(XXX) of 11 December 1975 and 32/76 of 12 December 1977 concerning the Treaty for the Prohibition of Nuclear Weapons in Latin America (Treaty of Tlatelolco)³ and its Additional Protocol I,

Taking into account that certain territories lying within the zone of application of that Treaty which are not sovereign political entities are nevertheless in a position to receive the benefits deriving from the Treaty through its Additional Protocol I, to which the States that de jure or de facto are internationally responsible for those territories may become parties,

Recalling with satisfaction that the United Kingdom of Great Britain and Northern Ireland and the Kingdom of the Netherlands became parties to Additional Protocol I in 1969 and 1971, respectively,

Recalling also with satisfaction that the United States of America signed Additional Protocol I in 1977 and that the Government of that country has decided to take the necessary steps for its ratification,

Taking note of the declaration made on 25 May 1978 by the President of the French Republic before the General Assembly at its tenth special session, devoted to disarmament, regarding the adherence of his country to Additional Protocol I,4

- Invites the United States of America to make every effort to ratify as soon as possible Additional Protocol I of the Treaty for the Prohibition of Nuclear Weapons in Latin America (Treaty of Tlatelolco);
- Welcomes with satisfaction the declaration made by the President of the French Republic on 25 May 1978 regarding the adherence of his country to Additional Protocol I of the Treaty for the Prohibition of Nuclear Weapons in Latin America (Treaty of Tlatelolco) and invites the Government of that country to make every effort to adhere as soon as possible to that Protocol;
- 3. Decides to include in the provisional agenda of its thirty-fourth session an item entitled "Implementation of General Assembly resolution 33/58 concerning the signature and ratification of Additional Protocol I of the Treaty for the Prohibition of Nuclear Weapons in Latin America (Treaty of Tlatelolco)".

84th plenary meeting 14 December 1978

33/59. Chemical and bacteriological (biological) weapons

The General Assembly,

Reaffirming its resolutions 2454 A (XXIII) of 20 December 1968, 2603 B (XXIV) of 16 December 1969, 2662 (XXV) of 7 December 1970, 2827 A (XXVI) of 16 December 1971, 2933 (XXVII) of 29 November 1972, 3077 (XXVIII) of 6 December 1973, 3256 (XXIX) of 9 December 1974, 3465 (XXX) of 11 December 1975, 31/65 of 10 December 1976, 32/77 of 12 December 1977 and S-10/2 of 30 June

Recalling that in the Final Document of the Tenth Special Session of the General Assembly it affirmed that the complete and effective prohibition of the development, production and stockpiling of all chemical weapons and their destruction represented one of the most urgent measures of disarmament, which should be accorded high priority in disarmament negotiations,⁵

Regretting that agreement on the complete and effective prohibition of the development, production and stockpiling of all chemical weapons has not been reached, despite the numerous appeals of the General Assembly,

Convinced that the continuing arms race calls for urgent disarmament measures and that the process of international détente is conducive to the achievement of progress towards general and complete disarmament under effective international control,

Reaffirming the necessity of strict observance by all States of the principles and objectives of the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925,6

Convinced that the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction constitutes an important step towards early agreement on the effective prohibition of the development, production and stockpiling of all chemical weapons and on their elimination from the arsenals of all States,

Recalling in that connexion the undertaking contained in article IX of the Convention to continue negotiations in good faith with a view to reaching early agreement on effective measures for the prohibition of the development, production and stockpiling of all chemical weapons and for their destruction,

Stressing the importance of early agreement on the complete prohibition of the development, production and stockpiling of all chemical weapons and on their destruction, which would contribute to general and complete disarmament under effective international control,

Noting the risk of continued development, production and stockpiling of chemical weapons in the absence of such agreement,

Having considered the report of the Conference of the Committee on Disarmament,8

Noting that drafts of a convention on the prohibition of the development, production and stockpiling of all chemical weapons and on their destruction, as well as other working documents, proposals and suggestions, have been submitted to the Conference of the Committee on Disarmament and constitute valuable contributions to reaching agreement,

Resolution S-10/2, para. 75.
 League of Nations, Treaty Series, vol. XCIV (1929),

No. 2138, p. 65.
⁷ Resolution 2826 (XXVI), annex.

