*Noting* the threat to international peace and security posed by illicit brokering activities circumventing the international arms control and non-proliferation framework,

*Concerned* that, if proper measures are not taken, the illicit brokering of arms in all its aspects will adversely affect the maintenance of international peace and security, and prolong conflicts, and could be an obstacle to sustainable economic and social development and result in illicit transfers of conventional arms and the acquisition of weapons of mass destruction by non-State actors,

*Recognizing* the need for Member States to prevent and combat illicit brokering activities, which covers not only conventional arms but also materials, equipment and technology that could contribute to the proliferation of weapons of mass destruction and their means of delivery,

*Reaffirming* that efforts to prevent and combat illicit brokering activities should not hamper the legitimate arms trade and international cooperation with respect to materials, equipment and technology for peaceful purposes,

*Recalling* Security Council resolution [1540 \(2004\)](#) of 28 April 2004, in particular paragraph 3, in which the Council determined that all States shall develop and maintain appropriate effective border controls and law enforcement efforts to detect, deter, prevent and combat, including through international cooperation when necessary, illicit trafficking in and brokering of materials related to nuclear, chemical or biological weapons and their means of delivery, in accordance with their national legal authorities and legislation and consistent with international law, and taking note of the comprehensive review of the status of implementation of resolution [1540 \(2004\)](#) conducted in 2016,

*Noting* international efforts to prevent and combat illicit arms brokering, in particular in small arms and light weapons, as demonstrated by the adoption in 2001 of the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects,<sup>1</sup> and the entry into force in 2005 of the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, supplementing the United Nations Convention against Transnational Organized Crime,<sup>2</sup>

*Welcoming* efforts to implement the Programme of Action and the International Instrument to Enable States to Identify and Trace, in a Timely and Reliable Manner, Illicit Small Arms and Light Weapons,<sup>3</sup> including the holding of mandated meetings to review their implementation and the submission by Member States of national reports,

*Recognizing* the importance of States parties to the Arms Trade Treaty<sup>4</sup> taking measures, pursuant to their national laws, to regulate brokering taking place under their jurisdiction, in accordance with article 10 of the Treaty,

*Taking note* of Security Council resolutions [2117 \(2013\)](#) of 26 September 2013 and [2220 \(2015\)](#) of 22 May 2015 on small arms and light weapons, in which the Council encouraged cooperation and information-sharing on suspect brokering activities to address the illicit transfer, destabilizing accumulation and misuse of small arms and light weapons,

*Taking note also* of the report issued on 30 August 2007 by the Group of Governmental Experts established pursuant to General Assembly resolution [60/81](#) of 8 December 2005 to consider further steps to enhance international cooperation in preventing, combating and eradicating illicit brokering in small arms and light weapons<sup>5</sup> as an international initiative within the framework of the United Nations,

*Underlining* the inherent right of Member States to determine the specific scope and content of domestic regulations in accordance with their legislative frameworks and export control systems, consistent with international law,

*Welcoming* the efforts made by Member States to implement laws and/or administrative measures to regulate arms brokering within their legal systems,

*Encouraging* cooperation among Member States to prevent and combat illicit trafficking in nuclear materials, and recognizing in this regard existing efforts at all levels, consistent with international law,

*Welcoming* the technical guidance and capacity-building assistance provided by the International Atomic Energy Agency to enhance nuclear security globally,

*Encouraging* Member States in a position to do so to share their experience and practices in relation to the control of illicit brokering and to further enhance international cooperation to this end,

*Noting with satisfaction* the awareness-raising activities of the United Nations Institute for Disarmament Research, which contribute to efforts aimed at preventing and combating illicit brokering activities,
