Security Council Committee established pursuant to resolution 1540 (2004)

Note verbale dated 25 March 2019 from the Permanent Mission of Cuba to the United Nations addressed to the Chair of the Committee

The Permanent Mission of Cuba to the United Nations presents its compliments to the Chair of the Security Council Committee established pursuant to resolution 1540 (2004) and, in reference to the Chair's communication No. SCA/5/19, of 18 March 2019, has the honour to transmit the updated national report of Cuba, together with complementary information concerning, in particular, the new measures adopted and applied by Cuba in order to fully implement resolution 1540 (2004) (see annex).

Annex to the note verbale dated 25 March 2019 from the Permanent Mission of Cuba to the United Nations addressed to the Chair of the Committee

National report of Cuba on the implementation of Security Council resolution 1540 (2004)

The report follows the guidelines formulated by the Security Council Committee established pursuant to resolution 1540 (2004), which request Member States to provide information on the steps they have taken or intend to take to implement the resolution. The report, which uses the matrix format, includes information on the legislative or other steps taken by Cuba, even before the adoption of the resolution, that comply with its provisions. ¹

We reaffirm that our country does not possess and has no intention of possessing weapons of mass destruction of any kind, nor are they part of its national defence strategy. Cuba fully complies with all its obligations and commitments under the international treaties to which it is a State party, including those in the area of disarmament, non-proliferation and arms control.

Our programmes in the nuclear, chemical and biological fields have always been strictly peaceful and are aimed at the socioeconomic development of the Cuban people. They are all under the permanent and rigorous control of the relevant national authorities. There is a body of legislation and other procedures governing all the activities of the various national bodies and institutions that, in one way or another, work in the nuclear, chemical or biological fields.

Cuba has an effective, predictable and reliable system for the national implementation of its international obligations as a State party to the Treaty on the Non-Proliferation of Nuclear Weapons; the Treaty for the Prohibition of Nuclear Weapons in Latin America and the Caribbean (Treaty of Tlatelolco); the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction (Chemical Weapons Convention); and the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction (Biological Weapons Convention). Cuba is also prepared for the entry into force of the Treaty on the Prohibition of Nuclear Weapons, which it ratified on 30 January 2018.

Cuba has adopted a set of legislative, administrative and institutional measures designed to ensure that no terrorist acts, in any of their forms or manifestations, are committed on its territory, including measures to prevent terrorists from acquiring weapons of mass destruction, their means of delivery and materials and technologies related to their manufacture.

Cuba strongly condemns all acts, methods and practices of terrorism in all its forms and manifestations, including State terrorism, by whomever, against whomsoever and wherever committed, regardless of motivation. Cuba further condemns any action aimed at encouraging, supporting, financing or covering up any terrorist act, method or practice.

Ministry of Trade Decision Nos. 190, 231 and 339, which were repealed, have been removed from the previous report. Ministry of Trade Decision No. 233 of 2017 and National Customs Service Decision Nos. 228, 279 and 183, of 2009, 2013 and 2014, respectively, have been incorporated.²

2/68 19-06628

¹ The matrix submitted by Cuba will appear as an annex only in Spanish, the original language of submission, as well as in English, as agreed by the Committee.

² Related documents in Spanish, including relevant legislation, are on file with the Secretariat and are available for consultation.

National report of the Republic of Cuba on the implementation of Security Council resolution 1540 (2004)

