15. Please explain the seeming incongruence between the statement contained in paragraph 255 of the State party's initial report, indicating that 213 cases of abortions performed on women with disabilities were reported between 2012 and 2016, on the one hand, and the finding contained in a 2019 report of the United Nations Population Fund,<sup>1</sup> indicating that only about 0.5 per cent of women registered as women with disabilities in the country had children, on the other hand.
