### U.S. Statement on the Chair's Recommendations

#### Working paper submitted by the United States of America

1. The United States categorically rejects the Chair's working paper on recommendations as a basis for work at the NPT Review Conference in 2020. We regret that the Preparatory Committee failed to produce a balanced document that could serve as a starting point for discussions in 2020.
  2. The United States remains committed to engaging on realistic, constructive efforts over the next year to work toward a successful outcome at the Review Conference.
