## I. Introduction

1. The present annual report of the Secretary-General on the composition of the Secretariat is submitted pursuant to General Assembly resolutions concerning human resources management, the most recent of which are resolutions [65/247](#), [66/234](#), [67/255](#), [68/252](#) and [71/263](#).
2. The report contains a demographic analysis<sup>1</sup> of the global staff of the Secretariat, which totalled 39,651 as at 31 December 2016.
3. The current transitional report covers the six-month period from 1 July to 31 December 2016. Previously, the report covered the one-year period from 1 July to 30 June. For those parts of the report showing trends, the data is as at 30 June for the first four periods while for the current and fifth period the data is as at 31 December. In addition, two new tables have been introduced in the present report to show the regional groupings for all staff of the United Nations Secretariat as at 31 December 2016.
4. In order to provide additional analysis and trends, starting with the seventy-third session, the present report has been aligned to a new period, namely, 1 January to 31 December. As noted in the previous report, this adjustment to the reporting period will enable sufficient time for data analysis, a process which involves a number of entities within the Secretariat.
5. Table 1 provides an overview of the structure of the report by section, including demographic variables. Table 2 shows an overview of trends by demographic variable from June 2013 to December 2016. Table 3 shows the number of staff in the Secretariat and related entities in the United Nations system.

| Introduction (sect. I)   |                         |                         |                         |                         |                         |   |
| Staff of the Secretariat and related entities in the United Nations system (table 3) | 73 812                  | 74 960                  | 76 115                  | 75 934                  | 76 234                  | Over the past five periods the number of staff in this category has increased by 3%. The slight increase from June 2016 to December 2016 (less than 1%, 300 staff) is due to decrease in the staff of the Secretariat and an increase in Staff in the related entities (see table 3).                                     |
| All staff of the Secretariat (sect. II)  |                         |                         |                         |                         |                         |   |

The decrease from June 2016 to December 2016 (1.2%: 480 staff) is the result of a decrease in staff for UNMIL (331 staff) and 45 other entities (809 staff), while 52 entities either had no change or increased (660 staff) (see table 6). |

## HR Insight

6. Since the launch of the online reporting tool “HR Insight” in August 2011, staff demographic information has been available to permanent missions. It is based on the human resources data warehouse and enables the retrieval of information from other human resources systems, including IMIS and Umoja as well as other entities.

7. Through HR Insight, Member States have regular access to information similar to that presented in the report of the Secretary-General on the composition of the Secretariat. HR Insight presents the information mainly at the staff member level, while the report of the Secretary-General presents the information at the aggregated level and is produced only annually. The United Nations staff information available to Member States on HR Insight includes: (a) General Assembly report; (b) Staff list; (c) Desirable range status; (d) Desirable range comparison; (e) All staff details; (f) Staff details; (g) Staff analysis; (h) Forecast retirements; (i) Forecast retirements (senior staff); (j) Staffing matrix; (k) Senior staff; (l) Senior staff (count).

8. OHRM will continue to enhance the information available online, thereby giving Member States convenient and monthly access to staff demographic information that was previously available only in the annual report.

## E. Gender

20. At 31 December 2016, the overall percentage of female staff of the all-staff population was 35.1 per cent, with the percentages in non-field operations (departments/offices, regional commissions, tribunals) being 48.3 per cent and in field operations 21.7 per cent. Table 1.A (see annex) provides details regarding staff in the Secretariat, with a gender breakdown by nationality, category and appointment type.

