## Chapter III

### **Report of the Committee of Permanent Representatives (agenda item 4)**

17. Mr. Fernando Coimbra, Permanent Representative of Brazil and Chair of the Committee of Permanent Representatives, presented the report of the Committee of Permanent Representatives, including the outcomes of the fifth session of the Open-ended Committee of Permanent Representatives, held from 15 to 17 February 2021 ([UNEP/EA.5/INF/2](#)).

18. In particular, the Chair highlighted that the Committee had held all its meetings online since the beginning of the COVID-19 pandemic and none had been postponed or delayed. The holding of meetings online, however, had not been without its challenges, ranging from those stemming from the digital divide to those associated with ensuring multilingualism. That was why the bureaux of the Environment Assembly and of the Committee of Permanent Representatives had decided that the present online meeting of the fifth session should focus solely on urgent and administrative decisions and to postpone the preparation of substantive negotiated outcomes until in-person meetings were able to resume.

19. In closing, he thanked his fellow members of the Committee for their work, the secretariat for its support and the former Chair of the Committee of Permanent Representatives, Ms. Francisca Ashietey-Odunton, Permanent Representative of Ghana to UNEP, who had led the Committee until June 2019, for her diligent leadership.

20. Further information about the fifth session of the Open-Ended Committee of Permanent Representatives was available in the draft Chair's summary ([UNEP/OECPR/5/3](#)).

21. The Environment Assembly took note of the report of the Committee of Permanent Representatives.

## Chapter IV

### **Matters requiring the special attention of the General Assembly and the Economic and Social Council**

22. In its resolution [74/222](#) of 19 December 2019, the General Assembly of the United Nations welcomed the continued commitment of the Environment Assembly to contributing to the effective implementation of the environmental dimension of the 2030 Agenda for Sustainable Development in an integrated manner. The high-level political forum on sustainable development continues to offer a unique opportunity and an appropriate institutional framework to ensure such integration as well as follow-up to the collective decisions taken by the world's ministers for the environment at sessions of the Environment Assembly. Member States are invited to consider further actions to that end.

23. In its resolution [74/222](#) of 19 December 2019, the General Assembly also reiterated the ministerial declaration entitled “Innovative solutions for environmental challenges and sustainable consumption and production”, adopted by the Environment Assembly at its fourth session, and reaffirmed that embracing innovative solutions for environmental challenges and sustainable consumption and production are important elements for implementing the 2030 Agenda and achieving the Sustainable Development Goals. Furthermore, Member States were encouraged to advance innovative pathways to achieve sustainable consumption and production, in line with Environment Assembly resolution 4/1 of 15 March 2019.

24. At the online meeting of its fifth session, the Environment Assembly endorsed the outcome message of the online meeting of the fifth session entitled “Looking ahead to the resumed UN Environment Assembly in 2022: Message from online UNEA-5, Nairobi 22–23 February 2021”, which is set out in annex II to the present report, without formal editing. In the message, the Environment Assembly identified several priority areas relevant to the agendas of the Economic and Social Council and the General Assembly, including:

(a) Supporting a sustainable and inclusive recovery from the COVID-19 pandemic that protects the planet, stimulates sustainable consumption and production, revitalizes our economies and creates decent and sustainable jobs, and makes real progress in eradicating poverty, while enhancing our future resilience to similar crises;

(b) Enhancing efforts to implement the Addis Ababa Action Agenda and reaffirming that urgent actions are required to implement the 2030 Agenda for Sustainable Development;

(c) Underscoring the crucial importance of making further progress in all multilateral forums for the environment, in particular those related to the United Nations Framework Convention on Climate Change and the Paris Agreement, the Convention on Biological Diversity and the negotiations on a post-2020 global biodiversity framework, the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa, and the negotiations on the Strategic Approach to International Chemicals Management and the sound management of chemicals and waste beyond 2020.

25. The present report to the General Assembly, through the Economic and Social Council, presents an excellent opportunity to further integrate the outcomes of the fifth session of the Environment Assembly into the work and discussions of the two bodies. The General Assembly is expected to consider the report of the fifth session of the Environment Assembly at its seventy-sixth session. In that context, Member States may wish:

- (a) To take note of the report, including the outcome message of the online meeting of the fifth session and the summary of key messages from the leadership dialogue at the fifth session;
- (b) To take note of the decisions adopted by the Environment Assembly at its fifth session, including on the medium-term strategy for the period 2022–2025 and programme of work and budget for the biennium 2022–2023 and on the adjournment and resumption of the fifth session of the United Nations Environment Assembly;
- (c) To reaffirm the need to ensure sustainability, predictability and stability of the funding of UNEP to enable the Programme to fulfil its mandate;
- (d) To include in the provisional agenda of the seventy-seventh session of the General Assembly, under the item entitled “Sustainable development”, a sub-item entitled “Report of the United Nations Environment Assembly of the United Nations Environment Programme” to consider the outcomes of the in-person resumed meeting of the fifth session;
- (e) To recommend the participation of the President of the General Assembly and the President of the Economic and Social Council in the in-person resumed meeting of the fifth session of the Environment Assembly, to be held from 28 February to 2 March 2022, in line with the spirit of integration and universality of the 2030 Agenda.
