Seventy-seventh session

Second Committee

Agenda item 22 (c)

Eradication of poverty and other development issues: women in development

Czechia:* amendment to draft resolution [A/C.2/77/L.28/Rev.1](#)

Women in development

Replace operative paragraph 17 with the following text:

Expresses deep concern that, globally, women and girls are still the most affected by the HIV/AIDS epidemic, that they bear a disproportionate share of the caregiving burden and that they are more vulnerable to violence, stigmatization, discrimination, poverty and marginalization from their families and communities as a result of HIV/AIDS, notes that progress towards gender equality and the empowerment of all women and girls has been unacceptably slow and that the ability of women and girls to protect themselves from HIV continues to be compromised by physiological factors, gender inequalities, including unequal power relations in society between women and men and boys and girls, and unequal legal, economic and social status, insufficient access to health-care services, including sexual and reproductive health, multiple and intersecting forms of discrimination and violence in the public and private spheres, including trafficking in persons, sexual violence, exploitation and harmful practices, and calls upon Governments and the international community to urgently scale up responses towards achieving the goal of universal access to comprehensive HIV prevention, treatment, care and support and to ending the HIV/AIDS epidemic by 2030;

* On behalf of the States Members of the United Nations that are members of the European Union.
