Determined to act with a view to achieving effective progress towards general and complete disarmament under strict and effective international control,

Recalling the long-standing determination of the international community to achieve the effective prohibition of the development, production, stockpiling and use of chemical and biological weapons as well as the continuing support for measures to uphold the authority of the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925,¹ as expressed by consensus in many previous resolutions,
