9. Urges the Union of Soviet Socialist Republics and the United States of America to initiate immediately and in a constructive spirit negotiations aimed at preventing an arms race in outer space and to advise the Conference on Disarmament regularly of the progress of their bilateral negotiations so as to facilitate its work;

10. *Requests* the Conference on Disarmament to report on its consideration of this subject to the General Assembly at its fortieth session;

11. *Requests* the Secretary-General to transmit to the Conference on Disarmament all documents relating to the consideration of this subject by the General Assembly at its thirty-ninth session;

12. *Decides* to include in the provisional agenda of its fortieth session the item entitled "Prevention of an arms race in outer space".

97th plenary meeting 12 December 1984

39/60. Implementation of General Assembly resolution 38/72 on the immediate cessation and prohibition of nuclear-weapon tests

The General Assembly,

Deeply concerned over the intensification of the nucleararms race and the growing threat of nuclear war,

Recalling that over the past thirty years the need for cessation and prohibition of nuclear-weapon testing has been in the focus of attention of the General Assembly,

Reaffirming its conviction that the conclusion of a multilateral treaty on the prohibition of nuclear-weapon tests by all States would constitute an indispensable element for the success of efforts to halt and reverse the nuclear-arms race and the qualitative improvement of nuclear weapons, and to prevent the expansion of existing nuclear arsenals and the spread of nuclear weapons to additional countries,

Stressing once again that the elaboration of such a treaty is the task of the highest priority and should not be made dependent on the attainment of any other measure in the field of disarmament,

Deeply deploring that the Conference on Disarmament has to date been prevented from carrying out negotiations with a view to reaching agreement on such a treaty,

Recalling its previous resolutions on this subject,

1. Resolutely urges all States, and especially all nuclear-weapon States, to exert maximum efforts and exercise political will for the elaboration and conclusion, without any delay, of a multilateral treaty on the prohibition of nuclear-weapon tests by all States;

2. Urges the Conference on Disarmament to proceed promptly to negotiations with a view to elaborating such a treaty as a matter of the highest priority, taking into account all existing proposals and future initiatives, and, for that purpose, to establish an *ad hoc* committee with a negotiating mandate;

3. Decides to include in the provisional agenda of its fortieth session an item entitled "Implementation of General Assembly resolution 39/60 on the immediate cessation and prohibition of nuclear-weapon tests".

97th plenary meeting 12 December 1984 **39/61.** Implementation of the Declaration on the Denuclearization of Africa

A

IMPLEMENTATION OF THE DECLARATION

The General Assembly,

Bearing in mind the Declaration on the Denuclearization of Africa²³ adopted by the Assembly of Heads of State and Government of the Organization of African Unity at its first ordinary session, held at Cairo from 17 to 21 July 1964,

Recalling resolution 1652 (XVI) of 24 November 1961, its earliest on the subject, as well as its resolutions 2033 (XX) of 3 December 1965, 31/69 of 10 December 1976, 32/81 of 12 December 1977, 33/63 of 14 December 1978, 34/76 A of 11 December 1979, 35/146 B of 12 December 1980, 36/86 B of 9 December 1981, 37/74 A of 9 December 1982 and 38/181 A of 20 December 1983, in which it called upon all States to consider and respect the continent of Africa and its surrounding areas as a nuclear-weaponfree zone,

Recalling that in its resolution 33/63 it vigorously condemned any overt or covert attempt by South Africa to introduce nuclear weapons into the continent of Africa and demanded that South Africa refrain forthwith from conducting any nuclear explosion in the continent of Africa or elsewhere,

Taking note of the report of the United Nations Institute for Disarmament Research entitled "South Africa's nuclear capability",²⁴ undertaken in co-operation with the Department for Disarmament Affairs of the Secretariat and in consultation with the Organization of African Unity, as well as the report of the Disarmament Commission,²⁵

Expressing regret that, despite the threat South Africa's nuclear capability constitutes to international peace and security, in particular to the realization of the objective of the Declaration on the Denuclearization of Africa, the Disarmament Commission has, once again, in 1984, failed to reach a consensus on this important item on its agenda,

1. Strongly renews its call upon all States to consider and respect the continent of Africa and its surrounding areas as a nuclear-weapon-free zone;

2. *Reaffirms* that the implementation of the Declaration on the Denuclearization of Africa adopted by the Assembly of Heads of State and Government of the Organization of African Unity would be an important measure to prevent the proliferation of nuclear weapons and to promote international peace and security;

3. Expresses once again its grave alarm at South Africa's possession and continued development of nuclearweapon capability;

4. Condemns South Africa's continued pursuit of a nuclear capability and all forms of nuclear collaboration by any State, corporation, institution or individual with the racist régime that enable it to frustrate the objective of the Declaration which seeks to keep Africa free from nuclear weapons;

5. Calls upon all States, corporations, institutions and individuals to desist from further collaboration with the racist régime that may enable it to frustrate the objective of the Declaration on the Denuclearization of Africa;

²³ Ibid., Twentieth Session, Annexes, agenda item 105, document A/5975 ²⁴ A/39/470.

