

and in consultation with the Organization of African Unity,

*Expressing regret* that despite the threat South Africa's nuclear capability constitutes to international peace and security and, in particular, to the realization of the objective of the Declaration on the Denuclearization of Africa, the Disarmament Commission has, once again, in 1985, failed to reach a consensus on this important item on its agenda,

*Gravely concerned* that South Africa, in flagrant violation of the principles of international law and the relevant provisions of the Charter of the United Nations, has continued its acts of aggression and subversion against the peoples of the independent States of southern Africa,

*Strongly condemning* the continued military occupation by South African troops of parts of the territory of Angola in violation of its national sovereignty, independence and territorial integrity, and urging the immediate and unconditional withdrawal of South African troops from Angolan soil,

*Expressing its grave disappointment* that, despite repeated appeals by the international community, certain Western States and Israel have continued to collaborate with the racist régime of South Africa in the military and nuclear fields and that some of the same Western States have, by a ready recourse to the use of the veto, consistently frustrated every effort in the Security Council to deal decisively with the question of South Africa,

*Recalling* its decision taken at the tenth special session that the Security Council should take appropriate effective steps to prevent the frustration of the implementation of the decision of the Organization of African Unity for the denuclearization of Africa,<sup>29</sup>

*Stressing* the need to preserve peace and security in Africa by ensuring that the continent is a nuclear-weapon-free zone,

1. *Condemns* the massive build-up of South Africa's military machine, in particular its frenzied acquisition of nuclear-weapon capability for repressive and aggressive purposes and as an instrument of blackmail;

2. *Expresses its full support* for the African States faced with the danger of South Africa's nuclear capability;

3. *Reaffirms* that the acquisition of nuclear-weapon capability by the racist régime constitutes a very grave danger to international peace and security and, in particular, jeopardizes the security of African States and increases the danger of the proliferation of nuclear weapons;

4. *Condemns* all forms of nuclear collaboration by any State, corporation, institution or individual with the racist régime of South Africa, in particular the decision by some Member States to grant licences to several corporations in their territories to provide equipment and technical and maintenance services for nuclear installations in South Africa;

5. *Demands* that South Africa and all other foreign interests put an immediate end to the exploration for and exploitation of uranium resources in Namibia;

6. *Calls upon* all States, corporations, institutions and individuals to terminate forthwith all forms of military and nuclear collaboration with the racist régime;

7. *Requests* the Disarmament Commission to consider as a matter of priority during its session in 1986 South Africa's nuclear capability, taking into account, *inter alia*, the findings of the report of the United Nations Institute

for Disarmament Research on South Africa's nuclear capability;

8. *Requests* the Security Council, for the purposes of disarmament and to fulfil its obligations and responsibility, to take enforcement measures to prevent any racist régime from acquiring arms or arms technology;

9. *Further requests* the Security Council to conclude expeditiously its consideration of the recommendations of its Committee established by resolution 421 (1977) concerning the question of South Africa,<sup>30</sup> with a view to blocking the existing loopholes in the arms embargo so as to render it more effective, and prohibiting, in particular, all forms of co-operation and collaboration with the racist régime of South Africa in the nuclear field;

10. *Demands once again* that South Africa submit forthwith all its nuclear installations and facilities to inspection by the International Atomic Energy Agency;

11. *Requests* the Secretary-General to follow very closely South Africa's evolution in the nuclear field and to report thereon to the General Assembly at its forty-first session.

*113th plenary meeting  
12 December 1985*

#### **40/90. Prohibition of the development and manufacture of new types of weapons of mass destruction and new systems of such weapons**

*The General Assembly,*

*Recalling* its resolutions 3479 (XXX) of 11 December 1975, 31/74 of 10 December 1976, 32/84 A of 12 December 1977, 33/66 B of 14 December 1978, 34/79 of 11 December 1979, 35/149 of 12 December 1980, 36/89 of 9 December 1981, 37/77 A of 9 December 1982, 38/182 of 20 December 1983 and 39/62 of 12 December 1984 concerning the prohibition of new types of weapons of mass destruction,

*Bearing in mind* the provisions of paragraph 39 of the Final Document of the Tenth Special Session of the General Assembly,<sup>10</sup> according to which qualitative and quantitative disarmament measures are both important for halting the arms race and efforts to that end must include negotiations on the limitation and cessation of the qualitative improvement of armaments, especially weapons of mass destruction, and the development of new means of warfare,

*Recalling* the decision contained in paragraph 77 of the Final Document to the effect that, in order to help to prevent a qualitative arms race and so that scientific and technological achievements might ultimately be used solely for peaceful purposes, effective measures should be taken to prevent the emergence of new types of weapons of mass destruction based on new scientific principles and achievements, and that efforts aiming at the prohibition of such new types and new systems of weapons of mass destruction should be appropriately pursued,

*Expressing once again its firm belief*, in the light of the decisions adopted at the tenth special session, in the importance of concluding an agreement or agreements to prevent the use of scientific and technological progress for the development of new types of weapons of mass destruction and new systems of such weapons,

*Noting* that in the course of its session in 1985 the Conference on Disarmament considered the item entitled

<sup>29</sup> See resolution S-10/2, para. 63 (c).