See Official Records of the Disarmament Commission, Supplement for 1972, document DC/235, annex B, document CCD/361; Official Records of the General Assembly, Twenty-ninth Session, Supplement No. 27 (A/9627), annex II, document CCD/420; ibid., Thirtieth Session, Supplement No. 27 (A/10027), annex II, document CCD/452; and ibid., Thirty-first Session, Supplement No. 27 (A/31/27), annex III, document CCD/651, annex III, annex III, document CCD/65 ment CCD/512.

Taking into account the comments made on this item and relevant documents submitted to the General Assembly at its thirty-third session,

Noting also that sustained and intensive efforts in the Conference of the Committee on Disarmament have led to increased understanding in identifying practical approaches towards the prohibition of the development, production and stockpiling of all chemical weapons and towards their destruction,

Believing that future agreement on the prohibition of chemical weapons should meet the objective of complete, effective and verifiable prohibition of the development, production and stockpiling of chemical weapons, as well as provide adequate methods of verification for the destruction of the stockpiles of chemical weapons, and recognizing that arrangements for verification should be based on a combination of national and international arrangements,

Having in mind that agreement on the complete prohibition of the development, production and stockpiling of all chemical weapons and on their destruction should not impede the utilization of science and technology for the economic development of States,

Desiring to contribute to an early and successful conclusion of the negotiations on effective and strict measures for the complete prohibition of the development, production and stockpiling of all chemical weapons and for their destruction,

- Urges all States to reach early agreement on the effective prohibition of the development, production and stockpiling of all chemical weapons and on their destruction;
- Urges the Union of Soviet Socialist Republics and the United States of America to submit their joint initiative to the Committee on Disarmament in order to assist it in achieving early agreement on the prohibition of the development, production and stockpiling of all chemical weapons and on their destruction;
- Requests the Committee on Disarmament, as a matter of high priority, to undertake, at the beginning of its 1979 session, negotiations with a view to elaborating an agreement on effective measures for the prohibition of the development, production and stockpiling of all chemical weapons and for their destruction, taking into account all existing proposals and future initiatives:
- Invites all States that have not yet done so to accede to the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction, as well as to accede to or ratify the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925, and calls again for strict observance by all States of the principles and objectives of those instruments;
- Requests the Secretary-General to transmit to the Committee on Disarmament all documents of the thirty-third session of the General Assembly relating to chemical weapons and to chemical means of warfare;
- Requests the Committee on Disarmament to report on the results of its negotiations to the General Assembly at its thirty-fourth session.

84th plenary meeting 14 December 1978

The General Assembly,

Recalling its resolution 2826 (XXVI) of 16 December 1972, in which it commended the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction¹⁰ and expressed the hope for the widest possible adherence to that Convention,

Noting that article XII of the Convention provides as follows:

"Five years after the entry into force of this Convention, or earlier if it is requested by a majority of Parties to the Convention by submitting a proposal to this effect to the Depositary Governments, a Conference of States Parties to the Convention shall be held at Geneva, Switzerland, to review the operation of the Convention, with a view to assuring that the purposes of the preamble and the provisions of the Convention, including the provisions concerning negotiations on chemical weapons, are being realized. Such review shall take into account any new scientific and technological developments relevant to the Convention",

Believing that the availability of information as appropriate on any new scientific and technological developments relevant to the Convention could contribute to the work of the Review Conference of the Parties to the Convention,

Bearing in mind that the Convention will have been in force for five years on 26 March 1980 and expecting that the Review Conference called for in the Convention will take place near that date,

- Notes that, after appropriate consultations, a preparatory committee of parties to the Convention is to be arranged;
- 2. Requests the Secretary-General to render the necessary assistance and to provide such services, including summary records, as may be required for the Review Conference and its preparation.

84th plenary meeting 14 December 1978

33/60. Implementation of General Assembly resolution 32/78

The General Assembly,

Reaffirming its conviction that the cessation of nuclear-weapon testing by all States in all environments would be in the interest of all mankind, both as a major step towards ending the qualitative improvement, development and proliferation of nuclear weapons and as a means of relieving the deep apprehension concerning the harmful consequences of radioactive contamination for the health of present and future generations,

Recalling the determination of the parties to the Treaty Banning Nuclear Weapons Tests in the Atmosphere, in Outer Space and Under Water¹¹ and the Treaty on the Non-Proliferation of Nuclear Weapons¹²