²⁵ Official Records of the General Assembly, Thirty-ninth Session, Supplement No. 42 (A/39/42)

6. Demands once again that the racist régime of South Africa refrain from manufacturing, testing, deploying, transporting, storing, using or threatening to use nuclear weapons;

7. Appeals to all States that have the means to do so, to monitor South Africa's research on, and development and production of nuclear weapons, and to publicize any information in that regard;

8. Demands once again that South Africa submit forthwith all its nuclear installations and facilities to inspection by the International Atomic Energy Agency;

9. *Requests* the Secretary-General to render all necessary assistance that the Organization of African Unity may seek towards the implementation of its solemn Declaration on the Denuclearization of Africa;

10. *Decides* to include in the provisional agenda of its fortieth session the item entitled "Implementation of the Declaration on the Denuclearization of Africa".

97th plenary meeting 12 December 1984

B

NUCLEAR CAPABILITY OF SOUTH AFRICA

The General Assembly,

Recalling its resolutions 34/76 B of 11 December 1979, 35/146 A of 12 December 1980, 36/86 A of 9 December 1981, 37/74 B of 9 December 1982 and 38/181 B of 20 December 1983,

Bearing in mind the Declaration on the Denuclearization of Africa²³ adopted by the Assembly of Heads of State and Government of the Organization of African Unity at its first ordinary session, held at Cairo from 17 to 21 July 1964,

Recalling that, in paragraph 12 of the Final Document of the Tenth Special Session of the General Assembly, it noted that the accumulation of armaments and the acquisition of armaments technology by the racist régimes, as well as their possible acquisition of nuclear weapons, presented a challenging and increasingly dangerous obstacle to a world community faced with the urgent need to disarm,²⁶

Recalling also that in its resolution 33/63 of 14 December 1978, it vigorously condemned any overt or covert attempt by South Africa to introduce nuclear weapons into the continent of Africa and demanded that South Africa refrain forthwith from conducting any nuclear explosion in the continent or elsewhere,

Taking note of resolution GC(XXVIII)/RES/423 on South Africa's nuclear capabilities, adopted on 27 September 1984 by the General Conference of the International Atomic Energy Agency during its twenty-eighth regular session,

Taking note of the report of the United Nations Institute for Disarmament Research, entitled "South Africa's nuclear capability",²⁴ undertaken in co-operation with the Department for Disarmament Affairs and in consultation with the Organization of African Unity,

Expressing regret that, despite the threat South Africa's nuclear capability constitutes to international peace and security, in particular to the realization of the objective of the Declaration on the Denuclearization of Africa, the Disarmament Commission has, once again, in 1984, failed to reach a consensus on this important item on its agenda,

Gravely concerned that South Africa, in flagrant violation of the principles of international law and the relevant provisions of the Charter of the United Nations, has continued its acts of aggression and subversion against the peoples and the independent States of southern Africa,

Strongly condemning the continued military occupation by South African troops of parts of the territory of Angola in violation of its national sovereignty, independence and territorial integrity, and urging the immediate and unconditional withdrawal of South African troops from Angolan soil,

Expressing its grave disappointment that, despite repeated appeals by the international community, certain Western States and Israel have continued to collaborate with the racist régime of South Africa in the military and nuclear fields and that some of the same Western States have, by a ready recourse to the use of the veto, consistently frustrated every effort in the Security Council to deal decisively with the question of South Africa,

Recalling its decision taken at the tenth special session that the Security Council should take appropriate effective steps to prevent the frustration of the implementation of the decision of the Organization of African Unity for the denuclearization of Africa,²⁷

Stressing the need to preserve peace and security in Africa by ensuring that the continent is a nuclear-weapon-free zone,

1. Condemns the massive buildup of South Africa's military machine, in particular, its frenzied acquisition of nuclear-weapon capability for repressive and aggressive purposes and as an instrument of blackmail;

2. *Expresses its full support* for the African States faced with the danger of South Africa's nuclear capability;

3. *Reaffirms* that the racist régime's acquisition of nuclear-weapon capability constitutes a very grave danger to international peace and security and, in particular, jeopardizes the security of African States and increases the danger of the proliferation of nuclear weapons;

4. Condemns all forms of nuclear collaboration by any State, corporation, institution or individual with the racist régime of South Africa, in particular the decision by some Member States to grant licences to several corporations in their territories to provide equipment, technical and maintenance services for nuclear installations in South Africa;

5. *Demands* that South Africa and all other foreign interests put an immediate end to the exploration and exploitation of uranium resources in Namibia;

6. *Calls upon* all States, corporations, institutions and individuals to terminate forthwith all forms of military and nuclear collaboration with the racist régime;

7. Requests the Disarmament Commission to consider as a matter of priority during its session in 1985 South Africa's nuclear capability, taking into account, *inter alia*, the findings of the report of the United Nations Institute for Disarmament Research on South Africa's nuclear capability;

8. *Requests* the Security Council, for the purposes of disarmament and to fulfil its obligations and responsibility, to take enforcement measures to prevent any racist régimes from acquiring arms or arms technology;

9. Further requests the Security Council to conclude expeditiously its consideration of the recommendations of its Committee established by resolution 421 (1977) con-

²⁶ Resolution S-10/2.