### 1. Gender and entity

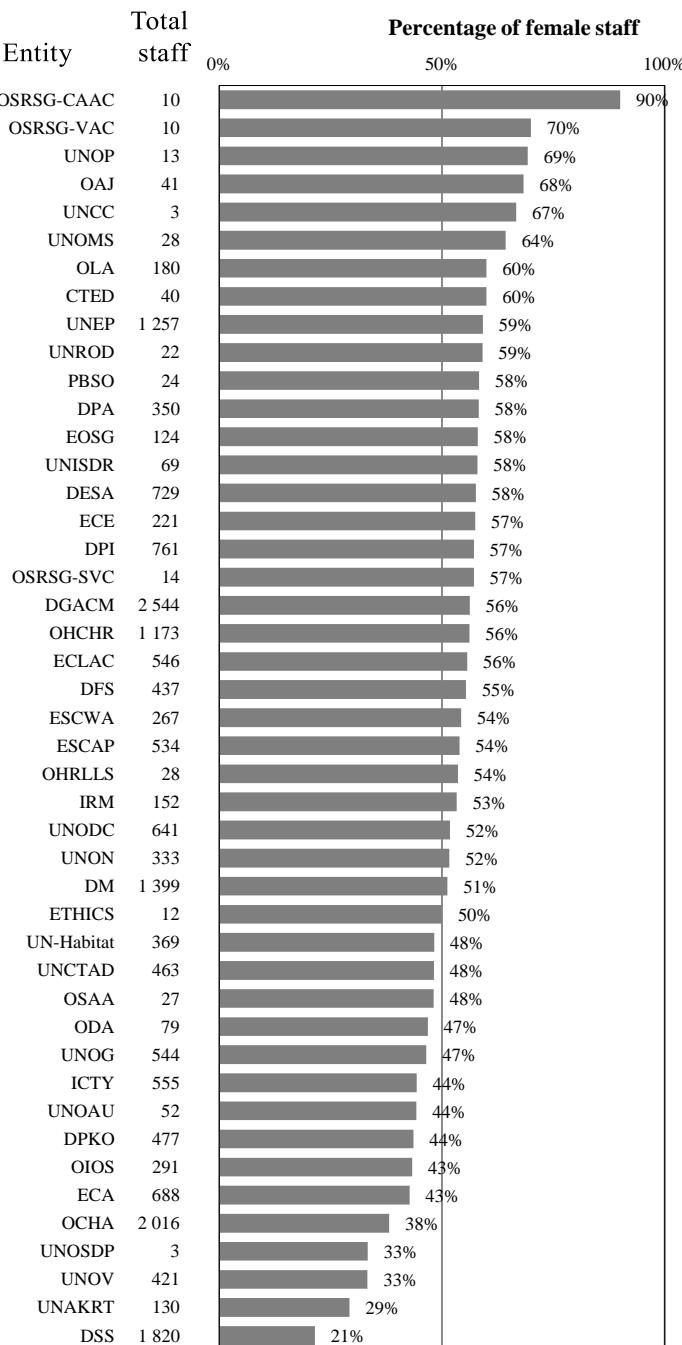

21. Figure V shows the percentages of female staff in various non-field operations, while figure VI shows the same information for field operations. Table 1.B (see annex) provides details regarding all staff, including a gender breakdown by entity, category and appointment type.

<sup>8</sup> As requested by the General Assembly in paragraph 64 of resolution [67/255](#), the present report incorporates a table showing high-level appointments with one-dollar-per-year contracts. In addition, in a letter dated 21 March 2017 addressed to the Chair of the Advisory Committee on Administrative and Budgetary Questions, the Controller informed the Advisory Committee of the establishment of extrabudgetary positions at the D-1 level and above that were on the basis of contracts whose duration did not exceed 12 months, for which the approval of the Committee was not required. During the period January–December 2016, a total of 10 positions at the D-1 level and above funded by extrabudgetary resources were authorized (7 Assistant Secretary-General, 2 D-2 and 1 D-1); all were positions authorized for a period not exceeding 12 months.

32. In section VIII of its resolution [57/305](#), the General Assembly approved the proposal of the Secretary-General on the placement of staff members serving in the Executive Office of the Secretary-General (see [A/56/816](#)) and requested him to report on the implementation of the procedure. During the period from 1 July 2016 to 31 December 2016, 1 staff member was transferred from the Executive Office of the Secretary-General to a post at the same level in another department in the Professional and higher categories.

## IV. Staff subject to the system of desirable ranges<sup>10</sup>

### A. Population

36. As at 31 December 2016, there were 3,005 Secretariat staff with geographical status pursuant to paragraph 66 of General Assembly resolution [65/247](#), in which the Assembly decided that staff members should retain geographical status only when serving against a post subject to geographical distribution, except those recruited under the young professionals programme. As requested in Assembly

<sup>10</sup> The number of posts subject to geographical distribution was 3,582 (see General Assembly resolution [65/247](#), para. 67). The difference between the number of posts subject to geographical distribution (3,582) and the number of staff with geographical status serving against a geographical post (2,974) is accounted for by 249 posts that are vacant, 311 posts that are temporarily encumbered by staff without geographical status and 48 personnel with limited appointments. In addition, the total number of geographical staff (3,005) includes 31 staff in the young professionals programme serving against non-geographical posts.

resolution [71/263](#), the Secretary-General will present a comprehensive review of desirable ranges at the seventy-third session.

37. Paragraph 66 of resolution [65/247](#) represents a change in the criteria for geographical status. Prior to 2011, once geographical status had been given, it was retained throughout the period of uninterrupted service of the staff member, regardless of the nature of the position or the functions to which the staff member might subsequently be assigned (see [A/65/305/Add.2](#), para. 21).

38. The representation of Member States falls into four groups: unrepresented; underrepresented; within range; and overrepresented. A Member State is considered “unrepresented” when not a single one of its nationals, after having gone through the established selection process, is serving in a post subject to geographical distribution. It is “underrepresented” when the number of its nationals appointed to such posts is below the lower limit of the desirable range; it is “within range” when the number of its nationals appointed to such posts is between or includes the lower and upper limits of the desirable range; and it is “overrepresented” when the number of its nationals appointed to such posts exceeds the upper limit of the desirable range.

39. The representation of Member States under the system of desirable ranges over the past five periods is shown in table 20. Table 21 shows the representation status of individual Member States as at 31 December 2016, as well as the representation status as at 30 June 2016 if it is different from that as at 31 December 2016. Table 2.A (see annex) provides a detailed breakdown of Secretariat staff with geographical status by nationality, grade and gender, including information on appointments, separations and balances as at 30 June 2016 and 31 December 2016. Table 2.C provides a breakdown of staff in posts with special language requirements by nationality, grade and gender.

- (a) The number in parentheses represents the number of respective Member State staff with geographical status forecast to retire during the period from 1 January 2017 and 31 December 2021. This number represents retirement numbers on the assumption that all staff members will retire at 65 years, with the exception of staff whose retirement date is in 2017.
- (b) In cases where the Member State's representation status will have changed at the end of the five-year period if the forecast number of staff members do retire and there are no new recruitments from that Member State within the period, the 31 December 2016 and 31 December 2021 representation statuses are indicated in parentheses.
- (c) The representation statuses are based on the Member States' desirable ranges as at 31 December 2016.
- (d) Excluding USGs and ASGs.
- (e) (Un = unrepresented, under = underrepresented, within = within range, over = overrepresented).
