² *A/70/69.*

6. *Decides* that the scale of assessments for the period from 2016 to 2018 shall be based on the following elements and criteria:

- (b) Average statistical base periods of three and six years;

(c) Conversion rates based on market exchange rates, except where that would cause excessive fluctuations and distortions in the income of some Member States, when price-adjusted rates of exchange or other appropriate conversion rates should be employed, taking due account of its resolution 46/221 B of 20 December 1991;

(d) The debt-burden approach employed in the scale of assessments for the period from 2013 to 2015;

(e) A low per capita income adjustment of 80 per cent, with a threshold per capita income limit of the average per capita gross national income of all Member States for the statistical base periods;

9. *Notes* that there were limitations in the data set available for the preparation of the scale of assessments;

10. *Requests* the Committee on Contributions, in accordance with rule 160 of the rules of procedure of the General Assembly, to consider all relevant data in appeals submitted by Member States that may affect their capacity to pay;