²⁷ Ibid., para. 63 (c).

cerning the question of South Africa,²⁸ with a view to blocking the existing loopholes in the arms embargo, so as to render it more effective and prohibiting, in particular, all forms of co-operation and collaboration with the racist régime of South Africa in the nuclear field;

10. Demands once again that South Africa submit forthwith all its nuclear installations and facilities to inspection by the International Atomic Energy Agency;

11. Requests the Secretary-General to follow very closely South Africa's evolution in the nuclear field and to report thereon to the General Assembly at its fortieth session

> 97th plenary meeting 12 December 1984

39/62. Prohibition of the development and manufacture of new types of weapons of mass destruction and new systems of such weapons

The General Assembly,

Recalling its resolutions 3479 (XXX) of 11 December 1975, 31/74 of 10 December 1976, 32/84 A of 12 December 1977, 33/66 B of 14 December 1978, 34/79 of 11 December 1979, 35/149 of 12 December 1980, 36/89 of 9 December 1981, 37/77 A of 9 December 1982 and 38/182 of 20 December 1983 concerning the prohibition of new types of weapons of mass destruction,

Bearing in mind the provisions of paragraph 39 of the Final Document of the Tenth Special Session of the General Assembly,²⁶ according to which qualitative and quantitative disarmament measures are both important for halting the arms race and efforts to that end must include negotiations on the limitation and cessation of the qualitative improvement of armaments, especially weapons of mass destruction, and the development of new means of warfare.

Recalling the decision contained in paragraph 77 of the Final Document to the effect that, in order to help prevent a qualitative arms race and so that scientific and technological achievements might ultimately be used solely for peaceful purposes, effective measures should be taken to prevent the emergence of new types of weapons of mass destruction based on new scientific principles and achievements, and that efforts aiming at the prohibition of such new types and new systems of weapons of mass destruction should be appropriately pursued,

Expressing once again its firm belief, in the light of the decisions adopted at the tenth special session, in the importance of concluding an agreement or agreements to prevent the use of scientific and technological progress for the development of new types of weapons of mass destruction and new systems of such weapons,

Noting that in the course of its session in 1984 the Conference on Disarmament considered the item entitled "New types of weapons of mass destruction and new systems of such weapons: radiological weapons",

Convinced that all ways and means should be utilized to prevent the development and manufacture of new types of weapons of mass destruction and new systems of such weapons.

Taking into consideration the report of the Conference on Disarmament relating to this question,²⁹

1. Requests the Conference on Disarmament, in the light of its existing priorities, to intensify negotiations,

with the assistance of qualified governmental experts, with a view to preparing a draft comprehensive agreement on the prohibition of the development and manufacture of new types of weapons of mass destruction and new systems of such weapons, and to draft possible agreements on particular types of such weapons:

2. Once again urges all States to refrain from any action which could adversely affect the talks aimed at working out an agreement or agreements to prevent the emergence of new types of weapons of mass destruction and new systems of such weapons;

3. Calls upon the States permanent members of the Security Council as well as upon other militarily significant States to make declarations, identical in substance, concerning the refusal to create new types of weapons of mass destruction and new systems of such weapons, as a first step towards the conclusion of a comprehensive agreement on this subject, bearing in mind that such declarations would be approved thereafter by a decision of the Security Council:

4. Calls again upon all States to undertake efforts to ensure that ultimately scientific and technological achievements may be used solely for peaceful purposes;

Requests the Secretary-General to transmit to the Conference on Disarmament all documents relating to the consideration of this item by the General Assembly at its thirty-ninth session;

6. *Requests* the Conference on Disarmament to submit a report on the results achieved to the General Assembly for consideration at its fortieth session;

7. Decides to include in the provisional agenda of its fortieth session the item entitled "Prohibition of the development and manufacture of new types of weapons of mass destruction and new systems of such weapons: report of the Conference on Disarmament".

> 97th plenary meeting 12 December 1984

Review and implementation of the Conclud-39/63. ing Document of the Twelfth Special Session of the General Assembly

A

WORLD DISARMAMENT CAMPAIGN: ACTIONS AND ACTIVITIES

The General Assembly.

Aware of the growing public concern at the dangers of the arms race, particularly the nuclear-arms race, and its negative social and economic consequences.

Noting with satisfaction the successful implementation of the World Disarmament Campaign, launched by the General Assembly at its twelfth special session,³⁰ the second special session devoted to disarmament, and its positive impact on the mobilization on a large scale of world public opinion on behalf of peace and disarmament,

Recalling its resolutions 36/92 J of 9 December 1981, 37/100 H of 13 December 1982 and 38/73 F of 15 December 1983, as well as the report of the Secretary-General on world-wide action for collecting signatures in support of measures to prevent nuclear war, to curb the arms race and for disarmament,³¹
