms and ammunition for trade with private individuals. In synthesis, only these imports were allowed when their use was for police, military, private security support, hunting and sports. When a request is presented to import arms or ammunition, the Ministry of the Interior and Police executes an evaluation, taking into consideration the use, recipient and the existence of correspondence with the requested and the end user, among other criteria of evaluation and suitability. Once authorized, the authorization is issued by the Ministry of the Interior and Police and communicated to the Ministry of Defence, the Ministry of Foreign Affairs and the Director of Customs, as well as to the concerned parties. Once the import arrives, it goes through a joint inspection by specialized members of the Ministry of the Interior and Police, Ministry of Defence and the Director of Customs. With the promulgation of the new Weapons Law on 2 August 2016 (Law No. 631-16 for the Control and Regulation of Weapons, Ammunition and Related Materials), the opening of imports is foreseen, but it is always conditioned on the authorization of the President of the Republic. In order to continue fulfilling the commitments of the Arms Trade Treaty and of Law No. 631-16 and institutional strengthening, the Ministry of the Interior and Police is in the process of creating a directorate for the trade in arms and ammunition.

Related policies**Three Principles on Transfer of Defence Equipment and Technology**

While maintaining its basic philosophy as a peace-loving nation that conforms to the Charter of the United Nations and the course it has taken as a peace-loving nation, Japan will control the overseas transfer of defence equipment and technology based on the Three Principles on Transfer of Defense Equipment and Technology. The main contents of the Principles are as follows:

(a) Clarification of cases where transfers are prohibited (the first Principle): overseas transfer of defence equipment and technology will not be permitted when:

- (i) The transfer violates obligations under treaties and other international agreements that Japan has concluded;
- (ii) The transfer violates obligations under Security Council resolutions; or
- (iii) The defense equipment and technology is destined for a country party to a conflict (a country against which the Security Council is taking measures to maintain or restore international peace and security in the event of an armed attack).

(b) Limitation to cases where transfers may be permitted as well as strict examination and information disclosure (the second Principle): in cases not within (a) above, cases where transfers may be permitted will be limited to the below cases. Those cases will be examined strictly while ensuring transparency. The transfer contributes:

- (i) To active promotion of peace contribution and international cooperation; or
- (ii) Japan's security.

Significant cases that require especially careful consideration from the viewpoint of Japan's security will be examined at the National Security Council. As for the cases that were deliberated at the National Security Council, the Government will disclose their information in accordance with the Act on Access to Information Held by Administrative Organs (Law No. 42 of 1999).

(c) Ensuring appropriate control regarding extra-purpose use or transfer to third parties (the third Principle): in cases satisfying (b) above, overseas transfer of defence equipment and technology will be permitted only in cases where appropriate control is ensured. More concretely, the Government will in principle oblige the Government of the recipient country to gain its prior consent regarding extra-purpose use and transfer to third parties.