OP 1 and related matters from OP 5, OP 6, OP 8 (a), (b) and (c) and OP 10

	ally binding instruments, organizations, codes of conduct, arrangements, ements and other issues	Yes	If yes, relevant information (i.e. signing, accession, ratification, etc.)	Remarks (information refers to the page of the Eng national report or an official website)
1	Treaty on the Non-Proliferation of Nuclear Weapons	X	Instrument of accession deposited on 4 November 2002	
2	Nuclear-Weapon-Free Zone/Protocol(s)	X	Treaty for the Prohibition of Nuclear Weapons in Latin America and the Caribbean (Treaty of Tlatelolco), ratified on 23 October 2002	
			Antarctic Treaty, 16 August 1984	
3	International Convention for the Suppression of Acts of Nuclear Terrorism	X	Instrument of accession deposited on 17 June 2009	
4	Convention on the Physical Protection of Nuclear Material and Nuclear Facilities	X	Instrument of accession deposited on 26 September 1997	
5	Amendment to the Convention on the Physical Protection of Nuclear Material and Nuclear Facilities, adopted in 2005	X	Ratified on 16 September 2013	
6	Comprehensive Nuclear-Test-Ban Treaty (not in force)

Paragraphs 6, 7 and 8 (d) – Control lists, Assistance, Information

Can information be provided on the following issues?		Yes		Remarks
1	Control lists – items (goods/equipment/materials/technologies)	X	CITMA Decision Nos. 53/2000 and 87/1999, of 23 April 2000 and 21 October 1999 respectively, on categories of hazardous waste	
			CITMA Decision No. 42 of 5 April 1999 on the official list of biological agents that affect humans, animals and plants	
			CITMA Decision No. 2/2004 on the lists of significant radioactive equipment and components	
			Lists in the Chemical Weapons Convention	
			CITMA Decision No. 62 of 12 July 1996 establishing regulations for accounting for and control of nuclear material	
			CITMA Decision No. 38 of 24 March 2006 on the official list of biological agents that affect humans, animals and plants	
2	Control lists – other			
3	Assistance offered	X	Willingness to use experience to contribute to the implementation of the Chemical Weapons Convention, and of national systems of accounting for and control of nuclear material, and to the implementation of the Biological Weapons Convention in the countries of Latin America and the Caribbean	
			Assistance to provide summer courses in coordination with IAEA	
			In 2014, and through the exchange programme between national authorities sponsored by the Organization for the Prohibition of Chemical Weapons (OPCW), technical advice was provided to the national authority of Paraguay	
4	Assistance requested			
5	Point of contact for assistance	X	Ministry of Science, Technology and the Environment (CITMA)	
6	Assistance in place (bilateral/multilateral)			
7	Work with and inform industry	X	Holding seminars, conferences, workshops, academic courses and inspections to cooperate with industry	
8	Work with and inform the public	X	1. Legislation on nuclear matters is published in the Official Gazette.	

- 2. Information on chemicals is disseminated via the media as part of a public information strategy.
- 3. Two televised courses have been aired, "Radiation and Life" and "Nuclear technology in the service of life", accompanied by booklets, as part of the "Universidad para todos" (University for Everyone) programme. As part of the programme, the televised course "Law and Environment" was aired, which addressed the topics of nuclear, chemical and biological security. The course was accompanied by a booklet. It was also issued as a text in 2012 by the Pablo de la Torriente Brau publishing house, under ISBN 978-959-259-422-7.
- 4. The Office of Environmental Regulation and Nuclear Safety (ORASEN), to which the regulatory authorities for chemical, biological and nuclear safety belong, has a corporate communications strategy that covers public information and communication activities in the areas within its jurisdiction. In addition, a communication and information advisory council meets to ensure the implementation and evaluation of that strategy.
- 5. Information on the Biological Weapons Convention and the Chemical Weapons Convention is included in curriculums.
- 6. The national customs service has incorporated the SAFE framework of standards into its communications strategy, which includes risk management and the use of non-intrusive methods for the timely detection of customs violations, as well as cooperation between customs and the business community to ensure reliability in the supply chain.
- 7. As set out in the Constitution of the Republic of Cuba of 2019, in title I (political foundations), chapter II (International relations), article 16 (k), the State of Cuba "promotes general and complete disarmament and rejects the existence, proliferation or use of nuclear weapons of mass destruction or others with similar effects, as well as the development and use of new weapons and new forms of warfare, such as cyberwarfare, which violate international law".

- 9 Point of contact
- X Ministry of Science, Technology and the Environment (CITMA)
