

**3464 (XXX). Napalm and other incendiary weapons and all aspects of their possible use***The General Assembly,*

*Convinced* that the suffering of civilian populations and combatants could be significantly reduced if general agreement can be attained on the prohibition or restriction for humanitarian reasons of the use of specific conventional weapons, including any which may be deemed to be excessively injurious or to have indiscriminate effects,

*Mindful* that positive results in this regard are likely to facilitate subsequent substantive disarmament negotiations with a view to the elimination of production, stockpiling and proliferation of the weapons in question, which should be an ultimate objective,

*Recalling* that the issue of prohibitions or restrictions for humanitarian reasons of the use of specific conventional weapons has been the subject of serious and substantive discussion at the level of government experts at the Conference of Government Experts, held at Lucerne, from 24 September to 18 October 1974, under the auspices of the International Committee of the Red Cross and of government representatives at the Diplomatic Conference on the Reaffirmation and Development of International Humanitarian Law Applicable in Armed Conflicts and in the General Assembly,

*Aware* that the discussions, as well as the proposals and suggestions which have been advanced, have regard not only to napalm and other incendiary weapons but to a number of other specific kinds of conventional weapons, such as various small-calibre projectiles, certain blast and fragmentation weapons, as well as some delayed-action weapons and perfidious weapons,

*Conscious* of the need to continue discussion and for supplementary data to enable Governments to reach further conclusions and to seek broad agreement,

*Noting with satisfaction* that the issue will be before a second Conference of Government Experts, to be held under the auspices of the International Committee of the Red Cross at Lugano from 28 January to 26 February 1976, with a view to focusing on such weapons as have been or might become the subject of proposed bans or restrictions and to studying the possibility, contents and form of such proposed bans or restrictions and that, thereafter, the issue will come before the third session of the Diplomatic Conference on the Reaffirmation and Development of International Humanitarian Law Applicable in Armed Conflicts, to be held at Geneva from 21 April to 11 June 1976,

*Trusting* that this further work will be inspired by a sense of urgency and a wish to attain concrete results,

1. *Takes note* of the reports of the Secretary-General on the work of the Diplomatic Conference on the Reaffirmation and Development of International Humanitarian Law Applicable in Armed Conflicts as regards the work of the Conference relevant to the present resolution;<sup>20</sup>

2. *Invites* the Diplomatic Conference to continue its consideration of the use of specific conventional weapons, including any which may be deemed to be excessively injurious or to have indiscriminate effects, and its search for agreement for humanitarian reasons on possible rules prohibiting or restricting the use of such weapons;

<sup>20</sup> A/10195 and Corr.1, A/10222.

3. *Requests* the Secretary-General, who has been invited to attend the Diplomatic Conference as an observer, to report to the General Assembly at its thirty-first session on aspects of the work of the Diplomatic Conference and of the Conference of Government Experts, to be held at Lugano, relevant to the present resolution;

4. *Decides* to include in the provisional agenda of its thirty-first session an item entitled "Incendiary and other specific conventional weapons which may be the subject of prohibitions or restrictions of use for humanitarian reasons".

**3465 (XXX). Chemical and bacteriological (biological) weapons***The General Assembly,*

*Reaffirming* its resolutions 2454 A (XXIII) of 20 December 1968, 2603 B (XXIV) of 16 December 1969, 2662 (XXV) of 7 December 1970, 2827 A (XXVI) of 16 December 1971, 2933 (XXVII) of 29 November 1972, 3077 (XXVIII) of 6 December 1973 and 3256 (XXIX) of 9 December 1974,

*Convinced* that the process of international détente is conducive to the implementation of further disarmament measures and of general and complete disarmament under effective international control,

*Convinced also* of the importance in this context of the complete prohibition and elimination of chemical as well as bacteriological (biological) weapons,

*Recalling* that it has repeatedly condemned all actions contrary to the principles and objectives of the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925,<sup>21</sup> and reaffirming the necessity of strict observance by all States of the principles and objectives of that Protocol,

*Noting with satisfaction* the entry into force of the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction<sup>22</sup> and convinced that it constitutes an important step towards early agreement on the effective prohibition of the development, production and stockpiling of all chemical weapons and on their elimination from the arsenals of all States,

*Recalling* in that connexion the undertaking contained in article IX of the Convention to continue negotiations in good faith with a view to reaching early agreement on effective measures for the prohibition of the development, production and stockpiling of chemical weapons and for their destruction,

*Stressing* the importance of early agreement on the complete prohibition of the development, production and stockpiling of all chemical weapons and on their destruction, which would contribute to general and complete disarmament under effective international control,

*Having considered* the report of the Conference of the Committee on Disarmament,<sup>23</sup>

<sup>21</sup> League of Nations, *Treaty Series*, vol. XCIV (1929), No. 2138, p. 65.

