National implementing measures

The above-mentioned European Union Council Regulations are binding in their entirety and directly applicable in all States members of the European Union. Regulation (EU) 2017/1509 concerning restrictive measures against the Democratic People's Republic of Korea, requires member States to determine the penalties applicable to infringements of its provisions.

At the national level, sanctions are enforced by virtue of the Act on the Enforcement of Certain Obligations of Finland as a Member of the United Nations and of the European Union (Sanctions Act, No. 659/1967). The Sanctions Act, together with the Criminal Code (No. 39/1889), provides the penalties and forfeitures to be imposed for violations of European Union Council Regulations.

According to chapter 46, section 1 (9), of the Criminal Code, a person who violates or attempts to violate a regulatory provision contained or issued on the basis of a European Union Council Regulation on restrictive measures shall be sentenced for a regulation offence to a fine or to imprisonment for at most two years. Pursuant to chapter 46, sections 2 and 3, of the Criminal Code, the penalty for an aggravated regulation offence is at least four months and at most four years of imprisonment; when the regulation offence is deemed petty, the offender shall be sentenced for a petty regulation offence to a fine.

The arms embargoes imposed in Security Council resolutions and European Union Council Decisions are implemented at the national level by virtue of the Act on the Export of Defence Materiel (No. 282/2012). This legislation applies to all goods included in the Common Military List of the European Union. The export of arms and related materiel and the provision of brokering services and other services related to military activities are subject to specific authorization. Authorization will not be granted for the export of defence materiel to any country that is subject to an arms embargo, unless grounds for exemption exist for the type of export in question, as provided for in a Security Council resolution or a European Union Council Decision.

According to chapter 46, section 11, of the Criminal Code, violation or attempted violation of the authorization scheme referred to in the Act on the Export of Defence Materiel is punishable as a defence supplies export offence. The offender shall be fined or imprisoned for a maximum period of four years.

The export, transit and brokering of dual-use goods, software and technology require a licence from the Ministry of Foreign Affairs as provided for in the Act on the Control of Exports of Dual-Use Goods (Act No. 562/1996) in line with the European Union export control regime governed by Council Regulation (EC) No. 428/2009, as amended. Authorization can be denied inter alia, on the grounds of international obligations that are binding on Finland. Violations or attempted violations of a regulatory provision contained in the Act are punishable as a regulation offence, as provided for in chapter 46, sections 1–3, of the Criminal Code.

The Aliens Act (No. 301/2004) regulates the requirements concerning admission into Finland and visa issuance. The Aliens Act, together with Council Decision (CFSP) 2016/849 and Regulation (EC) No. 539/2001 of 15 March 2001, as amended, provides the basis for the refusal of admission and the denial of visa applications concerning the persons subject to the travel ban.

Responsibility for the enforcement of European Union restrictive measures is divided among the relevant national authorities. For example, the freezing of funds of a natural or legal person designated in a Council Regulation is executed by the Enforcement Authority at the request of the Ministry of Foreign Affairs. Other competent authorities include the National Bureau of Investigation, the Finnish Border Guard and Finnish Customs.