<sup>30</sup> See *Official Records of the Security Council, Thirty-fifth Year, Supplement for July, August and September 1980*, document S/14179.

“New types of weapons of mass destruction and new systems of such weapons; radiological weapons”.

*Convinced* that all ways and means should be utilized to prevent the development and manufacture of new types of weapons of mass destruction and new systems of such weapons,

*Taking into consideration* the part of the report of the Conference on Disarmament relating to this question,<sup>31</sup>

1. *Reaffirms* the necessity of prohibiting the development and manufacture of new types of weapons of mass destruction and new systems of such weapons;

2. *Requests* the Conference on Disarmament, in the light of its existing priorities, to keep constantly under review, with the assistance of a periodically convened group of experts, the question of the prohibition of the development and manufacture of new types of weapons of mass destruction and new systems of such weapons with a view to making, when necessary, recommendations on undertaking specific negotiations on the identified types of such weapons;

3. *Calls upon* all States to contribute, immediately following the identification of any new type of weapon of mass destruction, to the commencement of negotiations on its prohibition with the simultaneous introduction of a moratorium on its practical development;

4. *Once again urges* all States to refrain from any action that could adversely affect the efforts aimed at the prevention of the emergence of new types of weapons of mass destruction and new systems of such weapons;

5. *Calls again upon* all States to undertake efforts to ensure that ultimately scientific and technological achievements may be used solely for peaceful purposes;

6. *Requests* the Secretary-General to transmit to the Conference on Disarmament all documents relating to the consideration of this item by the General Assembly at its fortieth session;

7. *Requests* the Conference on Disarmament to submit a report on the results achieved to the General Assembly for consideration at its forty-first session;

8. *Decides* to include in the provisional agenda of its forty-first session the item entitled “Prohibition of the development and manufacture of new types of weapons of mass destruction and new systems of such weapons: report of the Conference on Disarmament”.

*113th plenary meeting  
12 December 1985*

#### 40/91. Reduction of military budgets

##### A

##### *The General Assembly,*

*Deeply concerned* about the ever-spiralling arms race and growing military expenditures, which constitute a heavy burden for the economies of all nations and have extremely harmful effects on world peace and security,

*Reaffirming once again* the provisions of paragraph 89 of the Final Document of the Tenth Special Session of the General Assembly,<sup>32</sup> the first special session devoted to disarmament, according to which the gradual reduction of military budgets on a mutually agreed basis, for example, in absolute figures or in terms of percentage, particularly by nuclear-weapon States and other militarily significant

States, would contribute to curbing the arms race and would increase the possibilities for the reallocation of resources now being used for military purposes to economic and social development, particularly for the benefit of the developing countries,

*Convinced* that the freezing and reduction of military budgets would have favourable consequences on the world economic and financial situation and might facilitate efforts made to increase international assistance for the developing countries,

*Recalling* that at its twelfth special session, the second special session devoted to disarmament, all Member States unanimously and categorically reaffirmed the validity of the Final Document of the Tenth Special Session, as well as their solemn commitment to it,<sup>32</sup>

*Recalling also* that, in the Declaration of the 1980s as the Second United Nations Disarmament Decade, it is provided that during this period renewed efforts should be made to reach agreement on the reduction of military expenditures and the reallocation of resources thus saved to economic and social development, especially for the benefit of developing countries,<sup>33</sup>

*Recalling further* the provisions of its resolution 34/83 F of 11 December 1979, subsequently reaffirmed in its resolutions 35/142 A of 12 December 1980, 36/82 A of 9 December 1981, 37/95 A of 13 December 1982, 38/184 A of 20 December 1983 and 39/64 A of 12 December 1984, in which it considered that a new impetus should be given to the endeavours to achieve agreements to freeze, reduce or otherwise restrain, in a balanced manner, military expenditure, including adequate measures of verification satisfactory to all parties concerned,

*Aware* of the various proposals submitted by Member States and of the activities carried out so far within the framework of the United Nations in the field of the reduction of military budgets,

*Considering* that the identification and elaboration of the principles that should govern further actions of States in freezing and reducing military budgets and the other current activities within the framework of the United Nations related to the question of the reduction of military budgets should be regarded as having the fundamental objective of reaching international agreements on the reduction of military expenditures,

*Taking note* of the report of the Disarmament Commission on the work accomplished during its session in 1985 on the item entitled “Reduction of military budgets”,<sup>34</sup>

1. *Declares again its conviction* that it is possible to achieve international agreements on the reduction of military budgets without prejudice to the right of all States to undiminished security, self-defence and sovereignty;

2. *Appeals* to all States, in particular to the most heavily armed States, pending the conclusion of agreements on the reduction of military expenditures, to exercise self-restraint in their military expenditures with a view to real-locating the funds thus saved to economic and social development, particularly for the benefit of developing countries;

3. *Reaffirms* that the human and material resources released through the reduction of military expenditures could be reallocated for economic and social development, particularly for the benefit of the developing countries;

4. *Requests* the Disarmament Commission to continue the consideration of the item entitled “Reduction of mili-