<sup>22</sup> Resolution 2826 (XXVI), annex.

<sup>23</sup> *Official Records of the General Assembly, Thirtieth Session, Supplement No. 27 (A/10027)*.

*Noting* that drafts of a convention on the prohibition of the development, production and stockpiling of chemical weapons and on their destruction,<sup>24</sup> as well as other working documents, proposals and suggestions, have been submitted to the Conference of the Committee on Disarmament, and constitute valuable contributions to the negotiation of an appropriate agreement,

*Expressing concern* over the lack of progress in negotiations in the Conference of the Committee on Disarmament on the prohibition of chemical weapons and on their elimination from the arsenals of all States,

*Desiring* to contribute to a successful conclusion of the negotiations on effective and strict measures for the complete prohibition of the development, production and stockpiling of all chemical weapons and for their destruction,

1. *Reaffirms* the objective of reaching early agreement on the effective prohibition of the development, production and stockpiling of all chemical weapons and on their elimination from the arsenals of all States;

2. *Urges again* all States to make every effort to facilitate early agreement on the effective prohibition of the development, production and stockpiling of all chemical weapons and on their destruction;

3. *Requests* the Conference of the Committee on Disarmament to continue negotiations as a matter of high priority, taking into account the existing proposals, with a view to reaching early agreement on effective measures for the prohibition of the development, production and stockpiling of all chemical weapons and for their destruction;

4. *Invites* all States that have not yet done so to accede to the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction;

5. *Invites* all States that have not yet done so to accede to or ratify the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925, and calls again for strict observance by all States of the principles and objectives of that Protocol;

6. *Requests* the Secretary-General to transmit to the Conference of the Committee on Disarmament all documents of the First Committee relating to chemical weapons and chemical means of warfare;

7. *Requests* the Conference of the Committee on Disarmament to report on the results of its negotiations to the General Assembly at its thirty-first session.

**3466 (XXX). Urgent need for cessation of nuclear and thermonuclear tests and conclusion of a treaty designed to achieve a comprehensive test ban**

*The General Assembly,*

*Deeply concerned* that a number of States have engaged in underground nuclear weapon testing since the twenty-ninth session of the General Assembly,

while welcoming the fact that there have been no atmospheric nuclear weapon tests in the same period,

*Recalling* its previous resolutions on the subject, the most recent being resolution 3257 (XXIX) of 9 December 1974,

*Recalling* the stated aim of the parties to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water<sup>25</sup> to seek to achieve the discontinuance of all test explosions of nuclear weapons for all time,

*Noting* that:

(a) The Final Declaration of the Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,<sup>26</sup> adopted by consensus on 30 May 1975:

(i) Expressed the view that the conclusion of a treaty banning all nuclear weapons tests is one of the most important measures to halt the nuclear arms race,

(ii) Expressed the hope that the nuclear-weapon States parties to the Treaty on the Non-Proliferation of Nuclear Weapons will take the lead in reaching an early solution to the technical and political difficulties on this issue,

(iii) Appealed to these States to make every effort to reach agreement on the conclusion of an effective comprehensive test ban,

(b) The final documentation of the Conference included a draft resolution and a draft additional protocol to the Treaty,<sup>27</sup> submitted by a considerable number of States which attended the Conference, concerning nuclear weapon tests, whereby the nuclear-weapon States depositaries of the Treaty would agree on a moratorium, which could in due course become a comprehensive test ban embracing all nuclear-weapon States,

(c) The desire was expressed by a considerable number of delegations at the Conference that the nuclear-weapon States parties to the Treaty should, as soon as possible, enter into an agreement, open to all States and containing appropriate provisions to ensure its effectiveness, to halt all nuclear weapon tests of adhering States for a specified time, whereupon the terms of such an agreement would be reviewed in the light of the opportunity at that time to achieve a universal and permanent cessation of all nuclear weapon tests,

*Taking note* of the section of the report of the Conference of the Committee on Disarmament relating to the question of a comprehensive test ban agreement,<sup>28</sup>

*Reaffirming* its conviction that the cessation of nuclear weapon testing would be in the supreme interest of mankind, both as a major step towards controlling the development and proliferation of nuclear weapons and to relieve the deep apprehension concerning the harmful consequences of radio-active contamination for the health of present and future generations,

1. *Condemns* all nuclear weapon tests, in whatever environment they may be conducted;

2. *Deplores* the continued lack of progress towards a comprehensive test ban agreement;
