3 February 2009

Sixty-third session
Agenda item 49

Resolution adopted by the General Assembly on 19 December 2008

[on the report of the Second Committee (A/63/414 and Corr.1)]

63/210. Reliable and stable transit of energy and its role in ensuring sustainable development and international cooperation

The General Assembly,

Bearing in mind the growing role of the transit of energy in global processes,

Recognizing the importance of Central Asia and all other transportation and communication hubs and their vital role in the production of energy and its transportation to international markets,

Noting that stable, efficient and reliable energy transportation, as a key factor of sustainable development, is in the interest of the entire international community,

Reiterating the principles of the Rio Declaration on Environment and Development¹ and of Agenda 21,² and recalling the recommendations and conclusions contained in the Plan of Implementation of the World Summit on Sustainable Development³ concerning energy for sustainable development,

1. *Welcomes* international cooperation in developing transportation systems and pipelines;

2. *Recognizes* the need for extensive international cooperation in determining ways of ensuring the reliable transportation of energy to international markets through pipelines and other transportation systems;

3. *Welcomes* the initiative of Turkmenistan to convene in 2009 a high-level international conference to discuss the issue of ensuring the reliable and stable transportation of energy to international markets.
