*The General Assembly,*

*Recalling* its previous resolutions on the subject of chemical weapons, in particular resolution [70/41](#) of 7 December 2015,

*Determined* to achieve the effective prohibition of the development, production, acquisition, transfer, stockpiling and use of chemical weapons and their destruction,

*Re-emphasizing its unequivocal support* for the decision of the Director General of the Organization for the Prohibition of Chemical Weapons to continue the mission to establish the facts surrounding the allegations of the use of toxic chemicals, reportedly chlorine, for hostile purposes in the Syrian Arab Republic, while stressing that the safety and security of mission personnel remains the top priority,

*Recalling* that, pursuant to Security Council resolution [2235 \(2015\)](#) of 7 August 2015, the Joint Investigative Mechanism of the Organization for the Prohibition of Chemical Weapons and the United Nations was established to identify to the greatest extent feasible individuals, entities, groups or Governments that were perpetrators, organizers, sponsors or otherwise involved in the use of chemicals as weapons, including chlorine or any other toxic chemical, in the Syrian Arab Republic, where the fact-finding mission of the Organization for the Prohibition of Chemical Weapons determined that a specific incident in the Syrian Arab Republic involved or likely involved the use of chemicals as weapons,

*Reaffirming* the importance of the outcome of the Third Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention, held in The Hague from 8 to 19 April 2013 (the Third Review Conference), including its consensus final report, in which the Conference addressed all aspects of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction<sup>1</sup> and made important recommendations on its continued implementation,

<sup>1</sup> United Nations, *Treaty Series*, vol. 1974, No. 33757.

- (b) Eliminating chemical weapons and preventing their re-emergence,
- (c) The ultimate objective of general and complete disarmament under strict and effective international control,
- (d) Excluding completely, for the sake of all mankind, the possibility of the use of chemical weapons,
- (e) Promoting international cooperation and exchange in scientific and technical information in the field of chemical activities among States parties for peaceful purposes in order to enhance the economic and technological development of all States parties,
